

FACILITIES AND TRANSPORTATION COMMITTEE

Chelsea Elementary School

Thursday, May 10, 2018

5:30-6:15 p.m.

Attendance: Howard Tuttle, Richard Devries, Tom McNaughton, Larry Dancer, Alpha Williams, Spencer Bailey

Others: Jerry Nault, Russell Gates

1. LD 1858 - Security and Roofing grant
 - a. This is currently on the Governor's Desk.
 - b. This grant may provide funding for roofing or school security
2. Electricity bill - Richard Devries provided an analysis
 - a. Discussed how to reduce the demand charge on the electric bill.
 - b. Recommendation to look at the big motors in the ventilation systems.
 - c. Discussed preventative maintenance and how to reduce the demand charge
 - d. Discussed putting a campaign together to save energy.
 - e. Looking at software that might help us with maintenance.
3. Colby Road Bus Route
 - a. The Palermo run up Colby road costs \$240 a year.
 - b. It was determined that a bus transfer was not feasible and the cost is significant. There are many places in the district where buses must drive the same roads or cross paths for a variety of reasons. The transportation department works hard to be as efficient as possible while providing safe transportation.
4. Wifi pricing for buses - It would cost \$40,000 to install wifi. There was a brief discussion. The committee agreed not to move forward with this idea.

End Time: 6:20pm

Respectfully Submitted,

Howard Tuttle, Superintendent, RSU 12
