2018 - 2019

ANNUAL NOTIFICATION OF ASBESTOS LOCATION

In compliance with the Federal Asbestos Hazard Emergency Response Act (AHERA), notification is required by all local education agencies to identify the location and condition of all asbestos-containing materials in the schools, and to develop plans to minimize the hazard of airborne asbestos fibers to building occupants. All known or assumed asbestos-contained building materials are as follows:

USD 239 Board Office:

- Ceiling tiles

Minneapolis Jr-Sr High School:

- Pipe fitting above ceilings
- Stage-gym heaving wiring
- Ceiling tiles and floor tiles
- Fire doors – black lab tables
- Transit panels inside fume hood
- Transit panels – duct insulation joints

Minneapolis Grade School:

- Gypsum mud – ceiling and floor tiles
- Fire doors, light cords, linoleum
- Mobile units – floor tile, ceiling tile, linoleum
- Gypsum board

In the summer of 1990 and 1991, all other known asbestos was removed.

All precautions are taken to not damage any remaining asbestos. All buildings are checked and re-inspected regularly for possible damage or disturbance to the asbestos-containing materials.

If you have any questions, please call or visit the district office at 716 E. Seventh Street, Minneapolis, Kansas, (785) 392-2167.
