Description: Riverview School District will utilize its PLC process to ensure collaboration between teachers, interventionists, instructional coaches, and administrators as well as evaluation of data. Response to interventions, social emotional learning, NWEA assessments, and state assessment data will be used to meet the needs of all students. We will collaborate with parents to determine targeted assistance programs. Students whose data shows lost learning gaps will receive additional small group and/or individualized interventions with a paraprofessional, literacy interventionist, or math interventionist.

2.B. Process for Evaluating Implementation: Please describe how the LEA will evaluate the effectiveness of these interventions.

Evaluation:

The effectiveness of interventions will be evaluated based on data from numerous sources (NWEA, classroom, RTI process, etc.) to track student growth and the effectiveness of the interventions. The response to intervention team which consists of grade level representatives as well as special education, counselors, and interventionists, will be reviewing data regularly to monitor students with a greater need for intervention. We will focus on the student and staff health and safety and staff retention which will lead to highly qualified teachers, consistency for students, and student success. The continuation of services will enhance our opportunity to close the lost learning gap.
