

RP-TLE WEEKLY PARENT COMMUNICATION

WEEK OF NOVEMBER 15, 2021

Dear Families,

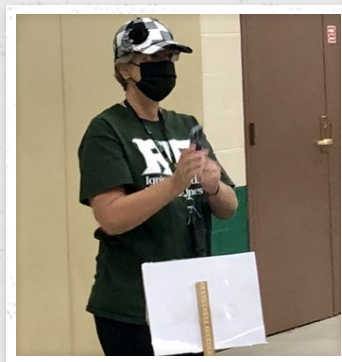

I stop into classrooms all of time and have the pleasure of catching learning. This week, I enjoyed spending time in our kindergarten classrooms, including Mrs. Monaweck and her young five year olds. They were playing a game around solving problems. Mrs. Monaweck shared a problem scenario that would be common in her young fives' classroom and the kids had a chance to find the solution that they would choose before coming to their teacher. What a skill! This activity allowed the kids to think and explain their decision, building their confidence and independence. A shout out to Mrs. Monaweck for facilitating this activity with her learners. Rocket three for our littlest learners!

ROCKET STAR TEACHER OF THE WEEK....

This teacher's car is in the school parking lot before many of us arrive in the morning and often after many of us leave. They are willing to try anything, if it's going to help kids. They are on their game ALL of the time~anytime you peek into their classroom, teaching and learning is happening! This teacher was eager to pilot a new Social Emotional curriculum this year to support her learners. She is a teacher mentor to one of our newest teammates and has a great story telling voice! She loves to walk and enjoys swimming in Lake Michigan. She has a bird named Baby Gus and is teaching him how to talk. Our Rocket STAR teacher of the week is Ms. Zweigle!!
