November 2, 2021

Students of Geneva Area City Schools,

Geneva Area City Schools will remain open and continue to provide academic support. The District has selected the *Edmentum* online learning platform to use as a resource covering our core subject areas for elementary students. In addition, the program will be used at the Middle school and High school to provide core subjects and some elective courses.

Due to limited staffing, modified schedules will be put into place to allow you to access your lessons/courses appropriately and in a meaningful way. You will be supervised, and provided academic support. All assignments will be graded and counted in the overall grade calculations for the course. Attendance and academic progress is tracked through time on task measurements with you being considered in attendance if you are logging on through Edmentum and completing daily course work.

To get started, you will go to [Edmentum.com](https://www.edmentum.com/) and choose to login with your school Google account. To start the program, you will need to take a diagnostic assessment. Further information and support can be found on the Edmentum website (<https://www.edmentum.com/>).

You will be expected to follow school rules as outlined in our GACS Student Handbooks. This includes proper use of technology, logging into and completing assignments within the Edmentum program in order to be considered in attendance at school.

Thank you for your understanding and patience through this difficult time. If you have any questions or concerns, please contact your school building principal.

** At the elementary level, the Right at School Program will still take place.

*** The Elementary Extended Learning Program will be put on hold.

**** Remote learning families may pick up Breakfast/Lunch from 9:00-9:30 at the public parking lot behind the police station on Forest Street.

Sincerely,
The Geneva Area City Schools Administrative Team
