**STUDENT
HANDBOOK**

FORWARD

This handbook is prepared to inform students, parents, and faculty of Atkins School District regulations. The information presented is important for the school to function in the best manner possible. Read and study this book to become more familiar with traditions, regulations, curriculum, organizations, and activities of Atkins School District.

On behalf of the faculty and administrative staff, we extend a cordial welcome to you as a member of the student body. We sincerely hope that your years spent at ASD will be an enjoyable educational experience. We invite you to share in all of the privileges and responsibilities available to members of the student body. Your teachers, counselors, principals and superintendent are interested in making your days in school happy and worthwhile. This handbook is prepared for the benefit of students, teachers, and parents. It contains much of the information that is necessary to be familiar with the routine affairs of the school. The school has the responsibility to inform students of their rights and responsibilities; likewise, the students have the responsibility to know and abide by the rules and regulations of the school. Familiarizing themselves with school regulations is desirable for parents. This will help to eliminate misunderstandings and to create a joint effort in maintaining a quality educational program.

This handbook was revised and adopted July 19, 2022.

SECTION 1

GENERAL INFORMATION

1.1-ALMA MATER

We hold the memories of high school,
The days we love so well,
Memories of friendships made in classes,
On these our thoughts will always dwell.
But high school friendships all must sever,
And for the past we breathe a sigh.
We love thee so our Alma Mater,
Our dear old Atkins High.

We gather and the campus echoes
With laugh and song of student gay;
Forgetting that upon the morrow
Must come the parting of our way;
And yet whatever be life's portion,
Though memories fade as time goes by,
We love thee still our Alma Mater,
Our dear old Atkins High.

1.2-CLOSING SCHOOL

If school is closed or dismissed early due to bad weather, uncontrollable circumstances, etc., area radio stations, social media and television stations will be notified and asked to announce the closing. School Messenger will also be used as a means of communication concerning school closings. Students and parents should not call the school or the homes of the superintendent or principals as those phone lines need to be open to contact school personnel and radio stations.

1.3-COLORS AND EMBLEM

The school colors of Atkins School District are Scarlet and White. The mascot is the Red Devil.

1.4-ERRANDS

No student shall be taken from class or from school and sent on errands away from the school except by permission of the principal.

1.5-GRADUATION CEREMONIES

Commencement ceremonies are provided by the Atkins School District in honor of the graduating seniors to satisfactorily commemorate this important step in the student's lives. Students who have not completed all of the required number of credits will not be allowed to participate in graduation activities.

1.6-LOST AND FOUND

All articles that are found in or around the school should be turned into the office immediately. If you have lost an item, check with the principal's office. All students should be responsible for their property. When possible, all personal belongings (coats, purses, etc.) should be clearly marked with the name of the student. Locks should be locked on lockers at all times. When school is dismissed for the summer, any items of clothing remaining in the lost and found will be donated to local agencies.

1.7-PARENTAL PERMISSION FORM

A permission form will be required to attend off campus field trips.

1.9-WITHDRAWAL

A student who is withdrawing from school should present a request from his or her parents. He or she must return textbooks, all library books, school issued laptops, and pay any fines due before being officially withdrawn from school.

SECTION 2
SCHOOL POLICIES

2.1-ADMISSION TO THE BUILDING

The school building and campus are open each day for students at 7:20 a.m. and remain open until approximately 4:20 p.m. Students finding it necessary to arrive earlier or leave later must make arrangements through the principal's office. A place will be provided for students during inclement weather during the morning and/or lunch.

2.2-BOMB THREATS

Anyone who calls in or otherwise makes a bomb threat to a school will be referred to the legal authorities. Students shall also be recommended for expulsion.

2.3-CAFETERIA USE

The cafeteria is operated under the control and supervision of Atkins School District. All food services meet the requirements of the Arkansas Department of Education and the Arkansas Department of Health. Every student is issued an identification number to be used each time they eat in the cafeteria. In accordance with Federal Regulations of the Child Nutrition Guidebook, school districts are not required to serve persons, who would pay full or reduced prices for meals, but do not bring money to pay. Students and faculty must pay for meals in advance or on the day of service. However, as a courtesy, the Atkins School district will allow students or faculty to charge in an emergency only. Any charges should be paid the following day. No more than two charges will be allowed to accumulate at any time. Charges should not occur on a regular basis. Every effort will be made to contact the parent/guardian about the charges made by a student. Students who have accumulated two charges will be encouraged to apply for free or reduced meals. Forms are available in the principal's office for students meeting the requirements for free and reduced meals. This is a federally funded program and all students are encouraged to apply.

Every student is issued an identification number to be used each time they eat in the cafeteria. Meal prices are as follows:

Breakfast - Full paying student .80 Lunch – Full paying Student \$1.75
Breakfast - Reduced pay student .30 Lunch – Reduced pay Student .40
Breakfast - Adult \$2.15 Lunch – Adult \$3.65

Students are to observe the following practices in the cafeteria:

1. Walk to the cafeteria.
2. Keep an orderly line while waiting to be served.
3. Keep the noise level low.
4. Keep cafeteria aisles clear.
5. Clean the table and put paper in the waste containers.

If any of these practices are violated, the student will be subject to disciplinary action.

Breakfast will be served from 7:20 a.m. until 7:40 a.m. Lunch times will vary according to building.

2.4-CHEERLEADER POLICY

In the spring each year, students in the 6th – 11th grades who have met Arkansas Activity Association eligibility guidelines may tryout for the cheerleader squad. The students tryout before a committee of judges from outside the Atkins Schools, selected by the sponsors. The squad shall consist of the number of students designated by the sponsor with the highest scores. All cheerleaders will be expected to abide by all school rules. The cheerleader team sponsor, under the direction of the principal, has the final say in all matters concerning the squad.

2.5-CLASS DISMISSAL

Classes are to get underway immediately after the tardy bell rings and are to continue to the end of the assigned time, indicated by another bell. The teacher, however, dismisses the students from class.

2.6-COPYING DAILY WORK OR EXAMS

A pupil's progress is better and more successful when they prepare their own assignments and assume the responsibility of making their own progress to the best of their ability; therefore, copying daily work or exams is not appropriate behavior and will not be tolerated under any circumstances. Any student guilty of copying daily work or exams will be subject to consequences that could include receiving a "0" for the assignment.

2.7-IDENTIFICATION REQUIREMENTS

All students are required to identify themselves upon request by any school personnel while on school property and at all school functions at home or away.

2.8-LEAVING CLASS

In general, students should not leave the classroom to go to the restroom or water fountain during class time. An intermission is allowed between periods and should be used for these purposes.

2.9-LUNCH DETENTION

Students may be assigned detention for various types of misbehavior.

1. Lunch detention is held each day during lunch.
2. Students will report immediately to the detention area when the lunch dismissal bell rings.
3. Students will eat their lunch in the detention area. Fast food brought to students serving detention must be left in the office and picked up by students PRIOR to serving detention.
4. Students are to remain quiet throughout the detention.
5. All electronic devices will be collected upon entry into detention.
6. Students that are late to detention will not be allowed to enter and be recorded as NO SHOW.
7. Students that fail to show up for assigned detentions will be given additional days for the first NO SHOW.
8. Sleeping and/or lying down of head is prohibited.
9. All school rules are in effect during the detention period.
10. Students who repeatedly commit violations which carry a detention assignment may be assigned to ISS.

2.12-SCHOOL PHONES

Only emergency calls, school related business calls, and calls concerning parental permission to leave school during the day may be made from the school phones.

SECTION 3
ACADEMIC REGULATIONS

3.1-ACADEMIC CREDIT

All courses will be awarded .5 credits upon successful completion of one semester that meets one class period. Classes meeting for more than one (1) class period (i.e. Vo Tech or Internship) will be awarded credit accordingly. All courses offered are to be considered academic courses for the purpose of awarding credit with the exception of any sport or athletic class, yearbook and driver's education. Students may repeat academic courses for their personal benefit but no additional credit will be awarded, nor will their original grade be changed.

3.3-ATHLETIC REQUEST FOR SCHEDULE CHANGE

Student athletes who wish to discontinue their athletic pursuits immediately after a sport's season has been completed must wait (participate in off-season or similar program) until the semester break for rescheduling to a non-athletic activity class.

3.4-COLLEGE DAY

To earn a college day, a junior or senior who has scores for either ACT, ACCUPLACER, or SAT on file in the counselor's office and who does not have more than 5 absences the current semester (unless approved by the principal or designee), will be eligible to attend college day activities to review programs at colleges, vocational schools, and business colleges and to discuss financial aid, admission requirements, and the curriculum at various schools. Each senior will be given two college days to be recorded as school business to visit a college of their choice to make necessary preparations for his/her enrollment. If any one college visit requires an additional day due to travel time, the student may elect to take both college days for this one visit. Each junior will be given one college day in the spring semester to visit a college of their choice to make necessary preparations for their enrollment. Arrangements should be made through the counselor's office forty-eight hours prior to the scheduled visit. A parental permission form must be on file prior to the college day. Students are required to bring written verification of the visit to file in the principal's office. Failure to file such verification will result in the student receiving an unexcused absence for the visit day(s). No college day will be scheduled after April 30.

3.5-CONFERENCES (PARENT-TEACHER COMMUNICATION)

The district recognizes the importance of communication between teachers and parents/legal guardians. To help promote positive communication, parent/teacher conferences shall be held once each semester. Parent-teacher conferences are encouraged and may be requested by parents or guardians when they feel they need to discuss their child's progress with his/her teacher. Teachers are required to communicate during the school year with the parent(s) or legal guardian(s) of each of their students to discuss their academic progress. More frequent communication is required with the parent(s) or legal guardian(s) of students who are performing below grade level.

All parent/teacher conferences shall be scheduled at a time and place to best accommodate those participating in the conference. Each teacher shall document the participation or non-participation of parent(s)/legal guardian(s) for each scheduled conference. Parents will be given the opportunity to meet with teachers to discuss their child's educational progress at least twice each year in a conference. Parents should feel free to make appointments through the principal's office for conferences with their child's teachers, counselor, or the administration. Parents will be contacted by the school administration, counselor, and teachers as they deem it necessary to discuss the needs of individual students throughout the school year.

3.6-CORRESPONDENCE CREDIT

In the event that a course is desired which is not regularly offered in the Atkins High School, or makeup of an unsatisfactory grade is needed, correspondence work or digital learning may be advisable and acceptable. Such credit shall have prior approval by the high school principal and shall be earned through satisfactory completion of courses offered by the North Central Association or other regional accrediting associations. Generally, no more than one unit of correspondence (two correspondence courses) may be taken by a student toward graduation. Correspondence work will count one-half credit for each unit completed.

3.8 DIPLOMAS

Students who have successfully completed a prescribed course of study and have complied with all other requirements are entitled to a diploma from Atkins High School as evidence of this accomplishment. Diplomas are ordinarily issued at the commencement exercise; however, they may be issued at other times provided the circumstances warrant such action.

3.9-DROPPING AND ADDING COURSES

Students' class schedules are made out at their request, with advice of the counselor and principal, in the spring each year for the following school year. During allotted times before school begins in the fall, any schedule changes should be made. The first week of school in each semester is provided for change only when absolutely necessary. No changes will be made after this time without principal permission. Courses should not be dropped without careful thought and consideration for future consequences. Every effort is made to schedule the student in those classes requested in the spring, therefore, changes are contrary to school policy. The proper procedure for dropping a class is to discuss it with parents. The student should then confer with the counselor for consideration of the change. Teachers may schedule a parent-teacher conference if they feel the student is capable of doing passing work in their class.

3.10-EXAMS AND EXEMPTION POLICY

Scheduled exams are given at the end of each semester. Students who have not been absent from class more than five (5) days and who have a grade of 80 percent or better for the course will be exempt from taking the semester exam. Any absence from class except those that are school sponsored will count toward the five days per semester. Students assigned ISS or OSS during the semester by the Principal or assistant principal will not be eligible for an exemption.

3.11-EXCHANGE STUDENTS

Atkins High School authorizes the admittance of exchange-visitor students that are placed in the homes of families in our local school district. These students will be enrolled in the courses recommended by their host agency. If the student has completed their high school course work from their home country, they may be classified as a senior with the privileges of a 12th grade student, with the exception of class rank and honor graduate status. These students will be awarded an honorary diploma upon completion of the 12th grade. Unless otherwise specified all foreign exchange students will be given the classification of the 11th grade.

3.12-CREDIT RECOVERY

Any student who has failed course work or lost credit due to excessive absences will be eligible to participate in credit recovery. Credit recovery options will be available during both the summer and traditional school year. Students will not be enrolled in credit recovery classes not yet taken in the traditional school structure. Students must be approved for credit recovery by the principal or attendance committee.

3.14-HONOR ROLL

The honor roll will be announced at the end of each nine weeks and at the end of each semester by the principal.

3.15-PHYSICAL EDUCATION REQUIREMENTS

Students enrolled in physical education are required to participate daily. A student may be excused from participation in physical education for a short time due to illness or injury if a note from a parent or doctor is approved by the teacher and/or principal. Extended nonparticipation may require a doctor's note.

3.16-PROGRESS REPORTS

Interim progress reports are issued after 5 weeks in each nine weeks grading period. This is an accumulation of work up to this time each nine weeks and each student should give them to their parent or guardian for monitoring grades.

3.17-REPORT CARDS

At the end of each grading period, grade reports will be issued for all students. At the end of each semester, a cumulative mark for the work for the entire semester is awarded and recorded on the permanent record. Report cards for first nine weeks may be picked up by the parents/guardians at parent-teacher conferences. Parents are asked to check the report cards, discuss it with the pupils, and contact the principal, counselor or teacher and discuss any questions concerning their child's progress in school. Parent and teacher conferences are encouraged by the school and a proper understanding gained through such conferences may be reflected in better grades for the child.

3.18-SPECIAL/ALTERNATIVE EDUCATION

The Special Education and Alternative Education Programs are provided for students experiencing problems which interfere with learning. Initial referral should be made when a student is encountering difficulties in regular education program.

3.19-EARLY GRADUATION

Early graduation involves any student who has made a commitment to do extra course work for the purpose of applying such credit to graduation requirements. To be eligible for Early Graduation students must declare their intent to graduate early and fill out an application prior to the 2nd semester of their sophomore year. Students must score proficient on state mandated exams and maintain a 3.0 GPA on a 4.0 scale to remain in the Early Graduation Program. Correspondence courses will NOT be accepted for Senior level (English IV) for the purpose of Early Graduation. Before completing the application, the student must meet with his/her counselor to review credits needed upon completion of sophomore/junior year courses and to determine which courses are needed for their senior year to complete all Atkins credits and course graduation requirements. The final decision for granting early graduation is determined by the guidance counselor and the school principal.

SECTION 4

STUDENTS

4.1—RESIDENCE REQUIREMENTS

Definitions:

“In loco parentis” means relating to the responsibility to undertake the care and control of another person in the absence of:

1. Supervision by the person's parent or legal guardian; and
2. Formal legal approval.

“Reside” means to be physically present and to maintain a permanent place of abode for an average of no fewer than four (4) calendar days and nights per week for a primary purpose other than school attendance.

“Resident” means a student whose parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis reside in the school district.

“Residential address” means the physical location where the student’s parents, legal guardians, persons having legal, lawful control of the student, or persons standing in loco parentis reside. A student may use the residential address of a parent, legal guardian, person having lawful control of the student, or person standing in loco parentis only if the student resides at the same residential address and if the guardianship or other legal authority is not granted solely for educational needs or school attendance purposes. It is the student’s responsibility to notify the school office of any change in address or phone number.

The schools of the District shall be open and free through the completion of the secondary program to all persons between the ages of five (5) and twenty-one (21) years whose parents, legal guardians, persons having lawful control of the student, or person standing in loco parentis reside within the District and to all persons between those ages who have been legally transferred to the District for educational purposes. Any person eighteen (18) years of age or older may establish a residence separate and apart from his or her parent, legal guardian, person having lawful control of the student, or a person, standing in loco parentis for school attendance purposes.

In order for a person under the age of eighteen (18) years to establish a residence for the purpose of attending the District’s schools separate and apart from his or her parent, legal guardian, person having lawful control of the student, or a person standing loco parentis, the student is required to reside in the District for a primary purpose other than that of school attendance. However, a student previously enrolled in the district who is placed under the legal guardianship of a noncustodial parent living outside the district by a custodial parent on active military duty may continue to attend district schools. A foster child who was previously enrolled in a District school and who has had a change in placement to a residence outside the District, may continue to remain enrolled in his/her current school unless the presiding court rules otherwise.

Under instances prescribed in A.C.A. § 6-18-203, a child or ward of an employee of the district or of the education coop to which the district belongs may enroll in the district even though the employee and his/her child or ward reside outside the district.

Children whose parent or legal guardian relocates within the state due to a mobilization, deployment, or available military housing while on active duty in or serving in the reserve component of a branch of the United States Armed Forces or National Guard may continue attending school in the school district the children were attending prior to the relocation or attend school in the school district where the children have relocated. A child may complete all remaining school years at the enrolled school district regardless of mobilization, deployment, or military status of the parent or guardian.

Prior to the child's admission to a district school:

1. **The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall furnish the child's social security number, or if they request, the district will assign the child a nine (9) digit number designated by the Division of Elementary and Secondary.**
2. **The parent, legal guardian, person having lawful control of the student, or other person standing in loco parentis shall provide the district with one (1) of the following documents indicating the child's age:**

Any person who has been expelled from any other school district shall receive a hearing before the Board at the time the student is seeking enrollment in the District. The Board reserves the right to not allow the enrollment of such students until the time of the person's expulsion has expired following the hearing before the Board.
4. In accordance with Policy 4.57 – IMMUNIZATIONS, the child shall be age appropriately immunized or have an exemption issued by the Arkansas Department of Health.

Uniformed Services Member's Children

For the purposes of this policy:

“Activated reserve components” means members of the reserve component of the uniformed services who have received a notice of intent to deploy or mobilize under Title 10 of the United States Code, Title 32 of the United States Code, or state mobilization to active duty.

“Active duty” means full-time duty status in the active, uniformed services of the United States, including without limitation members of The National Guard and Reserve on active-duty orders under 10 U.S.C. §§ 1209, 1210 and 1211.

The superintendent shall designate an individual as the District's military education coordinator, who shall serve as the primary point of contact for an eligible child and for the eligible child's parent, legal guardian, person having lawful control of the eligible child, or person standing in loco parentis. The individual the superintendent designates as the District's military education coordinator shall have specialized knowledge regarding the educational needs of children of military families and the obstacles that children of military families face in obtaining an education.

An eligible child as defined in this policy shall:

4.4—STUDENT TRANSFERS

The Atkins School District shall review and accept or reject requests for transfers, both into and out of the district, on a case-by-case basis. The District may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms, exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school. The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

Any student transferring from a school accredited by the Division of Elementary and Secondary of Education (DESE) to a school in this district shall be placed into the same grade the student would have been in had the student remained at the former school. Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

The District and the resident district may enter into a written agreement with the student or student's parents to provide transportation to or from the District, or both.

4.5—SCHOOL CHOICE

Standard School Choice:

Definition

"sibling" means each of two (2) or more children having a common parent in common by blood, adoption, marriage, or foster care.

Transfers into the District

Capacity Determination and Public Pronouncement

The Board of Directors will annually adopt a resolution containing the capacity standards for the District. The resolution will contain the acceptance determination criteria identified by academic program, class, grade level, and individual school. The school is not obligated to add any teachers, other staff, or classrooms to accommodate choice applications. The District may only deny a Standard School Choice application if the District has a lack of capacity by the District having reached ninety percent (90%) of the maximum student population in a program, class, grade level, or school building authorized by the Standards or other State/Federal law.

The District shall advertise in appropriate broadcast media and either print media or on the Internet to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall state the application deadline and the requirements and procedures for participation in the program; and include contact information for the primary point of contact at the District for school choice questions. Such pronouncements shall be made in the spring, but in no case later than March 1.

Application Process

The student's parent shall submit a school choice application on a form approved by DESE to this district along and to the student's resident district. Except for students who have a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base, the transfer application must be postmarked, emailed or

hand delivered on or before May 1 of the year preceding the fall semester the applicant would begin school in the District. The District shall date and time stamp all applications the District receives as both the resident and nonresident district as they are received in the District's central office. Except for applications from students who have a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base, applications postmarked or hand delivered on or after May 2 will not be accepted. Statutorily, preference is required to be given to siblings of students who are already enrolled in the District. Therefore, siblings whose applications fit the capacity standards approved by the Board of Directors may be approved ahead of an otherwise qualified non-sibling applicant who submitted an earlier application as identified by the application's date and time stamp.

Students who have a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base may submit an application and transfer at any time if the student's application:

- 1 Is filed with the nonresident school district within fifteen (15) days of the parent's or guardian's arrival on the military base;
2. Includes the parent's or guardian's military transfer orders; and
3. Includes the parent's or guardian's proof of residency on the military base.

The approval of any application for a choice transfer into the District is potentially limited by the applicant's resident district's statutory limitation of losing no more than three percent (3%) of its past year's student enrollment due to Standard School Choice. As such, any District approval of a choice application prior to July 1 is provisional pending a determination that the resident district's three percent (3%) cap has not been reached. The superintendent shall contact a student's resident district to determine if the resident district's three percent (3%) cap has been met.

No earlier than January 1 of each year, the Superintendent will consider all properly submitted applications for School Choice. By July 1, the Superintendent shall notify the parent and the student's resident district, in writing, of the decision to accept or reject the application.

Accepted Applications

Applications which fit within the District's stated capacity standards shall be provisionally accepted, in writing, with the notification letter stating a reasonable timeline by which the student shall enroll in the District by taking the steps detailed in the letter, including submission of all required documents. If the student fails to enroll within the stated timeline, or if all necessary steps to complete the enrollment are not taken, or examination of the documentation indicates the applicant does not meet the District's stated capacity standards, the acceptance shall be null and void.

A student, whose application has been accepted and who has enrolled in the District, is eligible to continue enrollment until completing his/her secondary education. Continued enrollment is conditioned upon the student meeting applicable statutory and District policy requirements. Any student who has been accepted under choice and who either fails to initially enroll under the timelines and provisions provided in this policy; who chooses to return to his/her resident district; or who enrolls in a home school or private school voids the transfer and must reapply if, in the future, the student seeks another school choice transfer. A subsequent transfer application will be subject to the capacity standards applicable to the year in which the application is considered by the District.

A present or future sibling of a student who continues enrollment in this District may enroll in the District by submitting a Standard School Choice application. Applications of siblings of presently enrolled choice students are subject to the provisions of this policy including the capacity standards applicable to the year in which the sibling's application is considered by the District. A sibling who enrolls in the District through Standard School choice is eligible to remain in the District until completing his/her secondary education.

Students whose applications have been accepted and who have enrolled in the district shall not be discriminated against on the basis of gender, national origin, race, ethnicity, religion, or disability.

Rejected Applications

The District may reject an application for a transfer into the District under Standard School Choice due to a lack of capacity. However, the decision to accept or reject an application may not be based on the student's previous academic achievement, athletic or other extracurricular ability, English proficiency level, or previous disciplinary proceedings other than a current expulsion.

An application may be provisionally rejected if it is for an opening that was included in the District's capacity resolution, but was provisionally filled by an earlier applicant. If the provisionally approved applicant subsequently does not enroll in

the District, the provisionally rejected applicant could be provisionally approved and would have to meet the acceptance requirements to be eligible to enroll in the district.

An application may be provisionally rejected if the student's application was beyond the student's resident district's three percent (3%) cap. The student's resident district is responsible for notifying this District that it is no longer at its three percent (3%) cap. If a student's application was provisionally rejected due to the student's resident district having reached its three percent (3%) cap and the student's resident district notifies this District that it has dropped below its three percent (3%) cap prior to July 1, then the provisional rejection may be changed to a provisional acceptance and the student would have to meet the acceptance requirements to be eligible to enroll in the District.

Rejection of applications shall be in writing and shall state the reason(s) for the rejection. Unless the student's application was rejected due to the application not being timely received by both the resident and nonresident district, a student whose application was rejected may request a hearing before the State Board of Education to reconsider the application. The request for a hearing must be submitted in writing to the State Board within ten (10) days of receiving the rejection letter from the District.

Any applications that are denied due to the student's resident district reaching the three percent (3%) limitation cap shall be given priority for a choice transfer the following year in the order that the District received the original applications.

Transfers Out of the District

All Standard School Choice applications shall be granted unless the approval would cause the District to have a net enrollment loss (students transferring out minus those transferring in) of more than three percent (3%) of the average daily membership on October 1 of the immediately preceding year. By December 15 of each year, DESE shall determine and notify the District of the net number of allowable choice transfers. For the purpose of determining the three percent (3%) cap, siblings are counted as one student, and students are not counted if the student transfers from a school or district in:

1. Through Opportunity School Choice due to the school receiving a rating of "F" or a district classified as in need of Level 5 Intensive Support under A.C.A. § 6-18-227; or
2. Due to the district's identification of Facilities Distress under A.C.A. § 6-21-812; or
3. Through the Foster Child School Choice under A.C.A. § 6-18-233.

If, prior to July 1, the District receives sufficient copies of requests from other districts for its students to transfer to other districts to trigger the three percent (3%) cap, it shall notify each district the District received Standard School Choice applications from that it has tentatively reached the limitation cap. The District will use confirmations of approved choice applications from receiving districts to make a final determination of which applications it received that exceeded the limitation cap and notify each district that was the recipient of an application to that effect. The District shall immediately notify all receiving districts if it should drop back below its three percent (3%) cap prior to July 1.

Facilities Distress School Choice Applications

There are a few exceptions from the provisions of the rest of this policy that govern choice transfers triggered by facilities distress. Any student attending a school district that has been identified as being in facilities distress may transfer under the provisions of this policy, but with the following four (4) differences.

1. The receiving district cannot be in facilities distress;
2. The transfer is only available for the duration of the time the student's resident district remains in facilities distress;
3. The student is not required to meet the May 1 application deadline; and
4. The student's resident district is responsible for the cost of transporting the student to this District's school.

Opportunity School Choice

Transfers into or Within the District

For the purposes of this section of the policy, a "lack of capacity" is defined as when the receiving school has reached the maximum student-to-teacher ratio allowed under federal or state law, the DESE Rules for the Standards for Accreditation, or other applicable rules. There is a lack of capacity if, as of the date of the application for Opportunity School Choice, ninety-five percent (95%) or more of the seats at the grade level at the nonresident school are filled.

Unless there is a lack of capacity at the District's school or the transfer conflicts with the provisions of a federal desegregation order applicable to the District, a student may transfer from the student's assigned school to another school in the District or from the student's resident district into the District if:

- Either

- o The student's resident district has been classified by the state board as in need of Level 5 — intensive support; or
- o The student's assigned school has a rating of "F"; and
- The student's parent, guardian, or the student if the student is over eighteen (18) years of age has submitted an application of the student's request to transfer by no earlier than January 1 and no later than May 1 of the school year before the school year the student intends to transfer to both the sending and receiving school districts.

A student is not required to meet the May 1 application deadline if the student has a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base. The student may transfer at any time if the student's application:

- a. Is filed with the nonresident school district within fifteen (15) days of the parent's or guardian's arrival on the military base;
- b. Includes the parent's or guardian's military transfer orders; and
- c. Includes the parent's or guardian's proof of residency on the military base.

Except those students who are applying to transfer within the time permitted due to the student's parent or guardians' military service or seeking to transfer within the District, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, and the student's resident district, whether the Opportunity School Choice application has been accepted or rejected by no later than July 1 of the school year the student is seeking to enroll. If the student is seeking a transfer due to the student's parent or guardian's military service or seeking a transfer within the District, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, whether the Opportunity School Choice application has been accepted or rejected within fifteen (15) days from receipt of the student's application. The notification shall be sent via First-Class Mail to the address on the application.

If the application is accepted, the notification letter shall state the deadline by which the student must enroll in the receiving school or the transfer will be null and void.

If the District rejects the application, the District shall state in the notification letter the specific reasons for the rejection. A parent or guardian, or the student if the student is over eighteen (18) years of age, may appeal the District's decision to deny the application to the State Board of Education. The appeal must be in writing to the State Board of Education via hand delivery, certified mail, return receipt requested, no later than ten (10) calendar days, excluding weekends and legal holidays, after the notice of rejection was received from the District.

A student's transfer under Opportunity School choice is effective at the beginning of the next school year and the student's enrollment is irrevocable for the duration of the school year and is renewable until the student completes high school or is beyond the legal age of enrollment. This provision for continuing eligibility under Opportunity Choice does not negate the student's right to apply for transfer to a district other than the student's assigned school or resident district under the Standard School Choice provisions of this policy.

The District may, but is not obligated to provide transportation to and from the transferring district.

Transfers out of, or within, the District

If a District school receives a rating of "F" or the District has been classified by the State Board as in need of Level 5 Intensive Support, the District shall timely notify parents, guardians, or students, if over eighteen (18) years of age, as soon as practicable after the school or district designation is made of all options available under Opportunity Choice. The District shall offer the parent or guardian, or the student if the student is over eighteen (18) years of age, an opportunity to submit an application to enroll the student in:

1. A school district that has not been classified by the State Board as in need of Level 5 Intensive Support; or
2. If there is more than one school within the District covering the grade level of the student seeking to transfer that does not have a rating of "F", a public school within the District that is nearest to the student's legal residence that does not have a rating of "F"; or
3. If there is not more than one school within the District covering the grade level of the student seeking to transfer that does not have a rating of "F", a public school that does not have a rating of "F" within a school district that has not been classified by the State Board as in need of Level 5 Intensive Support.

Additionally, the District shall request public service announcements to be made over the broadcast media and in the print media at such times and in such a manner as to inform parents or guardians of students in adjoining districts of the

availability of the program, the application deadline, and the requirements and procedure for nonresident students to participate in the program.

Unsafe School Choice Program

Any student that becomes the victim of a violent criminal offense while in or on the grounds of a District school or who is attending a school classified by DESE as a persistently dangerous public school shall be allowed to attend a safe public school within the District.

4.5F--SCHOOL CHOICE CAPACITY RESOLUTION

Whereas:

- The Board of Directors of the Atkins School District has approved by a vote of the Board, the following capacity resolution for school choice applicants for the school-year under the provisions of policy 4.5—SCHOOL CHOICE and applicable Arkansas law.
- Applicants, whose applications meet the provisions of policy 4.5—SCHOOL CHOICE, will be sent a provisional acceptance notification letter which will give instructions on the necessary steps and timelines to enroll in the District. Provisional acceptance shall be determined prior to July 1 with a final decision to be made by July 1 based on the district's available capacity for each academic program, class, grade level, and individual school.
 - Applications will not be accepted if the applications: Are not received or postmarked on or before May 1, unless the application is from a student who has a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base and the application is received within the fifteen (15) day period and accompanied by relevant documentation;
 - Are to a student's resident district that has declared itself exempt due to an existing desegregation order; or
 - Would exceed the applicant's resident district's statutory limitation on student transfers out of its district, unless the application is part of a sibling pair and the other sibling's application was the application that reached the district's statutory limit.
- The district reserves to itself the ability to determine, based on an examination of student records obtained from the prior district, and other information, whether any student would require a different class, course or courses, program of instruction, or special services than originally applied for. If such an examination determines that capacity has been reached in the appropriate class, course or program of instruction, or that additional staff would have to be hired for the applicant, the District shall rescind the original provisional acceptance letter and deny the Choice transfer for that student.
- The district reserves to itself the ability to decline to accept under school choice any student whose acceptance would require the district to add additional staff, for any reason.

THEREFORE, let it be resolved that these shall constitute the School Choice openings at the beginning of the School Choice enrollment period for the school-year 2021-2022.

4.6—HOME SCHOOLING

Enrollment in Home School

Parents or legal guardians desiring to provide a home school for their children shall give written notice to the superintendent of their intent to home school. The notice shall be given:

1. At the beginning of each school year, but no later than August 15;
2. Five (5) school days prior to withdrawing the child (provided the student is not currently under disciplinary action for violation of any written school policy, including, but not limited to, excessive absences) and at the

- beginning of each school year thereafter; or
3. Within thirty (30) calendar days of the parent or legal guardian establishing residency within the district during the school year.

Written notice of the parent or legal guardian's intent to home school shall be delivered to the Superintendent through any of the following methods:

- Electronically, including without limitation by email;
- By mail; or
- In person.

The notice shall include:

- a. The name, sex, date of birth, grade level, and the name and address of the school last attended, if any;
- b. The mailing address and telephone number of the home school;
- c. The name of the parent or legal guardian providing the home school;
- d. Indicate if the home-schooled student intends to participate in extracurricular activities during the school year;
- e. A statement of whether the home-schooled student plans to seek a high school equivalency diploma during the current school year;
- f. A statement if the home-school student plans to seek a driver's license during the current school year;
- g. A statement that the parent or legal guardian agrees that the parent or legal guardian is responsible for the education of their children during the time the parents or legal guardians choose to home school; and
- h. A signature of the parent or legal guardian, which must be notarized if the home-schooled student plans to seek a driver's license during the school year.

To aid the District in providing a free and appropriate public education to students in need of special education services, the parents or legal guardians home-schooling their children shall provide information that might indicate the need for special education services.

A student who has been temporarily issued items, resources, supplies, materials, or other property belonging to the District is eligible for enrollment in a home school during the school year after:

- The items, resources, supplies, materials, or other property belonging to the District have been returned to the District;
- The items, resources, supplies, materials, or other property belonging to the District have been paid for; or
- The semester has ended.

The superintendent or the board of directors may waive the required five (5) school day waiting period for a student's enrollment in home school during a semester if the superintendent or the board of directors is satisfied with the return of temporarily issued items, resources, supplies, materials, or other District property.

Enrollment or Re-Enrollment in Public School

A home-schooled student who wishes to enroll or re-enroll in a District school shall submit:

- A transcript listing all courses taken and semester grades from the home school;
 - Score of at least the thirtieth percentile on a nationally recognized norm-referenced assessment taken in the past year;
- And

- A portfolio of indicators of the home-schooled student's academic progress, including without limitation:
 - Curricula used in the home school;
 - Tests taken and lessons completed by the home-schooled student; and
 - Other indicators of the home-schooled student's academic progress.

If a home-schooled student is unable to provide a nationally recognized norm-referenced score, the District may either assess the student using a nationally recognized norm-referenced assessment or waive the requirement for a nationally recognized norm-referenced assessment score.

A home-schooled student who enrolls or re-enrolls in the District will be placed at a grade level and academic course level equivalent to or higher than the home-schooled student's grade level and academic course level in the home school:

1. As indicated by the documentation submitted by the home-schooled student;
2. By mutual agreement between the public school and the home-schooled student's parent or legal guardian; or
3. If the home-schooled student fails to provide the documentation required by this policy, with the exception of the nationally recognized norm-referenced assessment score, the District may have sole authority to determine the home-schooled student's grade placement and course credits. The District will determine the home-schooled student's grade placement and course credits in the same manner the District uses when determining grade placement and course credits for students enrolling or re-enrolling in the District who attended another public or private school.

The District shall afford a home-schooled student who enrolls or re-enrolls in a public school the same rights and privileges enjoyed by the District's other students. The District shall not deny a home-schooled student who enrolls or re-enrolls in the District any of the following on the basis of the student having attended a home school:

- a. Award of course credits earned in the home school;
- b. Placement in the proper grade level and promotion to the next grade level;
- c. Participation in any academic or extracurricular activity;
- d. Membership in school-sponsored clubs, associations, or organizations;
- e. A diploma or graduation, so long as the student has enrolled or re-enrolled in the District to attend classes for at least the nine (9) months immediately prior to graduation; or
- f. Scholarships.

4.7—ABSENCES

If any student's Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student's IEP or 504 Plan take precedence.

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school, whether in person or digitally, is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Absences for students enrolled in synchronous digital courses shall be determined in the same manner as for District students attending courses in person.

Excused Absences

Excused absences are those where the student was on official school business or when the absence was due to one of the following reasons and the student brings a written statement to the principal or designee upon his/her return to school from the parent or legal guardian stating such reason. A written statement presented for an absence having occurred more than five (5) school days prior to its presentation will **not** be accepted.

1. The student's illness or when attendance could jeopardize the health of other students. A maximum of six (6) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.
2. Death or serious illness in their immediate family;
3. Observance of recognized holidays observed by the student's faith;
4. Attendance at an appointment with a government agency;
5. Attendance at a medical appointment;
6. Exceptional circumstances with prior approval of the principal; or
7. Participation in an FFA, FHA, or 4-H sanctioned activity;
8. Participation in the election poll workers program for high school students.
9. Absences granted to allow a student to visit his/her parent or legal guardian who is a member of the military and been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional excused absences shall be at the discretion of the superintendent or designee.
10. Absences granted, at the Superintendent's discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in eleventh grade to complete basic combat training between grades eleven (11) and twelve (12).

Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page.

In order for the absence to be considered excused, the student must:

- a. Bring a written statement to the principal or designee upon the student's return to school from the student's parent or legal guardian stating the reason for the student's absence; or
- b. If the student is attending the District's courses digitally, upload a written statement from the student's parent or legal guardian stating the reason for the student's absence through the District's digital course management platform for review by the principal or designee.

A written statement presented or uploaded for an absence having occurred more than five (5) school days prior to its presentation or upload will not be accepted.

Unexcused Absences

Absences that are not defined above; do not have an accompanying note from the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis; or have an accompanying note that is not presented or uploaded within the timeline required by this policy, may be considered as unexcused absences. Students with ten (10) unexcused absences in a course in a semester shall not receive credit for that course. At the discretion of the principal after consultation with persons having knowledge of the circumstances of the unexcused absences, the student may be denied promotion or graduation. Excessive absences shall not be a reason for expulsion or dismissal of a student.

When a student has three (3) unexcused absences, his/her parents, legal guardians, persons with lawful control of the student or persons standing in loco parentis shall be notified. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day.

Whenever a student exceeds six (6) unexcused absences in a semester, the District shall notify the parent, legal guardian, person having lawful control of the student, or persons standing in loco parentis.

Whenever a student exceeds ten (10) unexcused absences in a semester, the District shall notify the prosecuting attorney, the parent, legal guardian, person having lawful control of the student, or persons standing in loco parentis shall be subject to a civil penalty as prescribed by law.

It is the Arkansas General Assembly's intention that students having excessive absences be given assistance in obtaining credit for their courses. Therefore, at any time prior to when a student exceeds the number of unexcused absences permitted by this policy, the student, or his/her parent, legal guardian, person with lawful control of the student, or person standing in loco parentis may petition the school or district's administration for special arrangements to address the student's unexcused absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement's requirements. The agreement shall be signed by the student, the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis, and the school or district administrator or designee.

Students who attend in-school suspension shall not be counted absent for those days. Days missed due to out-of-school suspension or expulsion shall be unexcused absences.

The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student's operator's license unless he/she meets certain requirements specified in the statute.

Students who arrive 15 minutes or more late or who check out 15 minutes or more early, will be considered absent unless prior approval is granted from the building principal.

4.8—MAKE-UP WORK

Students who miss school due to an absence shall be allowed to make up the work they missed during their absence under the following rules.

1. Students are responsible for asking the teachers of the classes they missed what assignments they need to make up.
2. Teachers are responsible for providing the missed assignments when asked by a returning student.
3. Students are required to ask for their assignments of their first day back at school or their first-class day after their return.
4. Make up tests are to be rescheduled at the discretion of the teacher but must be aligned with the schedule of the missed work to be made up.
5. Students shall have one class day to make up their work for each class day they are absent.
6. Make-up work which is not turned in within the make-up schedule for the assignment shall receive a zero.

4.12—STUDENT ORGANIZATIONS/EQUAL ACCESS

Non-curriculum-related secondary school student organizations wishing to conduct meetings on school premises during noninstructional time shall not be denied equal access on the basis of the religious, political, philosophical, or other content of the speech at such meetings. Such meetings must meet the following criteria.

1. The meeting is to be voluntary and student initiated;
2. There is no sponsorship of the meeting by the school, the government, or its agents or employees;
3. The meeting must occur during noninstructional time;
4. Employees or agents of the school are present at religious meetings only in a non-participatory capacity; and
5. The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
6. Non-school persons may not direct, conduct, control, or regularly attend activities of student groups.

All meetings held on school premises must be scheduled and approved by the principal. The school, its agents, and employees retain the authority to maintain order and discipline, to protect the well being of students and faculty, and to assure that attendance of students at meetings is voluntary. Fraternities, sororities, and secret societies are forbidden in the District's schools. Membership to student organizations shall not be by a vote of the organization's members, nor be restricted by the student's race, religion, sex, national origin, or other arbitrary criteria. Hazing, as defined by law, is forbidden in connection with initiation into, or affiliation with, any student organization, extracurricular activity or sport program. Students who are convicted of participation in hazing or the failure to report hazing shall be expelled.

4.13—PRIVACY OF STUDENTS' RECORDS/ DIRECTORY INFORMATION

Except when a court order regarding a student has been presented to the district to the contrary, all students' education records are available for inspection and copying by the parent of his/her student who is under the age of eighteen (18). At the age of eighteen (18), the right to inspect and copy a student's records transfers to the student. A student's parent or the student, if over the age of 18, requesting to review the student's education records will be allowed to do so within no more than forty-five (45) days of the request. The district forwards education records, including disciplinary records, to schools that have requested them and in which the student seeks or intends to enroll, or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information (PII) from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests. A personal record kept by a school staff member is **not** considered an education record if it meets the following tests.

- it is in the sole possession of the individual who made it;
- it is used only as a personal memory aid; and
- information contained in it has never been revealed or made available to any other person, except the maker's temporary substitute.

For the purpose of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

For the purpose of this policy a school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility, contracted duty, or duty of elected office.

In addition to releasing PII to school officials without permission, the District may disclose PII from the education records of students in foster care placement to the student's caseworker or to the caseworker's representative without getting prior consent of the parent (or the student if the student is over eighteen (18)). For the District to release the student's PII without getting permission:

- The student must be in foster care;
- The individual to whom the PII will be released must have legal access to the student's case plan; and
- The Arkansas Department of Human Services, or a sub-agency of the Department, must be legally responsible for the care and protection of the student.

The District disclosed PII from an education record to appropriate parties, including parents in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The superintendent or designee shall determine who will have access to and responsibility for disclosing information in emergency situations.

When deciding whether to release PII in a health or safety emergency, the District may take into account the totality or the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

For purposes of this policy, the Atkins School District does not distinguish between a custodial and noncustodial parent, or a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his child's records.

If there exists a court order which directs that a parent not have access to a student or his records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, disciplinary rulings, disability placements or other such determinations, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the superintendent or his designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.

Unless the parent or guardian of a student (or student, if above the age of eighteen [18] objects, directory information about a student may be made available to the public, military recruiters, post secondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbooks and graduation announcements. "Directory information" includes, but is not limited to, a student's name, address, telephone number, electronic mail address, photograph, date and place of birth, dates of attendance, his/her placement on the honor role (or the receipt of other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities, (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. "Directory information" also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user.

A student's name and photograph will only be displayed on the district or school's web page(s) after receiving written permission from the student's parent or student if over the age of 18.

The form for objecting to making directory information available is located in the principal's office and must be completed and signed by the parent or age-eligible student and filed with the building principal's office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district.

The right to opt out of the disclosure of directory information under Family Educational Rights and Privacy Act (FERPA) does not prevent the District from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled.

Parents and students over the age of 18 who believe the District has failed to comply with the requirements for the lawful release of student records may file a complaint with the U.S. Department of Education at *Student Privacy Policy Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington DC 20202*

4.14—STUDENT MEDIA AND THE DISTRIBUTION OF LITERATURE

The Superintendent and the student media advisors(s) shall jointly develop administrative regulations for the implementation of this policy. The regulations shall include definitions of terms and the time(s), place(s), and manner(s) of the dissemination of student media, which shall include timelines for the review of materials.

Definitions

“School-sponsored media” means all student media that are:

- Supported financially by the school;
- Supported by the use of school facilities; or
- Produced in conjunction with a class.

“Student journalist” means a student who gathers, writes, edits, photographs, records, video tapes, or prepares information for dissemination in student media.

“Student media” means any means of communication that are:

- Prepared, substantially written, published, or broadcasted by a student;
- Distributed or generally made available, either free of charge or for a fee, to members of the student body; and
- Prepared under the direction of a student media advisor.

“Student media” does not include media that is intended for distribution or transmission solely in the classroom in which it is produced.

“Student media advisor” means an individual who is employed, appointed, or designated by the District to supervise or provide instruction with respect to student media.

Student Media

While the District recognizes a student's right of expression under the First Amendment of the Constitution of the United States, school-sponsored media does not provide an open public forum for public expression. Student media, as well as the content of student expression in school-sponsored activities, shall be subject to the editorial review of the District's

administration whose actions shall be reasonably related to legitimate pedagogical concerns and adhere to the following limitations:

1. Advertising may be accepted for media that does not condone or promote products that are inappropriate for the age and maturity of the audience or that endorse such things as tobacco, alcohol, or drugs.
2. Media may be regulated to prohibit communications determined by the appropriate teacher, student media advisor, and/or administrator, to be ungrammatical; poorly written; inadequately researched; biased or prejudiced; vulgar or profane; or unsuitable for immature audiences.
3. Media may be regulated to prohibit the dissemination of material that may reasonably be perceived to advocate drug or alcohol use; irresponsible sex; conduct that is otherwise inconsistent with the shared values of a civilized social order; or to associate the school with any position other than neutrality on matters of political controversy.
4. Prohibited media includes those that:
 - a. Are obscene as to minors;
 - b. Are libelous or slanderous, including material containing defamatory falsehoods about public figures or governmental officials, and made with knowledge of their falsity or a reckless disregard of the truth;
 - c. Constitute an unwarranted invasion of privacy as defined by state law;
 - d. Suggest or urge the commission of unlawful acts on the school premises;
 - e. Suggest or urge the violation of lawful school regulations;
 - f. Attacks ethnic, religious, or racial groups; or
 - g. Harass, threaten, or intimidate a student.

Student Media on School Web Pages

Student media displayed on school web pages shall follow the same guidelines as listed above; and shall also:

1. Not contain any non-educational advertisements;
2. Adhere to the restrictions regarding use of Directory Information as prescribed in Policy 1.13 including not using a student's photograph when associated with the student's name unless written permission has been received from the student's parent or student if over the age of eighteen (18);
3. State that the views expressed are not necessarily those of the School Board or the employees of the district.

Student Distribution of Non-school Literature, Publications, and Materials

A student or group of students who distribute ten (10) or fewer copies of the same non-school-sponsored literature, publications, or materials, shall do so in a time, place, and manner that does not cause a substantial disruption of the orderly education environment. A student or group of students wishing to distribute more than ten (10) copies of non-school materials shall have school principals review their non-school-sponsored materials at least three (3) school days in advance of their desired time of dissemination. School authorities shall review the non-school-sponsored materials, prior to their distribution and will bar from distribution those non-school-sponsored materials that are obscene, libelous, pervasively indecent, or advertise unlawful products or services. Material may also be barred from distribution if there is evidence that reasonably supports a forecast that a substantial disruption of the orderly operation of the school or educational environment will likely result from the distribution. Concerns related to any denial of distribution by the principal shall be heard by the superintendent, whose decision shall be final.

The school principal or designee shall establish reasonable regulations governing the time, place, and manner of student distribution of non-school-sponsored materials. The regulations shall:

1. Be narrowly drawn to promote orderly administration of school activities by preventing disruption and may not be designed to stifle expression;
2. Be uniformly applied to all forms of non-school-sponsored materials;
3. Allow no interference with classes or school activities;
4. Specify times, places, and manner where distribution may and may not occur; and
5. Not inhibit a person's right to accept or reject any literature distributed in accordance with the regulations.
6. Students shall be responsible for the removal of excess literature that is left at the distribution point for more than five days.

4.15—CONTACT WITH STUDENTS WHILE AT SCHOOL

Contact by Parents

Parents wishing to speak to their children during the school day shall register first with the office. Parents will not be allowed to enter beyond the reception area without prior permission from the principal.

Parents contacting the school to change their child's mode of transportation must notify the office BEFORE 3:00 p.m.

Parents/visitors who come to eat lunch with their student must immediately leave campus when the lunch period is over.

Contact by Non-Custodial Parents

If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or the principal's designee establishing the parent's custody of the student. It shall be the responsibility of the custodial parent to make any court ordered "no contact" or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Without such a court order on file, the school will release the child to either of his/her parents. Non-custodial parents who file with the principal a date-stamped copy of current court orders granting unsupervised visitation may eat lunch, volunteer in their child's classroom, or otherwise have contact with their child during school hours and the prior approval of the school's principal. Such contact is subject to the limitations outlined in policy 1.16, policy 2.5, and any other policies that may apply.

Arkansas law provides that, in order to avoid continuing child custody controversies from involving school personnel and to avoid disruptions to the educational atmosphere in the District's schools, the transfer of a child between his/her custodial parent and non-custodial parent, when both parents are present, shall not take place on the school's property on normal school days during normal hours of school operation. The custodial or non-custodial parent may send to/drop off the student at school to be sent to/picked up by the other parent on predetermined days in accordance with any court order provided by the custodial parent or by a signed agreement between both the custodial and non-custodial parents. Unless a valid no-contact order has been filed with the student's principal or the principal's designee, district employees shall not become involved in disputes concerning whether or not that parent was supposed to pick up the student on any given day.

Unless prior arrangements have been made with the school's principal, Arkansas law provides that the transfer of a child between his/her custodial and non-custodial parent, when both parents are present, shall not take place on the school's property on normal school days, during normal hours of school operation.

Contact by Law Enforcement, Social Services, or By Court Order

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division or the Division of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Except as provided below, other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, legal guardian, person having lawful control of the student, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services. In an instance other than those related to cases of suspected child abuse principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of the state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control of the student, or person standing in loco parentis, notice that the student has been taken into custody by law enforcement personnel or a social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

Contact by Professional Licensure Standards Board Investigators

The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation: the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying.

take into account the severity of the infraction, the time, place and manner in which the infraction occurred, and the student's prior disciplinary history.

Minimum and maximum consequences are only intended to show a range of interventions that may be employed. Each individual disciplinary action shall be determined at the discretion of the Principal or Principal's designee in accordance with Atkins School District policy. ISSUES/POLICY OF ACADEMIC INTEGRITY

Plagiarism: Plagiarism is passing off a source's information, ideas, or words as one's own. Plainly spoken, it is the use of someone else's work without giving proper credit to that author or source. Use of information without proper documentation or acknowledgement is cheating. Copying another student's homework, essay, test, research paper, etc. is also cheating. The following are ways to avoid cheating/plagiarism.

1. Do not copy another person's words or ideas from any book or reference material unless the source is acknowledged.
2. Do not copy someone else's work.
3. Do not lend your work to another student.
4. Do use the MLA handbook or other teacher approved reference guide to cite sources.
5. Do see the teacher about any questions or proper documentation.
6. Do remember that all borrowed facts, statistics, or other illustrative material, unless the information is common knowledge must be documented.

Other issues of Academic Integrity-Technology

Because the faculty at Atkins School District is committed to promoting positive character qualities, the issues of technological academic dishonesty must be addressed. All students are expected to be the best that they can be; therefore, cheating in any form is not acceptable. The following represents a partial list of technological misuse in the classroom:

- Cutting, pasting, or downloading information from the internet
- Rephrasing sentences from the internet
- Text-messaging during test or anytime during the instructional period
- Improper use of any electronic source

Violations of the Academic Integrity policy may result in any of the following consequences:

- A zero (0) grade for the test/assignment.
- Parent/Teacher/Student conference.
- A requirement of re-taking the test/assignment in a controlled setting.
- Referral to the office for additional disciplinary measures such as ISS.
- Out of school suspension.

4.19—CONDUCT TO AND FROM SCHOOL AND TRANSPORTATION ELIGIBILITY

The District's Student Code of conduct applies to students while traveling to and from school or to and from a school activity to the same extent as if the students were on school grounds. Appropriate disciplinary actions may be taken against commuting students who violate the District's Student Code of Conduct rules.

The preceding paragraph also applies to student conduct while on school buses. Students shall be instructed in safe riding practices. The driver of a school bus shall not operate the school bus until every passenger is seated. In addition to other disciplinary measures provided for violations of the District's Student Code of Conduct the student's bus transportation privileges may be suspended or terminated for violations of the Student Code of Conduct related to bus behavior.

Actions causing the loss of bus transportation privileges shall include but are not limited to:

1. *violation of safety procedures*
2. *destruction of property*
3. *fighting-pushing-tripping*
4. *excessive mischief*
5. *writing on bus seats etc.*
6. *smoking*

7. *eating-drinking-littering*
8. *rude-discourteous-annoying*
9. *unacceptable language*

Bus Policy:

Riding a school bus is a privilege. Bus transportation is provided for those students that live in the Atkins School District and live too far from the school to walk. Students are expected to use the regular loading and unloading stations assigned by the bus superintendent. Students will remain eligible to ride a bus as long as the student follows the established rules.

The transportation to and from school of students who have lost their bus transportation privileges is the responsibility of the student’s parent or guardian. Alternative consequences for bus misconduct may be administered by principal or his/her designee based on the severity of the offense. The disciplinary action shall range from a warning to loss of bus privileges. Under Act 1744, all students are required by law to be seated while the bus is moving.

Students misbehaving on any school bus trip will be reprimanded in accordance with the following process:

1st offense: written warning and conference with the principal and parent notification

2nd offense: one day detention and parent notification

3rd offense: 3 days detention and parent notification

Alternate consequences for bus misconduct may be administered by the principal or his/her designee based on the severity of the offense. The consequence could range from a warning to a loss of bus privileges.

4.20—DISRUPTION OF SCHOOL

No student shall by the use of violence, force, noise, coercion, threat, intimidation, fear, passive resistance, or any other conduct, intentionally cause the disruption of any lawful mission, process, or function of the school, or engage in any such conduct for the purpose of causing disruption or obstruction of any lawful mission, process, or function. Nor shall any student encourage any other student to engage in such activities.

Disorderly activities by any student or group of students that adversely affect the school’s orderly educational environment shall not be tolerated at any time on school grounds. Teachers may remove from class and send to the principal or principal’s designee office a student whose behavior is so unruly, disruptive, or abusive that it seriously interferes with the teacher’s ability to teach the students, the class, or with the ability of the student’s classmates to learn. Students who refuse to leave the classroom voluntarily will be escorted from the classroom by the school administration.

Punishment may include but is not limited to verbal warning, ISS (in-school suspension), suspension to expulsion for the remainder of the school term.

4.21—STUDENT ASSAULT OR BATTERY

Atkins School District has a “hands off” policy. A student shall not threaten, physically abuse, or attempt to physically abuse, or behave in such a way as to be perceived to threaten bodily harm to any other person (student, school employee, or school visitor). Any gestures, vulgar, abusive or insulting language, taunting, threatening, harassing, or intimidating remarks by a student toward another person that threatens their well-being is strictly forbidden. This includes, but is not limited to, fighting, racial, ethnic, religious, or sexual slurs. *Consequences for violating the hand- off policy may result in in school or out of school suspension and/or a citation from the school resource officer.*

Furthermore, it is unlawful, during regular school hours, and in a place where a public-school employee is required to be in the course of his or her duties, for any person to address a public-school employee using language which, in its common acceptation, is calculated to:

- a. Cause a breach of the peace;
- b. Materially and substantially interfere with the operation of the school;
- c. Arouse the person to whom it is addressed to anger, to the extent likely to cause imminent retaliation.

Students guilty of such an offense may be subject to legal proceedings in addition to student disciplinary measures including suspension from school to expulsion.

4.22—WEAPONS AND DANGEROUS INSTRUMENTS

Definitions

“Firearm” means any device designed, made, or adapted to expel a projectile by the action of an explosive or any device readily convertible to that use.

“Possession” means having a weapon on the student’s body or in an area under the student’s control.

“Weapon” means any:

- Firearm;
- Knife;
- Razor;
- Ice pick;
- Dirk;
- Box cutter;
- Nun-chucks;
- Pepper spray, mace, or other noxious spray;
- Explosive;
- Taser or other instrument that uses electrical current to cause neuromuscular incapacitation; or
- Any other instrument or substance capable of causing bodily harm.

No student, except for Military personnel (such as ROTC cadets) acting in the course of their official duties or as otherwise expressly permitted by this policy, shall possess a weapon, display what appears to be a weapon, or threaten to use a weapon before or after school while

- In a school building;
- On or about school property;
- At any school sponsored activity or event;
- On route to or from school or any school sponsored activity; or
- Off the school grounds at any school bus stop.

If a student discovers prior to any questioning or search by any school personnel that he/she has accidentally brought a weapon, other than a firearm, to school on his/her person, in a book bag/purse, or in his/her vehicle on school grounds, and the student informs the principal or a staff person immediately, the student will not be considered to be in possession of a weapon unless it is a firearm. The weapon shall be confiscated and held in the office until such time as the student’s parent/legal guardian shall pick up the weapon from the school’s office. Repeated offenses are unacceptable and shall be grounds for disciplinary action against the student as otherwise provided for in this policy.

Except as permitted in this policy, students found to be in possession on the school campus of a firearm shall be recommended for expulsion for a period of one (1) year. The superintendent shall have the discretion to modify such expulsion recommendation for a student on a case-by-case basis. Parents or legal guardians of students expelled under this policy shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property. Parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to readmitting the student. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a firearm policy violation shall also be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property. The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The mandatory expulsion requirement for possession of a firearm does not apply to a firearm visibly stored inside a locked vehicle on school property nor to activities approved and authorized by the district that include the use of firearms. Such activities may include ROTC programs, hunting safety or military education, or before or after-school hunting or rifle clubs.

The Atkins Board of Education recognizes that dress can be a matter of personal taste and preference. At this time, the district has a responsibility to promote an environment conducive to student learning. This requires limitations to students' dress and grooming that could be disruptive to the educational process because they are immodest, disruptive, unsanitary, unsafe, could cause property damage or are offensive to common standards of decency. Students are prohibited from wearing, while on the school grounds during the school day and at school-sponsored events, clothing that exposes underwear, buttocks, or the breast of a female.

The general standard of appearance for students is that they be clean, neat, and properly dressed. They shall observe modes of dress, styles of hair, and behavior conducive to an effective educational process. Footwear that protects the foot and safeguards the health of others must be worn, and footwear that is damaging to the floor is prohibited. Dress shall not be extreme, exhibitionistic or of immodest fit or style to the extent that it interferes with the instructional process.

1. *Shorts and skirts are to be no shorter than mid-thigh.*
2. *Jeans or pants with holes are not allowed if the holes are above mid-thigh.*
3. *No sagging.*
4. *No muscle shirts, no spaghetti strap tops and no crop tops. Stomach cannot be showing. No shirts with cut out sides will be allowed. Open back tops are not appropriate unless worn with a suitable shirt underneath.*
5. *Clothing with inappropriate designs or signs (i.e., alcoholic beverages, unacceptable pictures, suggestive language, etc.) is not permitted.*
6. *Sunglasses, blankets, or unusual headdress are not permitted at any time in classes, lunchroom, hall, gymnasium, or any place designated by the administration and School Board.*
7. *Hats will be permitted at AHS only except when part of an approved "spirit day" at AES and AMS.*
8. *No chains will be allowed or anybody wear which can be interpreted as a weapon.*
9. *Low cut necklines that reveal extreme cleavage are not allowed.*
10. *No pajamas, sleepwear, or slippers (except when part of an approved "spirit day") will be allowed at AES and AMS. AHS will allow pajama pants unless they are deemed inappropriate by the principal.*
11. *Costumes and/or costume accessories may only be worn during spirit week and/or other school sanctioned events.*

Students violating the dress code will be sent home following contact with the parent/guardian to change clothes. School personnel will confiscate any inappropriate accessories. Continued violations may result in out of school suspension. The building Principal will have discretionary authority in deciding cases which do not fall into the specific guidelines within the policy. The above list is not exhaustive. Since styles, fashions, and fads change the administration may make decision regarding other modes of dress which may be inappropriate if such situations should occur.

4.26—GANGS AND GANG ACTIVITY

The Board is committed to ensuring a safe school environment conducive to promoting a learning environment where students and staff can excel. An orderly environment cannot exist where unlawful acts occur causing fear, intimidation, or physical harm to students or school staff. Gangs and their activities create such an atmosphere and shall not be allowed on school grounds or at school functions. The following actions are prohibited by students on school property or at school functions:

1. Wearing or possessing any clothing, bandanas, jewelry, symbol, or other sign associated with membership in, or representative of, any gang;
2. Engaging in any verbal or nonverbal act such as throwing signs, gestures, or handshakes representative of membership in any gang;
3. Recruiting, soliciting, or encouraging any person through duress or intimidation to become or remain a member of any gang; and/or
4. Extorting payment from any individual in return for protection from harm from any gang.

Students found to be in violation of this policy shall be subject to disciplinary action up to and including expulsion. Students arrested for gang related activities occurring off school grounds shall be subject to the same disciplinary actions as if they had occurred on school grounds.

4.27—STUDENT SEXUAL HARASSMENT

The Atkins School District is committed to providing an academic environment that treats all students with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.

The District believes the best policy to create an educational environment free from sexual harassment is prevention; therefore, the District shall provide informational materials and training to students, parents/legal guardians/other responsible adults, and employees on sexual harassment. The informational materials and training on sexual harassment shall be age appropriate and, when necessary, provided in a language other than English or in an accessible format. The informational materials and training shall include, but are not limited to: the nature of sexual harassment; the District's written grievance procedures for complaints of sexual harassment; that the district does not tolerate sexual harassment; that students can report inappropriate behavior of a sexual nature without fear of adverse consequences; the redress that is available to the victim of sexual harassment; and the potential discipline for perpetrating sexual harassment.

“Sexual harassment” means conduct that is:

1. Of a sexual nature, including, but not limited to:
 - a. Sexual advances;
 - b. Requests for sexual favors;
 - c. Sexual violence; or
 - d. Other personally offensive verbal, visual, or physical conduct of a sexual nature;
2. Unwelcome; and
3. denies or limits a student's ability to participate in or benefit from any of the District's educational programs or activities through any or all of the following methods:
 - a. Submission to the conduct is made, either explicitly or implicitly, a term or condition of an individual's education;
 - b. Submission to, or rejection of, such conduct by an individual is used as the basis for academic decisions affecting that individual; and/or
 - c. Such conduct has the purpose or effect of substantially interfering with an individual's academic performance or creates an intimidating, hostile, or offensive academic environment.

The terms “intimidating,” “hostile,” and “offensive” include conduct of a sexual nature that has the effect of humiliation or embarrassment and is sufficiently severe, persistent, or pervasive that it limits the student's ability to participate in, or benefit from, an educational program or activity.

Within the educational environment, sexual harassment is prohibited between any of the following: students; employees and students; and non-employees and students.

Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all of the surrounding circumstances and may occur regardless of the sex(es) of the individuals involved. Depending upon such circumstances, examples of sexual harassment include, but are not limited to:

- Making sexual propositions or pressuring for sexual activities;
- Unwelcome touching;
- Writing graffiti of a sexual nature;
- Displaying or distributing sexually explicit drawings, pictures, or written materials;
- Performing sexual gestures or touching oneself sexually in front of others;
- Telling sexual or crude jokes;
- Spreading rumors related to a person's alleged sexual activities;
- Discussions of sexual experiences;
- Rating other students as to sexual activity or performance;
- Circulating or showing e-mails or Web sites of a sexual nature;
- Intimidation by words, actions, insults, or name calling; and
- Teasing or name-calling related to sexual characteristics or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of whether or not the student self-identifies as homosexual or transgender.

Students who believe they have been subjected to sexual harassment, or the parent/legal guardian/other responsible adult of a student who believes their student has been subjected to sexual harassment, are encouraged to file a complaint by contacting a counselor, teacher, Title IX coordinator, or administrator who will provide assistance on the complaint

process. Under no circumstances shall a student be required to first report allegations of sexual harassment to a school contact person if that person is the individual who is accused of the harassment.

Complaints will be treated in a confidential manner to the extent possible. Limited disclosure may be provided to: individuals who are responsible for handling the District's investigation to the extent necessary to complete a thorough investigation; the extent necessary to submit a report to the child maltreatment hotline; the Professional Licensure Standards Board for complaints alleging sexual harassment by an employee towards a student; or the extent necessary to provide the individual accused in the complaint due process during the investigation and disciplinary processes. Individuals who file a complaint have the right to request that the individual accused of sexual harassment not be informed of the name of the accuser; however, individuals should be aware that making such a request may substantially limit the District's ability to investigate the complaint and may make it impossible for the District to discipline the accused.

Students, or the parents/legal guardians/ other responsible adult of a student, who file a complaint of sexual harassment shall not be subjected to retaliation or reprisal in any form, including threats, intimidation, coercion, or discrimination. The District shall take steps to prevent retaliation and shall take immediate action if any form of retaliation occurs regardless of whether the retaliatory acts are by District officials, students, or third parties.

Following the completion of an investigation of a complaint, the District will inform the parents/legal guardian/other responsible adult of the student, or the student if over the age of eighteen (18), who filed the complaint:

- The final determination of the investigation;
- Remedies the District will make available to the student; and
- The sanctions, if any, imposed on the alleged harasser relevant to the student.

Following the completion of an investigation of a complaint, the District will inform the parents/legal guardian/other responsible adult of the student, or the student if over the age of eighteen (18), who was accused of sexual harassment in the complaint:

- The final determination of the investigation; and
- The sanctions, if any, the District intends to impose on the student.

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment. Following an investigation, any student who is found by the evidence to more likely than not have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion.

Students who knowingly fabricate allegations of sexual harassment shall be subject to disciplinary action up to and including expulsion.

Individuals who withhold information, purposely provide inaccurate facts, or otherwise hinder an investigation of sexual harassment shall be subject to disciplinary action up to and including expulsion.

4.28—LASER POINTERS

Students shall not possess any hand-held laser pointer while in school; on or about school property, before or after school; in attendance at school or any school-sponsored activity; en route to or from school or any school-sponsored activity; off the school grounds at any school bus stop or at any school-sponsored activity or event. School personnel shall seize any laser pointer from the student possessing it and the student may reclaim it at the close of the school year, or when the student is no longer enrolled in the District.

4.29—INTERNET SAFETY and ELECTRONIC DEVICE USE POLICY

Definition

For the purposes of this policy, "electronic device" means anything that can be used to transmit or capture images, sound, or data.

The District makes electronic device(s) and/or electronic device Internet access available to students, to permit students to perform research and to allow students to learn how to use electronic device technology. Use of district electronic devices

is for educational and/or instructional purposes only. Student use of electronic device(s) shall only be as directed or assigned by staff or teachers; students are advised that they enjoy no expectation of privacy in any aspect of their electronic device use, including email, and that monitoring of student electronic device use is continuous.

No student will be granted Internet access until and unless an Internet and electronic device use agreement, signed by both the student and the parent or legal guardian (if the student is under the age of eighteen [18]) is on file. The current version of the Internet and electronic device use agreement is incorporated by reference into board policy and is considered part of the student handbook.

Technology Protection Measures

The District is dedicated to protecting students from materials on the Internet or world wide web that are inappropriate, obscene, or otherwise harmful to minors; therefore, it is the policy of the District to protect each electronic device with Internet filtering software that is designed to prevent students from accessing such materials. For purposes of this policy, "harmful to minors" means any picture, image, graphic image file, or other visual depiction that:

1. taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
2. depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
3. taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

Internet Use and Safety

The District is dedicated to ensuring that students are capable of using the Internet in a safe and responsible manner. The District uses technology protection measures to aid in student safety and shall also educate students on appropriate online behavior and Internet use including, but not limited to:

1. Interacting with other individuals on social networking websites and in chat rooms;
2. Cyber bullying awareness; and
3. Cyber bullying response.

Misuse of Internet

The opportunity to use the District's technology to access the Internet is a privilege and not a right. Students who misuse electronic devices or Internet access in any way will face disciplinary action, as specified in the student handbook and/or Internet safety and electronic device use agreement. Misuse of the Internet includes:

1. The disabling or bypassing of security procedures, compromising, attempting to compromise, or defeating the district's technology network security or Internet filtering software;
2. The altering of data without authorization;
3. Disclosing, using, or disseminating passwords, whether the passwords are the student's own or those of another student/faculty/community member, to other students;
4. Divulging personally identifying information about himself/herself or anyone else either on the Internet or in an email unless it is a necessary and integral part of the student's academic endeavor. Personal identifying information includes full names, addresses, and phone numbers.
5. Using electronic devices for any illegal activity, including electronic device hacking and copyright or intellectual property law violations;
6. Using electronic devices to access or create sexually explicit or pornographic text or graphics;
7. Using electronic devices to violate any other policy or is contrary to the Internet safety and electronic device use agreement.

The Atkins School District makes computers and/or computer Internet access available to students, to permit students to perform research and to allow students to learn how to use computer technology. Use of district computers is for educational and/or instructional purposes only. It is the policy of this school district to equip each computer with Internet filtering software designed to prevent users from accessing material that is harmful to minors. For the purposes of this policy "harmful to minors" is defined as any picture, image, graphic image file, or other visual depiction that--

1. taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
2. depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
3. taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

No student will be granted Internet access until and unless a computer-use agreement, signed by both the student and the parent or legal guardian (if the student is under the age of eighteen [18] is on file.) Internet use agreements will be distributed through the appropriate classroom or media center.

Student use of computers shall only be as directed or assigned by staff or teachers; students are advised that they enjoy no expectation of privacy in any aspect of their computer use, including email, and that monitoring of student computer use is continuous. Students must not disable or bypass security procedures, compromise, attempt to compromise, or defeat the district's technology network security or Internet filterin software, alter data without authorization, or disclose passwords to other students. Students who misuse district-owned computers or Internet access in any way, including using computers to violate any other policy or contrary to the computer use agreement, or using the computers to access or create sexually explicit or pornographic text or graphics, will face disciplinary action. Intentional violation of the internet policy first offense will result in denial of the internet privilege for a period of one (1) month. Second offense will result in denial of privilege for the remainder of the school year. Intention will be determined by the faculty and administration.

In an effort to help protect student welfare when they navigate the Internet, the district will work to educate students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response.

All students in grades K-12 will be issued a school-owned computer/notebook. The rules and procedures regarding the 1:1 Initiative are located in a separate technology policy handbook. All parents/guardians and students will be required to read and abide by the rules set forth in the technology handbook. A computer use/BYOD permission form with parent/guardian and student signatures will be required before taking possession of a school owned device.

1. Conditional Privilege: The Student's use of the district's access to the Internet is a privilege conditioned on the Student's abiding to this agreement. No student may use the district's access to the Internet whether through a District or student owned electronic device unless the Student and his/her parent or guardian have read and signed this agreement.
2. Acceptable Use: The Student agrees that he/she will use the District's Internet access for educational purposes only. 4.30—SUSPENSION FROM SCHOOL

Students, not present at school, cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period of time not to exceed ten (10) school days, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event; and
- Going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to, that:

1. Is in violation of school policies, rules, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or
4. Is insubordinate, incorrigible, violent, or involves moral turpitude.

OSS shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy.

The school principal or designee shall proceed as follows in deciding whether or not to suspend a student.

- A. the student shall be given written notice or advised orally of the charges against him/her;
- B. if the student denies the charges, he/she shall be given an explanation of the evidence against him/her and be allowed to present his/her version of the facts; and
- C. If the principal finds the student guilty of the misconduct, he/she may be suspended.

When possible, notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), person(s) with lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older prior to the suspension. Such notice shall be made by telephone, handed to the parent(s), legal guardian(s), person(s) having lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older, or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the responsibility of a student's parents'; legal guardians': person having lawful control of the student, or person standing in loco parentis to provide current contact information to the district which the school shall use to immediately notify the parent, legal guardian, person having lawful control of a student, or person standing in loco parentis upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

1. A primary call number
 - The contact may be by voice, voice mail, or text message
2. An email address
3. A regular first-class letter to the last known mailing address

The district shall keep a log of contacts attempted and made to the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of OSS.

During the period of their suspension, student serving OSS shall not be permitted on campus except to attend a student/parent/administrator conference or, when necessary, as part of the District's engagement or access to education program. During the period of their suspension, student serving In-School and Out of School Suspension shall not attend or participate in any school-sponsored activities during imposed suspension. Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board. Suspensions initiated by the Superintendent may be appealed to the Board.

4.31—EXPULSION

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct:

- Deemed to be of such gravity that suspension would be inappropriate;
- Where the student's continued attendance at school would disrupt the orderly learning environment; or

- Would pose an unreasonable danger to the welfare of other students or staff.

The Superintendent or his/her designee shall give written notice to the parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis (mailed to the address reflected on the District’s records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation. The hearing shall be conducted not later than ten (10) school days following the date of the notice, except when representatives of the Board and student may agree in writing to a date not conforming to this limitation. The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board also may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, legal guardian, persons having lawful control of the student, person standing in loco parentis, or student if age eighteen (18) or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses that gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence, including: statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted; however, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

Except as permitted by policy 4.22, the Superintendent shall recommend the expulsion of any student for a period of not less than one (1) year for possession of any firearm prohibited on school campus by law. The Superintendent shall, however, have the discretion to modify the expulsion recommendation for a student on a case-by-case basis. Parents, legal guardians, persons having lawful control of a student, or person standing in loco parentis of a student enrolling from another school after the expiration of an expulsion period for a weapons policy violation shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on school property. The parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The Superintendent and the Board of Education shall complete the expulsion process of any student that was initiated because the student possessed a firearm or other prohibited weapon on school property regardless of the enrollment status of the student.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student’s period of expulsion. The District’s program shall include offering an expelled student an opportunity for enrollment in digital learning courses or other alternative educational courses that result in the receipt of academic credit that is at least equal to credit the expelled student may have received from the District if the student had not been expelled.

4.32—SEARCH, SEIZURE, AND INTERROGATIONS

The District respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community. School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult

witness, however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction. The Superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs. A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Division of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control of the student, or person standing in loco parentis. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, person having lawful control of the student, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control of the student, or person standing in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

4.33—STUDENTS' VEHICLES

A student who has presented a valid driver's license, a car registration, five dollars, and proof of insurance to the appropriate office personnel, may drive his/her vehicle to school. Vehicles driven to school shall be parked in the student's assigned parking spot with the hangtag displayed on the rearview mirror. Parking on school property is a privilege which may be denied to a student for any disciplinary violation, at the discretion of the student's building principal. Students are not permitted to loiter in parking areas and are not to return to their vehicles during the school day for any reason unless given permission to do so by school personnel.

It is understood that there is no expectation of privacy in vehicles in parking areas. Drivers of vehicles parked on a school campus will be held accountable for illegal substances or any other item prohibited by District policy found in their vehicle. The act of a student parking a vehicle on campus is a grant of permission for school or law enforcement authorities to search that vehicle.

4.34—COMMUNICABLE DISEASES AND PARASITES

The parents or legal guardians of students found to have live lice or nits will be asked to pick their child up at school. The parents or legal guardians will be given information concerning the eradication and control of head lice. Before students may be readmitted following an absence due to head lice, the school nurse or designee shall examine the student to make sure they are free of any lice or nits. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school. When a child has been sent home five (5) times or misses five (5) consecutive days of school because of head lice and/or nits, the nurse will notify the principal who will contact the parents or guardians and set up a mandatory conference with the parent, guardian and principal.

Each school may conduct screenings of students for human host parasites that are transmittable in a school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student. Students with communicable diseases or with parasites shall demonstrate respect for other students by not attending school while they are contagious. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

The parents or legal guardians of students found to have live lice or nits will be asked to pick their child up at school. A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse, when the student is no longer a transmission risk. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District's exposure control plan when dealing with any blood borne, foodborne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

In accordance with 4.57 – Immunizations, the District shall maintain a copy of each student's immunization record and a list of individuals with exemptions from immunization which shall be education records as defined in policy 4.13. That policy provides that an education record may be disclosed to appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

A student enrolled in the district who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to school until the outbreak has been resolved and the student's return to school is approved by the Arkansas Department of Health.

The student will remain in the school’s health room or a place where he/she can be supervised until the end of the school day or until the parent/legal guardian can check the student out of school.

If a student becomes seriously ill or is injured while at school and the parent/legal guardian cannot be contacted, the failure to make such contact shall not unreasonably delay the school’s expeditious transport of the student to an appropriate medical care facility. The school assumes no responsibility for treatment of the student. When available, current, and applicable, the student’s emergency contact numbers and medical information will be utilized. Parents are strongly encouraged to keep this information up to date.

4.37—EMERGENCY DRILLS

All schools in the District shall conduct fire drills at least monthly. Tornado drills shall also be conducted not fewer than three (3) times per year. Students, who ride school buses, shall also participate in emergency evacuation drills at least twice each school year.

The District shall annually conduct an annual lockdown drill at all schools in the District in collaboration with local law enforcement and emergency management personnel. The lockdown drill training will include use of the District’s

emergency communication method with law enforcement. Students will be included in the drills to the extent that is developmentally appropriate to the age of both the students and grade configuration of the school.

Drills may be conducted during the instructional day or during non-instructional time periods.

Other types of emergency drills may also be conducted to test the implementation of the District's emergency plans in the event of violence, terrorist attack, natural disaster, other emergency, or the District's emergency communication with law enforcement method. Students shall be included in the drills to the extent practicable.

4.40—HOMELESS STUDENTS

The Atkins School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational agency (LEA) liaison for homeless children and youth whose responsibilities shall include, but are not limited to:

- Receive appropriate time and training in order to carry out the duties required by law and this policy;
- coordinate and collaborate with the State Coordinator, community, and school personnel responsible for education and related services to homeless children and youths;
- Ensure that school personnel receive professional development and other support regarding their duties and responsibilities for homeless youths;
- Ensure that unaccompanied homeless youths:
 - Are enrolled in school;
 - Have opportunities to meet the same challenging State academic standards as other children and youths; and
 - Are informed of their status as independent students under the Higher Education Act of 1965 and that they may obtain assistance from the LEA liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid;
- Ensure that public notice of the educational rights of the homeless children and youths is disseminated in locations frequented by parents or guardians of such youth, and unaccompanied homeless youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form that is easily understandable.

To the extent possible, the LEA liaison and the building principal shall work together to ensure no homeless child or youth is harmed due to conflicts with District policies solely because of the homeless child or youth's living situation; this is especially true for District policies governing fees, fines, and absences.

Notwithstanding Policy 1.1, homeless students living in the district are entitled to enroll in the district's school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict with Policy 1.1 or 1.2, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute, including all appeals. It is the responsibility of the District's LEA liaison for homeless children and youth to carry out the dispute resolution process.

For the purposes of this policy "school of origin" means:

- The school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool; and

- The designated receiving school at the next grade level for all feeder schools when the child completes the final grade provided by the school of origin.

The District shall do one of the following according to what is in the best interests of a homeless child. (For the purposes of this policy “school of origin” means the school the child attended when permanently housed or the school in which the child was last enrolled.)

1. Continue the child's or youth's education in the school of origin for the duration of homelessness:
 - In any case in which a family becomes homeless between academic years or during an academic year; and
 - For the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or
2. Enroll the child or youth in any public school that non-homeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

In determining the best interest of the child or youth, the District shall:

- Presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- Consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth.

If the District determines that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, the District shall provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal. For an unaccompanied youth, the District shall ensure that the LEA liaison assists in placement or enrollment decisions, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

The homeless child or youth must be immediately enrolled in the selected school regardless of whether application or enrollment deadlines were missed during the period of homelessness.

The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, LEA the Liaison), to and from the child's school of origin.

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and:

A. Are:

- Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
- Living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
- Living in emergency or transitional shelters;
- Abandoned in hospitals; or

B. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;

C. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and includes

D. Are migratory children who are living in circumstances described in clauses (a) through (c).

In accordance with Federal law, information on a homeless child or youth's living situation is part of the student's education record and shall not be considered, or added, to the list of directory information in Policy 4.13.

4.41—PHYSICAL EXAMINATIONS OR SCREENINGS

The District conducts routine health screenings such as hearing, vision, and scoliosis due to the importance these health factors play in the ability of a student to succeed in school. The intent of the exams or screening is to detect defects in hearing, vision, or elements of health that would adversely affect the student's ability to achieve to his/her full potential. The right to provide to parent under this policy transfer to the student when he/she turns eighteen (18) years old.

Except in instances where a student is suspected of having a contagious or infectious disease, parents shall have the right to opt their student out of the exams or screenings by using form 4.41F or by providing certification from a physician that he/she has recently examined the student.

4.41F—OBJECTION TO PHYSICAL EXAMINATIONS OR SCREENINGS

This form may be obtained in the principal's office.

4.42—STUDENT HANDBOOK

It shall be the policy of the Atkins school district that the most recently adopted version of the Student Handbook be incorporated by reference into the policies of this district. In the event that there is a conflict between the student handbook and a general board policy or policies, the more recently adopted language will be considered binding and controlling on the matter provided the parent(s) of the student or the student if 18 of age or older have acknowledged receipt of the controlling language.

Principals shall review all changes to student policies and ensure that such changes are provided to students and parents, either in the Handbook or, if changes are made after the handbook is printed, as an addendum to the handbook.

Principals and counselors shall also review Policies 4.45—SMART CORE CURRICULUM AND GRADUATION and the current DESE Standards for Accreditation Rules to ensure that there is no conflict. If a conflict exists, the Principal and/or Counselor shall notify the Superintendent and Curriculum Coordinator immediately, so that corrections may be made and notice of the requirements given to students and parents.

4.43—BULLYING

Cyberbullying is prohibited whether or not the cyberbullying originated on school property or with school equipment, if the cyberbullying results in the substantial disruption of the orderly operation of the school or educational environment or is directed specifically at students or school personnel and maliciously intended for the purpose of disrupting school and has a high likelihood of succeeding in that purpose.

“Harassment” means a pattern of unwelcome verbal or physical conduct relating to another person's constitutionally or statutorily protected status that causes, or reasonably should be expected to cause, substantial interference with the other's performance in the school environment; and

“Substantial disruption” means without limitation that any one or more of the following occur as a result of the bullying:

- Necessary cessation of instruction or educational activities;
- Inability of students or educational staff to focus on learning or function as an educational unit because of a hostile environment;
- Severe or repetitive disciplinary measures are needed in the classroom or during educational activities; or
- Exhibition of other behaviors by students or educational staff that substantially interfere with the learning environment.

Respect for the dignity of others is a cornerstone of civil society. Bullying creates an atmosphere of fear and intimidation, robs a person of his/her dignity, detracts from the safe environment necessary to promote student learning, and will not be tolerated by the Board of Directors. Students who bully another person shall be held accountable for their actions whether they occur on school equipment or property; off school property at a school sponsored or approved function, activity, or event; going to or from school or a school activity in a school vehicle or school bus; or at designated school bus stops.

Students are encouraged to report behavior they consider to be bullying, including a single action which if allowed to continue would constitute bullying, to their teacher or the building principal. The report may be made anonymously. Teachers and other school employees who have witnessed, or are reliably informed that, a student has been a victim of behavior they consider to be bullying, including a single action which if allowed to continue would constitute bullying, shall report the incident(s) to the building principal, or designee, as soon as possible. Parents or legal guardians may submit written reports of incidents they feel constitute bullying, or if allowed to continue would constitute bullying, to the building principal, or designee.

The person or persons reporting behavior they consider to be bullying shall not be subject to retaliation or reprisal in any form.

A building principal, or designee, who receives a credible report or complaint of bullying shall:

1. As soon as reasonably practicable, but by no later than the end of the school day following the receipt of the credible report of bullying:
 - a. Report to a parent, legal guardian, person having lawful control of a student, or person standing in loco parentis of a student that their student is the victim in a credible report of bullying; and
 - b. Prepare a written report of the alleged incident of bullying;
2. Promptly investigate the credible report or complaint of bullying, which shall be completed by no later than the fifth (5th) school day following the completion of the written report.
3. Notify within five (5) days following the completion of the investigation the parent, legal guardian, person having lawful control of a student, or person standing in loco parentis of a student who was the alleged victim in a credible report of bullying whether the investigation found the credible report or complaint of bullying to be true and the availability of counseling and other intervention services.
4. Notify within five (5) days following the completion of the investigation the parent, legal guardian, person having lawful control of the student, or person acting in loco parentis of the student who is alleged to have been the perpetrator of the incident of bullying:
 - a. That a credible report or complaint of bullying against their student exists;
 - b. Whether the investigation found the credible report or complaint of bullying to be true;
 - c. Whether action was taken against their student upon the conclusion of the investigation of the alleged incident of bullying; and
 - d. information regarding the reporting of another alleged incident of bullying, including potential consequences of continued incidents of bullying;
5. Make a written record of the investigation, which shall include:
 - a. A detailed description of the alleged incident of bullying, including without limitation a detailed summary of the statements from all material witnesses to the alleged incident of bullying;
 - b. Any action taken as a result of the investigation; and
6. Discuss, as appropriate, the availability of counseling and other intervention services with students involved in the incident of bullying.

Students found to be in violation of this policy shall be subject to disciplinary action up to and including expulsion. In determining the appropriate disciplinary action, consideration may be given to other violations of the student handbook which may have simultaneously occurred. In addition to any disciplinary actions, the District shall take appropriate steps to remedy the effects resulting from bullying.

Notice of what constitutes bullying, the District's prohibition against bullying, and the consequences for students who bully shall be conspicuously posted in every classroom, cafeteria, restroom, gymnasium, auditorium, and school bus.² Parents, legal guardians, person having lawful control of a student, persons standing in loco parentis, students, school volunteers, and employees shall be given copies of the notice annually.³

The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation, the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying.

Copies of this policy shall be available upon request.

4.45—SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS FOR THE CLASSES OF 2022, 2023, 2024, AND 2025

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are eighteen (18) years of age or older, sign *Smart Core Waiver Form* to not participate. While Smart Core is the default option, a *Smart Core Information Sheet* and a *Smart Core Waiver Form* will be sent home with students prior to their enrolling in seventh (7th) grade, or when a seventh (7th) through twelfth (12) grade student enrolls in the district for the first time and there is not a signed waiver form in the student's permanent record. This policy is to be included in student handbooks for grades six (6) through twelve (12) and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the Alternate Pathway to Graduation when required by their IEP to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the deadline for them to sign and return the waiver form.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain college could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum providing they would be able to complete the required course of study by the end of their senior year. Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents as part of the annual school district support plan development process to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel. Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their understanding of each. This may be accomplished by any of the following means.

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, or a meeting held specifically for the purpose of informing the public on this matter;

- Discussions held by the school’s counselor with students and their parents; and/or
- Distribution of a newsletter to the parents or guardians of the district’s students.

Administrators or their designees shall train newly hired employees required to be licensed as a condition of their employment, regarding this policy. The district’s annual professional development shall include the training required by this paragraph.

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children and the Arkansas Military Child School Transitions Act of 2021 for all students who meet the definition of “eligible child” in Policy 4.2—ENTRANCE REQUIREMENTS including the waiving of specific courses that are required for graduation if similar coursework has been satisfactorily completed.

Graduation Requirements

The number of units students must earn to be eligible for high school graduation are to be earned from the following categories. A minimum of twenty-two (22) units are required for graduation for students participating in either the Smart Core or Core curriculum. In addition to the twenty- two (22) units required for graduation by the Division of Elementary and Secondary Education (DESE), the district requires an additional one (1) unit to graduate for a total of twenty-three (23) units. The additional required unit may be taken from any electives offered by the district. There are some distinctions made between Smart Core and graduation units. Not all units earned toward graduation necessarily apply to Smart Core requirements. *Atkins High School also requires all ninth-grade students to take the yearlong course Technology Design Applications. This course prepares students for the transition from school to work, strengthens their skills to develop competencies for national certification, and provides the foundation for other career/technical courses.*

All students must receive a passing score on the Arkansas Civics Exam in order to graduate.

Students shall be trained in quality psychomotor skill bases in cardiopulmonary resuscitation and the use of automated external defibrillators in order to graduate.

Digital Learning Courses

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format. In addition to the other graduation requirements contained in this policy, students are required to take at least one (1) digital learning course for credit while in high school.

The Pledge of Allegiance shall be recited:

1. During the first class period of each school day;
2. At the commencement of each school-sanctioned after-school assembly; and
3. At the commencement of each school-sanctioned sporting event; however, if two (2) or more school-sanctioned sporting events occur on the same day at the same school, then the Pledge may be recited at only one (1) of the school-sanctioned sporting events.

Students choosing to participate in the recitation of the Pledge shall do so by facing the flag with their right hands over their hearts, or in an appropriate salute if in uniform, while reciting the Pledge. Students choosing not to participate either stand or sit quietly while the other students recite the Pledge.

4.47— POSSESSION AND USE OF CELL PHONES, AND OTHER ELECTRONIC DEVICES

Students are responsible for conducting themselves in a manner that respects the rights of others. Possession and use of any electronic device, whether district or student owned, that interferes with a positive, orderly classroom environment and does not respect the rights of others is expressly forbidden. Electronic devices and the use of cell phones will be permitted before and after normal school hours on the school campus. *AMS and AHS students will also be allowed to use their cellphones during lunch.*

To protect the security of statewide assessments, no electronic device, as defined in this policy, shall be accessible by a student at any time during assessment administration unless specifically permitted by a student's individualized education program (IEP) or individual health plan; this means that when a student is taking an AESAA assessment, the student shall not have his/her electronic device in his/her possession. Any student violating this provision shall be subject to this policy's disciplinary provisions. The prohibition in this policy does not extend to the electronic device the District provides the student for the student's use during assessment administration to the extent the student is using the District provided device to complete the assessment.

As used in this policy, "electronic devices" means anything that can be used to transmit or capture images, sound, or data.

Misuse of electronic devices includes, but is not limited to:

1. Using electronic devices during class time in any manner other than specifically permitted by the classroom instructor;
2. Permitting any audible sound to come from the device when not being used for reason #1 above;
3. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, or wrongfully obtaining test copies or scores;
4. Using the device to record audio or video or to take photographs in areas where a general expectation of personal privacy exists, including but not limited to locker rooms and bathrooms;
5. Creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person.

Use of an electronic device is permitted to the extent it is approved in a student's individualized education program (IEP) or it is needed in an emergency that threatens the safety of students, staff, or other individuals.

The failure to comply with the acceptable use of the electronic devices will result in the following consequences:

1. First Offense: *Item confiscated/ sent to the office/ warning.*
2. Second Offense: *Item confiscated/sent to the office/2 days detention*
3. Third Offense: *Item confiscated/sent to the office/parent notification/1 day of ISS*
4. Fourth and Subsequent Offenses: *Item confiscated/consequences will be at the discretion of the principal*

Students may retrieve confiscated phones at the end of the day.

Cell phone violations will start over at the beginning of each 9 weeks.

Students who fail to relinquish an electronic device or cell phone to school officials upon request shall be subject to consequences determined by the principal which may include a maximum of 3 days of In School Suspension (ISS) in addition to the consequences for the original violation.

The use of a cell phone or electronic device while on campus or at any school sponsored event in any inappropriate manner including, but not limited to: instigating a fight, viewing or sharing obscene/vulgar/profane material, academic dishonesty, bullying, disruption of the educational process, posting inappropriate material to social media, disrespect toward any student, employee or school board member of the Atkins School District, or any other offense which may bring

disturbance or disruption to the orderly operation of the school may subject students to consequences in addition to the consequences for cell phone violations. Consequences may range from a minimum of a reprimand to a maximum of expulsion depending on the seriousness of the offense and the level of a student's culpability in the offense. Any student who uses an electronic device outside of school hours or while off campus to threaten a student, school employee or member of the school board or to disrupt the orderly operation of the school or school district shall be subject to disciplinary action in accordance with school policy. The use of any electronic device by a student in any manner which is in violation of Arkansas law shall be reported to the proper law enforcement agency and may subject the student to prosecution.

Nothing contained in this policy shall prohibit a student from using a cell phone in an appropriate manner at an after-school athletic practice or any school sponsored event which takes place after school on or off campus or on any school bus while traveling to a school sponsored event.

Use of such devices at school sponsored functions outside the regular school day is permitted to the extent and within the limitations allowed by the event or activity the student is attending.

A parent shall obtain approval from the student's building principal before operating a student-tracking safety device at school or at a school-sponsored event if the device has recording or listen-in capability. The District requires the device's recording and listen-in technology to be disabled while the device is on the campus or at the school-sponsored event because of student privacy concerns. The District prohibits unauthorized audio or visual recordings or transmission of audio or images of other students. The student's parent shall agree in writing to the requirement for the device's recording and listening-in technology to be disabled and that the District may prohibit future use of the device on campus or at a school-sponsored activity if it is determined that the device's recording or listening-in capabilities were used in violation of this policy before the student safety tracking device may be on campus or at a school-sponsored event.

The student and/or the student's parents or guardians expressly assume any risk associated with students owning or possessing devices. Students misusing electronic devices shall have them confiscated. Confiscated devices may be picked up at the school's administration office by the student's parents or guardians. Students have no right of privacy as to the content contained on any electronic devices that have been confiscated. A search of a confiscated device shall meet the reasonable individualized suspicion requirements of Policy 4.32—SEARCH, SEIZURE, AND INTERROGATIONS.

Students who use a school issued cell phones and/or computers for non-school purposes, except as permitted by the district's Internet/computer use policy, shall be subject to discipline, up to and including suspension or expulsion. Students are forbidden from using school issued cell phones while driving any vehicle at any time. Violation may result in disciplinary action up to and including expulsion.

No student shall use any wireless communication device for the purposes of browsing the internet; composing or reading emails and text messages; or making or answering phone calls while driving a motor vehicle that is in motion and on school property. Violation may result in disciplinary action up to and including suspension.

4.48—VIDEO SURVEILLANCE AND OTHER STUDENT MONITORING

The Board of Directors has a responsibility to maintain discipline, protect the safety, security, and welfare of its students, staff, and visitors while at the same time safeguarding district facilities, vehicles, and equipment. As part of fulfilling this responsibility, the board authorizes the use of video/audio surveillance cameras, automatic identification technology, data compilation devices, and technology capable of tracking the physical location of district equipment, students, and/or personnel. The placement of video/audio surveillance cameras shall be based on the presumption and belief that students, staff and visitors have no reasonable expectation of privacy anywhere on or near school property, facilities, vehicles, or equipment with the exception of places such as rest rooms or dressing areas where an expectation of bodily privacy is reasonable and customary.

Signs shall be posted on campus buildings and in district vehicles to notify students, staff, and visitors that video cameras may be in use. Parents and students shall also be notified through the student handbook that cameras may be in use in school buildings, on school grounds and in school vehicles. Students will be held responsible for any violations of school discipline rules caught by the cameras and other technologies authorized in this policy. The district shall retain copies of video recordings for a minimum of two (2) weeks before they are erased which may be accomplished by either deletion or

- Dentists.

The medical statement should include:

1. A description of the student’s disability that is sufficient to understand how the disability restricts the student’s diet;
2. An explanation of what must be done to accommodate the disability, which may include:
 - a. Food(s) to avoid or restrict;
 - b. Food(s) to substitute;
 - c. Caloric modifications; or
 - d. The substitution of a liquid nutritive formula.

If the information provided in the medical statement is unclear, or lacks sufficient detail, the district’s Director of Child Nutrition shall request additional information so that a proper and safe meal can be provided. When choosing an appropriate approach to accommodate a student’s disability, the District will consider the expense and efficiency of the requested accommodations. The District will offer a reasonable modification that effectively accommodates the child’s disability and provides equal opportunity to participate in or benefit from the program, which may include a generic version of a product.

Parents may file a grievance regarding the request for accommodations with the District’s 504 Coordinator, who will schedule a hearing on the grievance to be held as soon as possible. The 504 coordinator shall provide a copy of the procedures governing the hearing, including that the parent has the right to be accompanied by counsel, and the appeal process upon request.

4.51— FOOD SERVICE PREPAYMENT

Meal Charges

The district does not provide credit for students to charge for meals, a la carte, or other food and beverage items available for purchase in the school food service areas. Meals, a la carte, or other food and beverage items may be purchased by either providing payment for the items at the time of receipt or by having a prepaid account with the District that may be charged for the items. Parents, or students choosing to do so, may pay in advance for meals, a la carte, or other food and beverage items through any of the following methods:

- Submitting cash or check payment in the cafeteria
- Depositing funds through the District’s online service;

Unpaid Meal Access

In accordance with Arkansas law, the District allows students whose accounts do not have enough funds to purchase a meal to receive an unpaid reimbursable meal at no charge. The District will notify a student’s parents

- When the student’s prepaid account balance has dropped to the point that the student will begin receiving unpaid meals;
- Each time the student receives the first unpaid meal after money has been deposited into the student’s prepaid account; and
- After the student has received five (5) unpaid meals.

Students who have submitted proper documentation to receive a meal modification in accordance with Policy 4.50 – School Meal Modifications shall receive the same type of modification for an unpaid meal.

The District does not provide alternative meals for students. Students are served a regular meal and school staff works with parents to collect lunch charges.

4.52—STUDENTS WHO ARE FOSTER CHILDREN

The District will afford the same services and educational opportunities to foster children that are afforded other children and youth. The District shall work with the Department of Human Services (“DHS”), the Division of Elementary and Secondary Education (DESE), and individuals involved with each foster child to ensure that the foster child is able to maintain his/her continuity of educational services to the fullest extent that is practical and reasonable. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for foster children and youth whose responsibilities shall include ensuring the timely school enrollment of each foster child and assisting foster children who transfer between schools by expediting the transfer of relevant educational records.

The District, working with other individuals and agencies shall, unless the presiding court rules otherwise or DHS grants a request to transfer under Foster Child School Choice, ensure that the foster child remains in his/her school of origin, even if a change in the foster child’s placement results in a residency that is outside the district. In such a situation, the District will work with DHS to arrange for transportation to and from school for the foster child to the extent it is reasonable and practical. Upon notification to the District’s foster care liaison by a foster child’s caseworker that a foster child’s school enrollment is being changed to one of the District’s schools, the school receiving the child must immediately enroll him/her. Immediate enrollment is required even if a child lacks the required clothing, academic or medical records, or proof of residency.

A foster child’s grades shall not be lowered due to absence from school that is caused by a change in the child’s school enrollment, the child’s attendance at dependency-neglect court proceedings, or other court-ordered counseling or treatment. Any course work completed by the foster child prior to a school enrollment change shall be accepted as academic credit so long as the child has satisfactorily completed the appropriate academic placement assessment.

If a foster child was enrolled in a District school immediately prior to completing his/her graduation requirements while detained in a juvenile detention facility or while committed to the Division of Youth Services of DHS, the District shall issue the child a diploma.

Foster Child School Choice

If DHS approves a request from a foster parent, or the foster child if the foster child is eighteen (18) years of age, to transfer to another school in the District or into the district as being in the best interest of the foster child, the District shall allow the foster child to transfer to another school in the District or into the District if the foster parent, or the foster child if the foster child is eighteen (18) years of age, submits a request to transfer on a form approved by DESE that is postmarked by no later than May 1 of the year the student seeks to begin the fall semester at another school in the District or in the District.

By July 1 of the school year in which the student seeks to transfer under this section, the superintendent shall notify the foster parent, or the foster child if the foster child is eighteen (18) years of age, in writing whether the application has been accepted or rejected. If the application is accepted, the superintendent shall state in the notification letter a reasonable deadline for the foster child to enroll in the new school or the District and that failure to enroll by the date shall void the school choice acceptance.

If the application is rejected, the superintendent shall state in the notification letter the reason for the rejection and that the foster parent, or the foster child if the foster child is eighteen (18) years of age, may submit a written appeal of the rejection to the State board within ten (10) days of receiving the notification letter.

The District shall only reject a Foster Child School Choice application if:

1. The public school or District has reached the maximum student-to-teacher ratio allowed under federal law; state law; the standards for accreditation; or other applicable State rule or Federal regulation; or
2. Approving the transfer would conflict with a provision of an enforceable desegregation court order or a public school district’s court-approved desegregation plan regarding the effects of past racial segregation in student assignment.

A foster child whose application is rejected by the District may submit a written request within ten (10) days following the receipt of the rejection letter from the superintendent to the State Board of Education for the State Board to reconsider the transfer.

A Foster Child School Choice transfer shall remain in effect until the foster child:

- Graduates from high school; or
- Transfers to another school or school district under: The Foster Child School Choice Act; Opportunity Public School Choice Act of 2004; The Public School Choice Act of 2015; or Any other law that allows a transfer.

The District shall accept credits toward graduation that were awarded by another public school district.

When a foster child transfers from the foster child's school of origin to another school in the District or into the District, the foster child or the foster parent is responsible for the foster child's transportation to and from the school the foster child transferred to. The District and the foster parent, or the foster child if the foster child is eighteen (18) years of age, may enter into a written agreement for the District to provide the transportation to and from the school the foster child transferred to.

4.54- STUDENT ACCELERATION

The Board believes that acceleration is an effective and research-based intervention for the academic growth of students who are ready for an advanced or faster-paced curriculum. Acceleration can allow a student to move through the traditional educational setting more rapidly, based on assessed readiness, capability and motivation. At the same time, the Board understands that acceleration is not a replacement for gifted education services or programs.

Generally, acceleration can occur through one of two broad categories: content based and grade based. Grade based acceleration shortens the number of years a student would otherwise spend in K-12 education, while content-based acceleration occurs within the normal K-12 time span. Either form of acceleration can be triggered by either a parent/guardian, student, or community member's request or by the referral of school personnel. In either case, the process of determining the appropriateness of the request shall be under the direction of the district Gifted and Talented Program Coordinator. The district/school Gifted and Talented Program Coordinator shall convene the Acceleration Placement committee and communicate with the individuals necessary for the Acceleration Placement committee to make an informed decision which shall include the student's parents or guardians.

While the needs of the student should dictate when acceleration decisions are considered, the Board believes the optimal time for referrals is in the spring which gives adequate time for working through the determination process and for preparing those concerned for a smooth transition to the acceleration beginning in the following school-year.

The District's Gifted and Talented Program Coordinator will create a written format to govern the referral and determination process which shall be made available to any parent or staff member upon request.

The parents/guardians of any student whose request for acceleration has been denied may appeal the decision, in writing to the District's GT Coordinator. The District's GT Coordinator and the Acceleration Placement Committee will again thoroughly review the case study that was completed on the student. Upon completion of the review, the Committee will either request additional new testing be conducted to help the Committee make its determination or it will uphold the initial decision. The Committee's decision may not be further appealed.

4.55—STUDENT PROMOTION AND RETENTION

A disservice is done to students through social promotion and is prohibited by state law. The District shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. Parents, legal guardians, persons having lawful control of the student, or persons acting in loco parentis shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention or required retaking of a course shall be included with the student's grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student's academic success.

Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria: State assessments, local assessments, report cards, student work samples, 504/IEP plans (if applicable) and committee discussion. AMS requires a passing grade (60% or higher) in two of the four core courses for promotion.

If there is doubt concerning the promotion or retention of a student or his/her required retaking of a course, a conference shall be held before a final decision is made that includes the following individuals;

- a) The building principal or designee;
- b) The student's teacher(s);
- c) School counselor
- d) A 504/special education representative (if applicable); and
- e) The student's parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis

The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement or receipt of course credit, the final decision shall rest with the principal or the principal's designee.

Each student (grades 8-12) shall have a student success plan (SSP) developed by school personnel in collaboration with the student's parents and the student that is reviewed and updated annually. A student's SSP shall use multiple academic measures to personalize learning in order for students to achieve their grade-level expectations and individual growth. The SSP will identify if the student is in need of additional support or acceleration. Academic measures to be used in creating and updating a student's SSP shall include, but are not limited to:

- Statewide student assessment results;
- Subject grades;
- Student work samples; and
- Local assessment scores.

By the end of grade eight (8), the student's SSP shall:

- Guide the student along pathways to graduation;
- Address accelerated learning opportunities;
- Address academic deficits and interventions; and
- Include college and career planning components.

Based on a student's score on the college and career assessment:

- The student's SSP will be updated in order to assist the student with college and career readiness skills, course selection in high school, and improved academic achievement; and
- Provide a basis for counseling concerning postsecondary preparatory programs.

An SSP shall be created:

1. By no later than the end of the school year for a student in grade eight (8) or below who enrolls in the District during the school year; or
2. As soon as reasonably possible for a student in grade nine (9) or above who enrolls in the District at the beginning or during the school year.

A student's individualized education program (IEP) may act in the place of the student's SSP if the IEP addresses academic deficits and interventions for the student's failure to meet standards-based academic goals at an expected rate or level and includes a transition plan that addresses college and career planning components. Promotion or retention of students with an IEP shall be based on their successful attainment of the goals set forth in their IEP.

Students who either refuse to sit for a Statewide assessment or attempt to boycott a State assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are originally administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity, including school dances, prom, homecoming, senior events, and may be prevented from walking or participating in graduation exercises. The student shall remain ineligible to participate until the student takes the same or a following Statewide assessment, as applicable. The Superintendent or designee may waive this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

4.56—EXTRACURRICULAR ACTIVITIES

Definitions:

“Academic Courses” are those courses for which class time is scheduled, which can be credited to meet the minimum requirements for graduation, which is taught by a teacher required to have State licensure in the course or is otherwise qualified under Arkansas statute, and has a course content guide which has been approved by the Division of Elementary and Secondary Education (DESE). Any of the courses for which concurrent high school credit is earned may be from an institution of higher education recognized by DESE. If a student passes an academic course offered on a block schedule, the course can be counted twice toward meeting the requirement for students to pass four (4) academic courses per semester as required by this policy.

“Extracurricular activities” are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, inter/intra-scholastic athletics, cheerleading, band, choral, math, or science competitions, field trips, and club activities.

“Field Trips” are when individual students or groups of students are invited to programs or events when there is no competition and the students are not interacting with each other for the purpose of planning, qualifying, or arranging for future programs or for the purpose of receiving recognition.

“Interscholastic Activities” means athletic or non-athletic/academic activities where students compete on a school vs. school basis.

“Intrascholastic Activities” means athletic or non-athletic/academic activities where students compete with students from within the same school.

“Supplemental Improvement Program (SIP)” is an additional instructional opportunity for identified students outside of their regular classroom and meets the criteria outlined in the current Arkansas Activities Association (AAA) Handbook.

Extracurricular Eligibility

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student’s educational experience. At the same time, the Board believes that a student’s participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments excepted)². Additionally, a student’s participation in, and the District’s operation of, extracurricular activities shall be subject to the following policy. All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

The student shall remain ineligible to participate until the student takes the same or a following statewide assessment, as applicable. The superintendent or designee may waive this paragraph’s provisions when the student’s failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

A student who enrolls in the district and meets the definition of “eligible child” in Policy 4.2— ENTRANCE REQUIREMENTS shall be eligible to try-out for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participate in an athletic activity.

No student shall be required to pay for individual or group instruction in order to participate in an extracurricular activity.

If a student is placed in ALE in lieu of expulsion at the Superintendent's recommendation, then that student may not be eligible to participate in extra curricular activities.

Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments excepted). Additionally, a student's participation in, and the District's operation of, extracurricular activities shall be subject to the following policy. All students meeting this policy's criteria are eligible for extracurricular activities.

Academic Requirements: Junior High

A student promoted from the sixth to the seventh grade automatically meets scholarship requirements. A student promoted from the seventh to the eighth grade automatically meets scholarship requirements for the first semester.

The second semester eighth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester-

The first semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester.

The second semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed (4) academic courses the previous semester which count toward his/her high school graduation requirements.

Ninth-grade students must meet the requirements of the senior high scholarship rule by the end of the second semester in the ninth grade in order to be eligible to participate the fall semester of their tenth-grade year.

Academic Requirements: Senior High

In order to remain eligible for competitive interscholastic activity, a student must have passed (4) academic courses the previous semester and either:

1. Have earned a minimum Grade Point Average of 2.0 from all academic courses the previous semester; or
2. If the student has passed four (4) academic courses the previous semester but does not have a 2.0 GPA the student must be enrolled and successfully participating in a supplemental instruction program to maintain their competitive interscholastic extracurricular eligibility.

Attendance and Extracurricular Activities

School attendance must be a priority for both students and parents in order for the best opportunity for success for all students. However, it is understood that absences will occur.

Students may miss up to 4 periods with parent permission and still participate in extracurricular activities. Parental consent may only be achieved through phone call or in person to principal or designee. Students who are absent five (5) or more periods shall not participate in any school activity on that day/night unless permission is granted by the principal in collaboration with Athletic Director and activity sponsor. This policy includes all activities, athletics, band, choir, cheerleaders, etc. A student who is on disciplinary out of school suspension may not participate in nor attend any school activity for the duration of his/her suspension. Students who are in In-School-Suspension or on Out-of-School (OSS) suspension may not participate until the day following their suspension.

Arkansas Activities Association

In addition to the foregoing rules, the district shall abide by the rules and regulations of the Arkansas Activities Association (AAA) governing interscholastic activities. AAA provides catastrophic insurance coverage for students participating in AAA governed extracurricular activities who are enrolled in school. As a matter of District policy, no student may participate in a AAA governed extracurricular activity unless he or she is enrolled in a district school, to ensure all students are eligible for AAA catastrophic insurance.

Intrascholastic Activities

AAA Governed Activities

Students participating in Intrascholastic extracurricular activities that would be governed by AAA if they were to occur between students of different schools shall meet all interscholastic activity eligibility requirements to be eligible to participate in the comparable Intrascholastic activity. The District will abide by the AAA Handbook for such activities to ensure District students are not disqualified from participating in interscholastic activities.

4.56.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS

Home-schooled student means a student legally enrolled in an Arkansas home school and who meets or has met the criteria for being a home-schooled student, as established by A.C.A. § 6-15-503.

Interscholastic activity means an activity between schools subject to rules of the Arkansas Activities Association that is outside the regular curriculum of the school district, such as an athletic activity, fine arts program, or a special interest group or club.

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

Home-schooled students whose parents or guardians are legal residents of the school district will be permitted to pursue participation in an interscholastic activity in the student's resident school zone as permitted by this policy.

Home-schooled students whose parent or legal guardian are not residents of the school district will be permitted to pursue participation in an interscholastic activity in the District if the superintendent of the student's resident district and the superintendent of the District both agree in writing to allow the student to participate in interscholastic activities at the District.

Although not guaranteed participation in an interscholastic activity, home-school students who meet the provisions of this policy, AAA Rules, and applicable Arkansas statutes shall have an equal opportunity to try out and participate in interscholastic activities without discrimination. The District shall provide a reasonable alternative to any prerequisite for eligibility to participate in an interscholastic activity that the home-schooled student is unable to meet because of his or her enrollment in a home school.

No student shall be required to pay for individual or group instruction in order to participate in an interscholastic activity.

To be eligible to try out and participate in interscholastic activities, the student or the parent of a student shall mail or hand deliver the student's request to participate to the student's school's principal before the signup, tryout or participation deadline established for traditional students. Additionally, the student shall demonstrate academic eligibility by obtaining a minimum test score of the 30th percentile or better in the previous 12 months on the Stanford Achievement Test Series, Tenth Edition; another nationally recognized norm-referenced test; or a minimum score on a test approved by the State Board of Education.

A student who meets the requirements for eligibility to participate in an interscholastic activity is required to register for no more than one course in the District's school where the student is intending to participate in an interscholastic activity.

The student shall regularly attend the class in which the student is registered beginning no later than the eleventh (11th) day of the semester in which the student's interscholastic activity participation is desired. The student must attend the practices for the interscholastic activity to the same extent as is required of traditional students.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

A home-schooled student who has met the try out criteria; and who has been selected to participate in the interscholastic activity shall meet the following criteria that also apply to traditional students enrolled in the school:

- standards of behavior and codes of conduct;
- attend the practices for the interscholastic activity to the same extent as is required of traditional students;
- required drug testing;
- permission slips, waivers, physical exams; and
- participation or activity fees.

A home-schooled student who is not a resident of the District may begin participating in interscholastic activities:

- a. Immediately upon being approved for participation for all interscholastic activities other than athletic activities; and
- b. One (1) calendar year after being approved to participate in interscholastic activities that are athletic activities unless the approval is prior to July 1 of the school year the student would have been enrolled in seventh (7th) grade if the student were enrolled in public school.

A home-schooled student who is not a resident of the District and is prohibited under this policy from participating in an interscholastic activity that is an athletic activity for one (1) calendar year may immediately participate in rehearsals, tryouts, practices, auditions, classes, or other endeavors associated with the interscholastic activity. Students who participate in extracurricular or athletic activities under this policy will be transported to and from the interscholastic activities on the same basis as other students are transported.

A student who withdraws from an Arkansas Activities Association member school to be home-schooled shall not participate in an interscholastic activity in the resident school district for a minimum of three hundred sixty-five days after the student withdraws from the member school.

4.57—IMMUNIZATIONS

Definitions

"In process" means the student has received at least one dose of the required immunizations and is waiting the minimum time interval to receive the additional dose(s).

“Serologic testing” refers to a medical procedure used to determine an individual’s immunity to Hepatitis B, Measles, Mumps, Rubella and Varicella.

General Requirements

Unless otherwise provided by law or this policy, no student shall be admitted to attend classes in the District who has not been age appropriately immunized against:

- Poliomyelitis;
- Diphtheria;
- Tetanus;
- Pertussis;
- Red (rubella) measles;
- Rubella;
- Mumps;
- Hepatitis A;
- Hepatitis B;
- Meningococcal disease;
- Varicella (chickenpox); and
- Any other immunization required by the Arkansas Department of Health (ADH).

The District administration has the responsibility to evaluate the immunization status of District students. The District shall maintain a list of all students who are not fully age appropriately immunized or who have an exemption provided by ADH to the immunization requirements based on medical, religious, or philosophical grounds. Students who are not fully age appropriately immunized when seeking admittance shall be referred to a medical authority for consultation.

The only types of proof of immunization the District will accept are immunization records provided by a:

1. Licensed physician;
2. Health department;
3. Military service; or
4. Official record from another educational institution in Arkansas.
5. The proof of immunization must include the vaccine type and dates of vaccine administration. Documents stating “up-to-date”, “complete”, “adequate”, and the like will not be accepted as proof of immunization. No self or parental history of varicella disease will be accepted. Valid proof of immunization and of immunity based on serological testing shall be entered into the student’s record.

In order to continue attending classes in the District, the student must have submitted:

1. Proof of immunization showing the student to be fully age appropriately vaccinated;
2. Written documentation by a public health nurse or private physician of proof the student is in process of being age appropriately immunized, which includes a schedule of the student’s next immunization;
3. A copy of a letter from ADH indicating immunity based on serologic testing; and/or
4. A copy of the letter from ADH exempting the student from the immunization requirements for the current school year, or a copy of the application for an exemption for the current school year if the exemption letter has not yet arrived.

Students whose immunization records or serology results are lost or unavailable are required to receive all age-appropriate vaccinations or submit number 4 above.

Temporary Admittance

While students who are not fully age appropriately immunized or have not yet submitted an immunization waiver may be enrolled to attend school, such students shall be allowed to attend school on a temporary basis only. Students admitted on a temporary basis may be admitted for a maximum of thirty (30) days (or until October 1st of the current school year for the tetanus, diphtheria, pertussis, and meningococcal vaccinations required at ages eleven (11) and sixteen (16) respectively if October 1st is later in the current school year than the thirty (30) days following the student’s admittance). No student shall be withdrawn and readmitted in order to extend the thirty (30) day period. Students may be allowed to continue attending beyond the thirty (30) day period if the student submits a copy of either number 2 or number 4 above.

Students who are in process shall be required to adhere to the submitted schedule. Failure of the student to submit written documentation from a public health nurse or private physician demonstrating the student received the vaccinations set

forth in the schedule may lead to the revocation of the student's temporary admittance; such students shall be excluded from school until the documentation is provided.

The District will not accept copies of applications requesting an exemption for the current school year that are older than two (2) weeks based on the date on the application. Students who submit a copy of an application to receive an exemption from the immunization requirements for the current year to gain temporary admittance have thirty (30) days from the admission date to submit either a letter from ADH granting the exemption or documentation demonstrating the student is in process and a copy of the immunization schedule. Failure to submit the necessary documentation by the close of the thirty (30) days will result in the student being excluded until the documentation is submitted.

Exclusion From School

In the event of an outbreak, students who are not fully age appropriately immunized, are in process, or are exempt from the immunization requirements may be required to be excluded from school in order to protect the student. ADH shall determine if it is necessary for students to be excluded in the event of an outbreak. Students may be excluded for twenty-one (21) days or longer depending on the outbreak. No student excluded due to an outbreak shall be allowed to return to school until the District receives approval from ADH.

Students who are excluded from school are not eligible to receive homebound instruction unless the excluded student had a pre-existing IEP or 504 Plan and the IEP/504 team determines homebound instruction to be in the best interest of the student. To the extent possible, the student's teacher(s) shall place in the principal's office a copy of the student's assignments:

- for the remainder of the week by the end of the initial school day of the student's exclusion; and
- by the end of each school's calendar week for the upcoming week until the student returns to school.

It is the responsibility of the student or the student's parent/legal guardian to make sure that the student's assignments are collected.

Students excluded from school shall have five (5) school days from the day the student returns to school to submit any homework and to make up any examinations. State mandated assessments are not included in "examinations" and the District has no control over administering state mandated make-up assessments outside of the state's schedule. Students shall receive a grade of zero for any assignment or examination not completed or submitted on time.

Food Sharing Table

The District has no food sharing system for food items other than milk and juice. Students who do not intend to drink milk or juice received as part of a meal may place the milk/juice in a designated ice-filled cooler located at the end of the service line where another student may retrieve it at no charge. Milk and juice may not be taken by another student unless the carton is unopened and was completely covered by ice while in the cooler. A student may not return to the cooler to place for sharing or retrieve an item after the student has left the service line. At all times, the cooler will be under the supervision of the food service staff. Remaining items should be discarded at the end of the meal period, and no item is to remain in the cooler for longer than four (4) hours.

Removing Food Items from the Food Service Area

No student shall remove school provided food items from the food service area at the end of the meal period, especially milk, juice, and other items requiring temperature-controlled environments.

Except for food service workers as required by their job duties, District employees may only remove school provided food items from the food service area when required by a 504 plan or a student's IEP.

A student's problem-solving and intervention team shall:

- a.Work with the teachers of a student to complete an FBA of the student and an assessment of any problematic situations involving the student;
- b.Consider the need for a BIP with the goal of preventing or resolving the social, emotional, or behavioral difficulty of the student and developing a response that will de-escalate and stabilize a potential emergency situation that approaches the danger level; and
- c.Regularly review the data on incidents involving the use of physical restraint on the student and adjust, as necessary, the procedures concerning the use of physical restraint on the student.

Special education procedures shall be followed if a student is suspected of having a disability that relates to behavioral concerns.

Physical Restraint

Except in the case of a clearly unavoidable emergency situation in which a trained member of school personnel is not immediately available due to the unforeseeable nature of the emergency situation, the physical restraint of a student shall only be used by a member of school personnel who is appropriately trained to administer physical restraint.

When using physical restraint on a student, school personnel shall:

- use the least restrictive technique necessary to end imminent danger or serious physical harm to a student and others;
- Use the safest method available and appropriate to the situation;
- Consider the health and safety of a student, including without limitation whether the student has an existing medical condition that makes the use of physical restraint inadvisable;
- Not restrict the ability of a student to communicate unless the use of a less restrictive technique will not prevent imminent danger of serious physical harm to the student or others;
- Use only the amount of force that is reasonably necessary to protect a student or others from imminent danger of serious physical harm to the student or others;
- Not verbally abuse, ridicule, humiliate, taunt, or engage in any other similar action towards the student; and
- continuously and visually observe and monitor the student while the student is under physical restraint.

Physical restraint of a student shall only be used for a limited period of time and shall not be used:

- When imminent danger or serious physical harm to the student or others dissipates;
- If a medical condition occurs that puts the student at risk of harm;
- Unless the behavior of the student poses an imminent danger of serious physical harm to the student or others;
- After the threat of imminent danger of serious physical harm to the student or others dissipates; or
- In the following manner:
 - To punish or discipline the student;
 - To coerce the student;
 - To force the student to comply;
 - To retaliate against the student;
 - To replace the use of an appropriate educational or behavioral support;
 - As a routine safety measure;
 - As a planned behavioral intervention in response to behavior of the student that does not pose an imminent danger of serious physical harm to the student or others;
 - As a convenience for school personnel; or
 - To prevent property damage unless the act of damaging property committed by the student poses an imminent danger or serious physical harm to the student and others.

Even in an emergency, supine restraint shall not be used on a student except by a staff person who has been certified by a crisis intervention training program and the certified staff person determines that supine restraint is required to provide safety for the student and others.

At no time shall school personnel use the following on a student:

- Mechanical restraint;
- Chemical restraint;
- Aversive behavioral interventions that compromise health and safety;
- Physical restraint that is life-threatening or medically contraindicated; or
- Prone restraint or other restraint that restricts the breathing of a student.

Following the first incident of physical restraint used on a student, an FBA shall be conducted unless a previous FBA was conducted for the same behavior that was at issue when the physical restraint was used.

The use of physical restraint on a student as a planned behavioral intervention shall not be included in a student's IEP, 504 Plan, BIP, individual safety plan, or other individual planning document but may be considered as a crisis intervention if appropriate for the student. A student's IEP team or 504 Plan team shall consider whether an FBA should be performed; if a BIP should be developed for the student or if a student's existing BIP should be revised; and if additional behavioral goals and interventions should be included in the student's existing IEP or 504 Plan.

Parents may submit complaints regarding an incident involving the use of physical restraint on their student. A complaint shall be referred for review to the appropriate school personnel:

- The student's problem-solving and intervention team;
- The student's IEP team; or
- The student's 504 Plan team.

A complaint by a parent shall be handled by the appropriate District staff in the same manner as a debrief following the use of physical restraint on a student.¹

Use of a physical restraint technique that is abusive shall be reported to the Child Abuse Hotline and law enforcement.

Reports and Debriefing

After the occurrence of an incident involving physical restraint of a student, the building principal, or the principal's designee, shall be notified of the incident as soon as possible but by no later than the end of the school day when the incident occurred.

The student's parent shall be notified of the incident of the use of physical restraint via verbal or electronic communication as soon as possible but by no later than the end of the school day when the incident occurred. In the event the student's parent is unable to be notified via verbal or electronic communication within twenty-four (24) hours after the incident occurred, then the parent shall be mailed written notification of the incident within forty-eight (48) hours after the incident occurred.

school personnel involved in the incident shall document the incident in a written report, which is to be completed within twenty-four (24) hours after the incident occurred. The written report of the incident shall:

1. Include all information contained in the Division of Elementary and Secondary Education (DESE) Physical Restraint or Seclusion Incident Record and Debriefing Report;
2. Be maintained in the student's education record; and
3. Be provided to the student's parent within one (1) school day of the completion of the report.

A debriefing meeting shall be held within two (2) school days after the incident occurred. The following school personnel shall be present at the debriefing meeting:²

- a. A member of school personnel who was present during the incident;
- b. A member of school personnel who was in the proximity of the student on whom physical restraint was used immediately before and during the time of the incident;
- c. A school administrator; and
- d. Any other member of school personnel determined to be appropriate by the District.

The purpose of the debriefing meeting shall be to:

- Determine whether the procedures used during the incident were necessary;
- Evaluate the use of any behavioral supports and de-escalation techniques by school personnel before and during the incident;
- Evaluate the school district's positive behavioral supports system and prevention techniques in order to minimize future use of physical restraint; and
- If a trained member of school personnel was not immediately available due to the unforeseeable nature of the emergency situation when the incident occurred:
 - Reevaluate the training needs of school personnel;
 - Reevaluate the physical restraint policy and practices; and
 - Develop a plan to prevent a future incident.

At a debriefing meeting, school personnel shall:

1. Consider relevant information in the student's education record, including without limitation:
 - a. The concerns of the student's parent;
 - b. The student's social and medical history;
 - c. The student's FBA, if one exists; and
 - d. The student's BIP, if one exists;

8. Consider how and when to debrief a person who was not present at the debriefing meeting, including without limitation:
 - a. The student;

- b. The student's parent; and

SECTION 5
CURRICULUM AND INSTRUCTION

5.1—EDUCATIONAL PHILOSOPHY

The Atkins School District assumes the responsibility of providing students attending its schools a high-quality education that challenges each student to achieve to their maximum potential. The District shall endeavor to create the environment within the schools necessary to attain this goal.

The vision of Atkins Public Schools focuses on our students and their welfare. All students have rights to an education and should be given opportunities to develop their potentials. Along with these rights, we recognize the need of the students' responsibilities to utilize the program the school provides. Therefore, our school should initiate a stimulating, motivational environment that promotes behavioral growth. We feel inter-relationships among, school, community, students, parents, and teachers are essential to foster the development. We believe that all students should be encouraged to think independently, but at the same time, to recognize and respect the experiences of others. Striving for excellence in all areas will promote learning as a lifelong commitment and means of self-improvement.

5.2—PLANNING FOR EDUCATIONAL IMPROVEMENT

Each school in the district, in collaboration with administrators, teachers, other school staff, parents, the community, and students, shall develop a school-level improvement plan (SLIP) to:

- Establish goals or anticipated outcomes based on an analysis of students' needs;
- Identify student supports and evidence-based interventions and practices to be implemented;
- Describe the professional learning necessary for adults to deliver the supports or interventions;
- Describe the implementation timeline for monitoring of the interventions and practices for effectiveness;
- Describe the timeline and procedures for evaluation of the interventions and practices for effectiveness; and
- Evaluate and modify a parent, family, and community engagement plan.

Each SLIP shall include a literacy plan that includes a curriculum program and a professional development program that is aligned with the District's literacy needs and is based on the science of reading.

Some of the data that shall be considered when developing the SLIP includes, but is not limited to:

- Statewide assessment results;
- Interim assessment results;
- Similarly situated school's SLIPs; and
- Evaluation(s), including staff, student, and community feedback, of the existing SLIP.

The SLIP is to be reviewed on an ongoing basis with reports to the board on the implementation progress of the SLIP throughout the year of implementation. By May 1 of each year, the SLIP to be implemented in the upcoming school year shall be presented to the District Board of Directors for review and approval. The District will post the District's SLIP(s) to the District's website under State-Required Information by August 1 of each year.

The district shall develop, with appropriate staff; school board members; and community input, a school district support plan (SDSP). The SDSP, in coordination with the District's SLIPs, shall

- Specify the support the District will provide to the District's schools;
- Collaboratively establish priorities regarding goals or anticipated outcomes with the District's schools, including feeder schools;
- Identify resources to support the established priorities;
- Describe the time and pace of providing support and monitoring for the established priorities;
- Describe the measures for analyzing and evaluating that the District support was effective in improving the school performance; and
- Establish, evaluate, and update a parent, family, and community engagement plan. Direct the use of Enhanced Student Achievement funding for strategies to close gaps in academic achievement.

If the District's data reflects a disproportionality in equitable access to qualified and effective teachers and administrators, the District shall develop and implement strategies to provide equitable access as part of the SDSP.

If forty percent (40%) or more of the District's students scored "in need of support" on the prior year's statewide assessment for reading, the District shall develop a literacy plan as part of the SDSP that includes:

- Goals for improving reading achievement throughout the District; and
- Information regarding the prioritization of funding, including without limitation, Enhanced Student Achievement funding, for strategies to improve reading achievement throughout the District.

The District shall post the District's SDSP to the District's website under State-Required Information, including any updates to the District's SDSP.

The District's Board of Directors shall hold a meeting by October 15 of each year to provide a report that systematically explains the District's policies, programs, and goals to the community. The District's report shall detail the progress of the District and the District's schools toward accomplishing program goals, accreditation standards, and proposals to correct any deficiencies. The report shall be made available to the public, including by posting a copy on the District's website under State-Required Information no later than ten (10) days following the meeting. The meeting shall provide parents and other members of the community the opportunity to ask questions and make suggestions concerning the District's program.

Sequential curricula should be developed for each subject area. Curricula are be aligned with the curriculum frameworks and used to plan instruction leading to student proficiency on the Arkansas' Academics Standards. Curricula should be in alignment with the District's vision, mission, goals, and educational philosophy. Student achievement is increased through an integrated curriculum that promotes continuity and a growth in skills and knowledge from grade to grade and from school to school. Therefore, the Board desires that unnecessary duplication of work among the various grades and schools be eliminated and that courses of study and their corresponding content guides be coordinated effectively.

The Board of Education is responsible for reviewing and approving all instructional programs offered by the District as well as approving significant changes to courses or course materials before they are implemented. The Superintendent is responsible for making curriculum recommendations.

Each school shall review each curriculum area annually to address the continued relevancy, adequacy, and cost effectiveness of individual courses and instructional programs and to ensure each area is aligned with the current curriculum frameworks and course content standards approved by the State Board of Education. Each school's administration shall implement a monitoring process to ensure that the instructional content of each course offered is consistent with the content standards and curriculum frameworks approved by the State Board of Education.

The District shall not purchase curriculum for the District's reading program that is not from the list of curricula approved by the Division of Elementary and Secondary Education.

"Curriculum" means: the sequences of public school student learning expectations, pacing, materials, and resources that are used to teach the Arkansas academic standards and the processes for evaluating mastery of the Arkansas academic standards at particular points in time throughout the kindergarten through grade twelve (K-12) educational program.

"Gender identity" means the same as is used in the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition, which defines it as a category of social identity and refers to an individual's identification as male, female, or, occasionally, some category other than male or female.

"Sexual orientation" means an individual's actual or perceived orientation as heterosexual, homosexual, or bisexual.

Instructional and supplemental materials, including classroom events or activities associated with classroom instruction, are selected for their compatibility with the District's educational program and their ability to help fulfill the District's educational goals and objectives. Individuals wishing to challenge or express concerns about instructional or supplemental materials, including classroom events or activities associated with classroom instruction, may do so by filling out a *Challenge to Instructional Material* form available in the school's office.

The contesting individual may present a copy of the form to the principal and request a conference be held at a time of mutual convenience. Prior to the conference, the principal shall consult with the teacher regarding the contested material. In the conference, the principal shall explain to the contesting individual the criteria used for the selection of the material and its relevancy to the educational program as well as any other pertinent information in support of the use of the material.

Following the conclusion of the meeting, the principal shall have five (5) working days to submit a summary of the concerns expressed by the individual and the principal's response to those concerns to the Superintendent¹.

If the contesting individual is not satisfied with the principal's response, the individual may, after the five (5) working day period, request a meeting with the Superintendent where the individual shall present the same *Challenge to Instructional Material* form previously presented to the principal. The Superintendent shall explain to the contesting individual the criteria used for the selection of the material and its relevancy to the educational program as well as any other pertinent information in support of the use of the material.²

Following the conclusion of the meeting, the Superintendent shall have five (5) working days to write a summary of the concerns expressed by the individual and the Superintendent's response to those concerns. The Superintendent shall create a file of his/her response along with a copy of the principal's response and a copy of the contesting individual's *Challenge to Instructional Material* form.

If, after meeting with the Superintendent, the contesting individual is not satisfied with the Superintendent's response regarding the appropriateness of the instructional or supplemental material, he/she may appeal the Superintendent's decision to the Board. The Superintendent shall present the contesting individual's *Challenge to Instructional Material* form to the Board at the next regularly scheduled meeting along with the written responses to the challenge. The Board may elect, if it so chooses, to hear brief verbal presentations from the parties involved in the challenge.

The Board shall decide at that meeting or their next regularly scheduled meeting whether to retain the material, limit the availability of the material, or remove the material from the school. The Board's primary consideration in reaching its decision, if the instructional and supplemental materials, including classroom events or activities associated with classroom instruction, are:

- Misleading;
- Factually inaccurate; or
- Otherwise inappropriate for the intended educational use.

In addition to the notification requirements under Policy 5.5 and all other challenge rights under this policy, parents and legal guardians may opt their students out of any of the following by submission of form 5.6F2 regardless of whether any of the listed items are offered as part of a sex education class or program or as part of any other class, activity, or program except when the item is directly related to a requirement under the Arkansas academic standards; a District employee is responding to questions posed by students during class regarding sex education, sexual orientation, or gender identity as it relates to a topic of instruction; or a District employee refers to the sexual orientation or gender identity of a historical person, group, or public figure when such information provides necessary context in relation to a topic of instruction:

5.7—SELECTION OF INSTRUCTIONAL AND LIBRARY/MEDIA CENTER MATERIALS

The ultimate authority for the selection and retention of materials for the schools' media centers rests with the Board of Education which shall serve as a final arbiter in resolving a challenge to any media center materials. Licensed media center personnel shall make the initial selections in consultation with school and district licensed staff. Materials selected

shall be in accordance with the guidelines of this policy. The purpose of the schools' libraries/media centers is to supplement and enrich the curriculum and instruction offered by the District. Promoting the dialogue characteristic of a healthy democracy necessitates the maintenance of a broad range of materials and information representing varied points of view on current and historical issues. In the selection of the materials and resources to be available in each library/media center consideration will be given to their age appropriateness. Materials should be available to challenge the different interests, learning styles, and reading levels of the school's students and that will help them attain the District's educational goals.

Selection Criteria

The criteria used in the selection of media center materials shall be that the materials:

- Support and enhance the curricular and educational goals of the district;
- Are appropriate for the ages, learning styles, interests, and maturity of the schools' students, or parents in the case of parenting literature;
- Contribute to the examination of issues from varying points of view and help to broaden students understanding of their rights and responsibilities in our society;
- Help develop critical thinking skills;
- Are factually and/or historically accurate, in the case of non-fiction works and/or serve a pedagogical purpose;
- Have literary merit as perceived by the educational community; and
- Are technically well produced, physically sound (to the extent appropriate), and represent a reasonably sound economic value.

Retention and Continuous Evaluation

Media center materials shall be reviewed regularly to ensure the continued appropriateness of the center's collection to the school's curriculum and to maintain the collection in good repair. Those materials no longer meeting the selection criteria, have not been used for a long period of time, or are too worn to be economically repaired shall be withdrawn from the collection and disposed of. A record of withdrawn media materials including the manner of their disposal shall be maintained for a period of three years.

Gifts

Gifts to the media centers shall be evaluated to determine their appropriateness before they are placed in any media center. The evaluation shall use the same criteria as for all other materials considered for inclusion in the media centers. Any items determined to be unacceptable shall be returned to the donor or disposed of at the discretion of the media specialist. The media centers shall have a list of desired items to give to prospective donors to aid them in their selection of materials to donate.

Challenges

The parent of a student affected by a media selection, or a District employee, may formally challenge the appropriateness of a media center selection by following the procedure outlined in this policy. The challenged material shall remain available throughout the challenge process. Before any formal challenge can be filed, the individual contesting (hereinafter complainant) the appropriateness of the specified item shall request a conference through the principal's office with a licensed media center employee. The complainant shall be given a copy of this policy and the *Request for Formal Reconsideration Form* prior to the conference. The meeting shall take place at the earliest possible time of mutual convenience, but in no case later than five (5) working days from the date of the request unless it is by the choice of the complainant.

In the meeting, the media specialist shall explain the selection criteria and how the challenged material fits the criteria. The complainant shall explain his/her reasons for objecting to the selected material. If, at the completion of the meeting, the complainant wishes to make a formal challenge to the selected material, he/she may do so by completing the *Request for Formal Reconsideration Form* and submitting it to the principal's office. To review the contested media, the principal shall select a committee of five (5) or seven (7) licensed personnel consisting of the principal as chair and at least one media specialist. The remaining committee members shall be personnel with curriculum knowledge appropriate for the material being contested and representative of diverse viewpoints. The task of the committee shall be to determine if the challenged material meets the criteria of selection. No material shall be withdrawn solely for the viewpoints expressed within it and shall be reviewed in its entirety and not selected portions taken out of context.

The principal shall convene a meeting after a reasonable time for the committee members to adequately review the contested material and the *Request for Formal Reconsideration Form* submitted by the complainant. The complainant shall be allowed to present the complaint to the committee after which time the committee shall meet privately to discuss the material. The committee shall vote by secret ballot to determine whether the contested material shall be removed from

the media center's collection. A member from the voting majority shall write a summary of the reasons for their decision. A notice of the committee's decision and the summary shall be given (by hand or certified mail) to the complainant.

If the decision is to not remove the material, the complainant may appeal the committee's decision to the district Board of Directors by filing a written appeal to the Superintendent within 5 working days of the committee's decision or of written receipt of the decision. The Superintendent shall present the original complaint and the committee's decision along with the summary of its reasons for its position plus a recommendation of the administration, if so desired, to the Board within 15 days of the committee's decision. The Board shall review the material submitted to them by the Superintendent and make a decision within thirty (30) days of receipt of the information. The Board's decision is final.

5.8—USE OF COPYRIGHTED MATERIALS

Use of Copyrighted Work in Face-to-Face Classroom

The Board of Education encourages the enrichment of the instructional program through the proper use of supplementary materials. To help ensure the appropriate use of copyrighted materials, the Superintendent, or designee, will provide district personnel with information regarding the "fair use" doctrine of the U.S. Copyright Code as detailed in the "Agreement on Guidelines for Classroom Copying in Not-for-Profit Educational Institutions with Respect to Books and Periodicals" and "Guidelines for Educational Uses of Music."

Use of Copyrighted Works in Digital Transmissions

Definitions

"Class session" means the length of time provided for students to access the materials necessary for the completion of course assignments and tests. Depending on the copyrighted work's overall importance to the course, which can vary from a single assignment to an entire course focusing on the copyrighted work, the class session will end on:

1. The date set by the teacher for an assignment to be submitted; or
2. The date on the school calendar for the end of classes.

"Course packs" are premade compilations of book excerpts; newspaper, magazine, and journal articles; and instructor-authored materials.

"Mediated Instructional activities" includes textbooks, workbooks, and course packs.

"Transmission" is the remote accessing, whether on or off campus, by students of a copyrighted work by means of a closed circuit television, an educational television channel, or in a digital format on a password protected secure webpage.

The District recognizes that advances in technology have resulted in the need for guidelines for the use of copyrighted materials that are transmitted to students through a digital network. While the requirements to use a copyrighted work in a digital transmission have many similarities to those required to use a copyrighted work in a face-to-face classroom, Federal law places several additional requirements on the District's teachers, IT staff, and librarians for the use of a digitally transmitted copyrighted work. The District is dedicated to providing the tools necessary for teachers, IT staff, and librarians to meet these additional Federal requirements.

The District shall make sure the server where materials are stored is secured, whether the server is located locally or remotely.

The District's Informational Technologies staff shall develop the proper protocols and train teachers on their use in order to ensure:

1. The transmission of the copyrighted work is limited to only the students enrolled in the course;
 - a. Each student shall have a unique ID and password for accessing digital courses/materials; or
 - b. Each course shall have a unique password to access course materials; and
 - c. The password to access the course materials shall be changed immediately following the close of the course.
2. To prevent students from retaining or further disseminating the copyrighted work for more than one class session;
 - a. The print function will be disabled;
 - b. A transparency shall be placed over any literary work, sheet music, or photograph;
 - c. Audio and video transmissions will be set to be streamed; and
 - d. The link to the webpage with a copyrighted work shall be deactivated at the end of the applicable class session.

Teachers who wish to provide copyrighted works to students through a digital transmission as part of a digital course as well as teachers wishing to supplement a face-to-face classroom course with a digital transmission must meet applicable copyright statutes and policy 5.11—DIGITAL LEARNING COURSES as well as the following requirements in order to use a copyrighted work:

1. The use of the copyrighted work(s), whether in whole or in part, must be a part of regular classroom instruction and must be directly related and of material assistance to the course content;
2. The extent of a copyrighted work that is used must comply with one or more of the following criteria:
 - a. The entirety of a non-dramatic literary or musical work may be used. A non-dramatic literary work includes poems and short stories. A non-dramatic musical work covers all music that is not part of an opera or musical and does not cover the use of the music video format of a song.
 - b. Dramatic literary and musical works as well as videos may only be used in limited portions. Dramatic literary and musical works may only be used in the same amount as set forth in the requirements for a face-to-face classroom while videos, including music videos, may only have the portion used that is directly related to the subject of the class session and may not be transmitted in their entirety.
 - c. Still images or slides that a teacher would have used in the ordinary course of a face-to-face classroom session on a projector or a transparency may be used in a transmission.
 - d. Works primarily produced or marketed for use in the digital education market may not be transmitted.
 - e. Works the teacher had knowledge or reasonably believes to be unlawfully made or acquired may not be used.
 - f. Mediated Instructional activities may not be transmitted.
3. A statement that works may be subject to copyright shall be placed in at least one of the following areas to provide notice to students of copyright status:
 - a. Course syllabus;
 - b. Home webpage for the course;

 - d. Webpage with the copyrighted work.

The teacher and the District librarian shall work together when making digital copies of copyrighted work from physical or analog versions and shall fulfill the following requirements:

1. The amount converted is only the amount allowed by law; and
2. The District has no digital copy of the copyrighted work available; or
3. The District's digital copy of the copyrighted work that is available has technological protections that prevent the use of the copyrighted work in the manner prescribed by law.

The District will not be responsible for any employee violations of the use of copyrighted materials.

5.9—COMPUTER SOFTWARE COPYRIGHT

The District shall observe copyright laws governing computer software reproduction. Unless specifically allowed by the software purchase agreement, the Copyright Act allows the purchaser of software to:

- Make one copy of software for archival purposes in case the original is destroyed or damaged through mechanical failure of a computer. However, if the original is sold or given away, the archival copy must be destroyed;
- Make necessary adaptations to use the program; and/or

The District shall abide by applicable licensing agreements before using computer software on local-area or wide-area networks.

5.10—RELIGION IN THE SCHOOLS

The First Amendment of the Constitution states that “Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof...” As the Supreme Court has stated (*Abington School District v. Schempp*, 374 U.S. 203) the Amendment thus, “embraces two concepts—freedom to believe and freedom to act. The first is absolute but,

in the nature of things, the second cannot be.” Therefore, it is the Board’s policy that the school system, as an agency of the government, shall be neutral in matters regarding religion and will not engage in any activity that either advocates or disparages religion. The District shall assume no role or responsibility for the religious training of any student.

The need for neutrality does not diminish our school system’s educational responsibility to address the historical role of religion in the development of our culture. Since we live in a diverse society, the District’s goal shall be to address the subject of religion objectively in such a way that it promotes an understanding of, and tolerance for, each other’s religious or non-religious views.

Discussions concerning religious concepts, practices, or disciplines are permissible when presented in a secular context in their relation to an inclusive study of religion or to the study of a particular region or country. The discussions shall be such that they are objective and academically informational and do not advocate nor denigrate any particular form of religious practice.

Accommodation will be considered for those portions of instructional activities in the schools that unduly burden a student's sincere religious belief provided such accommodation doesn't amount to a significant change in curriculum, program, or course of instruction and when it is possible that a substitution of equally rigorous material that advances the same instructional goals can be arranged. Parents and students are advised that such accommodations are easier to grant when the objection is to non-state mandated Framework material than if the material is required by the Frameworks.

A student or the student's parent can request the student's teacher accommodate the student's objection based on a religious belief to an instructional activity. Any such request must be made at least 25 school days prior to the assignment's due date. Any objection must be raised in accordance with this policy's requirements or it will not be considered.

Upon receiving such a request, the student's teacher shall determine within five (5) work days if an accommodation is possible under the provisions of this policy. If the teacher decides an accommodation cannot be made or if the student or the student's parent believes the accommodation to be unreasonable, the student or the student's parent may request a conference with the teacher and the teacher's principal. A requested conference will occur at a time of mutual convenience, but no later than five (5) working days following the request. The principal shall have five (5) working days in which to make a decision on the appeal. If the student, the student’s parent, or the teacher is unsatisfied with the principal's decision, it may be appealed to the District Superintendent who shall convene a conference between the student, the parent and the teacher. The requested conference will occur at a time of mutual convenience, but no later than five (5) working days following the request. The Superintendent shall have five (5) working days in which to make a decision on the appeal which shall be final with no further right of appeal.

The teacher in charge of each classroom may, at the opening of school each day, conduct a brief period of silence with the participation of all students in the classroom who desire to participate.*

Students and employees may engage in personal religious practices, such as prayer, at any time, and shall do so in a manner and at a time so that the educational process is not disrupted.

5.11—DIGITAL LEARNING COURSES

Definitions:

For the purposes of this policy

“Blended Learning” is education in which instruction and content are delivered through supervised instruction in a classroom and online delivery of instruction with some element of student control over time, place, path, or pace.

“Digital Learning” means a digital technology or internet-based educational delivery model that does not rely exclusively on compressed interactive video (CIV). Digital learning includes online and blended learning.

"Instructional Materials" means:

1. Traditional books, textbooks, and trade books in printed and bound form;
2. Activity-oriented programs that may include:
 - a. Manipulatives;
 - b. Hand-held calculators;
 - c. Other hands-on materials; and

3. Technology-based materials that require the use of electronic equipment in order to be used in the learning process.

“Online Learning” is education in which instruction and content are delivered primarily over the Internet. The term does not include print-based correspondence education, broadcast television or radio, videocassettes, compact disks and stand-alone educational software programs that do not have a significant Internet-based instructional component.

“Public School Student Accessing Courses at a Distance” means a student who is scheduled for a full course load through the District and attends all classes virtually.

Digital Course Offerings

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format and shall be tailored to meet the needs of each student.

All digitally offered courses shall meet or exceed the State Board of Education's curriculum standards and requirements and be capable of being assessed and measured through standardized or local assessments. Additionally, the District shall ensure there is sufficient infrastructure to handle and facilitate a quality digital learning environment.

As an approved digital learning provider, the District shall annually determine what District created digital learning courses it will provide to our students. The District may also choose to provide digital learning courses by contracting with outside providers of such courses, who have been pre-approved by the Division of Elementary and Secondary Education (DESE). The School Board shall determine the provider method or combination of methods for the District. The Superintendent shall ensure that all digital learning courses provided to District students, regardless of the source of the course, have been approved by DESE.

District created digital courses and any digital courses the district purchases from outside providers shall adhere to the guidelines for the use of digitally transmitted copyrighted materials set forth in Policy 5.8-USE OF COPYRIGHTED MATERIALS as well as applicable statutory requirements.

The District shall require all outside providers to incorporate Policy 5.8 as a condition of the service contract. Failure of the outside provider to abide by Policy 5.8 shall constitute a breach of contract and the outside provider shall be responsible for any costs resulting from such breach.

A student may elect to take any or all of his/her scheduled courses digitally. The student's attendance in his/her digital course(s) shall be determined in accordance with Policy 4.7 – ABSENCES.

The District is responsible for providing all instructional materials for each student who enrolls in a District approved digital learning course.

Regardless of any other provisions of this policy, the District may restrict a student's access to digital courses when the student's school principal determines the student's participation in such a course would not be academically appropriate based on the student's past performance in digital courses. Furthermore, the student's school principal may revoke a student's eligibility to continue taking a digital learning course if the student's performance during the semester indicates the student is not succeeding in the course.

5.13– STUDENT INTERVENTION SERVICES AND SUMMER SCHOOL

School Year Student Intervention Services

The Atkins School District shall offer intervention programs during the school year to those students in kindergarten through third grade (K-3) not performing at grade level.

Summer School

Students in kindergarten through third grade (K-3) not performing at grade level during the regular school year shall successfully participate in a summer school remediation program to be eligible for promotion to the next grade. Transportation to and from the school shall be the responsibility of the student's parent or guardian.

5.14—HOMEWORK

Homework is considered to be part of the educational program of the District. Assignments shall be an extension of the teaching/learning experience that promotes the student's education development. As an extension of the classroom, homework must be planned and organized and should be viewed by the student as purposeful.

Teachers should be aware of the potential problem students may have competing assignments from multiple teachers and vary the amount of homework they give from day to day.

1. *Teachers will present material that can be seen clearly and have instructions to be used in completing these materials.*
2. *Homework assignments will emphasize the application of concepts and skills previously introduced.*
3. *Homework will be considered in the grading of students.*
4. *Homework assignments for the primary level generally should not exceed:*
K -1: 10 minutes or less
2nd: 20 minutes or less
3rd: 30 minutes or less
4th: 40 minutes or less
5. *Homework assignments for the secondary level generally should be given with an average of no more than thirty (30) minutes required for each of the subject areas.*

Parents shall be notified of this policy at the beginning of each school year.

Copying another student's homework or allowing a student to copy his/her homework, may result in receiving a zero for all students involved.

5.15—GRADING

Parents, legal guardians, persons having lawful control of a student, or persons standing in loco parentis shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, persons having lawful control of a student, persons standing in loco parentis, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine 9-week grading period to keep parents/guardians informed of their student's progress.

The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grades of a child in foster care shall not be lowered due to an absence from school due to:

1. A change in the child's school enrollment;
2. The child's attendance at a dependency-neglect court proceeding; or
3. The child's attendance at court-ordered counseling or treatment.

The grading scale for 2nd-12th grades in the district shall be as follows.

- A = 100 – 90
- B = 89 – 80
- C = 79 – 70
- D = 69-60
- F = 59 and below

I = Incomplete (It is the responsibility of the student to make arrangements to complete the work necessary for a permanent grade. An incomplete grade will automatically become an "F" two weeks after the end of the grading period unless the student has received an extension of time from the principal).
NG = no grade or credit.

Kindergarten and first grade students will receive either a proficient or needs improvement rating on educational objectives.

For the purpose of determining grade point averages, the numeric value of each letter grade shall be:
A = 4 points, B = 3 points, C = 2 points, D = 1 point, F = 0 points.

The grade point values for Advanced Placement (AP), approved courses for weighted credit, International Baccalaureate (IB), and approved honor courses shall be one (1) point greater than for regular courses with the exception that an F shall still be worth zero (0) points.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district. For example: The grading period had forty (40) days. A student transferred in with a grade of eighty-three percent (83%) earned in ten (10) days at the previous school. The student had a grade of seventy-five percent (75%) in our district's school earned in the remaining thirty (30) days of the grading period. Ten (10) days is twenty-five (25%) of forty (40) days while thirty (30) days is seventy-five percent (75%) of forty (40) days. Thus, the final grade would be $(0.25 \times 83 + (0.75 \times 75) = 77\%$.

Semester grades will be calculated by combining the grades of the two previous marking periods and the semester test grade. Each marking period will be weighted as 40% of the semester grade and the semester test will be weighted as 20% of the grade.

5.16—COMPUTER SCIENCE COURSE PREREQUISITES AND PROGRESSION

Traditional Progression

A student who has not previously received a computer science credit may elect to take an introductory level computer science course. A student who passes a computer science course level is eligible to take the next level computer science course in the same computer science course emphasis.

Alternative Progression

A student who does not have credit for any computer science course, the introductory level computer science course for the particular computer science emphasis, or the preceding level course for the computer science emphasis may be placed in a computer science course based on any combination of the following factors:¹

- The student's grade point average;
- Recommendation from the student's teacher(s);
- Completion of computer science internships or independent studies;
- Demonstration of previous computer science work by the student; or
- Proficiency report from a computer science proficiency evaluation tool.²

5.17—HONOR ROLL AND HONOR GRADUATES

Students in grades K-4, will be recipients of a variety of awards for each quarter including but not limited to: academic recognition, citizenship and perfect attendance.

Students in grades 5-8, who earn a GPA of 4.00 in core academic classes for the marking period will be recognized on the 4.00 Honor Roll. Students that earn a GPA of 3.00 or better in core academic classes will be included on the 3.00 Honor Roll for that marking period. Semester grades will determine the honor roll at the end of each semester.

Students in grades 9-12 who earn a GPA of 4.00 or higher for the marking period will be recognized on the 4.00 Honor Roll. Students that earn a GPA of 3.25 or better will be included on the 3.25 Honor Roll for the marking period. Semester grades will determine the honor roll at the end of each semester.

Honor graduates will be announced by the administration on the basis of scholarship for the 9th, 10th, 11th, and first semester of the 12th grade. In computation of grade point, all grades (for which a student receives credit) will be used. To be eligible for Honor Graduate status, students who successfully complete the 4 units English, 4 units Math to include Algebra I, Algebra II, one math above Algebra II, 3 units Science to include Physical Science, Biology, and Chemistry or Physics, 3 units Social Studies to include Civics or Civics/American Government, World History, and American History, and have a cumulative grade-point average (GPA) of 3.50 or higher, will be designated as honor graduates. To be eligible for Valedictorian or Salutatorian status, the students must have been in attendance at Atkins High School for the past three consecutive semesters and have met all other honor graduate requirements. (This excludes the last semester of the senior year.)

Valedictorian status will be awarded to the student who has the highest GPA on a 5.00 grade scale, unless two or more students have not received a grade below an A (90 or above) and have taken and completed the AP exams for the same number of AP courses by the end of the junior year. In that case, the Valedictorian status will be shared.

Salutatorian status will be awarded to the student with the next highest GPA on a 5.00 grade scale. If identical grade-point averages exist, those students will share the Salutatorian status.

Parents or guardians of a student, or a student eighteen (18) years of age or older, who choose to not have the student publicly identified as an honor roll or honor graduate student must submit a written request that the student not be so identified.

- A = 100 – 90
- B = 89 – 80

For a student to be eligible to receive weighted credit for an AP, or IB course, the student's course must have been taught by an Arkansas licensed teacher who has received the appropriate training required by Arkansas statutes and ADE Rule or, for an AP teacher is in the process of completing an Additional Training Plan.

Additionally, for students taking AP or International Baccalaureate courses shall receive weighted credit they must take the applicable AP or IB examination after completing the entire course. 5.22—CONCURRENT CREDIT

A ninth (9th) through twelfth (12th) grade student who successfully completes a college course(s) from an institution approved by the Division of Elementary and Secondary Education (DESE) shall be given credit toward high school grades and graduation at the rate of one (1) high school credit for each three (3) semester hours of college credit. Unless approved by the school's principal, **prior to enrolling for the course**, the concurrent credit shall be applied toward the student's graduation requirements as an elective.

As permitted by the DESE Rules Governing Concurrent College and High School Credit, a student who takes a three (3) - semester hour remedial/developmental education course, shall receive a half (1/2) credit for a high school career focus elective. The remedial/developmental education course cannot be used to meet the core subject area/unit requirements in English and mathematics.

Participation in the concurrent high school and college credit program must be documented by a written agreement between:

- The student's parent(s) or legal guardian(s) if the student is under the age of eighteen (18).
- The District; and
- The publicly supported community college, technical college, four-year college or university, or private institution the student attends to take the concurrent credit course.

Juniors and Seniors will be allowed to enroll in Early College High School courses if they have a 2.5 GPA and meet the Early College admission requirements; however, only seniors will be allowed to take Comp I and II. The decision as to whether a college course credit will replace a required core course or be used as an elective will be made by the building principal and counselor after careful review of the course syllabus and other relevant consideration.

Students are responsible for having the transcript for the concurrent credit course(s) they've taken sent to their school in order to receive credit for the course(s). Students may not receive credit for the course(s) they took or the credit may be delayed if the transcripts are not received at all in a timely manner; this may jeopardize students' eligibility for extracurricular activities, graduation, or classification. Students will retain credit earned through the concurrent credit program that was applied toward a course required for high school graduation from a previously attended, accredited, public school.

A student eligible to receive free or reduced price meals shall not be responsible for any of the costs for the student's first six (6) concurrent credit hours so long as the concurrent credit courses are taught on the District grounds and by a teacher employed by the District.² Any and all costs of concurrent credit courses beyond the six (6) hours permitted, that are not taught on the District's campus, or are not taught by a teacher employed by the District are the responsibility of the student. 5.23—EQUIVALENCE BETWEEN SCHOOLS

The Atkins School District is committed to providing a quality education for all students in each of the district’s schools. The equitable distribution of district resources is one means the district shall use to ensure all of its students receive a quality education. The Board directs that services in Title I schools, when taken as a whole, be at least comparable to services in schools that are not receiving Title I funds. Curriculum materials, instructional supplies, and the percentages of qualified personnel shall be equivalent between all schools in the district when compared on a grade-span by grade-span basis, school-by-school basis. Specifically, the goal of the district is to have its students given an equitable opportunity to learn regardless of the school they attend within the district.

The Board understands that the equivalence between schools shall not be measured by such things as:

1. Changes in enrollment after the start of the school year;
2. Varying costs associated with providing services to children with disabilities,
3. Unexpected changes in personnel assignments occurring after the beginning of the school year;
4. Expenditures on language instruction education programs and;
5. Other expenditures from supplemental State or local funds consistent with the intent of Title I.

5.29—WELLNESS POLICY

The health and physical well-being of students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the Board of Directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The Board of Directors is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Division of Elementary and Secondary Education (DDSE), but with the community and its residents, organizations and agencies. Therefore, the District shall enlist the support of the larger community to find solutions that improve the health and physical activity of our students.

Wellness Committee

To enhance the district's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way to ensure age-appropriate recommendations are made that correlate to the District's grade configurations. The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule and are incorporated into this policy by reference. The overarching goal of the committee shall be to promote student wellness by monitoring how well the District is doing at implementing this policy. The SNPAAC shall use modules 1, 2, 3, 4, 10, and 11 of the Centers for Disease Control' (CDC) School Health Index as a basis for annually assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in the school district's support plan (SDSP), provided to each school's principal, and reported to the board. Goals and objectives for nutrition and physical activity shall also be included in the SDSP.

The SNPAAC shall be made up of Individuals from the following groups to the extent interested persons from each group desire to be included in the development, implementation, and periodic review of the District's wellness policy:

- Members of the District's Board of Directors;
- School administrators;
- School nutrition personnel;
- Teacher organizations;
- Teachers of physical education;
- Parents;
- Students;
- Professional groups (such as nurses);
- School health professionals (such as school nurses, school counselors, and social workers); and

- Community members.

The SNPAAC shall provide written recommendations to the District's Child Nutrition Director concerning menus and other foods sold in the school cafeteria. Such recommendations shall be based, at least in part, on the information the Committee receives from the District on the requirements and standards of the National School Lunch Program and from menus for the National School Lunch Program and other food sold in the school cafeteria on a quarterly basis. The SNPAAC will meet at least quarterly. Meeting dates for the SNPAAC will be placed on the District's calendar.

School Health Coordinator

To assist the SNPAAC in ensuring that the District fulfills the requirements of this policy, a District level School Health Coordinator (Designated District Official) shall be appointed. In addition, a school level School Health Coordinator shall be appointed who shall be responsible for assisting the District level School Health Coordinator in ensuring that each school fulfills the requirements of this policy.

Goals

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the District will adhere to the DESE Rules Governing Nutrition and Physical Activity Standards and Body Mass Index for Age Assessment Protocols. To promote nutrition, physical activity, and other school-based activities that will improve student wellness, the District, working with the SNPAAC, has established the following goals:

1. Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum;
2. Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity;
3. Strive to improve the quality of physical education curricula and increase the training of physical education teachers;

5.30—SENIOR ACTIVITY

By the beginning of his/her senior year, a student who is classified as a senior must have earned 16 or more credits and be on track to graduate at the end of the year in order to participate in senior activities.

Students must have earned the required credits for graduation with passing grades and have not lost credit units in any senior year courses due to excessive absences in order to participate in graduation ceremonies. Absences properly excused by a physician in accordance with the attendance policy shall not be considered as excessive and will not cause a student to lose credit.

SECTION 6
SCHOOL, HOME AND COMMUNITY RELATIONS

6.1—COMMUNICATION GOALS

The single most significant factor in student achievement is the teacher. The teacher's effectiveness is greatly enhanced when supported by the school community as a whole, the student's home, and the community at large. The Arkansas General Assembly and the Division of Elementary and Secondary Education have demonstrated their understanding of the importance of involving such groups by repeatedly mandating their inclusion in the educational system and process. Communication with staff, parents, grandparents, legal guardians, business, and community members is fundamental to increasing their concern for, and involvement in, raising student achievement.

Communication should be two-way between the District and the public. The communications program shall strive to:

1. Increase mutual understanding, trust, and support between the District and parents, business, and the community as a whole;
2. Keep District staff regularly informed of upcoming District programs and events as well as noteworthy staff and student accomplishments to enable all the staff to help promote positive public relations;
3. Create and disseminate brochures, flyers, and fact sheets that will help parents and community members better understand school policies and procedures and acquaint them with areas where their volunteer services are most needed;
4. Inform legislators of the accomplishments of the District's students and staff, as well as how proposed legislation could affect the district;
5. Maintain good relations with the news media and provide the media with pertinent news releases; and
6. Increase the participation of parents, grandparents, legal guardians, business, and community members in school activities and programs.

The Board will appoint committees, when appropriate, to help the District examine issues facing it. Such committees may include members of the public, students, parents, and school employees, as well as members of the Board. Members may serve until the committee makes its non-binding recommendations to the Board. Any committee, which includes among its members a member of the School Board, shall operate according to the requirements of the Arkansas Freedom of Information Act.

The District's Board of Directors shall hold a meeting by October 15 of each year to provide a report that systematically explains the District's policies, programs, and goals to the community. The District's report shall detail the progress of the District and the District's schools toward accomplishing program goals, accreditation standards, and proposals to correct any deficiencies. The report shall be made available to the public, including by posting a copy on the District's website under State-Required Information no later than ten (10) days following the meeting. The meeting shall provide parents and other members of the community the opportunity to ask questions and make suggestions concerning the District's program.

6.2—RELATIONS WITH SCHOOL SUPPORT ORGANIZATIONS

The Board recognizes and values the many contributions support organizations make to the District's schools. Parent/teacher organizations and booster clubs work to augment and strengthen the District's educational and extracurricular objectives through the goods and services they provide.

Groups wishing to be recognized as a support organization must have open membership and have their by-laws approved by the school principal, the Superintendent, and the Board. School personnel shall assist approved booster organizations in their efforts to the extent practicable. Meetings of such organizations, cleared through the principal, shall not be subject to school use fees. School staff members are encouraged to attend and participate. Fund-raising activities are to be approved in advance by the principal or his/her designee. Prior to the donation of equipment and/or supplies to the school, the organization should seek the advice of the principal to help ensure the compatibility of the donation with present school equipment. All equipment donated to the District becomes the property of the District.

6.3—PUBLIC GIFTS AND DONATIONS TO THE SCHOOLS

The District and the Board of Education may receive monetary gifts or donations of goods or services that serve to improve or enhance the goals of the District. Any gifts to the District become the property of the District and are subject to the same regulations as any other District owned property.

It is a breach of ethical standards and a violation of Arkansas law for any Board member, administrator, or District employee to, in any manner, receive a gift of any kind in return for employment with the District, or to influence the award of any contract or transaction with the District. All personnel shall examine the “reasonableness” of any gift or donation against its potential for real or perceived violation of the aforementioned ethical standards before accepting any gift or donation in the name of a school or the District. The Board reserves the right to not accept any gift or donation that would not contribute to the attainment of District goals or that would obligate the District to unacceptable outlays of District resources. The administration shall present for Board consideration and approval any gifts or donations the administration deems could so obligate the District.

The Board will strive to honor the donor’s intent regarding gifts earmarked for a specific purpose; however, laws and District’s needs change with time and the District reserves the right to adjust the use of any gift to meet current needs of the educational program. The Board authorizes the superintendent, or the superintendent’s designee, to act as the District’s official representative for all school-affiliated online fund raisers.

6.4—VOLUNTEERS

Enlisting the support of volunteers is a way in which the District can expand the scope of resources and knowledge available to enrich the students’ educational experiences, while strengthening the relationship between the school and the community. Volunteers can also perform non-instructional tasks that allow certified personnel more time to devote to instruction.

The Superintendent shall be responsible for establishing and maintaining a program to coordinate the services volunteers are willing and able to contribute with the needs of District personnel. The program shall establish guidelines to ensure volunteers are aware of pertinent District policies and rules. The guidelines will include provision for evaluation of the volunteer program and a method for soliciting suggestions from both the volunteers and staff for its improvement.

All volunteers who intend to act as head coaches or assistant coaches must:

- 1) Be at least twenty-two (22) years of age; and
- 2) Meet the requirements adopted by the Arkansas Activities Association (AAA) to volunteer for any athletics program for grades seven (7) through – twelve (12).

A member of the board of directors of the District or the spouse of a member of the board of directors of the District may not be a registered volunteer for the District unless a majority of the disinterested members of the Board of Directors approves a resolution for the board member or board member’s spouse to be a registered volunteer. The resolution approving the board member or board member’s spouse to be a registered volunteer shall be effective for only one (1) school year.

A volunteer may act as a head coach in all varsity junior and senior high sports administered by the AAA except in the following sports:

Football; Basketball; and Track and field.

Prior to volunteering, all school volunteers must complete and sign a school volunteer agreement, in which they agree to follow school rules, wear at all times the volunteer/visitor’s sticker or volunteer identification badge issued to them, and obey the directions of the principal or supervising school district employee or employees. Volunteers who violate school policies or rules or knowingly allow students to violate school rules may be asked to leave the school campus and, depending on the circumstances, no longer be permitted to serve as a school volunteer. In addition to completion of the volunteer agreement, volunteers must pass a national sex offender registry check and a criminal background check for felony convictions as well as any drug, sex or violent crime convictions, and a child maltreatment background check before they are allowed to perform volunteer services. Individuals found to have committed any felony or any crime related to drugs, sex, or violence or those having a true finding on the child maltreatment check will be prohibited from volunteering during the school day or at school events.

Generally, we start with observations of 30 minutes per nine weeks unless there is something specific you want to observe that will take longer or need to be observed more often. The Principal, in consultation with the parent and teacher, decides the length and frequency of observations as appropriate.

When you come for your observation, you must stop in the front office, sign in and wear the visitor's badge provided. When you leave, you must sign out through the office and leave your visitor's badge.

When observing in your child's room, please sit quietly in the area the teacher as arranged.

During the observation, please do not talk to or interrupt the teacher or students.

Do not audio record or video your observation.

Do not take notes about other students or discuss other students with anyone.

If during or after your observation, you have questions or comments, please contact the teacher via e-mail or a phone call to arrange a time for you and the teacher to conference.

Follow directions of the school staff while in the building for your observation.

Visitors other than the parents, legal guardians, or foster parents will not be allowed to observe in the classroom.

You are welcome to eat lunch with your student.

As a parent, we want you to be engaged with your child's school and staff who serve your child. We want you to be able to observe your child in the classroom; however, we must protect our students in their learning environment and meet the needs of all the parents to observe, so we have set these observation guidelines. There may be circumstances which require adjustments to these guidelines.

The school principal is in charge of making any adjustments to the guidelines on an individual basis. If you are not satisfied with the Principal's determination, you may bring your complaint to the Superintendent, in writing. The Superintendent will review the request and then make a determination.

6.6—FUNDRAISING

All activities held in the District or in the name of the District must be pre-approved in writing by the Principal. Approval will be predicated on the potential for return relative to the time and energy to be invested in the fundraising. Fundraising that conflicts excessively with and/or detracts from student or teacher instructional time in either the planning or the execution of the activity will not be approved. Neither an individual school nor the District shall be liable for any contract between clubs or organizations and third parties.

Student participation in any fundraising activity shall:

1. Be voluntary. Students who choose not to participate shall not forfeit any school privileges. It shall not be considered discriminatory to reward those who participate; and
2. Not influence or affect the student's grade.

For purposes of this policy, "Door-to-door sales" means the selling of merchandise outside of the child's home and off the school grounds.

Fundraising in the secondary schools may only be done by officially sanctioned student clubs, spirit groups, school PTAs, or parent booster clubs. Student clubs and spirit groups must receive written approval from their sponsor and the school principal.

Door to door fundraising activities are generally discouraged. If approved, students wishing to participate who are under the age of eighteen (18) must return to their sponsor a signed parental notification and permission form.

Online Fund Raisers

All school-affiliated online fund raisers must be approved by the superintendent, or the superintendent's designee. The superintendent, or the superintendent's designee, shall act as the point of contact for all school-affiliated online fund raisers. An employee may be disciplined, up to and including termination, if the employee establishes:

- a. A school-affiliated online fund raiser without the permission of the superintendent, or the superintendent's designee;
or
- b. The employee as the point of contact for a school-affiliated fund raiser instead of the superintendent, or the superintendent's designee.

For purposes of this policy, a "school-affiliated online fund raiser" includes, but is not limited to, a fund raiser intended to raise funds for a particular teacher's classroom, grade, student club or organization, or athletic team.

6.7—COMPLAINTS

It is a goal of the Board and the District to be responsive to the community it serves and to continuously improve the educational program offered in its schools. The Board or the District welcomes constructive criticism when it is offered with the intent of improving the quality of the system's educational program or the delivery of the District's services.

The Board formulates and adopts policies to achieve the District's vision and elects a Superintendent to implement its policies. The administrative functions of the District are delegated to the Superintendent who is responsible for the effective administration and supervision of the District. Individuals with complaints concerning personnel, curriculum, discipline, coaching, or the day-to-day management of the schools need to address those complaints according to the following sequence:

1. Teacher, coach, or other staff member against whom the complaint is directed
2. Principal
3. Superintendent

Other than in the few instances where statutorily allowed or required, student discipline and personnel matters may not be discussed in Board meetings. Individuals with complaints regarding such matters need to follow the sequence outlined above.

Unless authorized by the Board as a whole for a specific purpose, no individual Board member has any authority when acting alone. District constituents are reminded that the Board serves as jury in matters regarding student suspensions initiated by the Superintendent, expulsions, and personnel discipline. For this reason, the board may not be involved or informed prior to a board hearing on particular disciplinary matters.

Complaints that are related to district use or administration of federal funds generated through specific programs identified by the Division of Elementary and Secondary Education (DESE) and authorized in the Elementary and Secondary Education Act may be taken directly from a patron or by referral from the DESE. If taken directly from a patron, the complaint may be submitted by either a signed statement or by a certified, recorded deposition or statement in which the complainant is identified. The complaints shall be addressed in the following manner:

1. The complaint shall be referred to the federal program director, who shall assemble a team of at least two (2) people to investigate the complaint.
2. Throughout the investigation, sufficient notes and records will be taken and maintained to substantiate the position of the findings of the investigation.
3. The team will interview the complainant and others as necessary to enable the team to make a determination of the validity of the complaint. The team may consult with individuals with knowledge or expertise in the matter which is the subject of the complaint, including legal counsel.
4. The investigation of complaints referred by the DESE shall be completed within thirty (30) calendar days of receipt of the complaint, unless a longer time period has been approved by the DESE.
5. The investigation of complaints made directly to the district shall be completed within forty (40) calendar days unless there are extenuating circumstances; in such a case, a preliminary report shall be made within forty (40) calendar days of receipt of the complaint, which shall include an explanation of the unusual circumstances requiring additional time to complete the investigation.
6. The report of the conclusions of the investigation shall be given to the complainant. It shall contain:
 - a. A summary of the allegations of the complaint;
 - b. A summary of the investigative actions taken by the team;

- c. A summary of the findings concerning each alleged violation or implied violation; and
- d. A statement of corrective actions needed to resolve the issues involved in each allegation and finding of the complaint.

6.8—DISTRIBUTION OF PRINTED MATERIALS

The District shall devise and maintain a system for distributing District communications and other printed materials between the Administration and the schools. Use of the system by employees or employee organizations shall be with prior approval of the Superintendent or his/her designee.

Distribution of printed materials, flyers, photographs, or other visual or auditory materials not originating within District schools to students or staff shall have prior approval of the Superintendent or his/her designee.

6.9—MEDIA RELATIONS AND NEWS RELEASES

It is important that the District maintain good relations with the media. The Superintendent or his/her designee shall devise and implement a plan for the release of pertinent information to the media regarding educational programs, awards, or other student and staff achievements, and special events. The plan shall not require schools to clear the release of public service announcements. The District shall attempt, within reason, to accommodate media requests for interviews and shall endeavor to be fair and impartial in its treatment of media representatives. The release of information to the media shall be done in a timely manner, either by written releases or by telephone interviews, to keep patrons abreast of newsworthy District achievements and shall strive to be factual and objective with personal opinions duly noted.

The Board encourages students and staff to participate in academic competitions and programs. Awards earned in such endeavors shall be communicated to the media. Award recipients may also be recognized at Board meetings.

6.10—MEGAN’S LAW

The Atkins School District shall work with area law enforcement in a manner consistent with applicable state law and Division of Elementary and Secondary Education Rules to communicate the presence a sexual offender. When necessary, law enforcement may contact building principals to provide information concerning registered sex offenders. The decision regarding the school principals to be notified rests solely with law enforcement officials; law enforcement officials use a rating system to determine who needs to be notified, which is according to the sex offender’s dangerousness to the community. In turn, building principals should notify any employee who is regularly in a position to observe unauthorized persons on or near the school’s property in the ordinary course of their employment. Employees notified could include any of the following: aides, bus drivers, coaches, maintenance staff, professional support staff, school level administrative staff, security personnel, teachers’ assistants, and teachers.

It is important that school personnel who receive sex offender notifications understand that they are receiving the sex offender notifications in their official capacity and are **not** to disseminate information about an offender to anyone outside the school. If school personnel are asked about notification information by an organization using school facilities, the organization should be referred to the area law enforcement agency that issued the notice. Persons **not** to be notified except at the specific discretion of area law enforcement officials include members of parent-teacher organizations, other schools, organizations using school facilities, students, parents or guardians of students, and the press. District personnel may inform the press about procedures that have been put in place and other general topics, but may not reveal the name or any other specifics regarding an offender.

A parent or guardian who is a Level 1 or Level 2 sex offender shall be allowed to enter the school campus to attend parent-teacher conferences or any other activity that is appropriate for a parent, or guardian, or community member.

Level 3 and Level 4 sex offenders may only enter the school campus in the following instances:

1. The offender is a student attending school in the district;
2. To attend a graduation or baccalaureate ceremony,
3. It is a non-student contact day according to the school calendar or no school-sponsored event is taking place on campus;
4. The offender is a parent or guardian of a student enrolled in the district and goes directly to the school office to have school personnel deliver medicine, food, or personal items for the student;

5. The offender is a parent or guardian of a student and enters the school campus where the student is enrolled to attend a scheduled parent-teacher conference **and** the offender is escorted to and from the conference by a designated school official or employee.

A Level 3, but not a Level 4, sex offender may attend a school sponsored event for which an admission fee is charged or tickets are sold or distributed if the sex offender:

- Is the parent, guardian, great-grandparent, or is related by blood or marriage within the second (2nd) degree of consanguinity to a student enrolled in the public school; and
- Notifies the administration of the school in writing at least twenty-four (24) hours before the start of the event that he or she will be attending the event.

A Level 3 and Level 4 sex offender who is the parent or guardian of a child enrolled in the district and who wishes to enter the school campus in which the student is enrolled for any other purpose than those listed above, must give reasonable notice to the school principal or his/her designee. The principal or designee may allow the sex offender to enter upon the campus provided there is a designated school official or employee to escort and supervise the sex offender while they remain on campus. The sex offender shall not enter upon the school campus until such time as a designated school official or employee is available.

Copies of the notification from law enforcement should be kept in a secure place accessible to teachers and staff, but should not be posted on school bulletin boards or made available to students or members of the community at large.

- f. Keep parents, families, and the community informed about parent, family, and community engagement programs, meetings, and other activities they could be involved in. Such communication shall be, to the extent practicable, in a language the parents and families can understand;
- g. Find ways to eliminate barriers that work to keep parents and families from being involved in their child’s education. This may include providing transportation and child care to enable parents to participate, arranging meetings at a variety of times, and being creative with parent/teacher conferences;
- h. Find and modify other successful parent, family, and community engagement programs to suit the needs of our school;
- i. Train parents, families, and the community to enhance and promote the involvement of other parents, families, and members of the community;
- j. Provide reasonable support for other parent, family, and community engagement activities as parents, families, and the community may reasonably request.

To ensure the continued improvement of the district's parent, family, and community engagement program, the district will conduct an annual review of its parent, family, and community engagement policies to examine their effect on promoting higher student achievement. The review shall be done by a committee consisting of parents and other community members, certified and classified staff, and member(s) of the administration.

This policy shall be part of the school's Title I plan and shall be distributed to parents of the district's students and provided, to the extent practicable, in a language the parents can understand.

6.13—NOTIFICATION OF SCHOOLWIDE PROGRAM ELIGIBILITY

Our school currently participates in and receives funds for Federal Title I, Part A, program services under the *No Child Left Behind Act of 2001*. The funding allotment is based on the percentage of students in our district from low-income families. Title I provide services only to eligible students in need of additional instructional assistance, regardless of economic background.

Students from low-income families enrolled in our school are not less than 40% of our population. This qualifies our district to become a "School wide Title I Program" which allows us to consolidate and use Title I, Part A funds with other federal, state, and local funds to upgrade the entire educational program of our school. Therefore, Title I can be used to service ALL students' academic needs, as indicated in the individual improvement plans of each school and at the district level. You will, as always, receive current information about your child's and our district's progress in achieving high academic achievement standards. We encourage your involvement in our school and in your children's education and look forward to your participation in meetings to discuss improvements in our programs.

If you would like additional information, or would you like to provide comments, please contact the Gifted and Federal Programs Director, at (479) 641-7574.

Officers are elected in the spring each year for the following school term. Qualifications for office candidates require students to attend AHS their past two semesters. The presidential candidate must have a 3.25 cumulative GPA and be a member of the junior class. Other officers must have a 3.00 cumulative GPA and may come from the junior or sophomore class.

8.10-YOUTH ALIVE

A non-denominational student run organization dedicated to the promotion of Christianity.

8.11-ATKINS SCHOOL DISTRICT CHEMICAL SCREEN TEST POLICY

The Atkins School District recognizes that chemical abuse or misuse is a significant health problem for students, detrimentally affecting overall health, behavior, learning ability, reflexes, and the total development of each individual. The Atkins Board of Education is determined to help students by providing another option for them to say “No”. Chemical abuse includes, but is not limited to, the use of illegal drugs, alcohol, and the misuse of the legal drugs and medications.

Purpose of a Chemical Abuse Policy:

1. To allow the students of Atkins Schools to know that the school is concerned about their total well-being. The School District is interested in helping the students who may be having problems.
2. To emphasize concerns for the health of students in areas of safety while they are participating in activities as well as the long-term physical and emotional effects of chemical use on their health.
3. To confirm and support state law which restrict the use of such mood-altering chemicals.
4. To assist students of Atkins Schools to resist the peer pressure that directs them toward the abuse or misuse of chemical substances.
5. To establish standards of conduct for students of Atkins Schools who are considered leaders among their peers.
6. To work cooperatively with parents by assisting them in keeping their children free from mood-altering chemicals.
7. To assist students who need to be referred for assistance or evaluation regarding their use of illegal drugs.
8. To deter chemical abuse or misuse by all students through the use of random drug testing.

Scope

The provisions of this policy apply to students in Atkins Schools in grades seven through twelve. No student will be allowed to participate in any school activity (any activity outside the regular curriculum) or park on campus until the consent form has been signed by both student and custodial parent/legal guardian and returned to the principal. Positive screening results are considered cumulative and follow the student for the duration of enrollment in Atkins School District.

Definition

Illegal Drugs are defined as any substance, including alcohol, considered illegal by Arkansas Statutes or which the Food and Drug Administration control unless prescribed by a licensed physician.

Prescription Medication

The existence of lawfully prescribed medication in the student’s sample is not a violation of this policy when taken in accordance with a physician’s recommendation or prescription to a specific student. Some over-the-counter medications may have similarities to unlawful drugs when tested. Students who are taking prescription medication may provide a copy of the prescription or a doctor’s verification in a sealed envelope to school personnel at the time the sample is collected. The specific name of over-the-counter medication should also be disclosed to the school official. Students who refuse to provide verification and test positive will be subject to the actions specified in this policy for “positive test.”

Consent Form

Students and parents/guardians will be strongly encouraged to sign a consent form to participate in the random testing. The form must be co-signed by the student’s custodial parent/legal guardian. No student will be allowed to participate in any school activity (any activity outside the regular curriculum) or to park on school property until the consent form has

been signed by both student and custodial parent/legal guardian and returned to the principal. Consent forms for students participating in fall sports or extracurricular activities must be signed prior to physical examinations. All other students must sign the consent form during the first two weeks of school. Students moving into the district during the school year must sign the consent form during the first two weeks of enrollment. No student will be allowed to sign the consent form after these dates.

Selection Process

While students are in school, they will be subject to random selection for testing. Particular days will be selected for testing. If a student is selected for testing but is absent on that day, he/she will be tested on the next test date. The number of names drawn will be no less than (2%) or greater than (15%) of the students in grades seven through twelve. A urinalysis will be the method utilized to test for the presence of chemicals in the body. All students selected must report to the designated testing site.

Testing Agency

The district will choose a qualified agency for the purpose of processing samples and maintaining privacy with respect to test results and related matters.

Cost

The cost of the test to be given during random selection will be paid by the district. Any test administered to a student to regain eligibility will be at the parent's expense.

Refusal to Consent to Testing

Students not consenting to be tested (in the random pool) are allowed to join clubs or organizations but are not allowed to attend after school meetings, participate in any activities, or park on campus.

Testing Procedure

All test results from the laboratory will be communicated to the Superintendent or designee. All saliva or urine specimens will be taken at a designated collection site. Any student who is requested to provide a saliva or urine specimen will be directed to the collection site where the student will complete the necessary forms. Students who test positive will be required to sign additional consent forms.

The following precautions will be taken, as appropriate, at the collection site:

1. The examinee will be positively identified.
2. The observer will ask the individual to remove any unnecessary outer garments (i.e. coat, jacket, etc.) that might conceal items or substances that could be used to tamper with or alter the saliva or urine specimen. All personal belongings (i.e. purse, backpack, etc.) must remain with the outer garments. The observer will note any unusual behavior or appearance.
3. The student will not be outside of the presence of the observer and not have access to faucets, soap dispensers, or cleaning agents until after the specimen has been provided and sealed.
4. The student will be allowed to provide the specimen in a stall or other partitioned area that allows for individual privacy. After the specimen has been provided, the student should leave the stall.
5. At the collection site, toilet bluing agents will be placed in the toilet tanks, whenever possible. No other source of water will be available in the enclosure where urination occurs.
6. If a student fails to provide the necessary amount of urine for a valid specimen, the student will be given reasonable amounts of water for drinking and extra time to produce an adequate sample. During this time, the student will remain in the vicinity of the collection area and under the observation of the district staff.
7. Immediately after collection, the observer will check the temperature of the specimen and inspect the specimen for color and signs of contaminants.
8. Both the observer and student being tested will keep the specimen in view at all times prior to its being sealed and labeled.

Analysis Process

Testing protocol involves on-site collection and testing of urine samples. If a sample initially tests positive for any substance, that sample will be immediately retested. In the event that the second test reports negative, the sample will be considered negative for reporting purposes. A second positive test will result in the sample's being immediately delivered to a SAMHSA laboratory for GC/MS confirmation with results provided to the school in one or two days.

Results and Notification

Test results will be reported to the Superintendent or his designee. All reports will be in writing. All specimens testing negative on the initial test or negative on the confirmation test will be reported as negative. Only specimens confirmed as positive will be reported as positive for a specific drug(s).

Records

The Superintendent or his designee in a separate, locked file will maintain all records concerning chemical abuse testing. The records will not be kept in a student's regular file. Only the Superintendent or his designee will have access to the files. The files on each student will be destroyed upon graduation or two years after termination of enrollment. A student and the student's custodial parents, legal guardians may obtain a copy of his chemical abuse upon written request.

First Positive Test

Upon receipt of a positive test result for any student, a custodial parent or legal guardian will be notified and a meeting will be scheduled with the Superintendent or his designee, the student, the custodial parent or legal guardian, the student's principal, the student's head coach or sponsor.

Counseling/rehabilitation for the student will be strongly recommended for the student who tests positive. A referral/resource list will be made available to the student and parent/legal guardian. Any counseling/rehabilitation service costs will be the responsibility of the student and/or parent. The student will be placed on probation for thirty days. If there are not thirty days left in the school year, the thirty-day period will carry forward to the following school year. During the probation time, the student will not be allowed to participate and/or attend any curricular or extracurricular activities, which occur outside the regular school day or park on campus.

Students participating in a sport or activity that requires a physical must have doctor's approval to continue practicing during the probationary period. In order to regain eligibility after the thirty-day probationary period, the student must be tested again at the parent's expense and a written copy of the results will be given to the Superintendent or his designee. If the test is negative, the probation will be lifted. If the test is positive, the student will not be allowed to participate in or attend extracurricular activities or park on campus for one calendar year. A positive retest at the end of thirty-day probation period will be considered a second positive test. To regain eligibility for participation in activities, a student must have a negative Chemical Screening Test. This will be administered by the District's chemical screening company and at the parent's expense. Exception: A student must be retested on day thirty-one. However, certain chemicals that take more than thirty days to leave the student's system will be considered differently if a doctor's written opinion details said residual effects of that particular substance.

Second Positive Test

For the second positive test, the student will not be allowed to participate in or attend extracurricular activities or park on campus for one calendar year. To regain eligibility for participation in activities, a student must have a negative Chemical Screening Test. This will be administered by the district's chemical screening company and at the district's expense.

Third Positive Result

For the third positive result, the student will be permanently suspended from participating in or attending any activity program and park on campus for the remainder of his enrollment with the school. A third positive screen could come from third positive test from the random pool or a result of a re-screen at the end of a probation period.

Nature of Policy

No student will be penalized academically for testing positive for illegal drugs. The results of any drug test pursuant to this policy will not be documented in any student's academic records.

Other Disciplinary Measures

The district, by accepting this policy, is not precluded from utilizing other disciplinary measures set forth in the student handbook and this policy does not preclude the district from taking disciplinary procedure and resulting action when founded upon reasonable belief and suspicion that a student has participated in drug-related activities.

Counseling/rehabilitation is recommended for the student who tests positive. And counseling/rehabilitation service cost will be the responsibility of the parent/guardian. The following are some agencies that provide counseling/rehabilitation services. In supplying the list, the Atkins School Board, its agents, or employees take no responsibility in the selection of which agency the parent decides to use. The final decision to seek counseling for the student and the cost of counseling/rehabilitation shall be the responsibility of the parent/guardian.

Forms for a variety of agencies in the area are available in the office for the following upon request:
