

## ILLINI BLUFFS COMMUNITY UNIT SCHOOL DISTRICT #327

### RISK MANAGEMENT PROGRAM

Illini Bluffs Community Unit School District #327 shall have in operation a comprehensive Risk Management Program which shall reduce or prevent the District's exposure to liability or loss as more fully described in the Illinois Local Governmental and Governmental Employees Tort Immunity Act (745 ILCS 10/1-101 *et seq.*) (hereinafter referred to for convenience only as "liability"). It is of the utmost importance for the District: 1) to ensure that statutory and common law, health, and safety rights are extended to all visitors, employees, and students; 2) to make certain that the district's buildings and grounds are maintained in a safe condition; and 3) to provide careful supervision and protection of all the District's real and personal property, including vehicles.

The Illinois Local Governmental and Governmental Employees Tort Immunity Act permits a school district to annually levy a tax that could pay the costs and expenses of risk management.

Specifically, the Act provides that funds raised pursuant to this authorization may be used to:

...(i) pay the cost of insurance, individual or joint self-insurance (including reserves thereon), including all operating and administrative costs and expenses directly associated therewith, claims services and risk management directly attributable to loss prevention and loss reduction, legal services directly attributable to the insurance, self-insurance, or joint self-insurance program, and educational, inspectional, and supervisory services directly relating to loss prevention and loss reduction, participation in a reciprocal insurer..., including all costs and reserves directly attributable to being a member of an insurance pool,...; (ii) pay the costs of and principal and interest on bonds issued...; (iii) pay judgments and settlements...; and (iv)...pay the cost of risk management programs.

745ILCS 10/9-107(b). Given the recent litigation across the State of Illinois involving the interpretation of this statute, and the costs of defending such litigation, the District will not fund the entire Risk Management Program under this levy. However, the Risk Management Program remains in effect.

The District's Risk Management Program shall provide for:

1. Identification of various components of risk management;
2. Clearly delineated personnel responsibilities;
3. Adequate insurance against liability exposure; and
4. Identified and allowable costs for the maintenance of the Risk Management Program.

This Risk Management Program identifies and establishes an effective risk management process that uses the District's physical and human resources to effectuate the policy and achieve the purposes set forth herein. The following steps in the risk management process are the basis for this Risk Management Program:

1. Identify and analyze loss exposures. These steps include identifying persons and property that are exposed to loss and the perils that can cause the loss, and measuring the potential frequency and severity of the loss exposures. Identification should be a systematic and ongoing process. Measurement should review the number of accidents that are likely to occur, how severe the dollar losses are likely to be, and the variation in the potential losses in order to prioritize the exposures according to their importance.
2. Select techniques for treating loss exposures. This step requires developing techniques to manage the identified exposures, such as eliminating the sources of loss exposure and replacing them with lower risk solutions, re-allocating the exposure to others such as the purchase of insurance, managing the loss in a manner that reduces the likelihood of its occurrence and/or minimizes the effect on the District, or acknowledging the existence of a particular loss exposure and accepting the associated level of loss exposure.
3. Implement the selected techniques. This involves determining how to implement the selected techniques, identifying the person(s) to perform and monitor the techniques, and communicating that information to the appropriate personnel, and then implementing the technique using the District's physical and human resources.
4. Monitor and modify the selected techniques. Key components in this step are the supervision and inspection of the implementation of the technique, which will reveal if the technique is successfully addressing the exposures identified in Step 1. This includes not only supervision and inspection by the District Administration, but also requires self-

reporting by the persons selected to implement the technique. If a technique is not working and a correction is warranted, the first three steps in the process should be repeated.

The District finds that the most effective manner in which to implement this Risk Management Program is to thoroughly integrate risk management into every level of the District's operations. All employees shall have the duty to perform all four steps of the risk management process for those areas over which they have responsibility and to report on their findings and recommendations.

The policy, purpose, authority and program provided for in this Risk Management Program are not new to the District. Most if not all District employees perform the risk management process pursuant to the District's policies, practices and procedures already in place. This Risk Management Program is therefore intended to supplement, and to the extent necessary clarify and amend the District's policies, practices and procedures in order to implement risk management activities in the manner stated in this Risk Management Program.

The general, overall responsibility for the development and maintenance of the District's Risk Management Program rests with the Superintendent. The Superintendent shall be responsible for the development of the Program, identifying the various components of the Program, and delegating responsibilities for these components to the appropriate personnel as necessity dictates. It is expected that the Superintendent will continuously evaluate the effectiveness of the Program and be apprised of needed revisions and additions or deletions to the components and assigned responsibilities.

A primary component of the Risk Management Program is the provision of an insurance/compensation program that will provide protection to the District against liability. The Superintendent is responsible for this portion of the risk Management Program which includes, but shall not be limited to, the following components:

1. Purchase of insurance consultant services;

2. Payment of premiums for various necessary insurance, including all liability insurance, building and fleet insurance, workers' compensation, unemployment compensation, personnel bonds, etc.;
3. Payment of judgments or settlements arising against the District; and
4. Payment of all legal fees connected with protecting or defending the District against liability.

The bidding of supplies, equipment, and contractual services is also a responsibility of the Superintendent. The Superintendent is responsible for the bidding of supplies, equipment, and contractual services in such a manner that the District meets all requirements for freedom from tort situations by meeting statutory and regulatory requirements for toxic materials, equal opportunity employment, prevailing wage rates, quality of supplies and equipment, verifying bidder qualifications, etc.

The Superintendent, in his/her capacity as the chief executive of the district, has responsibility to ensure that the Risk Management Program is adopted and implemented in the District. The Superintendent evaluates the effectiveness of the Program and suggests revisions to the Program. The Superintendent is also directly involved in risk management activities, especially those related to litigation.

The responsibilities for special education services are assumed by the Superintendent. These responsibilities are in four major areas:

1. The guarantee of protection of the constitutional and statutory rights of students;
2. Reducing exposure to tort situations involving the legal and proper student testing, evaluation, identification, and placement of special education students;
3. Providing for the confidentiality of student psychological profiles and records; and
4. Discipline of special education students.

For the purposes of properly levying for the expenses of this Risk Management Program pursuant to the Illinois Local Government and Governmental Employees Tort Immunity Act, it is necessary to determine what portion of each District employee's compensation is attributed to his/her

responsibilities under this Risk Management Program. The Superintendent, in conjunction with other District Administration, has therefore determined the following allocations for the purpose of allocating a particular portion of an employee's compensation to the Tort Immunity Levy. Performing ordinary duties with due care shall not be allocated and chargeable to the Tort Immunity Levy.

It is expected that the Superintendent will expend twenty-five percent (25%) of his/her time directly related to fulfilling the responsibilities of his/her position in the District's Risk Management Program. It is expected that the Superintendent's secretary will expend fifteen percent (15%) of his/her time assisting the Superintendent in fulfilling his/her responsibilities under the District's Risk Management Program.

The District's bookkeeper is assigned the responsibility for serving as the District's liaison to the various consulting services, claims and adjustment services, and insurance companies. He/she is also assigned the responsibility for receiving all incoming communications, either written or by telephone, from various consulting services, claim and adjustment services, insurance companies, attorneys and collective bargaining agents pertaining to risk management, answering questions, and directing the communications to the appropriate personnel. The bookkeeper is responsible for typing, proofing and mailing all correspondence concerning these assigned responsibilities.

The District's bookkeeper also has the responsibility to receive, check for accuracy and, when approved by the Board of Education, make payment on all bills to consulting services, claim and adjustment services, and insurance companies.

It is expected the bookkeeper will devote approximately fifteen percent (15%) of his/her time toward the fulfillment of these duties.

The District's Risk Management Program in relation to the safe conditions of the buildings and grounds and protection of the District's real and personal property shall primarily be the responsibility of the Director of Facilities. His/her responsibilities and duties shall include, but not be limited to:

1. Development and identification of responsibilities for the periodic and routine inspection, maintenance, and repair of buildings, grounds, vehicles, and equipment to provide protection to the District, its employees, its students, and the general public;
2. Maintenance of legal and safe conditions of the buildings and grounds in compliance with state and federal laws regarding employee and student health and safety (asbestos, radon, lead, pesticides, herbicides, etc.);
3. Serve as the District's official Asbestos Management Director;
4. Training of the District's custodial and maintenance personnel to perform work on safety and health matters; and
5. Supervision of custodial and maintenance personnel in the performance of their duties under the Risk Management Program.

It is expected that the Director of Facilities/Director of Buildings and Grounds will expend twenty-five percent (50%) of his/her time directly related to fulfilling the responsibilities of his/her position in the District's Risk Management Program. It is expected that the transportation and maintenance technician will devote twenty-five percent (25%) of their time in daily inspection, maintenance, and repair of buildings, grounds, vehicles, and equipment, to provide a risk-free environment. It is expected that other custodial and maintenance personnel will devote between ten percent (10%) and fifty percent (50%) of their time, depending upon their individual job assignments, in daily inspection, maintenance, and repair of buildings, grounds, vehicles, and equipment, to provide a risk-free environment.

An environmental company will perform professional industrial hygiene services for the Illini Bluffs CUSD #327 schools. The goal of these services is to identify potential environmental concerns affecting the health and safety of building occupants. The company will conduct a preliminary indoor air quality (IAQ) investigation of Illini Bluffs CUSD #327 schools to identify potential concerns in the school year 2016-2017. The IAQ investigation will address potential sources of contaminants, carbon monoxide, carbon dioxide, relative humidity, temperature and air velocity. An IAQ program will be established for each school with monitoring on a quarterly basis. They will also conduct lead-based

paint risk assessments for each school, along with testing drinking fountains for lead content. These actions will only be performed once, unless laboratory results indicate that continuous monitoring is necessary, the company will also install carbon monoxide detectors in each school. Carbon dioxide and carbon monoxide testing will be performed on a quarterly basis. The company will also set up radon testing kits to determine if a potential problem may exist.

The District's Risk Management Program in relation to the health and safety of the District's students and employees is the responsibility of the Building Principals, the Transportation Director, their administrative staff, and other staff they supervise. The degree of this responsibility (time invested) varies in accordance with the number of students involved, the age of those students, and the number of employees involved. Building Principals, Transportation Director, and the employees they supervise shall provide for the protection of students and employees from exposure to tort-producing situations which arise from, but are not limited to, the following:

1. Incidents in the lunchrooms;
2. Incidents on playgrounds;
3. Incidents occurring during school athletics;
4. Incidents occurring during physical education classes;
5. Incidents occurring during vocational training, technical education, or shop work;
6. Incidents in connection with the transportation of students:
  - a. Boarding a bus, van, or other District-owned vehicle;
  - b. During transit to/from school or school-related events in a bus, van, or other District-owned vehicle;
  - c. Disembarking from a bus, van, or other District-owned vehicle; and
  - d. Immediately prior to boarding and after disembarking a bus, van, or other District-owned vehicle;

7. Incidents in connection with safety of students from traffic hazards and exposure to risk;
8. Incidents due to acts of fellow students:
  - a. Committed in classroom; and
  - b. Committed outside of classroom; and
9. Incidents occurring:
  - a. Before school buses arrive;
  - b. During or between class periods;
  - c. During noon hour or recess periods; and
  - d. After school buses depart.

It is expected that each Building Principal will expend thirty percent (30%) of his/her time in meeting his/her responsibilities associated with the Risk Management Program.

It is expected that the Transportation Director will expend fifty percent (50%) of his/her time in meeting his/her responsibilities associated with the Risk Management Program and all bus drivers and transportation staff devote fifteen percent (15%) of their time in meeting the objectives of the Risk Management Program.

It is expected that the secretarial and clerical staff supervised by the Building Principals and Assistant Principals will devote ten percent (10%) of their time on duties directly related to risk management.

Certificated teachers and coaches have specific job responsibilities relating to student safety as related to their overall job responsibilities in their specific areas of instruction. As a result of their specific job responsibilities they expend between ten percent (10%) and twenty-five percent (25%) of their time in meeting their responsibilities associated with the Risk Management Program. Clerical staff supervised by certificated teachers and coaches are expected to spend between five percent (5%) and twenty percent (20%) of their time on risk management duties.

Certificated special education teachers are responsible for monitoring the behavior and protecting the health and safety of the individual students and groups of students they serve. The time expended by special education teachers in fulfilling their responsibilities under the Risk Management Program will vary each year, depending upon the types of services required by District students. It is expected that between ten percent (10%) and fifty percent (50%) of the cost of special education services is attributable to special education teachers' risk management duties.

The District employs aides in regular classes. The aides oversee individual and group behaviors inside and/or outside of the classroom. As a result of their inherent duties, these aides expend ten percent (10%) of their time meeting risk management objectives.

One of the primary responsibilities of the school nursing services is the protection of the health and safety of students and employees. The school nurse is directly involved with the District's compliance with state health laws and ensuring that the students have been physically examined in a legal manner and are in a risk-free physical condition, both in relation to other students and District personnel. Nursing services have the additional risk management responsibility of reducing student/employee exposure to communicable diseases and other health and safety problems. Not only is the school nurse responsible for limiting exposure, but he/she is also responsible for the assistance and protection of students with specified health problems, health needs, and safety needs. The portion of time devoted by the school nurse to limiting and avoiding tort and situations arising from the health, safety, and physical conditions of all students is seventy-five percent (75%) to one-hundred percent (100%) of his/her time.

The District's Technology Support Specialist is responsible for the installation and maintenance of the District's software programs, including Internet filtering software, and for monitoring the use of these programs in accordance with licensing agreements. The Technology Support Specialist plans and implements staff development programs for the classroom and educational use of computers. He/she is

also responsible for supervising and monitoring the use of the Internet by students and employees in accordance with state and federal law. These duties require the Technology Support Specialist to expend fifty percent (50%) of his/her time meeting risk management objectives.

The District employs an Associate Superintendent/CSBO who monitors the district's risk management plan and oversees the technology department. One of the primary responsibilities of the Associate Superintendent/CSBO is protecting the district from cyber security attacks. These duties require the Associate Superintendent/CSBO to expend fifty percent (50%) of his/her time meeting risk management objectives.

The District employs a Food Service Director, head cooks, assistant cooks, and cafeteria staff in the preparation and service of wholesome meals to students and employees in accordance with health and safety standards required by state and federal law and regulations.

The Food Service Director, all cooks and cafeteria staff are required to perform their duties in accordance with the rules, regulations and laws that will ensure a healthy and safe environment for themselves and their fellow employees. In fulfilling their job responsibilities, the Food Service Director devotes fifty percent (50%) of her time in meeting the objectives of the Risk Management Plan and all cooks and cafeteria staff devote fifteen percent (15%) of their time in meeting the objectives of the Risk Management Program.

Employees in other positions may be assigned duties and responsibilities that involve exposure to tort and risk situations or the monitoring, modification, and/or elimination of such situations. The Administration shall be responsible for identifying such employees and for documenting the duties and allocating the time to be expended by them under the Risk Management Program.

## School Resource Officer

Illini Bluffs Community Unit School District #327 may pursue an intergovernmental agreement with the local Sheriff's office for policing services. This would include employing a School Resource Officer (SRO) for the protection and welfare of the district's students and staff. The SRO is an officer that works with all three schools to maintain a safe environment for students and staff. The SRO performs many risk management duties in terms of responding to student conduct incidents, intervening when possible criminal conduct has occurred, and safeguarding staff and students. In addition, the SRO assists the administration with investigations related to violations of community laws on school district property. As a result of the SRO job responsibilities, they expend one hundred percent (100%) of their time meeting risk management objectives.

| <b>EXPECTATION OF TIME DEDICATED TO RISK MANAGEMENT ACTIVITIES</b> |         |
|--|---------|
| Superintendent   | 25%     |
| Associate Superintendent/CSBO                                      | 50%     |

| Summer school             | 10% |
| Intramural program        | 80% |
| Early-retirement program  | 12% |

**INSURANCE:**

Building, Workers' Compensation, Unemployment Insurance, Errors and Omissions, Liability, Fleet, Personnel Bonds, Cyber liability

SERVICES:

- Legal fees connected with protecting or defending the District against liability
- Insurance Consultant
- Consultants and/or training of employees concerning HIV, Hepatitis B and communicable diseases
- Legal fees for defending against constitutional and civil rights violations and tort suits
- Fire monitoring system
- Special education services through Special Education Association of Peoria County (SEAPCO)
- Cybersecurity MIS agreement

JUDGMENTS:

- Any and all tort judgments or settlements for compensatory damages against the District

OTHER:

- Other such expenses that the administration deems appropriate under the tort immunity legislation

DETAILED RISK MANAGEMENT EXPENDITURES

Risk management and/or insurance related:

- Risk management administrative expenses
- Loss prevention program expenses
- Treasurer's bond
- Vehicle insurance
- Comprehensive school package policy
- Unemployment insurance
- Workers' Compensation insurance
- School Board legal liability
- Umbrella policies
- Malpractice insurance (nurse)
- Vandalism expenses
- Insurance deductible costs
- Cyber liability
- Abuse and molestation

Buildings/ground alterations:

- Surveys or removal of underground storage tanks
- Testing or building alterations related to sick-building syndrome
- AHERA compliance
- ADA compliance
- Playground equipment repairs
- Replacement playground equipment
- Testing for radon
- Testing for lead in drinking water
- Asphalt repairs and seal coating

Security:

- Building security systems
- Security devices
- Security monitoring systems (cameras)
- Playground supervisors
- Bus monitors
- Bus camera monitoring systems
- School Resource Officer (SRO)

Blood borne pathogens:

- Purchase of universal precaution kits (bandages, Bactine, Lysol, etc.)
- Costs related to personal protective equipment
- Costs related to the disposal of bodily fluids

Inclusionary education costs:

- Multi-disciplinary conference costs (special consultants)
- Appeals, hearing, court recorder costs

Physical education and athletics:

- Gym mats
- Refurbishing/testing helmets/equipment
- Padded basketball backboards
- Bleacher inspections
- Bleacher repairs
- Replacement bleachers

Miscellaneous:

- Fees associated with attendance at risk management workshops
- Crossing guards
- Eyewash stations for chemistry labs
- Fringe benefit costs related to salaries allocated to risk management

Asbestos:

- Asbestos Management Director
- Sampling and testing
- Air sampling professional
- Project Manager

Security systems:

- Purchase
- Upgrades
- Replacements
- Firewall and network/Internet monitoring licensing

ILLINI BLUFFS COMMUNITY UNIT SCHOOL DISTRICT #327

STATE OF ILLINOIS     )  
COUNTY OF PEORIA    )     SS.  
VILLAGE OF GLASFORD )

CERTIFICATE

I, Aaron Lowe, DO HEREBY CERTIFY that I am the Secretary of the Board of Education in and for Illini Bluffs Community Unit School District #327 and that the foregoing is a true and correct copy of the Risk Management Program duly updated by the Board of Education of Illini Bluffs Community Unit School District #327 at a regular meeting held on the 19<sup>th</sup> day of October, 2022, said update being a part of the official records of said Board of Education.

A handwritten signature in black ink, appearing to read "Aaron Lowe", is written over a horizontal line.

Secretary of the Board of Education  
Illini Bluffs Community Unit School District #327
