Message from the Principal:

Dear Parents:

What a wonderful and exciting year this has been with so many great things happening at Jarman with our students, staff, and school. This year we kept our schoolwide theme, “Super Heroes,” which represents our students' and teachers' abilities to work hard throughout the year, despite some obstacles we may face. Our students have continuously met the challenges of middle school in the classroom and in the extracurricular arenas, and we are very proud of what they have accomplished.

This report card includes information that is unique to our school and is based on our current population. The graphs showing the Benchmark scores were compiled using the 2016-2017 school year test results. The Jarman test results showed an increase in many areas, while still below the state average in other areas. We are excited about the improvements overall on our scores compared to district averages and the previous year.

These scores reflect the hard work of all Jarman Middle School stakeholders, which includes students, teachers, and parents. The standards are definitely challenging, but we embrace them and continue to work hard to overcome any obstacles and will continue to reach for new heights in our academics.

Additionally, during the 2018-2019 school year we will continue to place great emphasis on student attendance while focusing on academic areas that still need more responsiveness to grow. Students have to be at school, on time, and remain until the end of the day in order to receive the fullness of their education. All of us working together led to 2017-2018 being a great year. By working together as a team, we can make 2018-2019 a fantastic year. Jarman Middle School will continue to strive for excellence with the idea that today will be better than yesterday and continue to excel academically.

Let me thank you, once again, for all you have done to make this year a fantastic year. The faculty and staff will continue to provide your child with the best education possible to ensure that Jarman's students are safe, challenged, and ready.

Your partner in education,

Lynette Brown
