PHILOSOPHY

The Board of Education of the Paducah Independent School System is committed to providing quality educational opportunities for all students. Essential to this commitment is the active recruitment of the best qualified personnel available and a continual evaluation of their performance as professionals. Teacher evaluation is an integral component in the process of improving teaching and providing optimum learning opportunities.

Board of Education policy stipulates that one of the responsibilities of the Paducah Independent Schools is the creation of a favorable climate in which all staff members may perform their duties and meet their responsibilities to children. Staff evaluation is one of the programs that facilitates this goal.

Teacher evaluation should promote and encourage academic excellence by emphasizing positive feedback for teaching techniques and strategies to improve student achievement. One of the main functions of the observation/evaluation process is to provide opportunities for the principal to make classroom and non-classroom observations of the individual teacher's performance. Observations must relate to professional competencies, instructional process, classroom management, interpersonal relationships, and professional responsibilities. Meaningful feedback will be given to the evaluatee.

We function under the assumption that all have a desire for professional growth and improvement so that they can become even more effective in performing classroom and non-classroom responsibilities. The insight and growth of each staff member, resulting from participation in the staff evaluation program, are more significant than the process itself. Staff evaluation should be continual and should be a constructive, cooperative experience between the staff member and the principal. This staff evaluation program is tailored to the individual's needs and minimizes the comparison of the one person's performance with that of another. The staff member has the opportunity to use initiative in defining specific areas for growth and to work cooperatively with that person's principal to achieve personal and school goals through professional growth plans or enhancement.

Paducah Independent District Certified Evaluation Plan

The Kentucky Framework for Personnel Evaluation

The Kentucky Framework for Personnel Evaluation is designed to support student achievement and professional practice through the following Performance Measures:

Planning
Environment
Instruction
Professionalism

The Kentucky Framework for Personnel Evaluation includes: 1) the Kentucky Framework for Teaching for teachers and 2) the Kentucky Framework for Teaching –Specialist Frameworks for other professionals.

These frameworks include themes such as equity, cultural competence, high expectations, developmental appropriateness, accommodating individual needs, effective technology integration, and student assumption of responsibility. They provide structure for feedback for continuous improvement through individual goals that target student and professional growth, thus supporting overall school improvement. Evidence documenting professional practice is situated within one or more of the four domains of the framework. Performance is rated for each component according to four performance ratings: Ineffective, Developing, Accomplished, and Exemplary. The summative rating is a holistic representation of performance, combining data from multiple sources of evidence across each domain.

The use of professional judgment based on multiple sources of evidence promotes a holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators also take into account how educators respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual educator performance, such as: school-specific priorities that may drive practice in one domain, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings:

Required Sources of Evidence

- Professional Growth Planning and Self-Reflection
- Observation

Optional Sources of Evidence

- ✓ Other Measures of Student Learning
- ✓ Products of Practice
- ✓ Other Sources

All components and sources of evidence will be completed and documented to inform the Overall Summative Rating.

Performance Measures

Self-Reflection and Professional Growth Planning

Reflective practices and professional growth planning are iterative processes. The teacher (1) reflects on his or her current growth needs based on multiple sources of data and identifies an area or areas for focus; (2) collaborates with his or her administrator to develop a professional growth plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on his or her professional practice; (5) modifies the plan as appropriate; (6) continues implementation and ongoing reflection; (7) and, finally, conducts a summative reflection on the degree of goal attainment and the implications for next steps.

The Professional Growth Plan addresses realistic, focused, and measurable professional goals. The plan connects data from multiple sources including classroom observation feedback, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. In collaboration with the administrators, teachers identify explicit goals which drive the focus of professional growth activities, support, and on-going reflection.

Required

- All certified school personnel will participate in self-reflection and professional growth planning each year.
- All certified school personnel will document self-reflection and professional growth planning on board-approved evaluation forms.

Local District Decision

- ✓ Professional Growth Plans will be developed by the certified school personnel and approved by the building level administrator within 20 school days from the district mandated Data Analysis Professional Development Day. Certified school personnel will complete Professional Growth Plans on the board-approved template (see appendix). They will be submitted to the evaluator who will approve them or ask for more revisions if necessary. The evaluatee will document their professional learning and the evaluator will monitor progress toward completing the professional growth plan throughout the year as necessary. The evaluator will conduct a final review the evaluatee's progress on the professional growth plan at the end of the year.
- ✓ Certified school personnel will self-reflect regularly but at a minimum of at least once during the first semester as defined by the school calendar and again during the 3rd nine weeks as defined by the school calendar. Certified school personnel will complete self-reflection on the board-approved template (see appendix). They will be submitted to the evaluator who will approve them or ask for more information if necessary.
- ✓ Certified school personnel who are hired after Data Day will have 30 school days from their start date to submit their Professional Growth Plan.
- ✓ After the development of professional growth plans, each evaluator will provide assistance to each evaluatee in meeting the goal, objectives, and activities as stated in the plan. The evaluator shall document the assistance provided in the growth plan. In addition, each evaluatee, through professional development activities, will have an opportunity to meet some of his/her professional growth plans.

Observation

The observation process is one source of evidence to determine educator effectiveness for each certified teacher and other professional. The supervisor observation provides *documentation and feedback* to measure the effectiveness of professional practice. Peer observations of the teacher or other professional may be initiated by the certified personnel or evaluator for formative feedback on professional practice in a collegial atmosphere of trust and common purpose. NO ratings are given by the peer observer. Only the supervisor observation will be used to inform a summative rating. The rationale for each type of observation is to encourage continued professional learning in teaching and learning through critical reflection.

Observation Model

The observation model must fulfill the following minimum criteria:

Required

The non-tenured and tenured observation model must fulfill the following minimum criteria:

- ♦ Three (3) observations in the summative cycle. A minimum of 3 observations conducted by the supervisor.
- ♦ Peer observation may also be done at the request of the teacher/other professional or evaluator, but it is not required. In order to be a peer observer, teachers must complete the state-developed peer observation training.
- ♦ Final observation is conducted by the supervisor and is a full observation.

Local District Decision

- ✓ Professional Growth Plans, Observation Summaries, and Formative Evaluation Summaries must be documented using board-approved forms.
- ✓ **The Progressive Model (3&1 model)**
Observers will conduct three mini observations of approximately 20-30 minutes each. Because these are shorter sessions, the observer will make note of the components observed in order to identify "look fors" in the next mini observation session. The final observation is a formal observation consisting of a full class or lesson observation.
- ✓ If any certified staff member misses 60 or more consecutive days in a given school year, the district may choose to suspend the summative evaluation until the following school year.
- ✓ It is the policy of the Paducah Board of Education that all certified school personnel will be evaluated on a regular, systematic basis.
- ✓ The following system will be used for the evaluation of all tenured and non-tenured Teachers and Other Professionals.

Observation Schedule

Required

- ♦ Observations may begin after the evaluation training takes place within 30 calendar days of reporting for employment each school year.

Local District Decision

- ✓ **Non-Tenured Certified School Personnel:**
 - The Formative 1 (mini) observation by the evaluator must be completed during the first semester.
 - The Formative 2 (mini) observation and Formative 3 (full) observation must be completed by March 31. Note: the final observation of the cycle shall be a full observation.
 - The Summative Evaluation Conference and Professional Growth Plan review must be completed by April 14.
- ✓ **Tenured Certified School Personnel:**
 - The Formative 1 (mini) observation must be completed by March 31 of the first year of the three year summative cycle
 - The Formative 2 (mini) observation must be completed by March 31 of the second year of the three year summative cycle
 - The Formative 3 (full) observation must be completed by March 31 of the third year of the three year summative cycle
 - The Summative Evaluation Conference and Professional Growth Plan review must be completed by April 14 of the third year of the three-year summative cycle.
- ✓ **Late Hires:**
 - If a certified school personnel starts employment on or before December 1, then three observations (2 mini observations and 1 full observation) will be required. The evaluator may choose to do all of the observations in the second semester.
 - If a certified school personnel starts employment between December 2-March 1, then only two observations (1 mini observation and 1 full observation) will be required. The evaluator may choose to do all observations in the 2nd semester.
 - If a certified school personnel starts employment after March 1, then only one observation (1 full observation) will be required.

Observation Conferencing

Observers will adhere to the following observation conferencing requirements for teachers and other professionals:

Required

- Observers will conduct observation conference within five (5) working days.

- The summative evaluation conference shall be held at the end of the summative evaluation cycle.

Local District Decision

- ✓ Formative 1 observation will be announced for all certified school personnel.
- ✓ The Pre-Observation form must be completed for Formative 1.
- ✓ Formative Observations 2 and 3 may or may not be announced.
- ✓ Summative Evaluations will consist of a compilation of three formative evaluation forms and the summative form.
- ✓ Pre-conferencing is not required for Formative Observations 2 and 3. If a pre-conference is done, it shall take place within 5 working days prior to the observation. The evaluator and evaluatee shall review the questions listed on the pre-conference form. Pre-conferencing may be done in a face-to-face meeting or electronically. A face-to-face pre-conference shall take place prior to the lesson if the evaluator or evaluatee requests the meeting.
- ✓ The immediate supervisor of the evaluatee should conduct that evaluatee's evaluation. In cases of personnel serving more than one school, one principal of the school in which the person is providing services will be designated the primary evaluator. Other principals may request input into the evaluation process.
- ✓ All monitoring or observation of the performance of each evaluatee shall be conducted with the full knowledge of the evaluatee. All evaluatees shall receive a copy of the criteria on which he or she is being evaluated. Additional trained administrative personnel may be used to observe and provide information to the primary evaluator.
- ✓ A minimum of three observations for the purpose of collecting formative and summative evaluation data shall be conducted during the evaluatee's evaluation period unless the evaluatee is a late hire or misses more than 60 school days in a school year (See Late Hires section above for more information).
- ✓ A Corrective Action Plan may be developed for two reasons. It is required when an evaluatee receives an "ineffective" rating on the summative evaluation. It is written also to address an immediate need observed that is outside a scheduled or unscheduled observation. (i.e.: repeated instances of any unacceptable behaviors such as inappropriate disciplining, repeated tardiness or unexcused absences, etc.) The plan shall be written on the approved form and aligned with specific goals and objectives for the school or to address specific behaviors. As in a growth plan, the plan shall specify the goal, objective, the behavior that needs to change, procedures and activities for achieving the goal, assistance needed and by whom, the appraisal method and the completion date.
- ✓ Each evaluation of certified school personnel shall include a minimum of one (1) summative evaluation conference between the evaluator and the evaluatee.

- ✓ All observations shall be documented. All observations shall include a post-observation conference within 5 working days following the observation.
- ✓ All summative and formative evaluations shall be in writing on the district evaluation forms. The summative evaluation conference shall be held at the end of the evaluation cycle and include all evaluation data.
- ✓ All certified school personnel who are evaluated shall have the opportunity to respond in writing to the evaluation. This response shall be appended to the evaluation.
- ✓ Either the evaluator or the evaluatee may request a third party evaluation by additional administrative personnel.
- ✓ The selection of the third-party observer shall, if possible, be determined through mutual agreement by evaluator and evaluatee. A certified employee who exercises this option shall do so, in writing to the evaluator, by no later than February 15 of the academic year in which the summative evaluation occurs. If the evaluator and evaluatee have not agreed upon the selection of the third-party observer within five (5) working days of the evaluatee's written request, the evaluator shall select the third-party observer.
- ✓ A copy of the evaluation shall be provided to each evaluatee and the original shall be maintained in the personnel file in the central office.
- ✓ All certified school personnel being evaluated shall have the opportunity to appeal the summative evaluation to the appeal committee through established procedures.
- ✓ A request for a third observer must be received by the personnel director no later than February 15 of the summative year.
- ✓ Appeal requests must be filed with the personnel director no later than 5 days after the summative evaluation has been received.

***REMEMBER:** Every person who has to have a teacher or administrator certification has to have a form that evidences the Kentucky Standards or ISLLC standards. Paducah Independent School psychologists will be evaluated using the Specialist Framework for Other Professionals.

Evaluator Training

All administrators serving as a primary evaluator must undergo evaluation training which includes training on observation techniques. This includes the required Initial Certified Evaluation Training for new evaluators as well as the six-hour EILA Approved update evaluation training. This training may occur at the district or school levels.

Products of Practice/Other Sources of Evidence

Teachers and Other Professionals may provide additional evidences to support assessment of their own professional practice. These evidences should yield information related to the teacher's practice within the domains.

Required

- ♦ Observations conducted by certified supervisor observer(s)
- ♦ Self-reflection and professional growth plans

Optional Sources of Evidence

- ✓ The following are other sources of evidence that can be used to support educator practice:

Determining the Overall Summative Rating

Supervisors are responsible for determining an Overall Performance Category for each teacher at the conclusion of the summative evaluation year. The Overall Performance Category is informed by the educator's ratings on professional practice and student growth. The evaluator determines the Overall Performance Category based on professional judgment informed by evidence that demonstrates the educator's performance against the Domains, district-developed rubrics and decision rules that establish a common understanding of performance thresholds to which all educators are held.

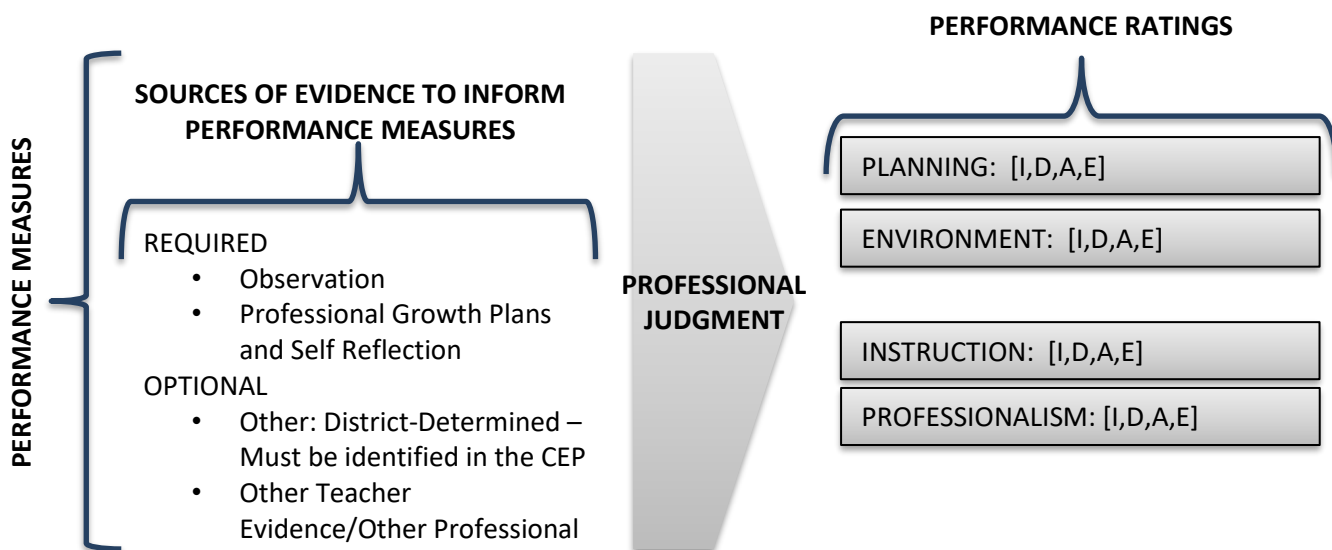

Rating Performance Measures

The Kentucky Framework for Teaching stands as the critical rubric for providing educators and evaluators with concrete descriptions of practice associated with specific domains. Each element describes a discrete behavior or related set of behaviors that educators and evaluators can prioritize for evidence-gathering, feedback, and eventually, evaluation. Supervisors organize and analyze evidence for each individual educator based on these concrete descriptions of practice.

The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each Domain at the culmination of an educator's cycle.

Required

- ♦ **Provide a rating for each Performance Measure based on evidence.**

Determining the Overall Summative Rating

An educator's Overall Performance Category is determined using the following steps:

- ♦ **Determine the individual Performance Measure rating for each measure through the use of sources of evidence and professional judgment.**
- ♦ **Apply Decisions Rules for determining an educator's Overall Summative rating.**

Principal Evaluation Plan Components

Evaluators will look for trends and patterns in practice across multiple types of evidence and apply their professional judgment based on this evidence when evaluating a principal. The role of evidence and professional judgment in the determination of ratings on standards and an overall rating is paramount in this process. However, professional judgment must be grounded in the common framework identified: The Professional Standards for Educational Leaders.

Principal Performance Standards

The Professional Standards for Educational Leaders are designed to support student achievement and professional best-practice. The standards include: 1) Mission, Vision, and Core Values 2) Ethics and Professional Norms 3) Equity and Cultural Responsiveness 4) Curriculum, Instruction and Assessment 5) Community of Care and Support for Students 6) Professional Capacity of School Personnel 7) Professional Community for Teachers and Staff 8) Meaningful Engagement of Families and Community 9) Operations and Management 10) School Improvement. The Performance Standards provide the structure for feedback for continuous improvement through individual goals that target professional growth, thus supporting overall student achievement and school improvement. Evidence supporting a principal's or assistant principal's professional practice will be situated within one or more of the ten standards.

All of the standards will be grouped under the following four Performance Measures in order to align with the Kentucky Framework for Personnel Evaluation:

Planning
Environment
Instruction
Professionalism

Performance will be rated for each Performance Measure according to the four performance ratings: Ineffective, Developing, Accomplished, and Exemplary. It is projected that most principals or assistant principals will maintain an Accomplished rating but will occasionally have exemplary performance on standards at any given time. The summative rating will be a holistic representation of performance, combining data from multiple sources of evidence across each standard.

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators will also take into account how principals respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual principal performance. These factors may include school-specific priorities that may drive practice in one standard, an educator's number of goals, experience level and/or leadership opportunities. Contextual variables may also impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings:

Required Sources of Evidence

- ♦ **Professional Growth Planning and Self-Reflection**
- ♦ **Site-Visits**
- ♦ **Student Growth Data**

Evaluators may use the following categories of evidence in determining overall ratings:

- ✓ **Other Measures of Student Learning**
- ✓ **Products of Practice**
- ✓ **Working Conditions Survey Data**
- ✓ **Other Sources**

Performance Measures

The following sections provide a detailed overview of the various sources of evidence used to inform Professional Practice Ratings.

Professional Growth Planning and Self-Reflection – completed by principals & assistant principals

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including site-visit conferences, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. Self-reflection improves principal practice through ongoing, careful consideration of the impact of leadership practice on student growth and achievement.

Required:

- ♦ All principals will participate in self-reflection and professional growth planning each year.
- ♦ All assistant principals will participate in self-reflection and professional growth planning each year.

Local District Decision:

- ✓ By July 30, the principal / assistant principal and the evaluator will discuss evaluation criteria.
- ✓ Within two weeks of District Data Disaggregation Day, the principal / assistant principal will complete the following from the PGES Reflective Practice, School Improvement Goal, and Professional Growth Planning Template (p. #94):
 - Reflection on the Standards in the Kentucky Principal Professional Growth and Effectiveness System (Part A)
 - Student Growth Goal (Part B) – This is a goal selected from the Comprehensive School Improvement Plan (CSIP). Principal Student Growth Plan will be completed two weeks after our District Data Disaggregation Day.
 - Principal's Working Condition Goal (Part C)
 - Professional Growth and Effectiveness Data Reflection (Part D)
- ✓ Within two weeks of the District Data Disaggregation Professional Development Day, the principal / assistant principal and the evaluator will collaborate to develop the Principal Student Growth Plan (Part B) and the Connecting Priority Growth Needs to Professional Growth Planning (Part E #1)
- ✓ Late hires will begin the process on their hire date.

Site-Visits – completed by supervisor of principal – formal site visits are not required for assistant principals

Site visits are a method by which the superintendent may gain insight into the principal's practice in relation to the standards. During a site visit, the superintendent will discuss various aspects of the job with the principal, and will use the principal's responses to determine issues to further explore with the faculty and staff. Additionally, the principal may explain the successes and trials the school community has experienced in relation to school improvement.

Required:

- ♦ Conducted at least twice each year. (Formal site-visits are not required for the assistant principal.)

Local District Decision:

- ✓ A site visit will be conducted during first semester of school by the evaluator.
- ✓ The mid-year conference will be conducted prior to the beginning of the second semester of school. Prior to the conference, the principal will complete Connecting Priority Growth Needs to Professional Growth Planning (Part E #2 on-going reflection). The evaluator will use data collected from the site visit, the PGES Reflective Practice, Student Growth, and Professional Growth Planning form, and various other sources to complete the formative evaluation form.
- ✓ A second site visit will be conducted during the second semester. Evidence gathered from that visit along with the formative meeting during the first semester will be used to complete the principal summative evaluation.
- ✓ Prior to the principal's summative evaluation, the principal will complete the PPGES Reflective Practice, Student Growth and Professional Growth Form Part E #3.
- ✓ The summative conference will be completed by June 15.
- ✓ Late hires will begin the process on their hire date.

Student Growth

Principals must set Student Growth Goals based on the Comprehensive School Improvement Plan in eProve. At least one (1) of the Student Growth Goals set by the Principal must address gap populations. Assistant Principals will inherit the SGG (both state and local contributions) of the Principal.

School Improvement Goal Based on Comprehensive School Improvement Plan and/or Data Day Goals (Goal inherited by Assistant Principal)

Principals are responsible for setting at least one student growth goal that is tied directly to the Comprehensive School Improvement Plan (CSIP) and/or Data Day Goals. The superintendent and the principal will meet to discuss the trajectory for the goal and to establish the year's goal that will help reach the long-term trajectory target. New goals are identified each year based on the CSIP goals. The goal should be customized for the school year with the intent of helping improve student achievement and reaching the long term goals through on-going improvement. The school's progress toward these Student Growth Goals will factor into the Principal's Overall Performance Measures Ratings.

Required:

- ♦ Selection based on Comprehensive School Improvement Plan Goals and Data Day Goals.
- ♦ Based on Gap population.

Local District Decision:

- ✓ The principal and superintendent will agree on which Student Growth Goal the principal will focus on for the school year based on the school's CSIP Goals and Data Day Goals that are established by the school council.
- ✓ The process for establishing high, expected, or low growth is the following:

- ✓ High Growth – the percentage of students reaching the established target exceeds the agreed upon goal set in the Reflective Practice, Student Growth and Professional Growth Student Planning Form Part B.
- ✓ Expected Growth – the percentage of students reaching the established target improves from the prior year. The percentage of students reaching the established target may or may not meet the agreed upon goal set in the Reflective Practice, Student Growth and Professional Growth Student Planning Form Part B.
- ✓ Low Growth – the percentage of students reaching the established target does not improve or decreases from the agreed upon goal set in the Reflective Practice, Student Growth and Professional Growth Student Planning Form Part B.

Products of Products of Practice/Other Sources of Evidence

Principals/Assistant Principals may provide additional evidences to support assessment of their own professional practice. These evidences should yield information related to the principal's/assistant principal's practice within the domains.

- SBDM Minutes
- Faculty Meeting Agendas and Minutes

Determining the Overall Summative Rating

Superintendents are responsible for determining an Overall Performance Category for each principal at the conclusion of their summative evaluation year. The Overall Performance Category is informed by the principal's ratings on professional practice and student growth.

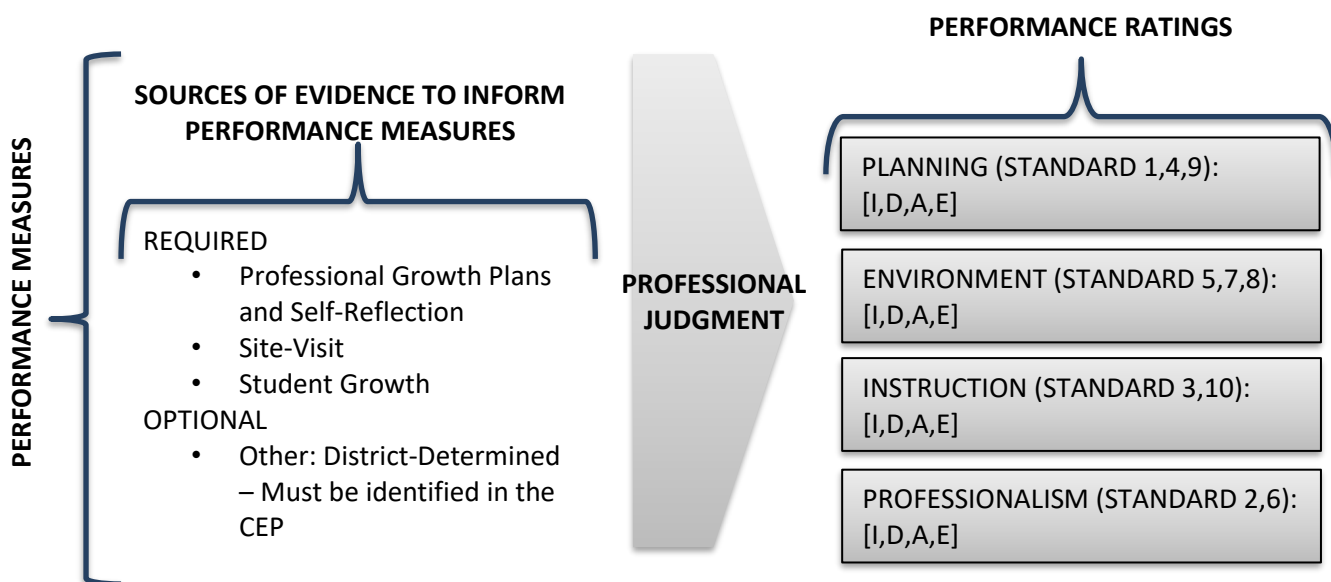

Performance Ratings

Required:

- ♦ The performance measure ratings will be determined for each measure.
- ♦ Use decision rules to determine an overall rating.

Local District Decision:

- ✓ Evidence for professional practice will be collected throughout the year. A professional practice rating will be given by June 15th of each school year.

A principal's/assistant principal's Overall Summative Rating is determined by the evaluator based on the principal's ratings on each Performance Measure. Using the sources of evidence for principals/assistant principals, evaluators will use professional judgment to determine a rating for each measure. Next, the evaluator will use the following decision rules for determining the Overall Summative Rating:

District Certified Personnel Performance Criteria and Measures

Professional Standards for Educational Leaders are designed to support student achievement and professional best practice. Included in the PSEL standards are performance indicators that provide examples of observable, tangible behaviors that provide evidence of each standard. The Standards provide the structure for feedback for continuous improvement through individual goals that target professional growth, thus supporting overall student achievement and school improvement. Evidence supporting a District Certified Employee will be situated within one or more of the PSEL standards.

For the purposes of evaluation, the relevant standards for each certified district position will be grouped under the following four Performance Measures to align with the Kentucky Framework for Personnel Evaluation:

Planning
Environment
Instruction
Professionalism

Performance will be rated for each standard according to the four performance levels: Ineffective, Developing, Accomplished, and Exemplary. It is projected that most district certified personnel will maintain an Accomplished rating but will occasionally have exemplary performance on standards at any given time. 10. The chairperson of the Panel shall present the Panel's decision to the evaluatee, evaluator, and the Superintendent within fifteen (15) working days from the date the appeal is filed.
11. The Superintendent may take appropriate action consistent with the Panel's decision.
12. The Panel's decision and the original summative evaluation form shall be placed in the employee's evaluation file. In the case of a new evaluation, both evaluations shall be included in the employee's personnel file.
