## HEALTHY SMILES

### School Based Dental Program Coming to Your School

Did you know that cavities can be prevented? Dental sealants can prevent 80% of cavities in back teeth, where 9 in 10 cavities occur. Sealants are a quick, easy and painless way to prevent most cavities children get and they can be applied by a dentist or dental hygienist right in schools.

Healthy Smiles, llc. will be providing oral health services including dental sealants through the Wisconsin Seal-A-Smile program at no charge to students or families. All students in grades PK -12 are eligible.

A consent form must be filled out before any child can participate. Please visit

<https://sealasmile.wisconsin.gov/Consent/Home/About> to learn more and sign your child up today. If you already turned in a paper consent this school year, you do not need to sign up electronically. **Please sign up by Monday October 31, 2022.**

**Questions?** Please contact Aimee Bestul, Healthy Smiles, llc. Program Manager, at [aimee.healthysmiles@outlook.com](mailto:aimee.healthysmiles@outlook.com) or 715-412-3320.
