Zearn from home:

In order to maintain continuity of learning we are encouraging students to complete one Zearn lesson each day. Below are the steps for logging in from home...

1. Go to google home page.
2. In upper right corner click "sign in" (If someone else is signed into your device sign them out so you can sign in. Just like on our class chromebooks.)
3. Sign in with your email ([firstlastname@maryvalek12.org](mailto:firstname.lastname@maryvalek12.org)) then your MVpassword.
4. Go to [Zearn.com](https://www.zearn.com) and click "sign in with google".
5. Choose your account and you will be directed to your Zearn page.

* One Zearn lesson each day can take the place of the review math that was sent home. If you do not have the ability to access Zearn from home, you are encouraged to continue to make daily progress in your Math review resource packet. You are welcome to work on both, but it is not necessary.
