

Child Find

Under the Every Student Succeeds Act (ESSA), school districts are required to annually contact officials from all private schools within the district attendance area. Also, if there are students who reside within the district but attend a private school outside the district area, our district is required to contact those private school officials. Our district is required to consult with all of those schools if they wish to participate.

We currently have one private school in our district, in which we send a letter for them to sign and check to see if they want to participate each year.

If you are a parent of a special needs student and you live within our district but your child attends another school, please contact the superintendent and inform him of what school your child is attending.
