

## **MANAGEMENT COMMENT LETTER**

Board of Education  
Maine-Endwell Central School District  
Endwell, New York

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Maine-Endwell Central School District (the School District) as of and for the year ended June 30, 2021, in accordance with auditing standards generally accepted in the United States of America, we considered the School District's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This letter does not affect our report dated October 7, 2021 on the financial statements of the Maine-Endwell Central School District.
