

PCS Technology Services: Playback of BoE Meeting Audio Files

Due to the large file size of the PCS Board Meeting audio files most of the files will not Autoplay and will need to be downloaded in order to play. Please follow these steps in order to download the files.

- After clicking the link on the PCS Homepage and selecting the desired year's folder you'll see a list of files. Select the file you want by hovering over it with your mouse and then click the "white download arrow" in the top left corner (as seen below).

- Next, you may see this warning that the file size has exceeded the max size that Google is able to scan. This is okay...please press "**Download Anyway**".

- Once the file is downloaded, open it with the Audio Player of your choice.
