To the Board of Education
Tecumseh School District No. I-92

We have audited the financial statements of the Tecumseh School District No. I-92 for the year ended June 30, 2020. Professional standards require that we provide you with the following information related to our audit.

Purpose of the Audit

This audit was designed to determine the fair presentation or compliance with:

- Accounting and financial reporting regulations prescribed or permitted by the Oklahoma State Department of Education, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter, our responsibility, as described by professional standards, is to express our opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with financial reporting regulations prescribed or permitted by the Oklahoma State Department of Education. Our audit of the financial statements does not relieve you or management of your responsibilities.

1. Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement.
2. As part of our audit, we considered the internal control of Tecumseh School District. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.
3. We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our letter about planning matters on February 29, 2020.

Results of Audit

Audit opinion letter – a qualified opinion on the School's financial statements has been issued.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Tecumseh School District No. I-92 are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2020.

We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The disclosures in the financial statements are neutral, consistent, and clear. Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users.

Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management in performing and completing our audit.

Correct and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements or determined that their effects are immaterial. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated January 19, 2021.

Management Consultation with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationships and our responses were not a condition to our retention.

This information is intended solely for the use of the Board of Education and management of Tecumseh Public School No. I-92 and is not intended to be and should not be used by anyone other than the specified parties.

Sincerely,

A handwritten signature in black ink, appearing to read "Kerry John Patten", with a stylized flourish at the end.

Independent Auditor's Report

The Honorable Board of Education
Tecumseh School District No. 1-92
Tecumseh, Pottawatomie County, Oklahoma

Report on Financial Statements

I have audited the accompanying combined fund type and account group financial statements – regulatory basis of the Tecumseh School District No. 1-92 Pottawatomie County, Oklahoma, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the district's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with financial reporting provisions of the Oklahoma State Department of Education to meet financial reporting requirements of the State of Oklahoma; this includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As discussed in Note 1 (C) to the financial statements, the financial statements are prepared by the Tecumseh School District No 1-92, Pottawatomie County, Oklahoma, on the basis of the financial reporting provisions of the Oklahoma State Department of Education, which a basis of accounting other than accounting principles generally accepted in the United States of America to comply with requirements of the Oklahoma State Department of Education.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 (C) and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In my opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Tecumseh School District No. 1-92, Pottawatomie County, Oklahoma as of June 30, 2020, or the revenues, expenses, and changes in financial position for the year then ended.

Basis for Qualified Opinion on Regulatory Basis of Accounting

The financial statements referred to in the first paragraph do not include the general fixed asset account group, which is a departure from the regulatory basis of accounting prescribed or permitted by the Oklahoma State Department of Education. The amount that should be recorded in the general fixed asset account group is not known.

Qualified Opinion on Regulatory Basis of Accounting

In my opinion, except for the effects of the matter described in the "Basis for Qualified Opinion on Regulatory Basis of Accounting" paragraph, the financial statements referred to in the first paragraph present fairly, in all material respects, the assets, liabilities, and fund balances arising from regulatory basis transactions of each fund type and account group of Tecumseh School District No. 1-92, Pottawatomie County, Oklahoma, as of June 30, 2020, and the revenues collected and expenditures paid and encumbered for the year then ended, on the regulatory basis of accounting described in the Note 1 (C).

Other Matters Other Information

My audit was conducted for the purpose of forming opinions on the fund type and account group financial statements within the combined financial statements. The combining fund statements-regulatory basis, and other schedules as listed in the table of contents, under supplementary information, are presented for purposes of additional analysis and are not a required part of the combined financial statements of the District. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining financial statements-regulatory basis, and other schedules as listed in the table of contents, under supplementary information and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting records used to prepare the combined financial statements. Such information has been subjected to the auditing procedures applied in the audit of the fund type and account group financial statements within the combined financial statements, and other additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplementary information including the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the combined financial statements taken as a whole on the regulatory basis of accounting described in Note 1 (C).

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated DATE, on my consideration of Tecumseh School District No. 1-92, Pottawatomie County, Oklahoma's, internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

NOTES TO THE FINANCIAL STATEMENTS

**TECUMSEH SCHOOL DISTRICT NO. I-92
POTTAWATOMIE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS – REGULATORY BASIS
FOR THE YEAR ENDED JUNE 30, 2020**

1. Summary of Significant Accounting Policies

The accompanying financial statements of the Tecumseh School District No. I-92 (the "District") conform to the regulatory basis of accounting, which is another comprehensive basis of accounting prescribed by the Oklahoma State Department of Education and conforms to the system of accounting authorized by the State of Oklahoma. Accordingly, the accompanying financial statements are not intended to present financial position and results of operations in conformity with accounting principles generally accepted in the United States of America. The District's accounting policies are described in the following notes that are an integral part of the District's financial statements.

A. Reporting Entity

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and, accordingly, is a separate entity for operating and financial reporting purposes. The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on the State of Oklahoma. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the District is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the District.

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basic – but not the only – criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no potential component units included in the District's reporting entity. These statements present only the activities of the District.

B. Measurement Focus

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is an independent accounting entity with a self-balancing set of accounts. The account groups are financial reporting devices designed to provide accountability for certain assets and liabilities that are not recorded directly in the funds.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types." The District has the following fund types and account groups:

Governmental Funds

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital project funds), and the servicing of general long-term debt (debt service funds). Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. All governmental type funds are accounted for using the Regulatory (Statutory) basis of accounting. All revenues from all sources, including property taxes, entitlements, grants, and shared revenues are recognized when they are received, rather than earned. Expenditures are generally recognized when encumbered or reserved, rather than at the time the related liability is incurred. Unmatured interest for debt service is recognized when due and certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated

with expendable, available financial resources. Fiduciary type funds are accounted for using the regulatory basis of accounting. These practices differ from accounting principles generally accepted in the United States of America.

General Fund – The general fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include local property taxes and federal and state funding. Expenditures include all costs associated with the daily operations of the schools, except for programs funded for building repairs and maintenance, school construction and debt service on bonds and other long-term debt. The general fund includes federal and state restricted monies that must be expended for specific programs

Special Revenue Fund – The special revenue funds are used for proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Building Fund – The building fund consists mainly of monies derived from property taxes levied for the purpose of erecting, remodeling, repairing or maintaining school buildings and for purchasing furniture, equipment and computer software to be used on or for school property, for paying energy and utility costs, for purchasing telecommunications services, for paying fire and casualty insurance premiums for school facilities, for purchasing security systems, and for paying salaries of security personnel.

Co-op Fund – The co-op fund is established when the Boards of Education of two or more school districts enter into cooperative agreements and maintain joint programs.

Child Nutrition Fund – The child nutrition fund consists of revenues from local collections, state, and federal sources used to benefit the food service program.

Debt Service Fund – The debt service fund is the District's sinking fund and is used to account for the accumulation of financial resources for the payment of general long-term debt principal and interest. The primary revenue sources are local property taxes levied specifically for debt service and interest earnings from temporary investments.

Capital Projects Fund – The capital projects fund is the District's bond fund and is used to account for the proceeds of bond sales to be used exclusively for acquiring school sites, constructing and equipping new school facilities, renovating existing facilities, and acquiring transportation equipment.

Fiduciary Funds

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments or on behalf of other funds within the District. When these assets are held under the terms of a trust agreement, trust funds are used for their accounting and reporting. Agency funds generally are used to account for assets that the District holds on behalf of others as their agent and do not involve measurement of results of operations.

Agency Funds – The agency fund is the school activities fund, which is used to account for monies, collected principally through fundraising efforts of the students and District-sponsored groups. The administration is responsible, under the authority of the Board, for collecting, disbursing, and accounting for these activity funds.

Account Groups

Account groups are not funds and consist of a self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets.

General Long-Term Debt Account Group – This account group was established to account for all long-term debt of the District, which is offset by the amount available in the debt service fund and the amount to be provided in future years to complete retirement of the debt principal.

General Fixed Asset Account Group – This account group is used to account for property, plant, and equipment of the school district. The District does not have the information necessary to include this group in its combined financial statements.

C. Basis of Accounting and Presentation

The District prepares its financial statements in a presentation format that is prescribed by the Oklahoma State Department of Education. This format is essentially the generally accepted form of presentation used by state and local governments prior to the effective date of GASB Statement No. 34, *Basic Financial Statements-Management's Discussion and Analysis-for State and Local Governments*. This format significantly differs from that required by GASB 34.

The basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma State Department of Education (OSDE) as follows:

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved.
- Investments are recorded as assets when purchased.
- Warrants payable are recorded as liabilities when issued.
- Long-term debt is recorded when incurred.
- Compensated absences are recorded as an expenditure when the obligation is paid.
- Fixed assets are recorded in the General Fixed Asset Account Group. Fixed assets are not depreciated.

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which require revenues to be recognized when they become available and measurable, or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred for governmental fund types; and, when revenues are earned.

D. Budgets and Budgetary Accounting

Prior to July 1 each year, the governing board of the school district prepares a verified application showing the needs of the school district and submits the application to the County Excise Board, who makes temporary appropriations for lawful current expenses of the school district. The temporary appropriations are merged with the annual appropriations when the annual budget for the school district is finally approved.

Prior to October 1 each year, the school Board of Education must make a financial statement, showing the true fiscal condition of the school as of the close of the previous fiscal year ended June 30, along with an itemized statement of estimated needs and probable income from all sources for the fiscal year.

A budget is legally adopted by the Board of Education for the general fund and special revenue fund(s) of the school district.

Encumbrances represent commitments to unperformed contracts for goods or services. Encumbrance accounting – under which purchase orders and other commitments of resources are recorded as expenditures of the applicable fund – is utilized in all governmental funds of the District. Under Oklahoma Law, unencumbered appropriations lapse at the end of the year.

E. Assets, Liabilities and Fund Equity

Memorandum Only – Total Column

The total column on the general purpose financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles.

Summary of Significant Accounting Policies (continued)

Neither is such data comparable to a consolidation. Interfund eliminations have not been made on the aggregation of this data.

Cash – Cash consists of currency and checks on hand, demand deposit accounts, with banks and other financial institutions.

Investments – State statutes govern the District's investment policy. Permissible investments include direct obligations of the United States Government and Agencies; certificates of deposit of savings and loan associations, and bank and trust companies; and savings accounts or savings certificates of savings and loan associations, and trust companies. Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance. Investments are stated at cost.

Inventories – Inventories consist of minimal amounts of expendable supplies held for consumption. The value of consumable inventories at year-end is not material to the District's financial statements. The costs of inventories are recorded as expenditures when encumbered and purchased, rather than when consumed.

Compensated Absences – Vested or accumulated vacation leave that is expected to be liquidated with expendable, available financial resources is reported as expenditure and a fund liability of the governmental fund that will pay it. There are no amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable, available financial resources.

No liability is recorded for non-vesting accumulating rights to receive such pay benefits.

Fixed Assets – The District has not maintained a record of its general fixed assets, and, accordingly, a General Fixed Asset Account Group is not included in the financial statements. General fixed assets purchased are recorded as expenditures in the various funds at the time of purchase.

Long-Term Debt – Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable, available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group.

Cash Fund Balance – Cash fund balance represents the funds not encumbered by purchase order, legal contracts, and outstanding warrants.

F. Revenues, Expenses and Expenditures

Local Revenues – Revenue from local sources is revenue produced within the school district, which includes ad valorem taxes. It is available for current educational expenses and for other purposes authorized by the school board.

The District is authorized by state law to levy property taxes, which consist of ad valorem taxes on real and personal property within the District. The county assessor, upon receipt of the certification of tax levies from the County Excise Board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of the tax is due prior to January 1. The second half is due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 2. Second half taxes become delinquent on April 1 of the year following the year of assessment. If taxes are delinquent and unpaid for a period of three years or more the real estate may be sold for taxes.

Summary of Significant Accounting Policies (continued)

Intermediate Revenues – Revenue from intermediate sources is revenue from funds collected by an intermediate administrative unit or political sub-division, such as a county or municipality, and redistributed to the school district.

State Revenues – Revenue from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the state to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided. These rules also require that the money not expended, as of the close of the fiscal year, be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical educational program revenues be accounted for in the general fund.

Federal Revenues – Revenue from Federal sources is money originating from the Federal government and made available to the school district either as direct grants or under various programs passed-through the State Department of Education or other state agencies.

The Federal government also makes payments to school districts whose revenues are adversely affected by the presence of Federal activities. Although these payments are made in consideration of lost property tax revenue, the Oklahoma State Department of Education advocates classifying such amounts as revenue from Federal sources.

Instruction Expenditures – Instruction expenditures include the activities dealing directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom, in another location, such as a home or hospital, and in other learning situations, such as those involving co curricular activities. It may also be provided through some other approved medium, such as television, radio, telephone and correspondence. Examples of expenditures that might be included here are the activities of teacher assistant of any type (clerks, graders, teaching machines, etc.), which assist in the instructional process. The activities of tutors, translators, and interpreters would be recorded here. Department chairpersons who teach for any portion of time are included here. Tuition/transfer fees paid to other LEAs would be included here.

Support Services Expenditures – Support services expenditures provide administrative, technical (such as guidance and health) and logistical support to facilitate and enhance instruction. These services exist as adjuncts for fulfilling the objective of instruction, community services and enterprise programs, rather than as entities within them.

Operation of Non-Instructional Services Expenditures – Activities concerned with providing non-instructional services to students, staff, and the community.

Facilities Acquisition and Construction Services Expenditures – Consist of activities involved with the acquisition of land and buildings; remodeling buildings; the construction of buildings and additions to buildings; initial installation or extension of service systems and other built-in equipment; and improvement to sites.

Other Outlays Expenditures – A number of outlays of governmental funds are not properly classified as expenditures, but still require budgetary or accounting control. These are classified as Other Outlays. These include debt service payments (principal and interest).

Other Uses Expenditures – This includes scholarships provided by private gifts and endowments; student aid and staff awards supported by outside revenue sources (i.e., foundations). Also, expenditures for self-funded employee benefit programs administered either by the District or a third party administrator.

Repayment Expenditures – Repayment expenditures represent checks/warrants issued to outside agencies for refund or restricted revenue previously received for overpayments, non-qualified expenditures, and other refunds to be repaid from District funds.

Interfund Transactions – Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers.

Budgetary Information

Under current Oklahoma Statutes, a formal Estimate of Needs (Budget) is required for all General and Special Revenue funds. Budgets are presented for all funds that include the originally approved budgeted appropriations for expenditures and final budgeted appropriations as adjusted for supplemental appropriations and approved transfers between budget categories. The annual Estimate of Needs, when approved by the Board and subsequently filed with the County Clerk and approved by the County Excise Board, becomes the legal budget. Supplemental appropriations, if required, were made during the year and are reflected on the budget vs. actual presentations shown included in supporting schedules.

2. Deposit Categories of Credit Risk

Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance. The District's investment policies are governed by state statute. Permissible investments include:

1. Direct obligations of the United States Government to the payment of which the full faith and credit of the government is pledged.
2. Obligations to the payment of which the full faith and credit of the state is pledged.
3. Certificates of deposits of banks when such certificates of deposits are secured by acceptable collateral as in the deposit of other public monies.
4. Savings accounts or savings certificates of savings and loan associations to the extent that such accounts or certificates are fully insured by the Federal Savings and Loan Insurance Corporation.
5. Repurchase agreements that have underlying collateral consisting of those items specified in paragraphs 1 and 2 of this section including obligations of the United States, its agencies and instrumentalities, and where collateral has been deposited with a trustee of custodian bank in an irrevocable trust or escrow account established for such purposes.
6. County, municipal or school district direct debt obligations for which an ad valorem tax may be levied or bond and revenue anticipation notes, money judgments against such county, municipality or school district ordered by a court of record or bonds or bond and revenue anticipation notes issued by a public trust for which such county, municipality or school district is a beneficiary thereof. All collateral pledged to secure public funds shall be valued at no more than market value.

Deposit Categories of Credit Risk (continued)

7. Money market mutual funds regulated by the Securities and Exchange Commission and which investments consist of obligations of the United States, its agencies and instrumentalities, and investments in those items listed above.
8. Warrants, bonds or judgments of the school district.
9. Qualified pooled investment programs, the investments of which consist of those items specified above, as well as obligations of the United States agencies and instrumentalities, regardless of the size of the district's budget. To be qualified, a pooled investment program for school funds must be governed through an Interlocal cooperative agreement formed pursuant to Title 70 Section 5-117b, and the program must competitively select its investment advisors and other professionals. Any pooled investment program must be approved by the Board of Education.

The District's investment policy allows the treasurer to invest in direct obligations of the United States government, certificates of deposits of banks secured by acceptable collateral, or in savings accounts or savings certificates of savings and loan associations, when fully insured by the Federal Savings and Loan Insurance Corporation.

Custodial Credit Risk:

Deposits and Investments - The District's demand deposits are required by law to be collateralized by the amount that is not federally insured.

Securities pledged as collateral are held by a third party or Federal Reserve Bank. Joint custody safekeeping receipts are held in the name of the depositing institution, but are pledged to the District. The security cannot be released, substituted, or sold without the School Treasurer's approval and release of the security.

Certificates of deposit are collateralized at least by the amount not federally insured. As of June 30, 2020, the District had no deposits exposed to custodial credit risk.

Interest Rate Risk:

Investments are made based upon prevailing market conditions at the time of the transaction with the intent to hold the instrument until maturity. However, the District has no formal written policy addressing interest rate risk.

Credit Risk:

The District has no formal written policy addressing credit risk.

At June 30, 2020, the District has no investments that are not guaranteed by the full faith and credit of the United States Government.

3. General Long-Term Debt

State statutes prohibit the District from becoming indebted in an amount exceeding the revenue to be received for any fiscal year without approval by the District's voters. Bond issues have been approved by the voters and issued by the District for various capital improvements. These bonds are required to be fully paid serially within 25 years from the date of issue.

General Long-Term Debt (continued)

General long-term debt of the District includes General Obligation Bonds and Capital Leases. Debt service requirements for bonds are payable solely from fund balance and future revenues of the debt service fund. Capital Leases are paid from the bond fund and/or other available funds.

A brief description of the outstanding general obligation bond issues at June 30, 2020, is set forth below:

	Amount Outstanding
School District No. I-92 Building Bonds, Series 2018, original issue \$2,395,000.00, interest rate of 3.40%, first payment of \$745,000.00, due Nov. 1, 2020, annual installments of \$825,000.00 due thereafter, And final payment of \$825,000.00 due on Nov 1, 2022.	\$ <u>2,395,000.00</u>
Total Bonds Outstanding	\$ <u>2,395,000.00</u>

The annual debt service requirements for retirement of bond principal and payment of interest are as follows:

Year ending June 30,	Principal	Interest	Total
2021	\$ 745,000.00	\$ 40,675.00	\$ 785,675.00
2022	825,000.00	55,275.00	880,275.00
2023	825,000.00	26,400.00	851,400.00
Total	\$ 2,395,000.00	\$ 122,347.00	\$ 2,517,347.00

Interest expense incurred on general long-term debt during the current year totaled \$126,375.00.

Pottawatomie County Finance Authority Lease Purchase dated December 1, 2016

The school district has entered into a Ground Lease Agreement with Pottawatomie County Finance Authority on December 1, 2016, for certain real property owned by the District. The Ground Lease extends to March 1, 2031. The Ground Lease Agreement was made to facilitate the issuance of \$8,305,000.00 in revenue bonds by the Finance Authority to provide funds to equip, and repair new elementary school, band room, school farm, and new early childhood center.

The school district entered into a Sublease Agreement with Pottawatomie County Finance Authority on December 1, 2016, wherein the real property subject to the Ground Lease mentioned in the previous paragraph is subleased to the school district to enable the District to utilize proceeds of the \$8,305,000.00 revenue bonds issued by the Pottawatomie County Finance Authority, for the construction and improvements on the real property and to provide a method for the District to obtain title to the property and improvements.

General Long-Term Debt (continued)

The Sublease Agreement is extended annually by affirmative action of the Board of Education. The schedule of acquisition payments follow:

Year ending June 30,	<u>Payments</u>
2021	\$ 846,150.00
2022	846,150.00
2023	846,150.00
2024	846,150.00
2025	846,150.00
2026-2031	5,076,900.00
Total	<u>\$ 9,307,650.00</u>

The District's lease payment schedule is designed to coincide with the Authority's debt service payments on the \$14,265,000.00 bond debt. The school district taxpayers have previously approved a proposition to issue a series of general obligation bonds defining each series by purpose and amount of proceeds that each series will provide (the bonds are to be issued in series so that at no time the total bonds outstanding will exceed the amount allowed under the constitution of Oklahoma). The District is using the proceeds of these general obligation bonds to finance the installments of the lease-purchase obligation.

Additionally, the School District is lease purchasing a LED Lighting. The following is a schedule by years of future lease-purchase payments required under these agreements:

<u>Year ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	60,942.11	4,213.69	65,155.80
2022	62,816.41	2,339.39	65,155.80
2023	<u>42,947.29</u>	<u>489.91</u>	<u>43,437.20</u>
Total	<u>\$ 166,705.81</u>	<u>\$ 7,042.99</u>	<u>\$ 173,748.00</u>

The above leases contain a clause that gives the District the ability to terminate the lease agreements at the end of each fiscal year. The District has recorded the liability for future lease payments in the general long-term debt account group. The lease payments are appropriated annually from school district funds

The Tecumseh School District entered into lease-purchase agreement during fiscal year 2019-20 for six (6) new school buses. The District is the lessee in the contract for these buses, however the lease-purchase payments are made by Pottawatomie County pursuant to a .495 cent Education Sales Tax that was approved by Pottawatomie County voters in November 2015. The sales tax is split between Pottawatomie County's 14 school districts and is set to continue until June 30, 2026. During fiscal Year 2019-20, Pottawatomie County paid principal of \$85,764.09 and interest totaling \$16,749.61 on the lease purchases. These bus lease-purchases have not been recorded as debt on the School District's financial statements. The following is a schedule by years, of future lease-purchase payments required under the lease-purchase agreements for these six (6) buses:

Year ending June 30,	Principal	Interest	Total

4. Employee Retirement System

Description of Plan

The District participates in the state-administrated Teacher's Retirement System of Oklahoma (the "system"), which is a cost-sharing multiple-employer public employee retirement system. The supervising authority for the management and operation of the System is a 13-member Board of Trustees, which acts as a fiduciary for investment of the funds and the application of plan interpretations. The System provides retirement and disability benefits, annual cost of living adjustments, death benefits and other benefits to plan members and beneficiaries. Oklahoma State Statutes establish benefit provisions and may be amended only through legislative action. The District has no responsibility or authority for the operation and administration of the system nor has it any liability, except for contribution requirements. The Oklahoma Teachers' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the System. The report may be obtained by writing to the Oklahoma Teachers' Retirement System, P.O. Box 53624, Oklahoma City, Oklahoma 73152.

Employee Retirement System (continued)

Basis of Accounting

The System has prepared its financial statements in accordance with accounting principles generally accepted in the United State of America and using the economic resources measurement focus. The financial statements are prepared using the accrual basis of accounting, under which expenses are recorded when the liability is incurred, revenues are recorded in the accounting period they are earned and become measurable, and investment purchase and sales are recorded as of their trade dates. Member and employer contributions are established by Oklahoma Statutes as percentage of salaries and are recognized when due, pursuant to legal requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the Oklahoma Statutes. Administrative expenses are funded through investment earnings.

Funding Policy

The District, the State of Oklahoma, and the participating employee make contributions. The contribution rates for the District and its employees are established by and may be amended by Oklahoma Statutes. The rates are not actuarially determined. The rates are applied to the employee's earnings plus employer-paid fringe benefits. The required contribution for the participating members is 7.0% of compensation. The contribution rate for employers is 9.5%. Additionally, the State of Oklahoma contributes a percentage of its revenues from sales taxes, use taxes, corporate income taxes, individual income taxes, and lottery proceeds to the system. For the fiscal year ending June 30, 2020, the dedicated state revenue was equivalent to a contribution rate of approximately 7.0% of covered payroll. Finally, the Teacher's Retirement System receives "grant matching" contributions from employers for positions whose funding comes from federal and certain other grants. The matching contribution rate for FY 2020 is 7.7% of applicable payroll. The District is allowed by the Oklahoma Teacher's Retirement System to make the required contributions on behalf of participating members. The school is required to pay 16.5% for any compensated retired teachers already receiving retirement benefits.

Annual Pension Cost

The District's total contribution for 2020, 2019 and 2018 were \$1,333,065.10, \$1,376,467.15, and \$1,163,287.71, respectively. The District's total payroll for fiscal year 2019-20 amounted to \$20,087,310.80.

5. Litigation

The District is contingently liable for lawsuits and other claims in the ordinary course of its operations. The settlement of such contingencies under the budgetary process would require appropriation of revenues yet to be realized, and would not materially affect the financial position of the District at June 30, 2020.

6. Related Entities

The following entities are separately constituted and, accordingly, their financial position and results of operations have not been presented in the accompanying financial statements. Officers are not appointed by the school board. The school board is not responsible for approving budgets, contracts, key personnel, fiscal matters or day-to-day operations of the booster club.

7. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; or acts of God. The District purchases commercial insurance to cover these risks, including general and auto liability, property damage, and public officials liability. Settled claims resulting from these risks have not exceeded the commercial insurance coverage in any of the past three fiscal years.

The School also participates in a risk pool for Workers' Compensation coverage in which there is transfer or pooling of risks among the participants of that pool. In accordance with GASB No. 10, the School reports the required contribution to the pool, net of refunds, as insurance expense. The risk pool is the Oklahoma School Assurance Group (OSAG), an organization formed for the purpose of providing workers' compensation coverage to participating schools in the State of Oklahoma. In that capacity, OSAG is responsible for providing loss control services and certain fiscal activities, including obtaining contract arrangements for the underwriting, excess insurance agreements, claims processing, and legal defense for any and all claims submitted to them during the plan year. As a member of OSAG, the District is required to pay fees set by OSAG according to an established payment schedule. A portion of the fees paid by the District goes into a loss fund for the District. The fee for the loss fund is calculated by projecting losses based on the schools losses for the last five years. OSAG provides coverage in excess of the Loss Fund, so the District's liability for claim loss is limited to the balance of the loss fund. If the District does not use their loss fund in three years, it is returned to them with no interest.

The District participates in the Oklahoma Public Schools Unemployment Compensation Account under the sponsorship of the Oklahoma State School Boards Association and the cooperative council for Oklahoma School Administration. The account was established to let school districts self-insure unemployment benefits for school employees. The funds are held in the name of each school district as reserves to pay unemployment claims. Each school district is individually liable for that portion of the benefits paid from the fund attributable to wages paid by the school district in the same manner as if no group account had been established. The reserve funds may be withdrawn from the account upon request of the school district. At June 30, 2020, the Tecumseh School District had reserves on deposit with the Oklahoma Public Schools Unemployment Compensation Accounting totaling \$11,572.04. This amount has not been included in the District's balance sheet at June 30, 2020.

**TECUMSEH SCHOOL DISTRICT NO. 1-92
POTTAWATOMIE COUNTY, OKLAHOMA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2020**

1. For all federal programs, the District uses the fund types prescribed by the Oklahoma State Department of Education and conforms to the system of accounting authorized by the State of Oklahoma. The General, Building, Coop, and Child Nutrition Funds are used to account for resources restricted, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in the General Fund.
2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial measurement focus. All federal grant funds were accounted for in the General, Building, Coop, and Child Nutrition Funds, which are a Governmental Fund types. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of this is fund present increases and decreases in net current assets.

The Regulatory Basis of Accounting is used for the Governmental Fund types and Agency Funds. This basis of accounting recognizes revenue from all sources when they are received. Federal grant funds are considered to be recognized when encumbered or reserved to the extent of expenditures made under the provisions of the grant.

3. Positive amounts listed in the either "Balance at July 1, 2019 or "Balance at June 30, 2020" column represent funds received by the school and not yet expended or coded to the program. Negative amounts represent expenditures which have been claimed, but the revenue not yet collected.
4. The District received donated foods through the Federal Food Distribution Program (10.555). At June 30, 2020, the school maintained an immaterial amount of food commodities inventory. Per the Regulatory Basis of Accounting, the commodities received and used are not recognized as revenue or expenditures in the school's Financial Statements.
5. The District transferred \$8,500.00 from Title IV into Title V. Expenditures were coded and expended as Title V and revenue received was coded in the original program it was transferred from.
6. The District has not elected to use the 10% de minimus indirect cost rate allowed under the Uniform Guidance.
7. Reconciliation of the Revenue shown on the *Schedule of Expenditures of Federal Awards* to Statement of Revenue, Expenditures and Changes in Fund Balance is as follows:

REPORTS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Honorable Board of Education
Tecumseh School District No. I-92
Pottawatomie County, Oklahoma

I have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the accompanying fund type and account group financial statements-regulatory basis, within the combined financial statements of Tecumseh School District No. I-92, Pottawatomie County, Oklahoma (District), as listed in the Table of Contents, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's financial statements, and have issued my report thereon dated DATE, which was adverse with respect to the presentation of the financial statements in conformity with accounting principles generally accepted in the United States of America because the presentation followed the regulatory basis of accounting for Oklahoma school districts and did not conform to the presentation requirements of the Governmental Accounting Standards Board. However, my report was qualified for the omission of the general fixed asset account group with respect to the presentation of financial statements on the regulatory basis of accounting authorized by the Oklahoma State Board of Education.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. I noted certain immaterial instances of non-compliance that I have reported to management in the "Schedule of Comments" on page 35 of this report.

Purpose of this Report

This report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM;
REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS REQUIRED BY UNIFORM GUIDANCE**

The Honorable Board of Education
Tecumseh School District No. 1-92
County, Oklahoma

Report on Compliance for Each Major Federal Program

I have audited the compliance of Tecumseh School District No.1-92, Pottawatomie County, Oklahoma (District's) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget OMB *Uniform Guidance Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits continued in *Government Auditing Standards*, issued by the comptroller general of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major program occurred. An audit includes examining on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as I consider necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In my opinion, Tecumseh School District, No.1-92, Pottawatomie County, Oklahoma, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of Tecumseh School District No. I-92, Pottawatomie County, Oklahoma (District), is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program, on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on, a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SCHEDULE OF COMMENTS
JULY 1, 2019 TO JUNE 30, 2020**

The following conditions, while not representing material weakness in the system of internal accounting control, represent areas noted during my review of the school's accounting system in which I feel improvements in the internal control and/or operational efficiency may be attained. I have also noted, as required, any noncompliance with State Department of Education Regulations.

- I. **Condition:** During the review of the Activity Fund, the fund raisers chosen did not have reconciliations available to review.

Recommendation: The administration of the District should insure that each sponsor participating in a fund raiser complete the fund raiser reconciliation form to reflect the profit/loss of the activity. The administrator of that sponsor should indicate it has been reviewed along with the profit/loss documentation and verified deposits and payments to each subaccount are reported accurately. These records should be included in the Activity Fund yearly documentation to be audited.

Previous Year's Audit Comments

There were no items in the school's 2018-19 audit report which have been repeated in this report.

I would like to express my appreciation for the courtesies and cooperation extended to us by school district administrators and employees during the course of this audit.

Cindy Belshe, District Activity Fund Custodian (405) 598-3739

STEPS IMPLEMENTED:

- A copy of the "Schedule of Comments", will be given to each secretary, sponsor or coach involved in the activity fund.
- Each person working in the areas listed will be informed of the "comments" in relation to their program and a follow up will occur to ensure an understanding of the proper procedures is acknowledged and followed.
- Each item will be spot checked during the remainder of the school year to ensure an understanding and compliance.
- As a part of the annual training in August for all activity fund secretaries, sponsors and coaches, each of the items will be addressed in depth and additional training will occur to ensure each person understands their responsibilities and follows procedures.

COMPLETION DATE:

March 1, 2021 - The initial discussion of findings and corrective plan explanations with all participating personnel will be conducted beginning upon the receipt and presentation of the audit to the Board of Education.

March – June, 2021 – Spot checks will occur to ensure understanding and compliance.

August, 2021 – Annual training of all activity fund participants will include an additional emphasis on the "Conditions" listed in the audit.
