

June Board Report

6.1.2

Summer School

Summer School is running for 3 weeks starting June 11th and ending June 29th. We have about 50 students in the program working on classes that they weren't successful in. Our plan is for them to be better prepared for the next grade level in the Fall.

Activity Afternoon

On the last Thursday of the school year we held 'Activity Afternoon'. Teachers offered classes that they are interested in, or could offer. We had choices like yoga, improv, slip and slide, soccer, knot tying, catching and identifying insects, ballroom dancing, mandalas (art projects), making and racing 'puff' mobiles, etc, etc. We created a Google Form that students signed up for classes that they were interested in. It was a great afternoon (1:30 to 3:00) for the school and a positive way to wrap up the 2nd to last day.

AVID Summer Institute

We have a team of staff (Jen Batcheller -6th, Joslyn Hernandez - 6th, Beth Usher - 6th, Matt Wilson -7th, Mark DesRochers -8th, Tracy Johnston - 8th, Derek and Pat) attending the AVID Summer Institute. Our plan is to bring back school wide strategies and implement them in all of our classrooms. We are looking to focus on organizational and note taking strategies as jumping off points. But we will also be looking to implement writing, reading, inquiry, and collaboration strategies in our school. More to come on AVID.
