

Wynne Intermediate School

Curricula

Wynne Intermediate School is an accredited school with the North Central Association.

There are ten third grade classrooms, ten fourth grade classrooms, and ten fifth grade classrooms. The Intermediate School has an average enrollment of around 700 students. Every student attends weekly classes in music, physical education and art. Students also go to the library and computer lab weekly. We also offer Title I literacy and math classes, special education services, including gifted and talented classes, and an extended day program for additional assistance for students enrolled in these programs.

In addition to our team of dedicated teachers, our principal and assistant principal, we have on staff two full time counselors, a full time registered nurse and a speech-language pathologist.
