Sarah Smith
Principal

December 8, 2021

Dear Parents/Guardians:

When we have an inclement weather day, we historically have had a day off from school and would make the day up at the end of the school year. However, to maintain instructional continuity, District 48 will be providing remote instruction when we have an inclement weather day during the 2021-2022 school year. We will follow the guidelines and schedules below:

Guidelines for Remote Instruction

1. The goal is to ensure continuity of learning that is aligned to the most critical standards.
2. Students will have live, synchronous instruction (2.5 hrs or more) for their core content only, including ELA, Math, Science, and SS.
3. Teachers will provide 2.5 hrs of asynchronous (learning happening *at individual student pace and time*. Students will not be online with teachers, but will work independently) learning and other schoolwork.
4. Students will share their work through either SeeSaw or Google Classroom (grade level dependent).
5. Case managers will coordinate and communicate service delivery for students who receive special education and related services.
6. Additional services (such as English Learner services or interventions) may be delivered as a student schedule permits; this will be communicated by teachers.

Schedules

1. Preschool will provide 45 minutes of activities for students to complete.
2. Salt Creek and Stella May Swartz will provide 2.5 hrs of Livestream from 8:00-11:00 for core content. This will include two 15 minute breaks for the students. In addition, specials and other schoolwork will be asynchronous. Students can participate in this asynchronous work at any time for the remainder of their day.
3. Albright Middle School will follow its regular schedule. Core content will be synchronous. Specials and other schoolwork will be asynchronous. Students can participate in this asynchronous work at any time for the remainder of their day.

In the event of an inclement weather day, families will be notified through email, text or phone call. Students in grades K-4 will use their Chromebooks to sign into their Google Classroom. Using the Google Meet link in their Google Classroom, they will be able to sign in for live synchronous instruction. Before instruction begins at 8:00AM, your child's teacher will send more detailed information to you through email on how to log into the Google Meet for instruction and your child's schedule for the day.

All of our classroom teachers have been working with their students on how to find their Google Classroom and the Google Meets link, in case we have an inclement weather day.

Please reach out to either Mrs. Monroe or myself if you have any questions!
