

Cassadaga Valley Central School

Cassadaga Valley Central Schools Test Out of Quarantine Option and Procedure

In accordance with CDC guidance, a student or staff member in quarantine as a close contact to someone with confirmed COVID-19 is now allowed to end quarantine after day 7 (i.e., day 8) after receiving a negative test result, **as long as the test occurs on day 5 or later of the quarantine period.**

- Such individuals who are released from quarantine early are strongly encouraged to continue to monitor for symptoms and to wear a mask around others for 14 days following their last day of exposure to the person with COVID-19.
- The **Affirmation of Quarantine** must be submitted to the District to affirm a staff or student's quarantine period.
- Chautauqua County residents do NOT need to call the Health Department to be released from quarantine.
- Those testing out of quarantine early will need to submit a **negative test result** to the District prior to returning to school or work
- Release from Quarantine Worksheet can be found here: [CCHD Option for Release from Quarantine After Day 7 Requirements](#)
- [AFFIRMATION OF QUARANTINE](#) - This form must be used for Quarantine Release and for NY Paid Family Leave COVID-19 claims as if it was an individual Order for Quarantine issued by the Chautauqua County Public Health Director.

STEPS to Follow:

1. Have a COVID Test on day 5 or later of the quarantine period
2. Download and complete the [AFFIRMATION OF QUARANTINE](#) Document
3. Download and follow the [CCHD Option for Release from Quarantine After Day 7 Requirements](#)
4. Submit negative COVID test results and Affirmation of Quarantine Document to the School Nurse (student) or Superintendent's Office (staff)
