## Third Grade Weekly Skills Week 12 (11/8 – 11/12)

#### **ELA**

Review and District Benchmark

#### Math

Cumulative 7

## LESSON 42

LESSON OBJECTIVE(S)/GOALS

- 1. Draw pictorial models of given fractions.
- 2. Recognize that a given fraction can be represented by many different pictorial models.
- Understand the importance of dividing whole objects into equal parts when drawing fractions.

#### LESSON 44

LESSON OBJECTIVE(S)/GOALS

- Name a fraction of a group using symbols and words.
- Use the words "numerator" and "denominator" to describe fractions of a group.
- 3. Name a fraction of a group based on information given in a story problem.

## LESSON 43

LESSON OBJECTIVE(S)/GOALS

- 1. Use pictorial models to compare fractions of a whole.
- Use manipulatives such as fraction circles and fraction bars to model and compare fractions of a whole.
- 3. Draw pictures to compare fractions.

# LESSON 45

LESSON OBJECTIVE(S)/GOALS

- Describe events as "more likely" or "less likely."
- 2. Analyze a pictorial model of a probability experiment to identify which events are more likely or less likely.
- 3. Explain why events are more or less likely.
- Watch probability experiments and decide which outcomes are more or less likely.
