Message from the Principal:

Dear Highland Park Parents and Guardians,

Thank you for all the support you have shown this year for your child's education. Student with involved parents do much better academically. This school report card reflect data from the prior year of 2016-2017.

On the back of this letter, you can see how the 3rd graders and 5th graders did on the OCCT test administered in April of 2017. The numbers reflect the percentage of students scoring "Proficient" and above for the Reading, Math, and Science tests. You can then come Highland Park to the district and state percentages.

We strive every daily to provide extra tutoring for students who are scoring lower than proficient in Reading and Math. Our RTI tutoring sessions work with students from all grade levels to provide extra time and practice on essential skills.

At home, you can provide your child with help by having them read every day, asking them about their school work, and keeping in contact with the teacher and school. Students achieve better academically if they have involved parents who question them about their school day.

Highland Park staff is committed to the total education of your child so they can be successful and productive citizens,

Again, thank you for your support, have a wonderful and safe summer, and keep your child reading.

Dr. Donna Cloud

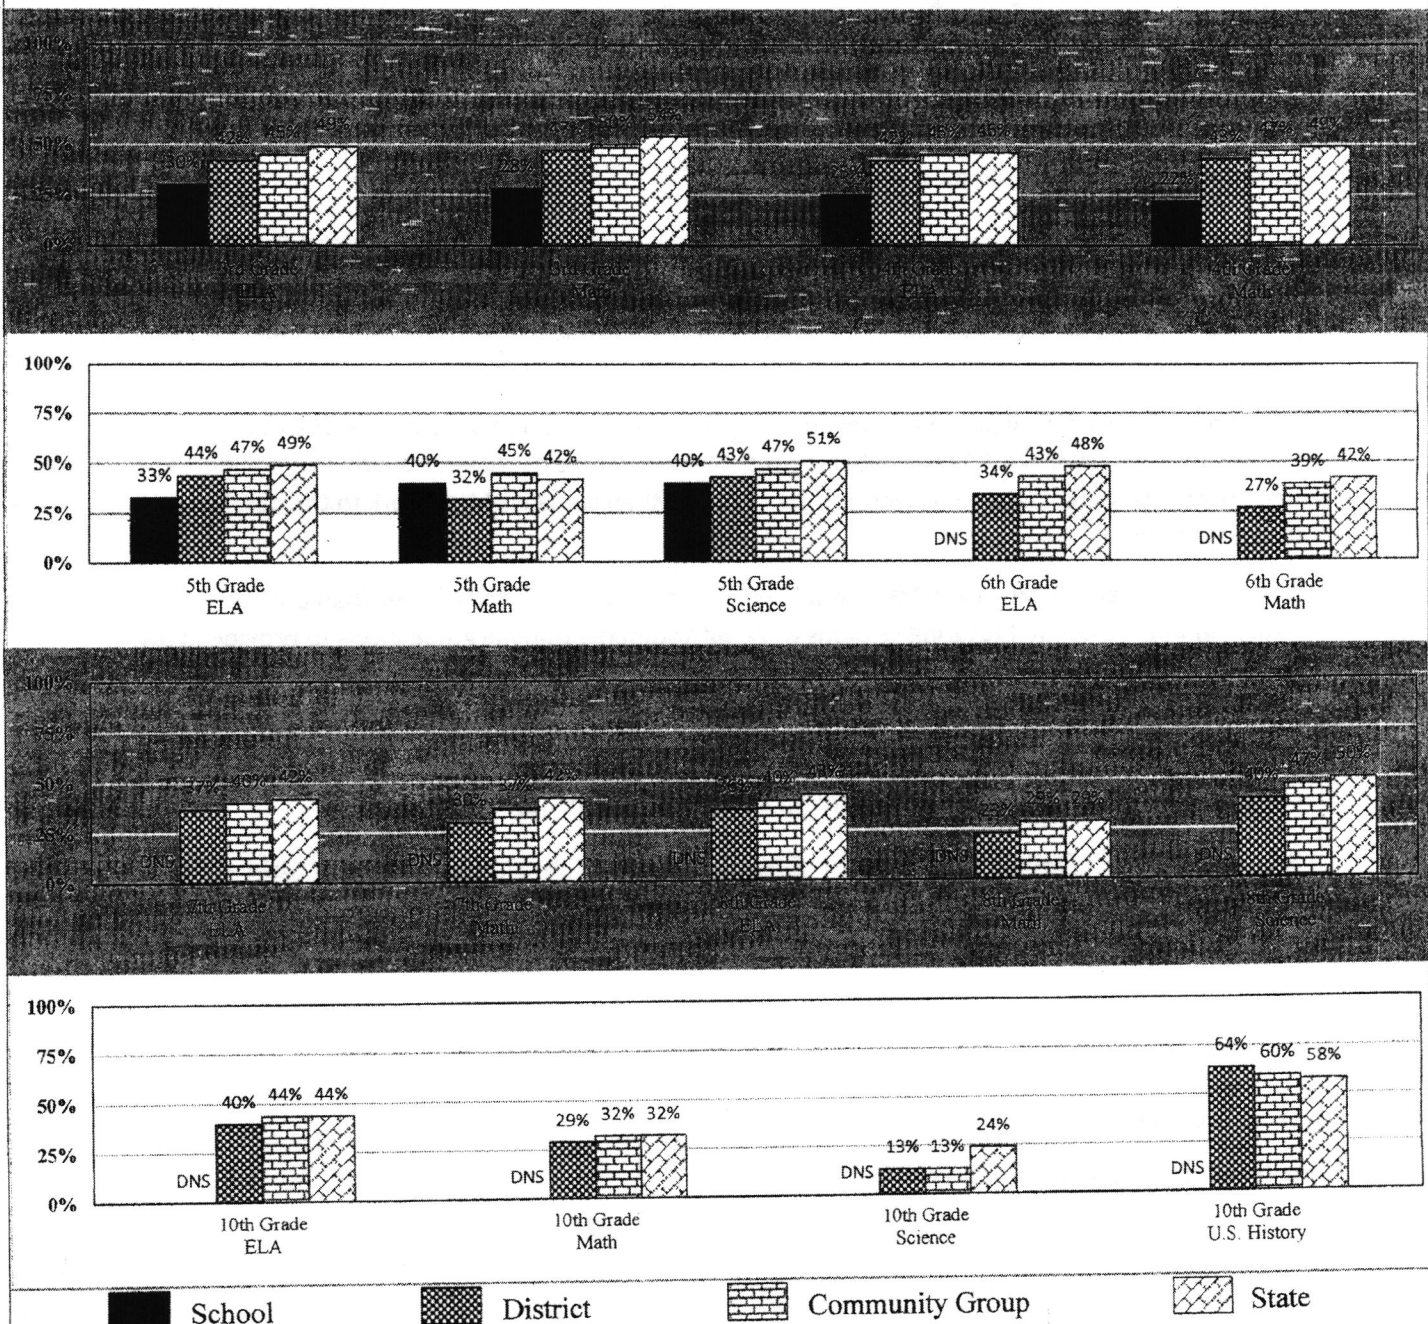

Principal, Highland Park

2016-17 Student Performance (Regular Education Students, Full Academic Year at This Site)

The state of Oklahoma adopted much higher performance standards in 2017. The test results are therefore not comparable to those from previous years.
