## **SHAC meeting minutes**

Welcome, explanation of "Opt-in" sex education program

Karli presents information to parents about factual, scientifically based sex ed program and the question of whether such a program is necessary at Rochelle ISD

Class would be broken down into several sessions. Discussion about how often classes would occur.

Possibilities: once a week, once a month, twice a month

Should students take this course every year or every other year

Parental discussion and concerns: Same sex topics, homosexuality, gender confusion

Students could be broken up into 4 groups; 5th grade through 7th grade girls/boys and 8th grade through 10th grade girls/boys

Classes would be taught in lecture-style, discouraging any discussion and limiting questions to clarification purposes

The Parent Teacher Club voted unanimously that there's a need in the school for such a program

Meeting adjourned at 8:00p.m.
