

EQUAL EDUCATIONAL OPPORTUNITIES

In recognition of the diversified characteristics and needs of our students and with the keen desire to be responsive to them, the School Committee will make every effort to protect the dignity of the students as individuals. It also will offer careful consideration and sympathetic understanding of their personal feelings, particularly with reference to their race, color, sex, gender identity, religion, national origin, sexual orientation, homeless status, physical and intellectual differences, pregnancy or pregnancy related condition.

To accomplish this, the Committee and its staff will make every effort to comply with the letter and the spirit of the Massachusetts equal educational opportunities law which prohibits discrimination in public school admissions and programs.

This will mean that every student will be given equal opportunity in school admission, admissions to courses, course content, support services, and extracurricular and athletic activities.

All implementing provisions issued by the Board of Elementary and Secondary Education in compliance with this law will be followed.

EDUCATIONAL EQUITY

The School Committee's goal is to strive to address the needs of every student in each of our schools, subject to budgetary, space and other limitations.

Educational equity for the purpose of this policy is defined as providing all students, as reasonably practical, the high quality instruction and support they need to reach and exceed a common standard.

To achieve educational equity the district will commit to:

1. Systematically, when appropriate, use district wide and individual school level data, disaggregated by race/ethnicity, gender/gender identity, national origin, language, special education, socioeconomic status and mobility to inform district decision making.
2. Raise the achievement of all students.
3. Graduate all students ready to succeed in a diverse local, national and global community.

In order to reach the goal of educational equity, as reasonably practical, for each and every student, the District shall:

1. Provide every student with access to high quality curriculum, support, and other educational resources.
2. Seek to promote educational equity as a priority in professional development.
3. Endeavor to create schools with a welcoming and inclusive culture and environment.
4. Provide multiple pathways to success in order to meet the needs of the diverse student body and actively encourage, support and expect high academic achievement for each student.

The Superintendent shall include equity practices in the district's strategic plan and goal strategies to implement this policy. The Superintendent, upon request, will periodically report to the Committee the progress of the implementation of this policy.

ATTENDANCE AREAS

Attendance areas for the various schools of the town will be drawn up by the Superintendent and approved by the School Committee. The primary considerations that govern the establishment of a school attendance area are school capacity and transportation considerations. Generally, students will attend the school in the attendance area in which they live.

In establishing an attendance area, the Committee will take into consideration safe walking conditions consistent with the Committee's transportation policies.

From time to time an overcrowded condition in an existing school, the development of new residential areas, or the opening of a new school may require the establishment or change of previously established school attendance areas.

The Committee will confer with community representatives prior to setting new attendance lines. However, the Committee's primary basis for judgment must be equality of educational opportunity for all students rather than the personal desires of any one group.

The Superintendent is authorized to make exceptions to attendance lines for individual children in the best interests of the student and/or the school.

ASSIGNMENT OF STUDENTS TO SCHOOLS

Generally, students will be required to attend school in the attendance area in which they reside, unless the Superintendent has granted special permission.

Special permission may be granted for the following reasons:

1. If the change involves a hardship case or if there are medical considerations.
2. If the change appears to be in the interests of the child, of the schools, or for disciplinary and administrative reasons.
3. If the legal residence of a child changes from one attendance area to another during the school year and the parents/guardians wish the child to remain in his former school; permission will not extend beyond the current school year.
4. To permit school students to take courses not offered in their assigned schools.

School bus transportation will not be provided for students attending schools outside their attendance area unless they can be accommodated on existing bus routes and schedules or a hardship is involved; or unless specific permission is granted by the Superintendent.

SCHOOL ADMISSIONS

All children of school age who reside in the town will be entitled to attend the public schools, as with certain children who do not reside in the town but who are admitted under school committee policies relating to non residential students or by specific action of the school committee.

Advance registration for prospective kindergarten students will take place in April. Every student seeking admission to school for the first time must present a birth certificate or equivalent proof of age acceptable to the principal, proof of vaccination and immunizations as required by the state and the school committee, unless there is a legally required exemption to this policy, such as for homeless or foster care students. Proof of residency of legal guardianship may also be required by the school administration.

For homeless students, who are temporarily residing in the District, the District will enroll the student immediately, even if they do not bring the records usually required for enrollment with them and will contact the previously attended school district to request the records.

For foster care students residing in the District, if it is in the best interest of a student to leave the school of origin and enroll in the District, the District will enroll the student immediately, without waiting to receive the typical student enrollment documentation (other than emergency contact information). The District will immediately contact the child's school and district of origin to obtain the relevant records and documentation. The District will require DCF representatives to present a Notice to LEA (Local Educational Agency) form that indicates that the student is in foster care, along with their state-agency identification badge to enroll the student.

For homeless and foster care students, the District will find alternative means to provide the enrollment paperwork after a student is enrolled in accordance with the above paragraphs. If the families do not have access to email, mail or cannot physically come to the District to pick-up the forms, the District will use additional means to have the forms completed such as having the parent complete the forms verbally via telephone with a staff member or hand delivering the forms.

WORKING DRAFT

**Students Attending the Medfield Public Schools
Admission of Transfer Students**

Policy JABC clarifies the District's position regarding the admission of students who reasonably anticipate residence in the Town of Medfield as determined by the following:

1. A signed agreement to lease and reside within the Town of Medfield
2. A signed Purchase and Sale Agreement, with the intention to reside within an existing home
3. A signed contract for a future residence currently under construction, with the intention to reside in the property upon completion and issuance of an occupancy permit

Rationale:

The Medfield School Committee recognizes the educational value of students attending school in the community in which their future residence is located. However, the conditions for such attendance must be residency and not related to the laws and regulations governing school choice. This policy does not apply to those families and students who may be at imminent risk of, or currently experiencing, homelessness.

The Medfield School Committee empowers the Superintendent of Schools to arrive at a decision based on the following conditions, or other reasonable alternative:

1. Future residency must be established in the Town of Medfield by meeting at least one of the following criteria:
 - a. A signed residential lease agreement with a clear date of expected occupancy
 - b. A Purchase and Sale Agreement on an existing home with a clear date for transfer of the deed
 - c. A future residential home currently under construction, with a contract that clearly states the time for completion of construction and legal occupancy.
2. The legal custodial parent(s) or guardian(s) of the student(s) will occupy the residence within one month of:
 - a. The date of residential access to the property as defined within the lease agreement
 - b. The transfer of the deed for the purchase of an existing residence
 - c. The issuance of an occupancy permit for a newly constructed residence
3. No request for admission will be considered if residency will take longer than four months from the student(s) anticipated start date.
4. If permission is granted, parents or guardians must provide transportation under all circumstances until they physically reside in Medfield.

Transfer Students

The District will enroll and place students who have left Commonwealth charter schools by adhering to the same policies and procedures in place for any other student enrolling in the District, including, but not

limited to, examination of the course of study, level of academic attainment of the student and the previous district's graduation year recommendation when determining the students appropriate grade level or eligibility for high school graduation.

STUDENT DISCIPLINE

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Each Principal shall include prohibited actions in the student handbook or other publication to be made available to students and parents/guardians.

Principals and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

The Superintendent shall provide each Principal with a copy of the regulations promulgated by DESE and shall have each Principal sign a document acknowledging receipt thereof, which shall be placed in their personnel file.

Suspension

In every case of student misconduct for which suspension may be imposed (except for offenses referenced in the note at the end of this policy), a Principal shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

Notice of Suspension:

Except for emergency removal or an in-school suspension of less than 10 days, a Principal must provide the student and the parent/guardian oral and written notice, and provide the student an opportunity for a hearing and the parent/guardian an opportunity to participate in such hearing before imposing suspension as a consequence for misconduct. The Principal shall provide both oral and written notice to student and parent/guardian in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent/guardian present, the Principal must be able to document reasonable efforts to include the parent/guardian.

Emergency Removal

A Principal may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the Principal's judgment, there is no alternative available to alleviate the danger or disruption. The Principal shall immediately notify the

Superintendent in writing of the removal including a description of the danger presented by the student.

PREGNANT STUDENTS

The School Committee wishes to preserve educational opportunities for those students who may become pregnant and/or take on parenting responsibilities.

Pregnant students are permitted to remain in regular classes and participate in extracurricular activities with non-pregnant students throughout their pregnancy, and after giving birth are permitted to return to the same academic and extracurricular program as before the leave.

The school district does not require a pregnant student to obtain the certification of a physician that the student is physically and emotionally able to continue in school.

Every effort will be made to see that the educational program of the student is disrupted as little as possible; that health counseling services, as well as instruction, are offered; that return to school after leave is encouraged; and that every opportunity to complete high school is provided.

CO-CURRICULAR AND EXTRACURRICULAR ACTIVITIES

- (1) Advantages and privileges of public schools include all extracurricular activities made available, sponsored or supervised by any public school. No school shall sponsor or participate in the organization of outside extra-curricular activities conducted as such school which restrict students' participation on the basis of race, color, sex, gender identity, religion or national origin. 603 CMR 26.06(1) does not prohibit school committees from allowing use of school premises by independent groups with restrictive membership.
- (2) No student shall be denied the opportunity in any implied or explicit manner to participate in an extra-curricular activity because of the race, color, sex, gender identity, religion or national origin of the student except as provided in 603 CMR 26.06(7).
- (3) Each school system shall provide a fair distribution of athletic expenditures. Each school within such a system shall provide equal opportunity for male and female students to participate in intramural and interscholastic sports. - (5) In order to insure fair distribution of athletic expenditures as defined in 603 CMR 26.06(4), each school shall indicate in the budget that is reviewed by the school committee the anticipated expenditure for each interscholastic and intramural athletic activity and the anticipated student participation in the activity by number and sex.
- (6) A school may establish separate teams for males and females for interscholastic and intramural compensation in a particular sport, provided that the requirements of 603 CMR 26.06(8) are satisfied.
- (7) Teams comprised primarily or solely of persons of one sex shall be granted equal instruction, training, coaching, access to available facilities, equipment and opportunities to practice and compete as teams engaged in a similar activity comprised primarily or solely of persons of the opposite sex.
- (8) Participation in extra-curricular activities shall be actively encouraged by each school for both boys and girls and for racial and ethnic minorities. When offering extra-curricular programs, schools shall take into consideration the ethnic traditions of the student body.
