Salaries for teachers on extended contracts are figured by dividing salary by 190 and multiplying by # of contracted days.

The Osceola School District pays full credit to teachers for experience in other accredited school systems as well as for experience in the Osceola system.

Salary increments for educational qualifications are based on graduate work in a field allied with the teacher's subject or grade level area. Transcripts for the graduate work must be submitted to the office of the Superintendent by September 15th of the ensuing year in order for the teacher to receive the aforementioned increments.
