

Emergency Safety Intervention Parent Information

If an emergency safety intervention occurs, parents are strongly encouraged to schedule a meeting to: 1) discuss the incident and 2) discuss prevention of future use of emergency safety interventions. The district contact listed below is available to assist in scheduling this meeting. This meeting will be scheduled no later than ten (10) school days from when the parent makes the request unless the parent cannot meet within that time frame.

District Emergency Safety Intervention Policy Including dispute resolution process

GAAF **Emergency Safety Interventions** (See GAO, JRB,JQ, and KN)

GAAF

The board of education is committed to limiting the use of Emergency Safety Interventions (“ESI”), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student’s conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school’s code of conduct, school safety plan, or student handbook. Notice of the online availability of this policy shall be provided to parents during enrollment each year.

Definitions

“Campus police officer” means a school security officer designated by the board of education of any school district pursuant to K.S.A. 72-8222, and amendments thereto.

“Chemical Restraint” means the use of medication to control a student’s violent physical behavior or restrict a student’s freedom of movement.

“Emergency Safety Intervention” is the use of seclusion or physical restraint, but does not include physical escort or the use of time-out.

“Incident” means each occurrence of the use of an emergency safety intervention.

“Law enforcement officer” and “police officer” mean a full-time or part-time salaried officer or employee of the state, a county, or a city, whose duties include the prevention or detection of crime and

the enforcement of criminal or traffic law of this state or any Kansas municipality. This term includes a campus police officer.

GAAF Emergency Safety Interventions

GAAF-2

“Legitimate law enforcement purpose” means a goal within the lawful authority of an officer that is to be achieved through methods or conduct condoned by the officer’s appointing authority.

“Mechanical Restraint” means any device or object used to limit a student’s movement.

“Parent” means: (1) a natural parent; (2) an adoptive parent; (3) a person acting as a parent as defined in K.S.A. 72-1046(d)(2), and amendments thereto; (4) a legal guardian; (5) an education advocate for a student with an exceptionality; (6) a foster parent, unless the student is a child with an exceptionality; or (7) a student who has reached the age of majority or is an emancipated minor.

“Physical Escort” means the temporary touching or holding the hand, wrist, arm, shoulder, or back of a student who is acting out for the purpose of inducing the student to walk to a safe location.

“Physical Restraint” means bodily force used to substantially limit a student’s movement, except that consensual, solicited or unintentional contact and contact to provide comfort, assistance or instruction shall not be deemed to be physical restraint.

“School resource officer” means a law enforcement officer or police officer employed by a local law enforcement agency who is assigned to a district through an agreement between the local law enforcement agency and the district.

“School security officer” means a person who is employed by a board of education of any school district for the purpose of aiding and supplementing state and local law enforcement agencies in which the school district is located, but is not a law enforcement officer or police officer.

“Seclusion” means placement of a student in a location where all of the following conditions are met: (1) the student is placed in an enclosed area by school personnel; (2) the student is purposefully

isolated from adults and peers; and (3) the student is prevented from leaving, or reasonably believes that he or she will be prevented from leaving the enclosed area.

GAAF Emergency Safety Interventions

GAAF-3

“Time-out” means a behavioral intervention in which a student is temporarily removed from a learning activity without being secluded.

Prohibited Types of Restraint

All staff members are prohibited from engaging in the following actions with all students:

- Using face-down (prone) physical restraint;
- Using face-up (supine) physical restraint;
- Using physical restraint that obstructs the student’s airway;
- Using physical restraint that impacts a student’s primary mode of communication;
- Using chemical restraint, except as prescribed treatments for a student’s medical or psychiatric condition; by a person appropriately licensed to issue such treatments; and
- Use of mechanical restraint, except:
 - Protective or stabilizing devices required by law or used in accordance with an order from person appropriately licensed to issue the order for the device;
 - Any device used by certified law enforcement officers to carry out law enforcement duties; or
 - Seatbelts and other safety equipment when used to secure students during transportation.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed

inappropriate or ineffective under the circumstances by the school employee witnessing

GAAF Emergency Safety Interventions (See GAO, JRB,JQ, and KN)

GAAF-4

the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, well ventilated and sufficiently lighted.

Training

Regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent, the same day as an incident.

The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent's rights; (3) information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and, the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email.

GAAF Emergency Safety Interventions

GAAF-7

Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. Such documentation must include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,

GAAF Emergency Safety Interventions

GAAF-8

- Whether the student had a section 504 plan at the time of the incident, and whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incident with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized

GAAF Emergency Safety Interventions

GAAF-9

education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent

should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is

resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

Approved: 08/08/2016

EMERGENCY SAFETY INTERVENTION DOCUMENTATION

Date: _____

Dear: _____

The purpose of this letter is to inform you that on _____, at _____ (a.m./p.m.)
(date) (time)

the need for the use of an Emergency Safety Intervention was required for _____.
(name of student)

K.A.R. 91-42-1(c) defines Emergency Safety Interventions (ESI) as "the use of seclusion or physical restraint when a student presents an immediate danger to self or others. Violent action that is destructive of property may necessitate the use of an ESI." Whenever an ESI is used, the parent(s)/guardian(s) must be informed within (2) school days.

Type of Emergency Safety Intervention Used: Seclusion _____ Restraint _____

Duration of Seclusion/Restraint: _____ (minutes) Location: _____

Name of Staff Member: _____ Witnesses: _____

Description of incident: _____

Please contact the building principal if you have any questions regarding this use of ESI.

(Signature of person completing report)

(Date)

*Parent(s)/guardian(s) notified of this incident on _____ by _____
(Date) (Name of staff member)

*Original provided to Building Principal

*Copy provided to (Parents/Guardians, Administrative Office)

ESI Acknowledgement Form

Kansas regulations now require that we provide all parents with notice of our written policies regarding Emergency Safety Interventions (“ESI”). Our district policy is available on our website at www.mv330.org and in our student handbook. In addition, we will provide a copy of the policy at any time upon request.

Please select one of the following options:

☐

I have been informed of the district’s policy, and I do not want a copy of the policy.

☐

I have been informed of the district’s policy, and I do want a copy of the policy. By my signature below, I acknowledge that I have received a copy of the policy.

(Date)

(Parent Signature)

Standards for the use of Emergency Safety Interventions

Emergency safety interventions law sets forth standards for the use of restraint and seclusion to ensure that all Kansas students and staff have a safe learning environment. The standards found in the emergency safety intervention statutes and regulations are required to be followed in all Kansas public school districts and accredited private schools.

An emergency safety intervention is the use of seclusion or physical restraint. The use of an emergency safety intervention shall **cease as soon as the immediate danger of physical harm and violent action ceases to exist.**

Before using an emergency safety intervention, a school employee witnessing the student's behavior must have determined that **less restrictive alternatives** to emergency safety interventions, such as positive behavior interventions support, were inappropriate or ineffective under the circumstances.

An emergency safety intervention shall be used **only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm.** Violent action that is destructive of property may necessitate the use of an emergency safety intervention if there is a reasonable and immediate danger of physical harm. An emergency safety intervention may not be used for purposes of discipline, punishment, or for the convenience of a school employee.

Physical restraint means bodily force used to substantially limit a student's movement. Physical restraint is **NOT**:

- Consensual, solicited or unintentional contact and contact to provide comfort, assistance or instruction;
- physical escort;
- prescribed treatments for a student's medical or psychiatric condition by a person appropriately licensed to issue these treatments;
- protective or stabilizing devices either ordered by an appropriately licensed professional or required by law;
- any device used by a law enforcement officer in carrying out law enforcement duties; and
- seatbelts and any other safety equipment when used to secure

students during transportation.

Prohibited types of restraints:

- **Prone**, or face-down, physical restraint;
- **supine**, or face-up, physical restraint;
- any physical restraint that **obstructs the airway** of a student;
- any physical restraint that **impacts a student's primary mode of communication**;
- **chemical** restraint ("chemical restraint" means the use of medication to control a student's violent physical behavior or restrict a student's freedom of movement.); and
- **mechanical** restraint ("mechanical restraint" means any device or object used to limit a student's movement).

Seclusion means placement of a student in a location where:

- The student is placed in an **enclosed area** by school personnel;
- the student is **purposefully isolated** from adults and peers; and
- the student is **prevented from leaving**, or the student reasonably believes that such student will be prevented from leaving, the enclosed area.

An emergency safety intervention may not be used with a student if the student is known to have a **medical condition** that could put the student in mental or physical danger as a result of the use of an emergency safety intervention unless not using an emergency safety intervention would result in significant physical harm to the student or others. The medical condition must be indicated in a written statement from the student's licensed health care provider, and a copy of which shall be provided to the school and placed in the student's file.

When a student is placed in seclusion, a school employee shall be able to **see and hear the student** at all times.

If a seclusion room has a locking door it must be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in cases of emergency, such as fire or severe weather.

A seclusion room must be a **safe place**. The room must have good ventilation and lighting, and be free of any condition that could be a danger to the student. The room must also be similar to other rooms where students frequent.

Seclusion is **not time-out**, which is a behavioral intervention in which a student is temporarily removed from a learning activity without being confined.

Seclusion and
Restraint in
Kansas**

What are Emergency Safety Interventions?

Emergency Safety Interventions (ESI) are seclusion and restraint that are used when the student presents a reasonable and immediate danger of physical harm to self or others.

What is Seclusion?

Seclusion means placement of a student in a location where all the following conditions are met:

1. the student is **placed** in an enclosed area by school personnel;
2. the student is purposefully **isolated** from other adults and peers; and,
3. the student is prevented from leaving, or the student reasonably believes that such student will be prevented from leaving, the enclosed area.

Time-out is not the same as seclusion. Time-out is when a student is temporarily removed from the learning activity, but is not confined.

What is Restraint?

Restraint can take form in different ways. The definition of **physical restraint** is bodily force used to substantially limit a student's movement. The use of prone physical restraint (face-down) and supine physical restraint (face-up) are prohibited. Physical restraint may not obstruct the airway of the student or impact the student's primary mode of communication.

Mechanical restraint is defined as any device or object used to limit a person's movement. The use of mechanical restraint is prohibited in Kansas except those protective or stabilizing devices ordered by a person appropriately licensed to issue the order for the device. Mechanical restraint used by a law enforcement officer in carrying out law enforcement duties is allowed. Seatbelts and/or other safety equipment when used to secure students during transportation are also allowed.

Chemical restraint is prohibited in Kansas. A student may take prescribed treatments for a medical or psychiatric condition when they are prescribed by a person who is properly licensed to prescribe medication.

Consensual, solicited, or unintentional contact and contact to provide comfort, assistance, or instruction is not physical restraint.

A Focus on Pro

Replacement Behaviors

A replacement behavior is when a student with an appropriate one that continues to student. When selecting replacement behaviors, ask the following questions:

- Does the replacement behavior work as well as the challenging behavior in meeting the student's needs?
- Will it be an acceptable alternative to the challenging behavior?
- Will the replacement behavior be something the student will choose and that his or her family and teachers support?
- Will the replacement behavior help the student?

Students should be recognized and rewarded for replacement behaviors to be most effective.

The Kansas State Department of Education

- does not promote the use of emergency safety interventions on any student;
- recommends a focus on prevention;
- stresses that emergency safety interventions are not an intervention system or student behavior intervention system in an emergency and that
- emergency safety interventions are not used to decrease the likelihood of a behavior.

Tip!

An FBA can be conducted if a student does not respond to school interventions. Following an FBA, the intervention plan may be revised. Students have the right to request a review of the intervention plan.

A Focus on Prevention

Functional Behavioral Assessments

All behaviors are functional and are maintained in environments that support them. If your child's behavior impedes the learning of self or others, you can request a functional behavioral assessment (FBA). An FBA can help teams determine the when, where, how and why problematic behavior occurs. A comprehensive FBA includes interviews, record reviews, observation and data collection, graphing data collected, testing hypotheses, curriculum analysis, implementation of interventions and evaluation of effectiveness of the plan. FBAs should identify antecedents (what happens just before the behavior occurs), a clearly defined picture of the behavior that is occurring, and the reinforcers (what happens just after the behavior occurs). Teams need to determine what the function of the behavior is so that they may provide successful interventions or teach replacement behaviors that meet the same function for the student.

Behavior Intervention Plans

Behavior Intervention Plans (BIP) should focus on proactive strategies to support students, including positive behavior interventions and supports. BIPs should be positive and instructive and based upon a functional behavioral assessment. A BIP should address:

- The function of the behavior
- Effective teaching of the expected behavior
- Rewards and consequences that are meaningful to the student
- Opportunities to self-manage behaviors
- Teach appropriate replacement behaviors

When May Emergency Safety

- May only be used when a student poses a danger of physical harm to self or others or cause physical harm.
- Less restrictive alternatives, such as positive behavior interventions and supports, must be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI.
- The use of ESI must stop as soon as the harm ends.
- ESI cannot be used for purposes of discipline or convenience of a school employee.

Students with a known medical condition

- An emergency safety intervention may be used if a student is known to have a medical condition that could put the student in mental or physical danger and requires a safety intervention.
- The existence of such medical condition must be supported by a written statement from the student's licensed healthcare provider, which shall be provided to the school.
- The written statement must include the student's diagnosis, a list of any reasons why a safety intervention would put the student in mental or physical danger, and alternatives to the use of emergency safety intervention.
- An emergency safety intervention may be used to transport a student to an emergency safety intervention if the student poses a danger of physical harm to the student or others.

Parents should be proactive and provide the school with documentation from their child's licensed healthcare provider of a medical condition that could put the student in danger as a result of the ESI. You may use this form if you are a parent of a student with a medical condition. See [resources/843](#).

What are the Requirements for Seclusion?

When a student is placed in seclusion, a school employee must be able to see and hear the student at all times.

All seclusion rooms that have a locking door must be designed to make sure that the lock automatically disengages when the school employee watching the student walks away from the seclusion room, or in cases of emergency, such as fire or severe weather.

A seclusion room must be a safe place with proportional and similar characteristics as other rooms where students frequent. A seclusion room must be free of anything that could be a danger to the student and must be well-ventilated and sufficiently lighted.

What Can I Do if I Feel that ESI has been Used Inappropriately with My Child?

If a parent believes that ESIs have been used that violate the ESI statute, ESI regulations, or the district's ESI policy, then the parent may file a complaint through the local dispute resolution process within 30 days of the use of ESI.

A parent may file a complaint through the Kansas State Board of Education's complaint process within 30 days from the date that a parent receives a final decision through the local dispute resolution process or after 30 days have passed since the parent filed a complaint through the local dispute resolution process, if the parent has not received the local board's final decision. The Administrative Review Request Form can be found at www.ksde.org/Default.aspx?tabid=524.

Tip!

If your child has a history of seclusion and restraint or challenging behavior, he or she could be eligible for additional supports and interventions. Parents are welcome to contact Families Together, Inc. to discuss possible options.

A Focus on Positive Interventions

Why focus on Positive Interventions?

Positive Interventions help build positive relationships and behaviors. Positive interventions also reinforce positive behaviors, satisfaction and optimism among students, and help students' need to be recognized and rewarded when they achieve goals that have been established. Current research shows that positive interventions (rewards, reinforcements, praise) must occur frequently. A well-developed behavior intervention plan should consider positive interventions in order to effectively address the student's consideration should be the appropriateness of the intervention. Teachers should select interventions that are based on the student's level, motor ability, communication mode and needs, and the student and the disability. Environmental factors should also be considered. These might include the student's noise levels, peer issues, instruction that is appropriate, and changes in the setting.

De-escalation is helpful to begin to identify and implement proactive strategies to decrease the use of

When Must a Parent be Notified an ESI has been Used?

- The school must notify the parent the same day the ESI was used. If the school is unable to contact the parent, the school shall attempt to contact the parent using at least two methods of contact.
- Written documentation of the ESI used must be completed and provided to the parent the same day the ESI was used. Written documentation must include:
 - The events leading up to the incident;
 - student behaviors necessitating the ESI
 - steps taken to transition the student back into the educational setting
 - the date and time the incident occurred, the type of ESI used, the duration of the ESI and the school personnel who used or supervised the ESI
 - space or an additional form for parents to provide feedback or comments to the school regarding the incident
 - a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future use of ESIs
 - School email and phone contact for the parent to schedule the ESI meeting.
- The parent must be provided with the following information in writing or, upon the parent's written request, by email, after the first ESI incident in a school year and provided with this information after subsequent ESI incidents through a web address:
 - A copy of the standards of when ESI can be used;
 - A flyer on the parent's rights under ESI law;
 - Information on the parent's right to file a complaint through the local dispute resolution process and the complaint process of the Kansas State Board of Education; and
 - Information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas.

Are There Requirements for M Emergency Safety Intervention

The written documentation of an emergency safety intervention must contain:

- a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future use of emergency safety interventions; and
- email and phone information for the parent to schedule the emergency safety intervention.

After an emergency safety intervention incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. The focus of any meeting convened shall be to discuss proactive ways to prevent future use of emergency safety interventions and to redress the incident.

If a parent requests a meeting the meeting shall be held within five school days. The time for calling this meeting shall be within the same school day limit if the parent is unable to attend.

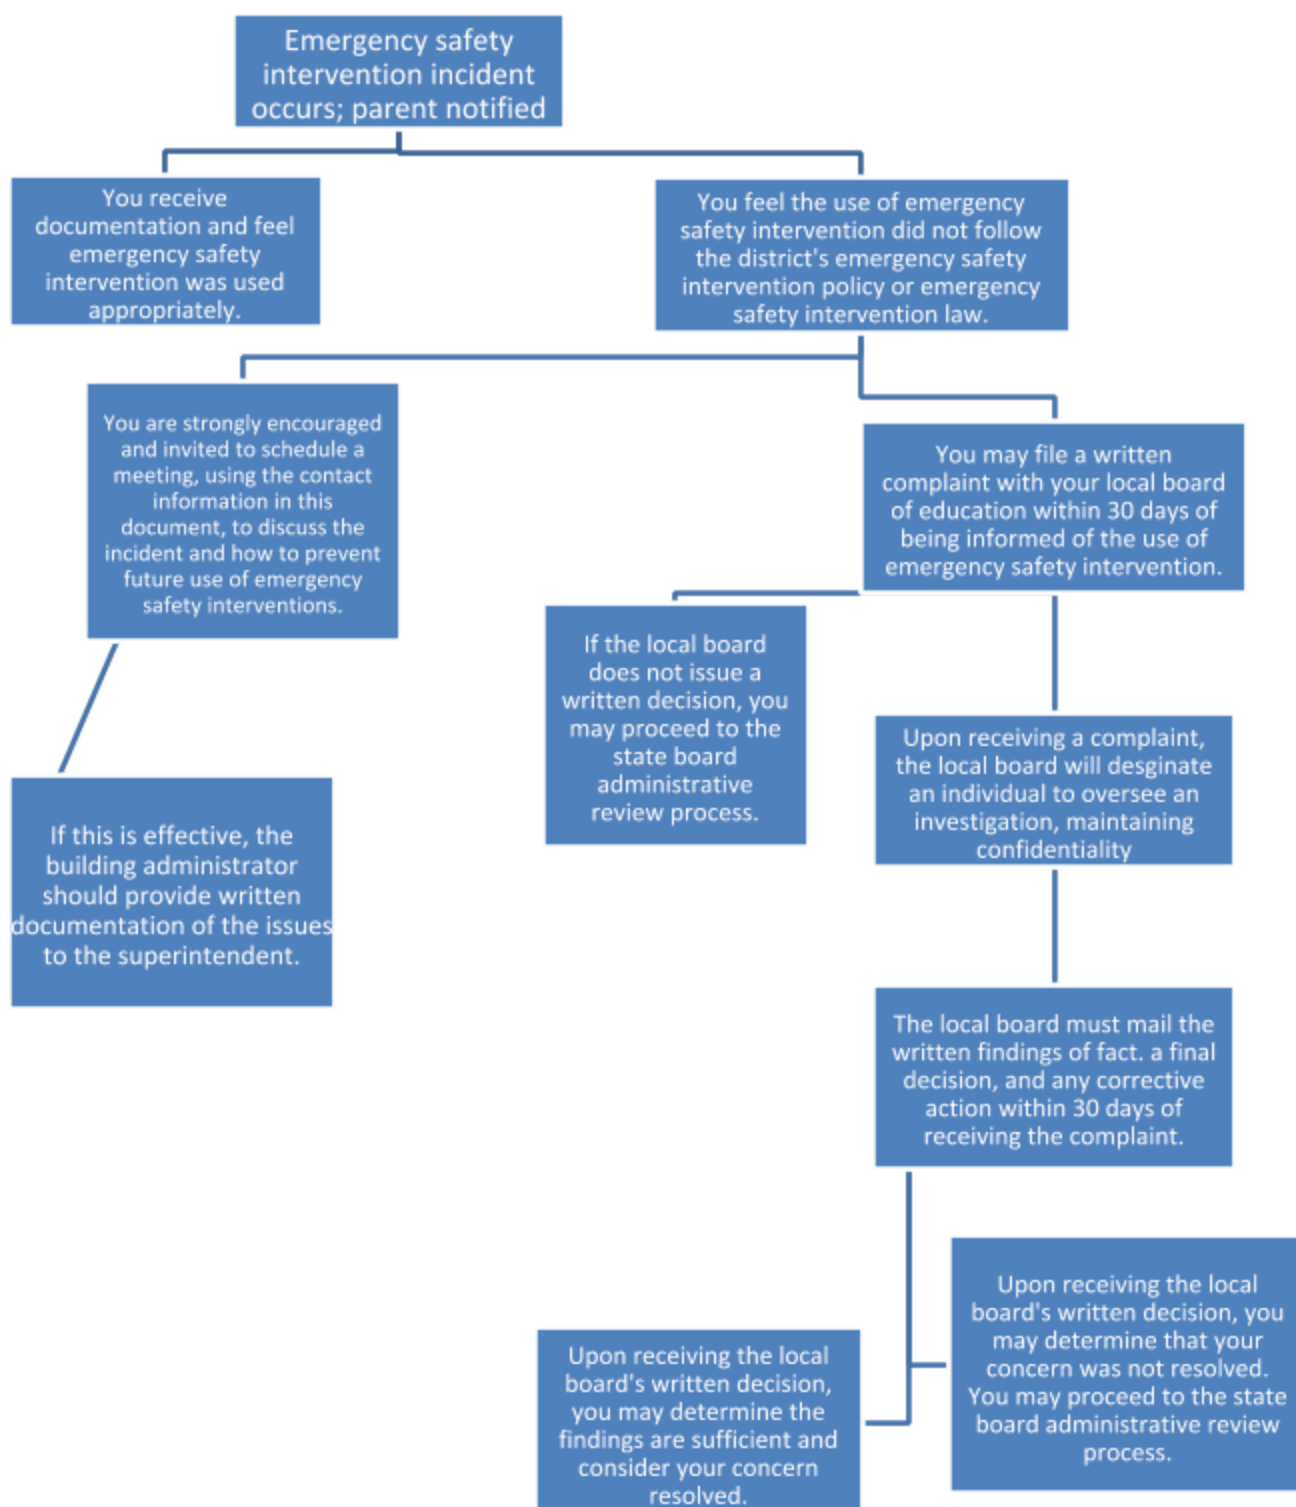

What are the Emergency Safety Requirements for Students Placed in Private Schools?

For students who have an individualized education plan (IEP) placed in a private school by a parent, a meeting to discuss the incident shall include the parent and the private school, and the parent should request an IEP team meeting. If a parent requests a team meeting, the private school must help the parent schedule the meeting.

Are Students Required to Attend a Meeting?

The parent shall determine whether the student shall attend the meeting.

Local Dispute Resolution Guide for Parents

State Board Administrative Review Process

Refer to K.A.R. 91-42-5 for complete information. The following provides a summary of the regulations regarding an administrative review initiated with the Kansas State Board of Education (State Board).

- If a parent believes an emergency safety intervention was used in violation of K.S.A. 2016 Supp. 72-89d01 through -89d09 or K.A.R. 91-42-1 through -7 and the parent filed a written complaint with their local board of education, then this parent may request an administrative review of the local board's decision from the State Board.
 - The request for administrative review must include the following information:
 - Name of the student and contact information;
 - Names and contact information for all involved parties (teachers, aides, administrators, and district staff), to the extent known;
 - A detailed statement of the reason for requesting an administrative review;
 - Any supporting facts and documentation; and
 - A copy of the complaint filed with the local board, the local board's final decision (if issued).
 - The written request for administrative review must be typed or legibly written and signed by the parent.
 - Relevant documents must be attached or, if unavailable, the documents must be referenced in the request for administrative review.
 - Written consent to disclose any personally identifiable information from the student's education records necessary to conduct an investigation
- The request for administrative review must be filed with the Commissioner of Education within 30 days of the local board issuing its final decision OR within 60 days from the date the parent filed a complaint with the local board, if the local board did not issue a final decision. You may mail this request to the Kansas State Department of Education, Landon State Office Building, 900 SW Jackson Street, Office of General Counsel, Room 102, Topeka, Kansas 66612. KSDE has provided a form for you to use, if you wish, and you can find it on the Emergency Safety Interventions page of the KSDE website, www.ksde.org/Default.aspx?tabid=524.
- A Hearing Officer will be designated by the State Board. The Hearing Officer must send a copy of the request for administrative review to the local board.

- The Hearing Officer will consider the local board's final decision and may initiate an investigation that could include:
 - A discussion with the parent, during which additional information may be gathered;
 - Contact with the local board or other district staff to allow the local board to respond to the request with information supporting its final decision; and
 - An on-site investigation by Kansas State Department of Education staff.
- If new information is discovered that was not made available to both the parent and the local board during the dispute resolution process, the Hearing Officer may send the issue back to the local board.
 - If sent back to the local board, the Hearing Officer's case will be closed and the local board has 30 days to issue a written amended final decision.
 - If the parent feels the local board's amended final decision does not adequately address the issue, the parent may file a new request for administrative review with the commissioner by following the above process for requesting administrative review. This must be done within 30 days of the local board issuing its amended final decision. If the local board does not issue an amended final decision within 30 days, then the parent has 30 days from the date the Hearing Officer sent the issue back to the local board to file a request for administrative review with the commissioner.
- Within 60 days of receiving the request for administrative review, the Hearing Officer will, in writing, inform the parents, school administrator, district superintendent, local board clerk, and the state board of the results of the review. This time frame may be extended for good cause upon approval of the commissioner.
- The results of the administrative review will contain findings of fact, conclusions of law, and any suggested corrective actions. The Hearing Officer's determination will include one of the following:
 - The local board appropriately resolved the complaint.
 - The local board should re-evaluate the complaint with suggested findings of fact.
 - The Hearing Officer's suggested corrective action is necessary to ensure that local board policies meet legal requirements.

State Administrative Review Guide for Parents

Written request must include:

- Name and contact information of student that emergency safety intervention was used with
 - Name and contact information for all people involved
 - Statement describing the basis for the review with all supporting facts and documentation
 - The local board's final decision, if one was issued
 - Type or legibly write the complaint and sign it
 - Written consent to disclose any personally identifiable information
- You may use the form on the KSDE website, www.ksde.org/Default.aspx?tabid=524.

You filed a complaint with the local board and you are not satisfied with the final decision about the use of an emergency safety intervention (ESI).

File a request for administrative review with the Kansas State Board of Education. You must do this within 30 days of the local board's final decision or, if the local board failed to issue a final decision, within 60 days of the date you filed a complaint with the local board.

The Kansas State Board of Education will designate a Hearing Officer to conduct a review of the local board's final decision.

Investigation results will be provided to the parents, school administrator, district superintendent, local board, and state board within 60 days of the commissioner's receipt of the request for administrative review.

Mail this request to the
Emergency Safety Intervention
Administrative Review Request,
Kansas State Department of
Education, Office of General
Counsel, 900 SW Jackson Street,
Room 102, Topeka, Kansas 66612

The Hearing Officer may initiate separate investigation that may include:

- A discussion with the parent;
- Contacting the local board or other staff involved; and
- An on-site investigation.

If the Hearing Officer finds new information, they may send the issue back to the local board. If you are not satisfied with the local board's amended decision the right to request administrative review begins again.

A request for an administrative review may include, but is not limited to, the following allegations:

- An emergency safety intervention was used with your child when your child did not present a reasonable and immediate danger of physical harm to themselves or others with the present ability to effect such physical harm.
- The district used a form of banned restraint including prone, supine, physical restraint that obstructs the airway of your child, physical restraint that impacts your child's primary mode of communication, chemical or mechanical restraint that does not meet an exception.
- Less restrictive alternatives to emergency safety intervention were not deemed inappropriate or ineffective before emergency safety intervention was used.
- The use of emergency safety intervention with your child did not stop as soon as the immediate danger of physical harm stopped.
- emergency safety intervention was used with your child for discipline, punishment, or convenience.
- Emergency safety intervention was used with your child and you have provided school staff with documentation from your child's licensed health care provider that seclusion could put your child in mental or physical danger.
- Seclusion was used with your child and school staff could not see and hear your child at all times.
- Your child was put in a seclusion room with a locking door that does not automatically disengage when school staff walk away or in an emergency.
- Your child was put in a seclusion
