Students may enter kindergarten if they will attain the age of five (5) on or before August 1 of the year in which they are seeking initial enrollment. Any student who has been enrolled in a state-accredited or state-approved kindergarten program in another state for at least sixty (60) days, will become five (5) years old during the year in which he/she is enrolled in kindergarten, and meets the basic residency requirement for school attendance may be enrolled in kindergarten upon written request to the District. Any student who was enrolled in a state-accredited or state-approved kindergarten program in another state or in a kindergarten program equivalent in another country, becomes a resident of this state as a direct result of active military orders or a court-ordered change of custody, will become five (5) years of age during the year in which he or she is enrolled in kindergarten, and meets the basic residency requirement for school attendance may be enrolled in kindergarten upon a written request to the District.

Any child who will be six (6) years of age on or before October 1 of the school year of enrollment and who has not completed a state-accredited kindergarten program shall be evaluated by the district and may be placed in the first grade if the results of the evaluation justify placement in the first grade and the child's parent or legal guardian agrees with placement in the first grade; otherwise the child shall be placed in kindergarten.

Any child may enter first grade in a District school if the child will attain the age of six (6) years during the school year in which the child is seeking enrollment and the child has successfully completed a kindergarten program in a public school in Arkansas.

Any child who has been enrolled in the first grade in a state-accredited or state-approved elementary school in another state for a period of at least sixty (60) days, who will become age six (6) years during the school year in which he/she is enrolled in grade one (1), and who meets the basic residency requirements for school attendance may be enrolled in the first grade.

Students who move into the District from an accredited school shall be assigned to the same grade as they were attending in their previous school (mid-year transfers) or as they would have been assigned in their previous school. Private school students shall be evaluated by the District to determine their appropriate grade placement. Home school students enrolling or re-enrolling as a public school student shall be placed in accordance with policy 4.6—HOME SCHOOLING.

The district shall make no attempt to ascertain the immigration status, legal or illegal, of any student or his/her parent or legal guardian presenting for enrollment.

Prior to the child's admission to a District school:

1. The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall furnish the child's social security number, or if they request, the district will assign the child a nine (9) digit number designated by the Division of Elementary and Secondary education.
2. The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall provide the district with one (1) of the following documents indicating the child's age:
  - a. A birth certificate;
  - b. A statement by the local registrar or a county recorder certifying the child's date of birth;
  - c. An attested baptismal certificate;
  - d. A passport;
  - e. An affidavit of the date and place of birth by the child's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis;
  - f. United States military identification; or
  - g. Previous school records.
3. The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall indicate on school registration forms whether the child has been expelled from school in any other school district or is a party to an expulsion proceeding. Any person who has been expelled from any other school district shall receive a hearing before the

Board at the time the student is seeking enrollment in the District. The Board reserves the right to not allow the enrollment of such students until the time of the person's expulsion has expired following the hearing before the Board.

4. In accordance with Policy 4.57—IMMUNIZATIONS, the child shall be age appropriately immunized or have an exemption issued by the Arkansas Department of Health.

The superintendent shall designate an individual as the District’s military education coordinator, who shall serve as the primary point of contact for an eligible child and for the eligible child’s parent, legal guardian, person having lawful control of the eligible child, or person standing in loco parentis. The individual the superintendent designates as the

District's military education coordinator shall have specialized knowledge regarding the educational needs of children of military families and the obstacles that children of military families face in obtaining an education.

An eligible child as defined in this policy shall:

5. Be provided services comparable to those the student with disabilities received in his/her previous school based on his/her previous Individualized Education Program (IEP). This does not preclude the District school from performing subsequent evaluations to ensure appropriate placement of the student;
6. - a. Academic courses;
- b. Electives;
- c. Sports; and
- d. Other relevant information regarding the public school.

In the event that official copies of an eligible child's education records are not available at the time the eligible child is transferring, then the District shall:

- Pre-register and place an eligible child based on the eligible child's unofficial education records pending receipt of the eligible child's official records; and
- Request the eligible child's official education records from the sending district.

To facilitate a smooth transition between the student's previous coursework and the curriculum best suited to ensure educational success in the student's new school, the District may enroll an inbound transitioning eligible student in digital coursework, if available, at the request of the military family.

## **PLACEMENT OF MULTIPLE BIRTH SIBLINGS**

The parent, guardian or other person having charge or custody of multiple birth siblings in grades pre-K through 6 may request that the multiple birth siblings are placed in either the same or separate classrooms. The request shall be in writing not later than the 14<sup>th</sup> calendar day prior to the first day of classes at the beginning of the academic year. The school shall honor the request unless it would require the school to add an additional class to the sibling's grade level. If one parent of the multiple birth siblings requests a placement that differs from that of the other parent of the same multiple birth siblings, the school shall determine the appropriate placement of the siblings.

The school may change the classroom placement of one or more of the multiple birth siblings if:

- There has been a minimum of 30 instructional days since the start of the school year; and
  - o After consulting with each classroom teacher in which the siblings are placed, the school determines the parent's classroom placement request is:
    - Detrimental to the educational achievement of one or more of the siblings;

    - Disruptive to the school's educational or disciplinary environment.

If a parent believes the school has not followed the requirement of this policy, the parent may appeal the multiple birth siblings' classroom placement to the Superintendent. The Superintendent's decision regarding the appeal shall be final.

## **HOME SCHOOLING**

Fountain Lake has a policy that deals with the specifics of home schooling, and student assessment of those students being home schooled. Parents/guardians must reapply for home school status on a yearly basis. Home schooled students returning to public school shall be evaluated by the district to determine their appropriate grade placement.

## **EXTRACURRICULAR ACTIVITIES - ELEMENTARY**

### **Definitions**

"Extracurricular activities" are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, inter/intrascholastic athletics, cheerleading, band, choral, math, or science competitions, field trips, and club activities.

"Field Trips" are when individual students or groups of students are invited to programs or events when there is no competition and the students are not interacting with each other for the purpose of planning, qualifying, or arranging for future programs or for the purpose of receiving recognition.

"Interscholastic Activities" means athletic or non-athletic/academic activities where students compete on a school vs. school basis.

"Intrascholastic Activities" means athletic or non-athletic/academic activities where students compete with students from within the same school.

### **Extracurricular Eligibility**

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed five per week per extracurricular activity (tournaments or other similar events excepted with approval of the principal or their designee). All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

A student may lose his/her eligibility to participate in extracurricular activities when, in the opinion of the school's administration, the student's participation in such an activity may adversely jeopardize his/her academic achievement. Students may also be denied permission to participate in extracurricular activities as a consequence of disciplinary action taken by the administration for inappropriate behavior.

Any student who refuses to sit for a Statewide assessment or attempts to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. The student shall remain ineligible to participate until the student takes the same or a following statewide assessment, as applicable. The superintendent or designee may waive this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

A student who enrolls in the district and meets the definition of "eligible child" in Policy 4.2—ENTRANCE REQUIREMENTS shall be eligible to try out for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

No student shall be required to pay for individual or group instruction in order to participate in an extracurricular activity.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

### **EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS**

Home-schooled student means a student legally enrolled in an Arkansas home school and who meets or has met the criteria for being a home-schooled student, as established by A.C.A. § 6-15-503.

Interscholastic activity means an activity between schools, subject to rules of the Arkansas Activities Association that is outside the regular curriculum of the school district, such as an athletic activity, fine arts program, or a special interest group or club.

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

Home-schooled students whose parents or guardians are legal residents of the school district will be permitted to pursue participation in an interscholastic activity in the student's resident school zone as permitted by this policy.

Home-schooled students whose parent or legal guardian are not residents of the school district will be permitted to pursue participation in an interscholastic activity in the District if the superintendent of the student's resident district and the superintendent of the District both agree in writing to allow the student to participate in interscholastic activities at the District.

Although not guaranteed participation in an interscholastic activity, home-school students who meet the provisions of this policy, AAA Rules, and applicable Arkansas statutes shall have an equal opportunity to try out and participate in interscholastic activities without discrimination. The District shall provide a reasonable alternative to any prerequisite for eligibility to participate in an interscholastic activity that the home-schooled student is unable to meet because of his or her enrollment in a home school.

No student shall be required to pay for individual or group instruction in order to participate in an extracurricular activity.

To be eligible to try out and participate in interscholastic activities, the student or the parent of a student shall mail or hand deliver the student's request to participate to the student's school's principal before the signup, tryout or participation deadline

established for traditional students. Additionally, the student shall demonstrate academic eligibility by obtaining a minimum test score of the 30<sup>th</sup> percentile or better in the previous 12 months on the Stanford Achievement Test Series, Tenth Edition; another nationally recognized norm-referenced test; or a minimum score on a test approved by the State Board of Education.

A student who meets the requirements for eligibility to participate in an interscholastic activity is required to register for no more than one course in the District's school where the student is intending to participate in an interscholastic activity.

The student shall regularly attend the class in which the student is registered beginning no later than the eleventh (11<sup>th</sup>) day of the semester in which the student's interscholastic activity participation is desired. The student must attend the practices for the interscholastic activity to the same extent as is required of traditional students.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

A home-schooled student who has met the try out criteria; and who has been selected to participate in the interscholastic activity shall meet the following criteria that also apply to traditional students enrolled in the school:

- standards of behavior and codes of conduct;
- attend the practices for the interscholastic activity to the same extent as is required of traditional students;
- required drug testing;
- permission slips, waivers, physical exams; and
- participation or activity fees.

A home-schooled student who is not a resident of the District may begin participating in interscholastic activities:

- a. Immediately upon being approved for participation for all interscholastic activities other than athletic activities; and
- b. One (1) calendar year after being approved to participate in interscholastic activities that are athletic activities unless the approval is prior to July 1 of the school year the student would have been enrolled in seventh (7<sup>th</sup>) grade if the student were enrolled in public school.

A home-schooled student who is not a resident of the District and is prohibited under this policy from participating in an interscholastic activity that is an athletic activity for one (1) calendar year may immediately participate in rehearsals, tryouts, practices, auditions, classes, or other endeavors associated with the interscholastic activity.

Students who participate in extracurricular or athletic activities under this policy will be transported to and from the interscholastic activities on the same basis as other students are transported.

A student who withdraws from an Arkansas Activities Association member school to be home-schooled shall not participate in an interscholastic activity in the resident school district for a minimum of three hundred sixty-five days after the student withdraws from the member school.

### **ACADEMIC COURSE ATTENDANCE BY PRIVATE SCHOOL AND HOME SCHOOLED STUDENTS**

The District allows private school and home schooled students whose parents, legal guardians, or other responsible adult with whom the student resides are residents of the District to attend academic courses offered by the District. The District will place a list of courses that a private school or home schooled student may request to attend on its website by:

1. June 1 for courses to be offered during the Fall semester; and
2. November 1 for courses to be offered during the Spring semester.

A private school or home schooled student who desires to attend one or more of the available academic courses shall submit a written request to attend the academic course(s) to the superintendent, or designee, no later than:

- a. August 1 for Fall semester courses; or
- b. December 1 for Spring semester courses.

The superintendent, or designee, is authorized to waive the application deadline on a case by case basis.

The District permits a private school or home schooled student to attend a maximum of six (6) courses per semester.

The District may reject a private school or home schooled student's request for attendance if the District's acceptance would:

- Require the addition of staff or classrooms;
- Exceed the capacity of a program, class, grade level, or school building;
- Cost the District more for the student to attend the academic course than the District receives for the student's attendance;
- Cause the District to provide educational services the District does not currently provide at a financial burden to the District; or
- Cause the District to be out of compliance with applicable laws and regulations regarding desegregation.

Requests to attend an academic course will be granted in the order the requests are received. Upon the receipt of a private or home schooled student's request to attend academic course(s), the District will date and time stamp the request for attendance. If a private school or home schooled student is denied attendance based on a lack of capacity and an opening in the requested course occurs prior to the start of the course, the District will use the date and time stamp on the request for attendance to determine the private school or home schooled student who will be notified of an opening in the requested course.

As part of the request to attend academic courses in the District, a private school or home schooled student shall:

- o Indicate the course(s) the private school or home schooled student is interested in attending;
- o If the course(s) the private school or home schooled student is interested in attending is being offered by the District in both a physical and a digital format, whether the private school or home schooled student intends to attend the physical course or the digital course;
  - o Submit, along with the student's application, a copy of the student's transcript indicating that the student has received credit for the course(s), or equivalent course(s), that are a prerequisite to the course(s) the student desires to attend at the District;
- o Agree to follow the District's discipline policies; and
- o Submit immunization documentation required by Policy 4.57—IMMUNIZATIONS.

A private school or home schooled student who fails to attend an academic course by the eleventh (11) day of class or who is absent without excuse for eleven (11) consecutive days during the semester shall be dropped from the course.; however, a private school or home schooled student shall not be considered truant for unexcused absences from the course(s) the student is attending at the District.

Private school or home schooled students shall receive a final grade and transcript for each academic course the student completes.

The responsibility for transportation of any private school or home schooled student attending academic courses in the District shall be borne by the student or the student's parents.

The opportunity provided to home schooled students under this policy is in addition to the opportunity provided in Policy 4.56.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS.

## **RESIDENCE REQUIREMENTS**

Definitions:

“**In loco parentis**” means relating to the responsibility to undertake the care and control of another person in the absence of:

1. Supervision by the person's parent or legal guardian; and
2. Formal legal approval

“**Reside**” means to be physically present and to maintain a permanent place of abode for an average of no fewer than four (4) calendar days and nights per week for a primary purpose other than school attendance.

“**Resident**” means a student whose parents, legal guardians, persons having, lawful control of the student, or persons standing in loco parentis reside in the school district.

“**Residential address**” means the physical location where the student's parents, legal guardians, persons having, lawful control of the student, or persons standing in loco parentis reside. A student may use the residential address of a parent, legal guardian, person having lawful control of the student, or person standing in loco parentis only if the student resides at the same residential address and if the guardianship or other legal authority is not granted solely for educational needs or school attendance purposes.

The schools of the District shall be open and free through the completion of the secondary program to all persons between the ages of five (5) and twenty-one (21) years whose parents, legal guardians, persons having lawful control of the student, or person standing in loco parentis reside within the District and to all persons between those ages who have been legally transferred to the District for educational purposes.

Any person eighteen (18) years of age or older may establish a residence separate and apart from his or her parent, legal guardian, person having lawful control of the student, or person standing in loco parentis for school attendance purposes.

In order for a person under the age of eighteen (18) years to establish a residence for the purpose of attending the District's schools separate and apart from his or her parent, legal guardian, person having lawful control of the student, or person standing in loco parentis, the student is required to reside in the District for a primary purpose other than that of school attendance. A foster child who was previously enrolled in a District school and who has had a change in placement to a residence outside the District, may continue to remain enrolled in his/her current school unless the presiding court rules otherwise.

Under instances prescribed in A.C.A. § 6-18-203, a child or ward of an employee of the district or of the education coop to which the district belongs may enroll in the district even though the employee and his/her child or ward reside outside the district.

A child may complete all remaining school years at the enrolled school district regardless of mobilization, deployment, or military status of the parent or guardian.

The District will afford the same services and educational opportunities to foster children that are afforded other children and youth. The District shall work with the Department of Human Services ("DHS"), the Division of Elementary and Secondary Education (DESE), and individuals involved with each foster child to ensure that he/she is able to maintain his/her continuity of educational services to the fullest extent that is practical and reasonable.

The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for foster children and youth whose responsibilities shall include ensuring the timely school enrollment of each foster child and assisting foster children who transfer between schools by expediting the transfer of relevant educational records.

The District, working with other individuals and agencies shall, unless the presiding court rules otherwise, ensure that the foster child remains in his/her school of origin, even if a change in the foster child's placement results in a residency that is outside the district. In such a situation, the District will work with DHS to arrange for transportation to and from school for the foster child to the extent it is reasonable and practical.

Upon notification to the District's foster care liaison by a foster child's caseworker that a foster child's school enrollment is being changed to one of the District's schools, the school receiving the child must immediately enroll him/her. Immediate enrollment is required even if a child lacks the required clothing, academic or medical records, or proof of residency.

A foster child's grades shall not be lowered due to absence from school that is caused by a change in the child's school enrollment, the child's attendance at dependency-neglect court proceedings, or other court-ordered counseling or treatment.

Any course work completed by the foster child prior to a school enrollment change shall be accepted as academic credit so long as the child has satisfactorily completed the appropriate academic placement assessment.

If a foster child was enrolled in a District school immediately prior to completing his/her graduation requirements while detained in a juvenile detention facility or while committed to the Division of Youth Services of DHS, the District shall issue the child a diploma.

### **HOMELESS STUDENTS**

The Fountain Lake School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for homeless children and youth whose responsibilities shall include coordinating with the state educational liaison for homeless children and youth to ensure that homeless children are not stigmatized or segregated on the basis of their status as homeless and such other duties as are prescribed by law and this policy.

Notwithstanding District Policy 4.1, homeless students living in the district are entitled to enroll in the district's school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict with District Policy 4.1 or 4.2, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute. It is the responsibility of the District's local educational liaison for homeless children and youth to carry out the dispute resolution process.

To the extent feasible, the District shall do one of the following according to what is in the best interests of a homeless child. (For the purposes of this policy "school of origin" means the school the child attended when permanently housed or the school in which the child was last enrolled.)

1. continue educating the child who becomes homeless between academic years or during an academic year in their school of origin for the duration of their homelessness;
2. continue educating the child in his/her school of origin who becomes permanently housed during an academic year for the remainder of the academic year; or
3. enroll the homeless child in the school appropriate for the attendance zone where the child lives.

If the District elects to enroll a homeless child in a school other than their school of origin and such action is against the wishes of the child's parent or guardian, the District shall provide the parent or guardian with a written explanation of their reason for so doing which shall include a statement of the parent/guardian's right to appeal.

In any instance where the child is unaccompanied by a parent or guardian, the District's local educational liaison for homeless children and youth shall assist the child in determining his/her place of enrollment. The Liaison shall provide the child with a notice of his/her right to appeal the enrollment decision.

The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, the Liaison), to and from the child's school of origin.

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and

### **STUDENTS EXPELLED IN THEIR FORMER DISTRICT**

It shall be the policy (Adopted 10/12/95) of the Fountain Lake School District to require a student to have a hearing before the School Board if he/she is currently under an order of expulsion from the last school district attended. This hearing must be held before the student is enrolled. This hearing may be closed at the request of the student's parent.

Legal Reference: A.C.A. 6-18-507.

Prior to the hearing, the superintendent shall obtain a full report from the former district concerning the expulsion. At the hearing, the Board shall review the report from the former district, and have an opportunity to question the student and his or her parents concerning the alleged misconduct. The Board may rule that the student may not enroll until the student's expulsion from his or her former district has expired.

During initial enrollment procedures the following questions are to be asked and recorded.

1. Has your child ever been expelled from school in any other school district?
2. Is your child currently under an order of expulsion in his/her former school district?
3. If so, when may your child return to his former district?
4. Are expulsion proceedings currently pending against your child or have you been informed that such proceedings will be initiated against your child?

### **SCHOOL CHOICE - NON-RESIDENT STUDENTS**

The District is under an enforceable desegregation court order/court-approved desegregation plan that explicitly limits the transfer of students between school districts and has submitted the appropriate documentation to the Division of Elementary and Secondary Education (DESE). As a result of the desegregation order/desegregation plan<sup>1</sup>, the District is exempt from the provisions of the Public School Choice Act of 2015 (Standard School Choice) and the Arkansas Opportunity Public School Choice Act (Opportunity School Choice). The District shall notify the superintendents of each of its geographically contiguous school districts of its exemption. The exemption prohibits the District from accepting any school choice applications from students wishing to transfer into or out of the District through standard School Choice or Opportunity School Choice.

## **STUDENT TRANSFERS**

The Fountain Lake School District shall review and accept or reject requests for transfers, both into and out of the district, on a case by case basis.

The District may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms, exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school. The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

Any student transferring from a school accredited by the Division of Elementary and Secondary Education (DESE) to a school in this district shall be placed into the same grade the student would have been in had the student remained at the former school. Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Any student transferring from a school that is not accredited by the DESE to a District school shall be evaluated by District staff to determine the student's appropriate grade placement. A student transferring from home school will be placed in accordance with Policy 4.6—HOME SCHOOLING.

Any person who has been expelled from any other school district shall receive a hearing before the Board at the time the student is seeking enrollment in the District. The Board reserves the right to not allow the enrollment of such students until the time of the person's expulsion has expired following the hearing before the Board.

Except as otherwise required or permitted by law, the responsibility for transportation of any nonresident student admitted to a school in this District shall be borne by the student or the student's parents. The District and the resident district may enter into a written agreement with the student or student's parents to provide transportation to or from the District, or both.

## **HOME SCHOOLING**

### **Enrollment in Home School**

Parents or legal guardians desiring to provide a home school for their children shall give written notice to the Superintendent of their intent to home school. The notice shall be given:

1. At the beginning of each school year, but no later than August 15;
2. Five (5) school days prior to withdrawing the child (provided the student is not currently under disciplinary action for violation of any written school policy, including, but not limited to, excessive absences) and at the beginning of each school year thereafter; or
3. Within thirty (30) calendar days of the parent or legal guardian establishing residency within the district during the school year.

Written notice of the parent or legal guardian's intent to home school shall be delivered to the Superintendent through any of the following methods:

- Electronically, including without limitation by email;
- By mail; or
- In person.

The notice shall include:

- a. The name, sex, date of birth, grade level, and the name and address of the school last attended, if any;
- b. The mailing address and telephone number of the home school;
- c. The name of the parent or legal guardian providing the home school;

- d. Indicate if the home-schooled student intends to participate in extracurricular activities during the school year;
- e. A statement of whether the home-schooled student plans to seek a high school equivalency diploma during the current school year;
- f. A statement if the home-school student plans to seek a driver's license during the current school year;
- g. A statement that the parent or legal guardian agrees that the parent or legal guardian is responsible for the education of their children during the time the parents or legal guardians choose to home school; and
- h. A signature of the parent or legal guardian, which must be notarized if the home-schooled student plans to seek a driver's license during the school year.

To aid the District in providing a free and appropriate public education to students in need of special education services, the parents or legal guardians home-schooling their children shall provide information that might indicate the need for special education services.

A student who has been temporarily issued items, resources, supplies, materials, or other property belonging to the District is eligible for enrollment in a home school during the school year after:

- The items, resources, supplies, materials, or other property belonging to the District have been returned to the District;
- The items, resources, supplies, materials, or other property belonging to the District have been paid for; or
- The semester has ended.

The superintendent or the board of directors may waive the required five (5) school day waiting period for a student's enrollment in home school during a semester if the superintendent or the board of directors is satisfied with the return of temporarily issued items, resources, supplies, materials, or other District property .

### **Enrollment or Re-Enrollment in Public School**

A home-schooled student who wishes to enroll or re-enroll in a District school shall submit:

- A transcript listing all courses taken and semester grades from the home school;
- Score of at least the thirtieth percentile on a nationally recognized norm-referenced assessment taken in the past year; and
- A portfolio of indicators of the home-schooled student's academic progress, including without limitation:
  - Curricula used in the home school;
  - Tests taken and lessons completed by the home-schooled student; and
  - Other indicators of the home-schooled student's academic progress.

If a home-schooled student is unable to provide a nationally recognized norm-referenced score, the District may either assess the student using a nationally recognized norm-referenced assessment or waive the requirement for a nationally recognized norm-referenced assessment score.

A home-schooled student who enrolls or re-enrolls in the District will be placed at a grade level and academic course level equivalent to or higher than the home-schooled student's grade level and academic course level in the home school:

1. As indicated by the documentation submitted by the home-schooled student;
2. By mutual agreement between the public school and the home-schooled student's parent or legal guardian; or
3. If the home-schooled student fails to provide the documentation required by this policy, with the exception of the nationally recognized norm-referenced assessment score, the District may have sole authority to determine the home-schooled student's grade placement and course credits. The District will determine the home-schooled student's grade placement and course credits in the same manner the District uses when determining grade placement and course credits for students enrolling or re-enrolling in the District who attended another public or private school.

The District shall afford a home-schooled student who enrolls or re-enrolls in a public school the same rights and privileges enjoyed by the District's other students. The District shall not deny a home-schooled student who enrolls or re-enrolls in the District any of the following on the basis of the student having attended a home school:

- a. Award of course credits earned in the home school;
- b. Placement in the proper grade level and promotion to the next grade level;
- c. Participation in any academic or extracurricular activity;
- d. Membership in school-sponsored clubs, associations, or organizations;

- e. A diploma or graduation, so long as the student has enrolled or re-enrolled in the District to attend classes for at least the nine (9) months immediately prior to graduation; or
- f. Scholarships.

### **WITHDRAWAL FROM SCHOOL**

All students who withdraw from school will secure a withdrawal form from the Principal's office. All textbooks and library books will be turned in. Lunch bills and any other unpaid bills will be paid before the student withdraws from school.

### **VISITORS**

We encourage parents to visit classes. It is necessary to check in at the office and obtain a badge before going to a classroom. If parents want to discuss their child's progress with the teacher, a conference will be arranged.

Visitors should dress and conduct themselves in such a way as to not cause a disruption to the school environment.

Unauthorized visitors to the campus will be asked to leave. If they refuse, return, or otherwise behave in an unseemly manner, law enforcement officials will be called and prosecution may result.

### **PARENTAL INVOLVEMENT PLAN**

All schools in the District have developed Parental Involvement Plans. The Fountain Lake Elementary Parental Involvement Plan includes the following topics: communication strategies, parent meetings, volunteer opportunities, resources, school improvement efforts, and use of parent surveys. To receive a copy of the Parental Involvement Plan, contact the elementary principal. The building Media Specialist in conjunction with the district Volunteer Coordinator facilitates the numerous opportunities for parents to be active participants in the education of their child. Parents are encouraged to become involved in the numerous activities offered such as Parent Teacher Organization (PTO), Volunteer Tutoring Program, Dads on Campus, Athletic Booster Club, and Band Booster Club. Additionally, each classroom teacher has a system for communicating with parents (weekly newsletters, text messaging, emails, etc.). Parent Fairs are conducted during Parent Teacher Conferences to further engage parents in opportunities for involvement. To help promote positive communication, parent/teacher conferences shall be held once each semester. Parent/teacher conferences are encouraged and may be requested by parents or guardians when they feel the need to discuss their child's progress with his/her teacher. Parents or guardians may also monitor their child's grades through the use of the school's web-based grade book.

### **PARENTAL CONCERNS**

Fountain Lake High School uses a chain of authority for processing parental concerns. In order to alleviate a problem concerning grades or the discipline of a student, the stated procedures should be followed in the order below:

- A building administrator shall arrange a conference between the parent and the teacher concerned.
- The parent may request to discuss the problem with the principal.
- The parent may request a conference with the superintendent in attendance.
- The parent may appeal to the school board within five (5) working days of the last conference.

### **STUDENT ASSIGNMENT POLICY**

Students in each grade level are divided into equal groups balancing the following ratios among each group:

- male and female
- academic performance
- conduct
- total student count

Any concerns you have regarding your child's classroom placement for the next school year, must be submitted in writing to your child's Principal for the coming year by the close of business the last day of school.

### **FIELD TRIP ATTENDANCE**

Attendance on field trips is limited to those eligible Fountain Lake students enrolled in the grade(s) the field trip is scheduled for. Students must ride the bus to attend the field trip. Elementary parent/guardians that are not school employees cannot ride the bus.

### **CONTACT BY PARENTS**

Parents wishing to speak to their children during the school day shall register first with the office.

### **CONTACT BY NON-CUSTODIAL PARENTS**

If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or the principal's designee establishing the parent's custody of the student. It shall be the responsibility of the custodial parent to make any court ordered "no contact" or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Without such a court order on file, the school will release the child to either of his/her parents. Non-custodial parents who file with the principal a date-stamped copy of current court orders granting unsupervised visitation may eat lunch, volunteer in their child's classroom, or otherwise have contact with their child during school hours and the prior approval of the school's principal. Such contact is subject to the limitations outlined in Policy 4.16, Policy 6.5, and any other policies that may apply.

Arkansas law provides that, in order to avoid continuing custody controversies from involving school personnel and to avoid disruptions to the educational atmosphere in the District's schools, the transfer of a child between his/her custodial parent and non-custodial parent, when both parents are present, shall not take place on the school's property on normal school days during normal hours of school operation. The custodial parent or noncustodial parent may send to/drop off the student at school to be sent to/picked up by the other parent on predetermined days in accordance with any court order provided by the custodial parent or by signed agreement between both the custodial and non-custodial parents that was witnessed by the student's building principal. Unless a valid no-contact order has been filed with the student's principal or the principal's designee, district employees shall not become involved in disputes concerning whether or not that parent was supposed to pick up the student on that day.

### **CONTACT BY LAW ENFORCEMENT, SOCIAL SERVICES, OR BY COURT ORDER**

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Division of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Except as provided below, other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, legal guardian, person having lawful control of the student, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

## **CONTACT BY PROFESSIONAL LICENSURE STANDARDS BOARD INVESTIGATORS**

Investigators for the Professional Licensure Standards Board may meet with students during the school day to carry out the investigation of an ethics complaint.

## **II. PROMOTION/RETENTION POLICY**

### **KINDERGARTEN THROUGH 4<sup>TH</sup> GRADE**

A disservice is done to students through social promotion and is prohibited by state law. The District shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. Parents, legal guardians, persons having lawful control of the student, or persons acting in loco parentis shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention or required retaking of a course shall be included with the student's grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student's academic success.

At least once each semester, the parents, legal guardians, persons having lawful control of the student, or persons acting in loco parentis, and teacher(s) of a student in kindergarten through eighth (8<sup>th</sup>) grade shall be notified in writing of the student's independent grade-level-equivalency in reading.

Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria.

- student academic ability
- student maturity

Students who have not mastered grade level skills and/or are immature will be considered for retention purposes. Parent input will be considered in promotion and retention decisions. However, the final decision will rest with the principal.

If there is doubt concerning the promotion or retention of a student or his/her required retaking of a course, a conference shall be held before a final decision is made that includes the following individuals:

- a) The building principal or designee;
- b) The student's teacher(s);
- c) School counselor
- d) A 504/special education representative (if applicable); and
- e) The student's parents, legal guardians, persons having lawful control of the student, or persons acting in loco parentis.

The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement or receipt of course credit, the final decision shall rest with the principal or the principal's designee.

Each student shall have a student success plan (SSP) developed by school personnel in collaboration with the student's parents and the student that is reviewed and updated annually. A student's SSP shall use multiple academic measures to personalize learning in order for students to achieve their grade-level expectations and individual growth. The SSP will identify if the student is in need of additional support or acceleration. Academic measures to be used in creating and updating a student's SSP shall include, but are not limited to:

- Statewide student assessment results;
- Subject grades;
- Student work samples; and
- Local assessment scores.

By the end of grade eight (8), the student's SSP shall:

- o Guide the student along pathways to graduation;
- o Address accelerated learning opportunities;
- o Address academic deficits and interventions; and
- o Include college and career planning components.

Based on a student's score on the college and career assessment:

- The student's SSP will be updated in order to assist the student with college and career readiness skills, course selection in high school, and improved academic achievement; and
- Provide a basis for counseling concerning postsecondary preparatory programs.

An SSP shall be created:

1. By no later than the end of the school year for a student in grade eight (8) or below who enrolls in the District during the school year; or
2. As soon as reasonably possible for a student in grade nine (9) or above who enrolls in the District at the beginning or during the school year.

A student's individualized education program (IEP) may act in the place of the student's SSP if the IEP addresses academic deficits and interventions for the student's failure to meet standards-based academic goals at an expected rate or level and includes a transition plan that addresses college and career planning components. Promotion or retention of students with an IEP shall be based on their successful attainment of the goals set forth in their IEP.

Students who either refuse to sit for a Statewide assessment or attempt to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are originally administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity, including school dances, prom, homecoming, senior events, and may be prevented from walking or participating in graduation exercises. The student shall remain ineligible to participate until the student takes the same or a following Statewide assessment, as applicable. The Superintendent or designee may waive this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

#### **COMPULSORY ATTENDANCE REQUIREMENTS**

Every parent, legal guardian, person having lawful control of the child, or person standing in loco parentis of any child age five (5) through seventeen (17) years on or before August 1<sup>st</sup> of that year who resides, as defined by policy (RESIDENCE REQUIREMENTS), within the District shall enroll the child and ensure the attendance of the child at a District school with the following exceptions.

1. The child is enrolled in private or parochial school.
2. The child is being home-schooled and the conditions of policy (HOME SCHOOLING) have been met.
3. The child will not be age six (6) on or before August 1 of that particular school year and the parent, legal guardian, person having lawful control of the child, or person standing in loco parentis of the child elects not to have him/her attend kindergarten. A kindergarten waver form prescribed by regulation of the Division of Elementary and Secondary Education must be signed and on file with the District administrative office.
4. The child has received a high school diploma or its equivalent as determined by the State Board of Education.

#### **ATTENDANCE POLICY**

If any student's Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student's IEP or 504 Plan take precedence.

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school, whether in person or digitally, is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Absences for students enrolled in synchronous digital courses shall be determined in the same manner as for District students attending courses in person..

#### **Excused Absences**

Excused absences are those where the student was on official school business or when the absence was due to one of the following reasons:

- 1) The student's illness or when attendance could jeopardize the health of other students. A maximum of four (4) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.
- 2) Death or serious illness in their immediate family;
- 3) Observance of recognized holidays observed by the student's faith;
- 4) Attendance at an appointment with a government agency;
- 5) Attendance at a medical appointment (acceptable for only travel time and actual time of the appointment);
- 6) Exceptional circumstances with prior approval of the principal; or
- 7) Participation in an FFA, FHA, or 4-H sanctioned activity;
- 8) Participation in the election poll workers program for high school students.
- 9) Absences granted to allow a student to visit his/her parent or legal guardian who is a member of the military and been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional excused absences shall be at the discretion of the superintendent or designee.
- 10) Absences granted, at the Superintendent's discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in eleventh grade to complete basic combat training between grades eleven (11) and (12).

- 11) Absences for students excluded from school by the Arkansas Department of Health during a disease outbreak because the student has an immunization waiver or whose immunizations are not up to date

Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page.

In order for the absence to be considered excused, the student must:

- a. Bring a written statement to the principal or designee upon the student's return to school from the student's parent or legal guardian stating the reason for the student's absence; or
- b. If the student is attending the District's courses digitally, upload a written statement from the student's parent or legal guardian stating the reason for the student's absence through the District's digital course management platform for review by the principal or designee.

A written statement presented or uploaded for an absence having occurred more than five (5) school days prior to its presentation or upload will not be accepted.

### **Unexcused Absences**

Absences that are not defined above; do not have an accompanying note from the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis; or have an accompanying note that is not presented or uploaded within the timeline required by this policy shall be considered as unexcused absences. Students with four (4) unexcused absences in a course in a semester may not receive credit for that course. At the discretion of the principal after consultation with persons having knowledge of the circumstances of the unexcused absences, the student may be denied promotion or graduation. Excessive absences shall not be a reason for expulsion or dismissal of a student.

When a student has two (2) unexcused absences, his/her parents, legal guardians, persons with lawful control of the student, or persons standing in loco parentis shall be notified. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day.

Whenever a student exceeds four (4) unexcused absences in a semester, the District shall notify the prosecuting authority and the parent, legal guardian, person having lawful control of the student, or persons standing in loco parentis shall be subject to a civil penalty as prescribed by law.

It is the Arkansas General Assembly's intention that students having excessive absences be given assistance in obtaining credit for their courses. Therefore, at any time prior to when a student exceeds the number of unexcused absences permitted by this policy, the student, or his/her parent, legal guardian, person with lawful control of the student, or person standing in loco parentis may petition the school or district's administration for special arrangements to address the student's unexcused absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement's requirements. The agreement shall be signed by the student, the student's parent; legal guardian; person having lawful control of the student; or person standing in loco parentis, and the school or district administrator or designee.

Students who attend in-school suspension shall not be counted absent for those days.

Days missed due to out-of-school suspension shall be excused absences.

Days missed due to expulsion shall be unexcused absences.

The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student's operator's license unless he/she meets certain requirements specified in the statute.

### **TARDIES**

All students shall be considered tardy to class if he/she is not in their designated room when the tardy bell rings. Students checking out early at the end of the day will also be counted tardy. In the case of excessive tardies (over 6) by a student, the principal will contact the parent. Parents need to be aware that if tardies continue to be an issue, after they have been contacted, a referral to juvenile court will result.

Instruction missed due to tardiness will be the student's responsibility. Students may be dropped off at the designated area at 7:30 A.M. Students arriving after 7:50 A.M. must be dropped off at the front door. Students are tardy when they are not in their classroom at 8:00 A.M. and must obtain an admit slip from the office.

### **MAKE-UP WORK**

Students who miss school due to an absence shall be allowed to make up the work they missed during their absence under the following rules.

- Students are responsible for asking the teachers of the classes they missed what assignments they need to make up.
- Teachers are responsible for providing the missed assignments when asked by a returning student.
- Students are required to ask for their assignments on their first day back at school or their first class day after their return.
- Make-up tests are to be rescheduled at the discretion of the teacher, but must be aligned with the schedule of the missed work to be made up.
- With the exception of out-of-school suspension and expulsion, students shall have one class day to make up their work for each class day they are absent. Students that do not make-up work within this window will receive a deduction of one (1) letter grade per day for each day the work is late.
- Students who are assigned out-of-school suspension are responsible for all missed assignments and classwork that is missed in their absence from the class. It will be the student's and parent's responsibility to maintain contact with the teacher(s) to get these assignments. In order to receive credit, all assignments are to be returned to the office at the beginning of the assigned day of the student's return from the out-of-school suspension.
- Students are responsible for turning in their make-up work without the teacher having to ask for it.
- Students who are absent on the day their make-up work is due must turn in their work the day they return to school whether or not the class for which the work is due meets the day of their return.
- As required/permitted by the student's Individual Education Program or 504 Plan.

Work for students serving an out-of-school suspension or expulsion shall be in accordance with the District's programs, measures, or alternative means and methods to continue student engagement and access to education during the student's period of suspension or expulsion, including offering an expelled student an opportunity for enrollment in digital learning courses or other alternative educational courses that result in the receipt of academic credit that is at least equal to credit the expelled student may have received from the District if the student had not been expelled.

In lieu of the timeline above, assignments for students who are excluded from school by the Arkansas Department of Health during a disease outbreak are to be made up as set forth in Policy 4.57- Immunizations

### **CHECK-OUT**

A student will not be allowed to check-out under normal conditions unless a parent or authorized person comes to the Principal's office and checks him/her out.

### **CHECK-IN**

Students who arrive at school after the school day has started must report to the office and properly sign-in.

### **TRUANCY**

The Fountain Lake Board of Education shall not tolerate truancy or the habitual and unlawful absence from school. The parent or legal guardian is responsible for requiring any student under his control or charge and less than eighteen (18) years of age to attend school regularly except for legal absences as defined by state law. If a student under eighteen (18) years of age becomes a truant, the parent or legal guardian of said student may be guilty of a misdemeanor and subject to punishment by law.

**The appropriate school official shall report habitually truant children to the juvenile court or county court, who shall determine the treatment for such children.**

A student shall not be absent from school without parent and/or school authorities prior knowledge and consent. After arrival on campus, a student absent from his/her assigned learning station without permission from school authorities shall be considered truant.

## **IV. ACADEMIC REQUIREMENTS**

### **GRADING SCALE**

The grading system used by Fountain Lake Elementary (K-4) is as follows:

A.....	90 to 100
B.....	80 to 89
C.....	70 to 79
D.....	60 to 69
F.....	0 to 59

If a student receives an “I” at the end of a grading period, the work which resulted in the “I” grade must be made up according to the teacher’s policy. If the work is not made-up, “I” becomes an F.

Conduct will be graded on the following system:

A.....	Excellent
B.....	Above Satisfactory
C.....	Satisfactory
D.....	Needs Improvement
F.....	Unsatisfactory

Students in Kindergarten and 1<sup>st</sup> grade will receive a standards based report card. A rubric will be used to translate the standards based report card to a letter grade for transcript purposes.

Grades assigned to students for performance in a course shall reflect only the extent to which a student has achieved the expressed academic objective of the course.

### **REPORT CARDS**

Fountain Lake Elementary School uses a nine week grade reporting system. Parents of students having difficulty during a nine week period will be notified by a written report midway through the grading period. Report cards for the 1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup> nine weeks of school will be issued on the Thursday following the end of each nine week period. Report cards for the 4<sup>th</sup> nine weeks of school will be sent home with the students the last day of school.

### **PARENT/TEACHER CONFERENCES**

Parents/Teacher conferences are held the end of the 1<sup>st</sup> and 3<sup>rd</sup> nine weeks. At this time, report cards are issued to the parents and grades are discussed. If the parent/guardian is unable to attend the teacher shall endeavor to meet them through rescheduled conference, by telephone, or a home visit. The report card shall be sent home no later than the day following such contact with the parent/guardian has occurred.

Teachers shall communicate with the parent/guardians of those students not performing at the level expected for their grade more frequently, in addition to the two scheduled conferences mentioned above, to discuss the student’s progress.

## **PLACEMENT AND PROGRESS OF SPECIAL EDUCATION STUDENTS**

Placement and progress of students enrolled in special education will be determined at the annual review conference. In order to be promoted to the next level (grade), a student must make satisfactory progress toward the objectives stated in his/her IEP and satisfy the requirements of any "regular" classes in which he/she is enrolled, as would all other students at Fountain Lake.

Parents of special education students who disagree with grade placement of their child should contact their local special education supervisor for a hearing.

## **GRADING "PERSONS OF DISABILITIES"**

At Fountain Lake, no child who is enrolled in a special education class for either all or part of the school day shall receive failing grades while attending "regular" classes, unless that student does not "try," or unless the teachers adjust the materials presented down to a level where the "special" student can function. If a teacher should decide to adjust the level of instruction for a "special" student, that student will be graded on the same scale as all other students. If a teacher chooses not to make an adjustment in the level of materials presented, a "special" student will not receive a grade lower than a D- so long as he/she gives an effort comparable to that of other students. If a student with disabilities fails because of lack of effort, the teacher must document the lack of effort.

## **EXTRACURRICULAR ACTIVITIES**

Extracurricular and non-instructional activities shall be limited in scope to maximize instructional time and limit the number of absences for such activities. Eligibility requirements for participation in these activities can be found in the School Admission section of this handbook.

## **ART/PHYSICAL EDUCATION/MUSIC GRADES (K-4)**

All grades in these content areas will be considered on the basis of participation and conduct. The grade is rated on the following scale:

- A.....Excellent
- B.....Above Satisfactory
- C.....Satisfactory
- D.....Needs Improvement
- F.....Unsatisfactory

The following regulations determine the grade given in Art/P.E./Music:

1. Every student starts each nine weeks with an A.
2. Each time a student chooses not to participate and does not have a note to be excused the participation grade is lowered to the next lower grade.
3. Each time a student has to sit out due to behavior, his/her participation and conduct grade are lowered to the next lower grade. If a student receives a disciplinary report, his/her conduct grade is automatically lowered to the next lowest grade.
4. If a student is absent from school, there is no penalty. Excessive absences without sufficient explanation to the instructor will result in the student receiving an "I" (incomplete).
5. Each student shall dress appropriately on his/her P.E. day or lose 10 points of their participation grade. Loose comfortable clothes and tennis shoes are recommended.

## **HONOR ROLL**

Students in grade levels using standards-based report cards who are meeting or exceeding the essential standards for their grade level at the end of the school year will be recognized as honor roll students for the year.

Students in grade levels using traditional report cards who earn all As or all As and Bs at the end of the school year will be recognized as honor roll students for the year.

## **STUDENT ACCELERATION**

The Board believes that acceleration is an effective and researched-based intervention for the academic growth of students who are ready for an advanced or faster-paced curriculum. Acceleration can allow a student to move through the traditional educational setting more rapidly, based on assessed readiness, capability and motivation. At the same time, the Board understands that acceleration is not a replacement for gifted education services or programs.

Generally, acceleration can occur through one of two broad categories: content based and grade based. Grade based acceleration shortens the number of years a student would otherwise spend in K-12 education, while content based acceleration occurs within the normal K-12 time span. Either form of acceleration can be triggered by; parent/guardian, student, or community member's request or by the referral of school personnel. In either case, the process of determining the appropriateness of the request shall be under the direction of the district/school Gifted and Talented Program Coordinator. The district/school Gifted and Talented Program Coordinator shall convene the Acceleration Placement Committee and communicate with the individuals necessary for the Acceleration Placement Committee to make an informed decision which shall include the student's parent or guardians.

While the needs of the student should dictate when acceleration decisions are considered, the Board believes the optimal time for referrals is in the spring, which gives adequate time for working through the determination process and for preparing those concerned for a smooth transition to acceleration beginning the following school-year.

The District's Gifted and Talented Program Coordinator will create a written format to govern the referral and determination process which shall be made available to any parent or staff member upon request.

The parents/guardians of any student whose request for acceleration has been denied may appeal the decision, in writing, to the District's GT Coordinator. The District's GT Coordinator and the Accelerated Placement Committee will again thoroughly review the case study that was completed on the student. Upon completion of the review, the Committee will, either request additional new testing be conducted to help the Committee make its determination or it will uphold the initial decision. The Committee's decision may not be further appealed.

## **SMART CORE AND CORE CURRICULUM FOR THE CLASS OF 2026 AND THEREAFTER**

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are eighteen (18) years of age or older, sign a *Smart Core Waiver Form* to not participate. While Smart Core is the default option, a *Smart Core Information Sheet* and a *Smart Core Waiver Form* will be sent home with students prior to their enrolling in seventh (7<sup>th</sup>) grade, or when a seventh (7<sup>th</sup>) through twelfth (12<sup>th</sup>) grade student enrolls in the district for the first time and there is not a signed waiver form in the student's permanent record. This policy is to be included in student handbooks for grades six (6) through twelve (12) and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the Alternate Pathway to Graduation when required by their IEP to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the deadline for them to sign and return the waiver form.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum **providing** they would be able to complete the required course of study by the end of their senior year. Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents as part of the annual school district support plan development process to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This may be accomplished through any or all of the following means:<sup>4</sup>

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter;
- Discussions held by the school's counselors with students and their parents; and/or
- Distribution of a newsletter(s) to parents or guardians of the district's students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children and the Arkansas Military Child School Transitions Act of 2021 for all students who meet the definition of "eligible child" in Policy 4.2—ENTRANCE REQUIREMENTS including the waiving of specific courses that are required for graduation if similar coursework has been satisfactorily completed.

No student will be granted Internet access until and unless an Internet and electronic device -use agreement, signed by both the student and the parent or legal guardian (if the student is under the age of eighteen [18]) is on file. ### **POSSESSION AND USE OF CELL PHONES AND OTHER ELECTRONIC DEVICES**

Students are responsible for conducting themselves in a manner that respects the rights of others. Possession and use of any electronic device, whether district or student owned, that interferes with a positive, orderly classroom environment does not respect the rights of others and is expressly forbidden.

To protect the security of statewide assessments, no electronic device, as defined in this policy, shall be accessible by a student at any time during assessment administration unless specifically permitted by a student's individualized education program (IEP) or individual health plan; this means that when a student is taking an AESAA assessment, the student shall not have his/her electronic device in his/her possession. Any student violating this provision shall be subject to this policy's disciplinary provisions. The prohibition in this policy does not extend to the electronic device the District provides the student for the student's use during assessment administration to the extent the student is using the District provided device to complete the assessment.

As used in this policy, "electronic devices" means anything that can be used to transmit or capture images, sound, or data.

Misuse of electronic devices includes, but is not limited to:

1. Using electronic devices during class time in any manner other than specifically permitted by the classroom instructor;
2. Permitting any audible sound to come from the device when not being used for reason #1 above;
3. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, or wrongfully obtaining test copies or scores;
4. Using the device to take photographs in areas where a general expectation of personal privacy exists, including but not limited to locker rooms and bathrooms;
5. Creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person.

Use of an electronic device is permitted to the extent it is approved in a student's IEP or it is needed in an emergency that threatens the safety of students, staff, or other individuals.

Before and after normal school hours, possession of electronic devices is permitted on the school campus. The use of such devices at school sponsored functions outside the regular school day is permitted to the extent and within the limitations allowed by the event or activity the student is attending.

A parent shall obtain approval from the student's building principal before operating a student-tracking safety device at school or at a school-sponsored event if the device has recording or listen-in capability. The District requires the device's recording and listen-in technology to be disabled while the device is on the campus or at the school-sponsored event because of student privacy concerns. The District prohibits unauthorized audio or visual recordings or transmission of audio or images of other students. The student's parent shall agree in writing to the requirement for the device's recording and listening-in technology to be disabled and that the District may prohibit future use of the device on campus or at a school-sponsored activity if it is determined that the device's recording or listening-in capabilities were used in violation of this policy before the student safety tracking device may be on campus or at a school-sponsored event.

The student and/or the student's parents or guardians expressly assume any risk associated with students owning or possessing electronic devices. Students misusing electronic devices shall have them confiscated. Confiscated devices may be picked up at the school's administration office by the student's parents or guardians. Students have no right of privacy as to the content contained on any electronic devices that have been confiscated. A search of a confiscated device shall meet the reasonable individualized suspicion requirements of Policy 4.32—SEARCH, SEIZURE, AND INTERROGATIONS.

Students who use school issued cell phones and/or computers for non-school purposes, except as permitted by the district's Internet/computer use policy, shall be subject to discipline, up to and including suspension or expulsion. Students are forbidden from using school issued cell phones while driving any vehicle at any time. Violation may result in disciplinary action up to and including expulsion.

No student shall use any wireless communication device for the purposes of browsing the internet; composing or reading emails and text messages; or making or answering phone calls while driving a motor vehicle that is in motion and on school property. Violation may result in disciplinary action up to and including suspension.

Students will have a specified time for lunch and they may eat breakfast (optional) each day between 7:30 a.m. and 7:50 a.m. The cafeteria operates on a non-profit basis and prices for lunch and breakfast will be the minimal amount possible. Some students may qualify for free or reduced priced meals. At the beginning of each year, applications for free meals will be sent home with the students. This application should be returned to the school within three working days. Students may complete an application anytime during the year. Applications are available in the principal's office. - When the student's prepaid account balance has dropped to the point that the student will begin receiving unpaid meals;

- Each time the student receives the first unpaid meal after money has been deposited into the student's prepaid account; and

  - a. Food(s) to avoid or restrict;
  - b. Food(s) to substitute;
  - c. Caloric modifications; or
  - d. The substitution of a liquid nutritive formula.

If the information provided in the medical statement is unclear, or lacks sufficient detail, the district's Director of Child Nutrition shall request additional information so that a proper and safe meal can be provided.

When choosing an appropriate approach to accommodate a student's disability, the District will consider the expense and efficiency of the requested accommodations. The District will offer a reasonable modification that effectively accommodates the child's disability and provides equal opportunity to participate in or benefit from the program, which may include a generic version of a product.

Parents may file a grievance regarding the request for accommodations with the District's 504 Coordinator, who will schedule a hearing on the grievance to be held as soon as possible. The 504 coordinator shall provide a copy of the procedures governing the hearing, including that the parent has the right to be accompanied by counsel, and the appeal process upon request.

The district will not prepare meals outside the normal menu to accommodate a family's religious or personal health beliefs.

The school nurse or other school employees designated by the school nurse as a care provider who have been trained and certified by a licensed physician may administer an injectable emergency dose medication in emergency situations to students who have an IHP that provides for the administration of an injectable emergency dose medication in emergency situations.

The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee(s) certified to administer an injectable emergency dose medication to administer an injectable emergency dose medication to the student when the employee believes the student is having an adrenal crisis due to adrenal insufficiency.

Students who have met the requirements to be authorized to self-administer a stress dose medication under this policy shall provide the school nurse an emergency injectable dose of the student's medication. This emergency injectable dose will be used in the event the school nurse, or other school employee certified to administer an injectable emergency dose medication, in good faith professionally believes the student is having an adrenal crisis due to adrenal insufficiency.

### **STUDENT ILLNESS/ACCIDENT**

If a student becomes too ill to remain in class and/or could be contagious to other students, the principal or designee will attempt to notify the student's parent or legal guardian. The student will remain in the school's health room or a place where he/she can be supervised until the end of the school day or until the parent/legal guardian can check the student out of school.

If a student's illness or injury is of such a nature as to require immediate medical attention or the services of a doctor when the parent cannot be reached, school officials shall act in loco parentis and undertake needed actions. Every effort shall be made to contact the student's parent or legal guardian. Parents are strongly encouraged to keep student's emergency contact information up-to-date.

### **STUDENT INSURANCE PROGRAM**

The Fountain Lake Board of Education shall contract each year with a reputable insurance company to provide no cost student accident insurance for students.

When a student is injured, a school official will see that a claim form is properly filled out and given to the student before he/she goes to the doctor or hospital. It is the parent's responsibility to file the accident claim.

The Fountain Lake School Board currently carries a secondary insurance policy which covers all students in Fountain Lake Schools during the regular school day and at all school sponsored activities. This policy will pay bills not covered by a family's primary insurance policy. **Parents should take note that this is a "secondary" policy and it has limits as to what it will pay on various services.** All costs for an injury may not be covered. The School will not accept responsibility for injury costs incurred in excess of policy limits.

Students also have the option of participating in a voluntary twenty-four (24) hour accidental insurance program for a minimal cost. Information about this program can be obtained in the building principal's office.

### **COMMUNICABLE DISEASES AND PARASITES**

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they are capable of transmitting their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include, but are not limited to: Varicella (chicken pox), measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA (Methicillin-resistant Staphylococcus Aureus), streptococcal and staphylococcal infections, ringworm, mononucleosis, Hepatitis B or C, mumps, vomiting, diarrhea, and fever (100.4 F when taken orally). A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse, when the student is no longer a transmission risk. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District's exposure control plan when dealing with any blood-borne, foodborne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

In accordance with its immunization policy, the District shall maintain a copy of each student's immunization record and a list of individuals with exemptions from immunization which shall be education records as defined in policy 4.13. That policy provides that an education record may be disclosed to appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

A student enrolled in the District who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to the school until the outbreak has been resolved and the student's return to school is approved by the Arkansas Department of Health.

The parents or legal guardians of students found to have live human host parasites that are transmittable in a school environment will be asked to pick their child up at the end of the school day. The parents or legal guardians will be given information concerning the eradication and control of human host parasites. A student may be readmitted after the school nurse or designee has determined the student no longer has live human host parasites that are transmittable in a school environment.

Each school may conduct screenings of students for human host parasites that are transmittable in a school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student.

### **IMMUNIZATIONS**

#### **Definitions**

"In process" means the student has received at least one dose of the required immunizations and is waiting the minimum time interval to receive the additional dose(s).

"Serologic testing" refers to a medical procedure used to determine an individual's immunity to Hepatitis B, Measles, Mumps, Rubella and Varicella.

#### **General Requirements**

Unless otherwise provided by law or this policy, no student shall be admitted to attend classes in the District who has not been age appropriately immunized against:

- Poliomyelitis;
- Diphtheria;
- Tetanus;
- Pertussis;
- Red (rubella) measles;
- Rubella;
- Mumps;
- Hepatitis A;
- Hepatitis B;
- Meningococcal disease;
- Varicella (chickenpox); and
- Any other immunization required by the Arkansas Department of Health (ADH).

The District administration has the responsibility to evaluate the immunization status of District students. The District shall maintain a list of all students who are not fully age appropriately immunized or who have an exemption provided by ADH to the immunization requirements based on medical, religious, or philosophical grounds. Students who are not fully age appropriately immunized when seeking admittance shall be referred to a medical authority for consultation.

The only types of proof of immunization the District will accept are immunization records provided by a:

- A. Licensed physician;
- B. Health department;
- C. Military service; or
- D. Official record from another educational institution in Arkansas.

The proof of immunization must include the vaccine type and dates of vaccine administration. Documents stating “up-to-date”, “complete”, “adequate”, and the like will not be accepted as proof of immunization. No self or parental history of varicella disease will be accepted. Valid proof of immunization and of immunity based on serological testing shall be entered into the student’s record.

In order to continue attending classes in the District, the student must have submitted:

- 1) Proof of immunization showing the student to be fully age appropriately vaccinated;
- 2) Written documentation by a public health nurse or private physician of proof the student is in process of being age appropriately immunized, which includes a schedule of the student’s next immunization;
- 3) A copy of a letter from ADH indicating immunity based on serologic testing; and/or
- 4) A copy of the letter from ADH exempting the student from the immunization requirements for the current school year, or a copy of the application for an exemption for the current school year if the exemption letter has not yet arrived.

Students whose immunization records or serology results are lost or unavailable are required to receive all age appropriate vaccinations or submit number 4 above.

### **Temporary Admittance**

While students who are not fully age appropriately immunized or have not yet submitted an immunization waiver may be enrolled to attend school, such students shall be allowed to attend school on a temporary basis only. Students admitted on a temporary basis may be admitted for a maximum of thirty (30) days (or until October 1st of the current school year for the tetanus, diphtheria, pertussis, and meningococcal vaccinations required at ages eleven (11) and sixteen (16) respectively if October 1<sup>st</sup> is later in the current school year than the thirty (30) days following the student’s admittance). No student shall be withdrawn and readmitted in order to extend the thirty (30) day period. Students may be allowed to continue attending beyond the thirty (30) day period if the student submits a copy of either number 2 or number 4 above.

Students who are in process shall be required to adhere to the submitted schedule. Failure of the student to submit written documentation from a public health nurse or private physician demonstrating the student received the vaccinations set forth in the schedule may lead to the revocation of the student’s temporary admittance; such students shall be excluded from school until the documentation is provided.

The District will not accept copies of applications requesting an exemption for the current school year that are older than two (2) weeks based on the date on the application. Students who submit a copy of an application to receive an exemption from the

immunization requirements for the current year to gain temporary admittance have thirty (30) days from the admission date to submit either a letter from ADH granting the exemption or documentation demonstrating the student is in process and a copy of the immunization schedule. Failure to submit the necessary documentation by the close of the thirty (30) days will result in the student being excluded until the documentation is submitted.

### **Exclusion From School**

In the event of an outbreak, students who are not fully age appropriately immunized, are in process, or are exempt from the immunization requirements may be required to be excluded from school in order to protect the student. ADH shall determine if it is necessary for students to be excluded in the event of an outbreak. Students may be excluded for twenty-one (21) days or longer depending on the outbreak. No student excluded due to an outbreak shall be allowed to return to school until the District receives approval from ADH.

Students who are excluded from school are not eligible to receive homebound instruction unless the excluded student had a pre-existing IEP or 504 Plan and the IEP/504 team determines homebound instruction to be in the best interest of the student. To the extent possible, the student's teacher(s) shall place in the principal's office a copy of the student's assignments:

- for the remainder of the week by the end of the initial school day of the student's exclusion; and
- by the end of each school's calendar week for the upcoming week until the student returns to school.

It is the responsibility of the student or the student's parent/legal guardian to make sure that the student's assignments are collected.

Students excluded from school shall have five (5) school days from the day the student returns to school to submit any homework and to make up any examinations. State mandated assessments are not included in "examinations" and the District has no control over administering state mandated make-up assessments outside of the state's schedule. Students shall receive a grade of zero for any assignment or examination not completed or submitted on time.

Annually by December 1, the District shall create, maintain, and post to the District's website a report that includes the following for each disease requiring an immunization under this policy:

- The number of students in the District that were granted an exemption by the Department of Health from an immunization;
- The percentage of students in the District that were granted an exemption by the Department of Health from an immunization; and
- The percentage of a population that must receive an immunization for herd immunity to exist.

## VII. STUDENT BEHAVIOR

The Fountain Lake Schools community is one in which all students are citizens. To ensure that everyone in this community receives the greatest benefit from school citizenship, each student must understand and observe the Student Behavior Code. When the privileges of citizenship are accepted, the student also accepts the responsibilities of learning and following the rules. If a student fails to follow the rules and guidelines of the Fountain Lake Schools community, appropriate disciplinary measures will be taken to maintain a proper learning atmosphere.

The Student Behavior Code is based on policies of the Fountain Lake Board of Education and its goal is to provide an atmosphere within the schools conducive to the student's education. This Code states clearly and precisely in written form specific rules and regulations which are applicable to enrolled students. These rules and regulations are (1) reasonable and proper, (2) as precise as possible, and (3) have as their basis the maintenance of a proper learning atmosphere.

It is impossible to list in this handbook all the rules and guidelines for student and staff use. Therefore, the contents of this handbook should not be construed to limit or deny the student's rights and responsibilities on his/her own campus as a member of the student body or as a citizen, neither should it be construed as limiting or denying the principal's right and responsibility to develop such necessary rules and regulations which are consistent with federal and state laws and Board of Education policies and regulations.

Application of disciplinary measures shall at all times reflect a fair and reasonable exercise of authority, being neither arbitrary, capricious, discriminatory, or otherwise unreasonable. Procedural due process, to the extent applicable, shall be afforded all students prior to the imposition of punishment. The degree of the due process afforded shall be proportionate both to the gravity of the offense and the severity of the contemplated penalty as outlined by the Board of Education in its policies relative to suspension and expulsion from school.

### **EXPECTATIONS**

Fountain Lake Schools are rich in pride and academic excellence. This tradition can only be maintained in an atmosphere of good order and discipline. We have high expectations of our students and desire that They accept the challenges presented to them to reach their full potential. Students are entitled to instruction with as few distractions as possible. For this reason, we will not allow our students to be subjected to those who choose to be disruptive, belligerent, disrespectful, or otherwise engage in actions which interrupt the educational process.

It is imperative that we all have a clear understanding of Fountain Lake Student Behavior policies and regulations of our school. Therefore, we ask that you read this Student Behavior section carefully.

### **DEFINITIONS**

The following terms are defined to insure a clear understanding of Fountain Lake Student Behavior policies and disciplinary actions.

#### **© Act 1243 of 1997**

**“AN ACT TO ENSURE UNIFORM COMPLIANCE WITH THE REQUIREMENT THAT SCHOOL OFFICIALS MUST REPORT VIOLENT CRIMES INVOLVING STUDENTS AND OCCURRING ON SCHOOL PROPERTY TO LAW ENFORCEMENT OFFICIALS.”**

Section 1-6-17-113. Duty to report and investigate student criminal acts.

- A. Whenever the principal or other person in charge of a public school has direct knowledge or has received information leading to a reasonable belief that a student enrolled in the public school has committed a felony on school property or while under school supervision or has committed any other crime involving an act of violence against a teacher, school employee, or student, the principal or the person in charge shall immediately report the incident to the superintendent of the school district. The superintendent, or his designee, shall report the incident to the appropriate local law enforcement agency for investigation.
- B. Whenever a law enforcement officer receives a report of an incident to subsection (a) of this section, that officer shall immediately report the incident to the office of the prosecuting attorney.
  - a. The prosecuting attorney shall immediately initiate an investigation of the incident.
  - b. The investigation shall be conducted with all reasonable haste and, upon completion, the prosecuting attorney shall implement the appropriate course of action.

- C. Any person who purposely fails to report as required by this section shall be guilty of a Class C misdemeanor.
- D. The State Board of Education shall promulgate rules and regulations to ensure uniform compliance with the requirements of this section and shall consult with the Office of the Attorney General concerning the development of these rules and regulations.

♦ **Contraband** - Any articles which are illegal or articles which a student possesses illegally.

♦ **Corporal Punishment** - The Fountain Lake School Board prohibits the use of corporal punishment by any employee of the District against any student.

♦ **Deportment** - The way in which students conduct themselves. A deportment (behavior) grade is assigned to each student at the end of each grading period.

♦ **Detention** - Students who violate school rules may be assigned to supervised study periods instead of being allowed to attend regular classes. Students assigned to detention will be responsible for doing work for classes missed. They will not be counted absent from class.

♦ **Disciplinary Referral** – A written report which indicates the school rule that a student is guilty of breaking. Upon receiving three (3) discipline referrals (pink slips) the child may be suspended (in school/out of school) as determined by the building principal.

♦ **Due Process** - Established procedures that must be followed by school personnel which ensure that an individual's rights have not been violated.

♦ **Equal Educational Opportunity** The Board of Education believes that every child, regardless of race, creed, color, sex, cultural/economic background, or handicap, should be given the opportunity to develop and achieve to the maximum extent possible. To provide equal educational opportunity, all programs offered by the schools within the Fountain Lake School District will be open to all students.

♦ **Expulsion** The removal of a student from the school setting by the Board of Education for the remainder of the current semester, the remainder of the current year, or permanently. Any student who has been expelled and returns to school property at any time will be arrested.

♦ **Gang or Secret Society** – Individuals who associate with each other primarily for criminal, disruptive, and/or other activities prohibited by law and/or by the School District's rules and regulations.

♦ **Hazing** – To harass by exacting unnecessary, disagreeable, or difficult tasks; or to harass by banter, ridicule, or criticism; or to play tricks by way of initiation.

♦ **Insubordination** - A state of being disobedient, resistant to authority, or unwilling to follow directions.

♦ **In-School Suspension (ISS)** – In-School Suspension (ISS) is designed as an alternative to traditional Out-of-School Suspension. Students who engage in activities which would have resulted in Out-of-School Suspension in the past may now be placed in ISS from one to ten days for each offense. During ISS a student remains on campus, but is isolated from the remainder of the student body and is closely supervised. While in ISS a student may not participate in any school related activities or functions after school hours. Specific rules and regulations for ISS are included in this handbook.

♦ **Opportunity Room** - The Opportunity Room was designed to provide structure and support to students by holding them accountable for their actions while giving them space in a supportive environment to meet their emotional or behavioral needs. Opportunity Room staff will mentor students based on their individual needs. This allows teachers to provide necessary support in handling excessive student emotional or behavioral disturbances that interrupt the educational environment.

♦ **Out-of-School Suspension (OSS)** - The temporary removal of a student from the school campus because of rules infractions. The length of time may be from one hour to 10 school days. During out of school suspension, students shall not participate in any school sponsored activities and shall not attend any school sponsored activities. During out of school suspension, students may not come on campus at any time. Students who are assigned out of school suspension are responsible

for all missed assignments and classwork that are missed in their absence from school. It will be the student's and parent's responsibility to maintain contact with the teacher(s) to get these assignments. In order to receive credit, all assignments are to be returned to their teacher(s) the first day the student returns from the out of school suspension. It is the parents' or legal guardians' responsibility to provide current contact information to the district, which the school shall use to notify the parent or guardian (the same day) upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

- A primary call number (the contact may be by voice, voice mail, or text message)
- An e-mail address
- A regular first class letter to the last known mailing address

The district shall keep a log of contacts attempted and made to the parent or legal guardian.

♦ **Saturday School** – An alternative school to In-School Suspension or Out-of-School Suspension. Strict rules will be enforced.

♦ **Parent/Guardian** - Persons who, by blood relationship or through custody or guardianship proceedings, have control or charge of any student in attendance in the district's schools.

♦ **Probation** - School personnel (principal) may suspend punishment for a rule infraction, and notify the parent/guardian of the student committing the infraction that (under certain specific restrictions) he/she must obey the rules for the remainder of the year or face a much more severe penalty than the original.

♦ **Reasonable Force** - School personnel may apply the minimum amount of force necessary to stop or restrain a student from conducting himself/herself in such a way as to possibly harm himself/herself or others.

♦ **Reasonable Suspicion** - School personnel who have reason to believe that a search or investigation will produce evidence that a student has violated or is violating the law or school rules may conduct such a search or investigation.

♦ **Refractory Conduct** - Conduct that is unacceptable and at times uncontrollable.

## **STUDENT DISCIPLINE**

The Fountain Lake Board of Education has a responsibility to protect the health, safety, and welfare of the District's students and employees. To help maintain a safe environment conducive to high student achievement, the Board establishes policies necessary to regulate student behavior to promote an orderly school environment that is respectful of the rights of others and ensures the uniform enforcement of student discipline. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school sponsored function, activity, or event; and
- Going to and from school or a school activity.

The District's administrators may also take disciplinary action against a student for off-campus conduct occurring at any time that would have a detrimental impact on school discipline, the educational environment, or the welfare of the students and/or staff. A student who has committed a criminal act while off campus and whose presence on campus could cause a substantial disruption to school or endanger the welfare of other students or staff is subject to disciplinary action up to and including expulsion. Such acts could include, but are not limited to: a felony or an act that would be considered a felony if committed by an adult; an assault or battery; drug law violations; or sexual misconduct of a serious nature. Any disciplinary action pursued by the District shall be in accordance with the student's appropriate due process rights.

The District shall incorporate the District's implementation of positive behavioral supports in accordance with Policy 4.60 in the application of student discipline.

The District's personnel policy committees shall annually review the District's student discipline policies, including State and District student discipline data, and may recommend changes in the policies to the Fountain Lake School Board. The Board has the responsibility of determining whether to approve any recommended changes to student discipline policies.

The District's student discipline policies shall be distributed to each student during the first week of school each year and to new students upon their enrollment. Each student's parent, legal guardian, person having lawful control of the student, or

person standing in loco parentis shall sign and return to the school an acknowledgement form documenting that they have received the policies.

The District shall develop and provide programs, measures, or alternative means and methods for continued student engagement and educational access during periods of suspension or expulsion.

The superintendent is authorized to modify the penalties set forth in the District's student discipline policies on a case-by-case basis.

It is required by law that the principal or the person in charge report to the police any incidents the person has personal knowledge of or has received information leading to a reasonable belief that a person has committed or threatened to commit an act of violence or any crime involving a deadly weapon on school property or while under school supervision. If the person making the report is not the Superintendent, that person shall also inform the Superintendent of the incident. Additionally, the principal shall inform any school employee or other person who initially reported the incident that a report has been made to the appropriate law enforcement agency. The Superintendent or designee shall inform the Board of Directors of any such report made to law enforcement.

The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation: the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying.

DESE Rules Governing Student Discipline and School Safety

### **IN-SCHOOL SUSPENSION (ISS)**

Students are entitled to instruction that is as free from distractions as possible. Students will not be subjected to those who choose to engage in actions which detract from a positive learning environment.

The principal is the school official responsible for making ISS assignments. Students assigned to ISS will be required to complete educationally appropriate work as assigned.

1. Assigned work must be completed and turned in upon return to class.
2. The responsibility for completion of any work lies totally with the student. A ZERO will be given for each assignment which is not successfully completed and turned upon the student's return to class.
3. If a student is assigned to ISS and is absent from school (regardless of the reason), the ISS assignment must be completed in its entirety upon the student's return.
4. Students assigned to ISS are not counted absent from school. However, while serving an ISS assignment, students will not be allowed to take part in "special" activities during the school day, nor will they be permitted to participate in or attend extra-curricular or after-hours' activities.
5. Problems, disturbances, or failure to work in ISS will automatically result in a minimum 3 day Out-of-School Suspension. The OSS assignment will cancel the remaining ISS assignment. All suspension rules, including zero credit for any work missed, will apply.
6. Repeated assignments to ISS may result in Out-of-School Suspension. Students who refuse an ISS assignment (or parents who refuse to have their child assigned ISS) will force an automatic Out-of-School Suspension, and all regulations regarding suspension will apply. If appropriate, the OSS may be longer than the ISS assignment.

### **OUT-OF-SCHOOL SUSPENSION (OSS)**

Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or in the interest of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for

disciplinary reasons for a period of time not to exceed ten (10) school days, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school sponsored function, activity, or event; and
- Going to and from school or school activity.

A student may be suspended for behavior including, but not limited to, that:

1. Is in violation of school policies, rules, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the substantial inference of the safe and orderly school environment; and/or
4. Is insubordinate, incorrigible, violent, or involves moral turpitude.

Out-of-school suspension (OSS) shall not be used to discipline a student in kindergarten through fifth (5<sup>th</sup>) grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;
- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm on school campus.

OSS shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy.

The school principal or designee shall proceed as follows in deciding whether or not to suspend a student:

1. The student shall be given written notice or advised orally of the charges against him/her;
2. If the student denies the charges, he/she shall be given an explanation of the evidence against him/her and be allowed to present his/her version of the facts; and
3. If the principal finds the student guilty of the misconduct, he/she may be suspended.

When possible, notice of the suspension, its duration, and any stipulations for the student's readmission to class will be given to the parent(s) or legal guardian(s). Such notice shall be handed to the parent(s), legal guardian(s), person(s) with lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), person(s) having lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the responsibility of a student's parents, or legal guardians, person having lawful control of the student, or person standing in loco parentis to provide current contact information to the district, which the school shall use to notify the parent, or legal guardian, person having lawful control of the student, or person standing in loco parentis upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

- A primary call number
  - the contact may be by voice, voice mail, or text message
- An e-mail address
- A regular first class letter to the last known mailing address

The district shall keep a log of contacts attempted and made to the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of OSS.

During the time of their suspension, students serving OSS are not permitted on campus except to attend a student/parent/administrator conference or when necessary as part of the District's engagement or access to education program.

During the period of their suspension, students serving in-of-school suspensions shall not attend or participate in any school-sponsored activities during the imposed suspension.

Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board.

Suspensions initiated by the Superintendent may be appealed to the board.

*Goss v Lopez*, 419 U.S. (1975)

### **EXPULSION**

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct:

- Deemed to be of such gravity that suspension would be inappropriate;
- Where the student's continued attendance at school would disrupt the orderly learning environment; or
- Would pose an unreasonable danger to the welfare of other students or staff.

Expulsion shall not be used to discipline a student in kindergarten through fifth (5<sup>th</sup>) grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;
- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm on school campus.

The Superintendent or his/her designee shall give written notice to the parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

The hearing shall be conducted not later than ten (10) school days following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board also may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, legal guardian, person having lawful control of the student, person standing in loco parentis, or student if age eighteen (18) or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses, who gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted; however, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

Except as permitted by policy 4.22, the Superintendent shall recommend the expulsion of any student for a period of one (1) year for possession of any firearm prohibited on school campus by law. ### **SATURDAY SCHOOL**

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct:

- Deemed to be of such gravity that suspension would be inappropriate;
- Where the student's continued attendance at school would disrupt the orderly learning environment; or
- Would pose an unreasonable danger to the welfare of other students or staff.

Expulsion shall not be used to discipline a student in kindergarten through fifth (5<sup>th</sup>) grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;
- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm on school campus.

The Superintendent or his/her designee shall give written notice to the parents or legal guardians (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

The hearing shall be conducted not later than ten (10) school days<sup>1</sup> following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board also may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, or student if age eighteen (18) or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses, that gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted; however, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

Except as permitted by policy 4.22, the Superintendent shall recommend the expulsion of any student for a period of not less than one (1) year for possession of any firearm prohibited on school campus by law. The Superintendent shall, however, have the discretion to modify the expulsion recommendation for a student on a case-by-case basis. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a weapons policy violation shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on

school property.<sup>2</sup> The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The Superintendent and the Board of Education shall complete the expulsion process of any student that was initiated because the student possessed a firearm or other prohibited weapon on school property regardless of the enrollment status of the student.

## **STUDENT SEXUAL HARASSMENT**

The Fountain Lake School District is committed to providing an academic environment that treats all students with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.

The District believes the best policy to create an educational environment free from sexual harassment is prevention; therefore, the District shall provide informational materials and training to students, parents/legal guardians/other responsible adults, and employees on sexual harassment. The informational materials and training on sexual harassment shall be age appropriate and, when necessary, provided in a language other than English or in an accessible format. The informational materials and training shall include, but are not limited to: the nature of sexual harassment; the District's written grievance procedures for complaints of sexual harassment; that the district does not tolerate sexual harassment; that students can report inappropriate behavior of a sexual nature without fear of adverse consequences; the redress that is available to the victim of sexual harassment; and the potential discipline for perpetrating sexual harassment.

"Sexual harassment" means conduct that is:

1. Of a sexual nature, including, but not limited to:
  - a. Sexual advances;
  - b. Requests for sexual favors;
  - c. Sexual violence; or
  - d. Other personally offensive verbal, visual, or physical conduct of a sexual nature;
2. Unwelcome; and
3. denies or limits a student's ability to participate in or benefit from any of the District's educational programs or activities through any or all of the following methods:
  - a. Submission to the conduct is made, either explicitly or implicitly, a term or condition of an individual's education;
  - b. Submission to, or rejection of, such conduct by an individual is used as the basis for academic decisions affecting that individual; and/or

- c. Such conduct has the purpose or effect of substantially interfering with an individual's academic performance or creates an intimidating, hostile, or offensive academic environment.

The terms "intimidating," "hostile," and "offensive" include conduct of a sexual nature that has the effect of humiliation or embarrassment and is sufficiently severe, persistent, or pervasive that it limits the student's ability to participate in, or benefit from, an educational program or activity.

Within the educational environment, sexual harassment is prohibited between any of the following: students; employees and students; and non-employees and students.

Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all of the surrounding circumstances and may occur regardless of the sex(es) of the individuals involved. Depending upon such circumstances, examples of sexual harassment include, but are not limited to:

- Making sexual propositions or pressuring for sexual activities;
- Unwelcome touching;
- Writing graffiti of a sexual nature;
- Displaying or distributing sexually explicit drawings, pictures, or written materials;
- Performing sexual gestures or touching oneself sexually in front of others;
- Telling sexual or crude jokes;
- Spreading rumors related to a person's alleged sexual activities;
- Discussions of sexual experiences;
- Rating other students as to sexual activity or performance;

- Teasing or name-calling related to sexual characteristics or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of whether or not the student self-identifies as homosexual or transgender.

Students who believe they have been subjected to sexual harassment, or the parent/legal guardian/other responsible adult of a student who believes their student has been subjected to sexual harassment, are encouraged to file a complaint by contacting a counselor, teacher, Title IX coordinator, or administrator who will provide assistance on the complaint process. Under no circumstances shall a student be required to first report allegations of sexual harassment to a school contact person if that person is the individual who is accused of the harassment.

Complaints will be treated in a confidential manner to the extent possible. Limited disclosure may be provided to: individuals who are responsible for handling the District's investigation to the extent necessary to complete a thorough investigation; the extent necessary to submit a report to the child maltreatment hotline; the Professional Licensure Standards Board for complaints alleging sexual harassment by an employee towards a student; or the extent necessary to provide the individual accused in the complaint due process during the investigation and disciplinary processes. Individuals who file a complaint have the right to request that the individual accused of sexual harassment not be informed of the name of the accuser; however, individuals should be aware that making such a request may substantially limit the District's ability to investigate the complaint and may make it impossible for the District to discipline the accused.

Students, or the parents/legal guardians/ other responsible adult of a student, who file a complaint of sexual harassment shall not be subjected to retaliation or reprisal in any form, including threats, intimidation, coercion, or discrimination. The District shall take steps to prevent retaliation and shall take immediate action if any form of retaliation occurs regardless of whether the retaliatory acts are by District officials, students, or third parties.

Following the completion of an investigation of a complaint, the District will inform the parents/legal guardian/other responsible adult of the student, or the student if over the age of eighteen (18), who filed the complaint:

- The final determination of the investigation;
- Remedies the District will make available to the student; and
- The sanctions, if any, imposed on the alleged harasser relevant to the student.

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment. Following an investigation, any student who is found by the evidence to more likely than not have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion.

Students who knowingly fabricate allegations of sexual harassment shall be subject to disciplinary action up to and including expulsion.

Individuals who withhold information, purposely provide inaccurate facts, or otherwise hinder an investigation of sexual harassment shall be subject to disciplinary action up to and including expulsion.

**Consequences:**

**Minimum Penalty** – Reprimand

**Maximum Penalty** – Recommended expulsion and/or notification of proper authorities

Schools may remove any student with disabilities for a disciplinary infraction for up to 10 days of school per offense. During the period of short-term exclusion, schools are not required to provide any educational services for the student.

If a student with disabilities is suspended from school for more than 10 days per academic year (long-term exclusion) this constitutes a change in placement and is subject to procedural safeguards.

  - Focusing on preventing the development and occurrence of problem behavior;
  - Regularly reviewing behavior data to adapt the District's procedures to meet the needs of every student; and
  - Providing a multitiered approach to academic and behavioral services and support to meet the academic and behavioral achievement needs of each student.

The following principles shall form the basis of the District's positive behavioral support system and conflict resolution or de-escalation approach:

1. A student has the right to be treated with dignity;
2. A student should receive necessary academic, social, emotional, and behavioral support that is provided in a safe and least-restrictive environment possible;
3. Positive and appropriate academic, social, emotional, or behavioral intervention, as well as mental health support, should be provided routinely to each student who needs the intervention or support;
4. Behavioral intervention should emphasize prevention as part of the District's system of positive behavioral support; and
5. Each student who exhibits an ongoing behavior that interferes with the student's learning or the learning of others, and who is nonresponsive to effectively implemented classroom or administrative intervention, should receive additional intensive behavioral intervention that is based on a FBA and data-based problem solving.

### **Problem Solving and Intervention Team**

A problem-solving and intervention team shall be established for each student who exhibits social, emotional, or behavioral difficulty that may escalate, if not addressed, to potentially dangerous behavior. The problem-solving and intervention team shall include at least one (1) member who is an academic and behavioral assessment and intervention professional.

A student's problem-solving and intervention team shall:

- a. Work with the teachers of a student to complete a FBA of the student and an assessment of any problematic situations involving the student;
- b. Consider the need for a BIP with the goal of preventing or resolving the social, emotional, or behavioral difficulty of the student and developing a response that will de-escalate and stabilize a potential emergency situation that approaches the danger level; and
- c. Regularly review the data on incidents involving the use of physical restraint on the student and adjust, as necessary, the procedures concerning the use of physical restraint on the student.

Special education procedures shall be followed if a student is suspected of having a disability that relates to behavioral concerns.

### **Physical Restraint**

Except in the case of a clearly unavoidable emergency situation in which a trained member of school personnel is not immediately available due to the unforeseeable nature of the emergency situation, the physical restraint of a student shall only be used by a member of school personnel who is appropriately trained to administer physical restraint.

When using physical restraint on a student, school personnel shall:

- use the least restrictive technique necessary to end imminent danger or serious physical harm to a student and others;
- Use the safest method available and appropriate to the situation;
- Consider the health and safety of a student, including without limitation whether the student has an existing medical condition that makes the use of physical restraint inadvisable;
- Not restrict the ability of a student to communicate unless the use of a less restrictive technique will not prevent imminent danger of serious physical harm to the student or others;
- Use only the amount of force that is reasonably necessary to protect a student or others from imminent danger of serious physical harm to the student or others;
- Not verbally abuse, ridicule, humiliate, taunt, or engage in any other similar action towards the student; and
- continuously and visually observe and monitor the student while the student is under physical restraint.

Physical restraint of a student shall only be used for a limited period of time and shall not be used:

- When imminent danger or serious physical harm to the student or others dissipates;
- If a medical condition occurs that puts the student at risk of harm;
- Unless the behavior of the student poses an imminent danger of serious physical harm to the student or others;
- After the threat of imminent danger of serious physical harm to the student or others dissipates; or
- In the following manner:
  - To punish or discipline the student;
  - To coerce the student;
  - To force the student to comply;
  - To retaliate against the student;
  - To replace the use of an appropriate educational or behavioral support;
  - As a routine safety measure;
  - As a planned behavioral intervention in response to behavior of the student that does not pose an imminent danger of serious physical harm to the student or others;
  - As a convenience for school personnel; or
  - To prevent property damage unless the act of damaging property committed by the student poses an imminent danger or serious physical harm to the student and others.

Even in an emergency, supine restraint shall not be used on a student except by a staff person who has been certified by a crisis intervention training program and the certified staff person determines that supine restraint is required to provide safety for the student and others.

At no time shall school personnel use the following on a student:

- Mechanical restraint;
- Chemical restraint;
- Aversive behavioral interventions that compromise health and safety;
- Physical restraint that is life-threatening or medically contraindicated; or
- Prone restraint or other restraint that restricts the breathing of a student.

Following the first incident of physical restraint used on a student, an FBA shall be conducted unless a previous FBA was conducted for the same behavior that was at issue when the physical restraint was used.

The use of physical restraint on a student as a planned behavioral intervention shall not be included in a student's IEP, 504 Plan, BIP, individual safety plan, or other individual planning document but may be considered as a crisis intervention if appropriate for the student. A student's IEP team or 504 Plan team shall consider whether an FBA should be performed; if a BIP should be developed for the student or if a student's existing BIP should be revised; and if additional behavioral goals and interventions should be included in the student's existing IEP or 504 Plan.

Parents may submit complaints regarding an incident involving the use of physical restraint on their student. A complaint shall be referred for review to the appropriate school personnel:

- The student's problem-solving and intervention team;
- The student's IEP team; or
- The student's 504 Plan team.

A complaint by a parent shall be handled by the appropriate District staff in the same manner as a debrief following the use of physical restraint on a student.

Use of a physical restraint technique that is abusive shall be reported to the Child Abuse Hotline and law enforcement.

### **Reports and Debriefing**

After the occurrence of an incident involving physical restraint of a student, the building principal, or the principal's designee, shall be notified of the incident as soon as possible but by no later than the end of the school day when the incident occurred.

The student's parent shall be notified of the incident of the use of physical restraint via verbal or electronic communication as soon as possible but by no later than the end of the school day when the incident occurred. In the event the student's parent is unable to be notified via verbal or electronic communication within twenty-four (24) hours after the incident occurred, then the parent shall be mailed written notification of the incident within forty-eight (48) hours after the incident occurred.

School personnel involved in the incident shall document the incident in a written report, which is to be completed within twenty-four (24) hours after the incident occurred. The written report of the incident shall:

1. Include all information contained in the Division of Elementary and Secondary Education (DESE) Physical Restraint or Seclusion Incident Record and Debriefing Report;
2. Be maintained in the student's education record; and
3. Be provided to the student's parent within one (1) school day of the completion of the report.

A debriefing meeting shall be held within two (2) school days after the incident occurred. The following school personnel shall be present at the debriefing meeting:

- a. A member of school personnel who was present during the incident;
- b. A member of school personnel who was in the proximity of the student on whom physical restraint was used immediately before and during the time of the incident;

- c. A school administrator; and
- d. Any other member of school personnel determined to be appropriate by the District.

The purpose of the debriefing meeting shall be to:

- Determine whether the procedures used during the incident were necessary;
- Evaluate the use of any behavioral supports and de-escalation techniques by school personnel before and during the incident;
- Evaluate the school district's positive behavioral supports system and prevention techniques in order to minimize future use of physical restraint; and
- If a trained member of school personnel was not immediately available due to the unforeseeable nature of the emergency situation when the incident occurred:
  - Reevaluate the training needs of school personnel;
  - Reevaluate the physical restraint policy and practices; and
  - Develop a plan to prevent a future incident.

At a debriefing meeting, school personnel shall:

1. Consider relevant information in the student's education record, including without limitation:
  - a. The concerns of the student's parent;
  - b. The student's social and medical history;
  - c. The student's FBA, if one exists; and
  - d. The student's BIP, if one exists;
2. Consider relevant information from the teachers, parents, and other District professionals;
3. Discuss whether positive behavior supports were appropriately implemented;
4. Discuss the duration and frequency of the use of physical restraint on the student;
5. Discuss appropriate action that may be taken to prevent and reduce the need for physical restraint;
6. Consider whether additional intervention and support is necessary for the student;
7. Consider whether additional intervention and support is necessary for school personnel; and
8. Consider how and when to debrief a person who was not present at the debriefing meeting, including without limitation:
  - a. The student;
  - b. The student's parent; and
  - c. Other school personnel or students who witnessed the incident.

DESE's Physical Restraint or Seclusion Incident Record and Debriefing Report, or an alternative report that includes the same information, shall be completed during the debriefing meeting. A copy of the report shall be:

- Submitted to the building principal;
- Mailed to the student's parent within two (2) days of the date on which the debriefing meeting was held; and
- Maintained as part of the student's education record along with other documents consulted during the debriefing meeting.

## **VIII. STUDENT PERMANENT OR CUMULATIVE RECORDS**

### **COLLECTION AND MAINTENANCE OF RECORDS**

To promote the educational progress of students it shall be the policy of the Fountain Lake Board of Education to collect and maintain an accurate cumulative record of relevant data on each student enrolled at Fountain Lake Public Schools.

The permanent or cumulative record folder shall include: all official records, files and data directly related to the student's program in the Fountain Lake School District. The data shall include identifying data, academic work completed, level of achievement (grades and standardized test scores), standard intelligence, aptitude, interest inventory results, and verified reports of various or recurrent behavior patterns.

### **RESPONSIBILITY OF RECORDS**

The principal shall be responsible for the collection and management of records and shall have overall responsibility for maintaining and preserving the confidentiality of student records. The principal is responsible for reviewing the records from time to time and for deleting any outdated information they may contain. The principal is also responsible for granting or denying access to such records.

### **PARENTS RIGHTS TO INSPECT AND REVIEW**

The parents, both custodial and non-custodial, or legal guardian of a student shall have the right to inspect and review any and all official records, files, and data directly related to their children, including all material that is incorporated into each student's cumulative record folder.

Whenever a student has attained eighteen years of age, the permission or consent required of, and the rights accorded to the parents of the student shall thereafter only be required of and accorded to the student.

All persons, parents or legal guardians, agencies, or organizations desiring access to the records of a student shall be required to sign a written form which shall be kept permanently with the file of the student. The specific interest that each person, agency or organization has in seeking this information shall be indicated on the form.

### **INTERPRETING STUDENT RECORDS**

A school staff member competent in interpreting student records shall be present to explain the meaning and implications of the records and shall initial the request form. The student and his parents or legal guardian shall have the right to make written objections to any information contained in the record. Any written objection must be signed by the person or persons making the objection and filed within 10 days after reviewing the record.

### **HEARING TO CHALLENGE CONTENT**

The person or persons making the objection shall have an opportunity for a hearing to challenge the content of their child's school record with the principal and other staff members who furnished or entered the data in the student's record. The next level of appeal would be for a hearing before the superintendent of schools.

### **PRIVACY OF STUDENT RECORDS**

Except when a court order regarding a student has been presented to the district to the contrary, all students' education records are available for inspection and copying by the parent of his/her student who is under the age of eighteen (18). At the age of eighteen (18), the right to inspect and copy a student's records transfers to the student. A student's parent or the student, if over the age of 18, requesting to review the student's education records will be allowed to do so within no more than forty-five (45) days of the request. The district forwards education records, including disciplinary records, to schools that have requested them and in which the student seeks or intends to enroll, or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information (PII) from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests. A personal record kept by a school staff member is **not** considered an education record if it meets the following tests.

- it is in the sole possession of the individual who made it;
- it is used only as a personal memory aid; and
- information contained in it has never been revealed or made available to any other person, except the maker's temporary substitute.

For the purposes of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

For the purposes of this policy a school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility, contracted duty, or duty of elected office.

In addition to releasing PII to school officials without permission, the District may disclose PII from the education records of students in foster care placement to the student's caseworker or to the caseworker's representative without getting prior consent of the parent (or the student if the student is over eighteen (18)). For the District to release the student's PII without getting permission:

- The student must be in foster care;
- The individual to whom the PII will be released must have legal access to the student's case plan; and
- The Arkansas Department of Human Services, or a sub-agency of the Department, must be legally responsible for the care and protection of the student.

The District discloses PII from an education record to appropriate parties, including parents, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

The superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release PII in a health or safety emergency, the District may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

For purposes of this policy, the Fountain Lake School District does not distinguish between a custodial and noncustodial parent, or a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his child's records.

If there exists a court order which directs that a parent not have access to a student or his/her records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, disciplinary rulings, disability placements, or other such determinations, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the Superintendent or his/her designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.

Unless the parent or guardian of a student (or student, if above the age of eighteen [18]) objects, "directory information" about a student may be made available to the public, military recruiters, post-secondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbooks and graduation announcements. "Directory information" includes, but is not limited to, a student's name, address, telephone number, electronic mail address, photograph, date and place of birth, dates of attendance, his/her placement on the honor roll (or the receipt of other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. "Directory information" also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user.

A student's name and photograph will only be displayed on the district or school's web page(s) after receiving written permission from the student's parent or student if over the age of 18.

The form for objecting to making directory information available is located in your child's registration packet and must be completed and signed by the parent or age-eligible student and filed with the building principal's office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district.

The right to opt out of the disclosure of directory information under Family Educational Rights and Privacy Act (FERPA) does not prevent the District from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled.

Parents and students over the age of 18 who believe the district has failed to comply with the requirements for the lawful release of student records may file a complaint with the U.S. Department of Education (DOE) at

Student Privacy Policy Office

A copy of the student's permanent record shall be provided to the receiving school district within ten (10) school days after the date a request from the receiving school district is received.

### **ANONYMOUS DATA**

The school may provide anonymous data, not specific to any individual student, from its records for outside purposes without consent under conditions where the likelihood of identifying any individual because of his unique characteristics is negligible.

### **Students have the right to:**

1. Pursue, through study and self application, a quality education at public expense and to attain personal goals.
2. Participation in programs or activities is on a competitive basis, each student has the right to compete on an equal basis.

5. Participate in patriotic exercises or refrain from participating.
6. Be secure in the persons, papers, and effects against unreasonable searches and seizures; have privacy in regard to their personal possessions, unless there is reasonable suspicion that the student is concealing materials prohibited by law.

### **Students have the responsibility to:**

1. Attend classes daily, be on time to all classes and obey school rules.
2. Foster good human relations within the school by practicing courtesy and tolerance in their dealings with each other and members of the school staff, and to respect the dignity and worth of other individuals.

### **Due Process**

Every student is entitled to due process in every instance of disciplinary action for which the student may be subjected to penalties of suspension or expulsion.

1. Due process is afforded to students in disciplinary cases of some magnitude such as:
  - a. suspension
  - b. expulsion
  - c. statements removed from students' records and
  - d. clearing one's reputation
2. The due process rights of students and parents are as follows:
  - a. Prior to any suspension, the school principal or his/her designee, shall advise the pupil in question of the particular misconduct of which he/she is accused, as well as the basis of such accusation.
  - b. The pupil shall be given an opportunity to explain his/her version of the facts to the principal or his/her designee.
  - c. Written notice of suspension and the reason(s) for the suspension shall be given to the parent(s) of the pupil.

### **Search, Seizure, and Interrogations**

The District respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable and individualized suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community. School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness;

however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.

The Superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.

A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Division of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, person having lawful control of the student, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.
