Dear Parent/Guardian,

CMS 8th grade students will be visiting Whitewater Career Center next Friday, March 24th, during the school day. Diamond students will be at WCC in the morning (9:00-10:50 am) and Windjammer students will be there in the afternoon (12:15-2:05 pm). Students will be accompanied by their teachers.

Whitewater Career Center provides career and technical education for high school juniors and seniors from six local school corporations and is located on Connersville High School campus. WCC offers 13 career programs for high school students. The 8th grade students will have an opportunity to learn about each of the 13 programs during their tour. These tours are taken to give students a chance to look ahead to their high school career and the options available. A tour of the CHS campus will take place later this spring.

If you do not wish your student to attend the WCC field trip, please contact CMS student Services at 825-1139 ext. 26329 to let us know.

Thank you!

Victoria Smejkal
School Counselor
