### Required Narratives

How does the LEA plan to use funds to implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning?

\* The system will use ARP ESSER funds to purchase UV lighting for all 3 schools in our district. This migration will assist in the improvement of air quality by killing irritants and viruses that can make one sick or cause sinus passages to inflame. Winfield City will use funds to employ an additional nurse to assist in safely keeping schools open for in-person learning. The nurse will assist administrators and teachers in implementing prevention strategies, contract tracing; maintaining school-based clinics, evaluating symptoms and supporting students, families, and staff.

How will the LEA ensure that the evidence-based interventions will address the academic impact of lost instructional time and ensure that those interventions respond to the academic, social, emotional, and mental health needs of all students including underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care) and those who are particularly impacted disproportionately by the COVID-19 pandemic?

\* Winfield City Schools will continue to fund a math coach (FY2024) that will serve as a resource for both teachers and students in grades K-8. The Math Coach will collaborate with teachers to increase student proficiency in formative and summative assessments emphasizing on closing the achievement gaps and ensuring students are performing at or above grade level. Winfield City Schools will continue to fund an in-school suspension teacher (FY2024) to maximize student participation in the school setting. The teacher will work to address and extinguish problem behaviors, develop appropriate behavior skills, and maintain academic progress. Winfield City Schools will continue to fund a curriculum coordinator (FY2024) to provide support to teachers in creating and revising materials used in the classroom. The coordinator will assist in analyzing student data to assess and improve the school's implementation and evaluation of classroom materials. Winfield City Schools will use funds to employ three additional instructional aides who will work with students individually and in small groups to conduct tutoring sessions to narrow student achievement gaps.

How will the LEA comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a)?

The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the ESSER III program.

\* Winfield City will work to remove any barrier that may impede equal access to or participation in ESSER III programs. Buses will be routed to transport students to and from summer programs and dual enrollment classes. Fee waiver requests are allowed for students that cannot afford to participate in any activity provided by the district. Winfield City has a small Hispanic population, but we have two people on staff that provides translations when needed. Winfield City also has a local liaison who remains in contact with EL families to provide assistance with academic and personal needs. Our school partners with Neighborhood Bridges which is a community organization that provides daily needs to students and families.

How will the LEA actively monitor their allocations, conduct interim audits to ensure an appropriate application of funds, collect and manage data elements required to be reported, and report this information to the community?

\* The LEA will actively monitor allocations and conduct interim audits by developing a leadership team that is knowledgeable of the ESSER III plan who meets three times per year. At this meeting a progress report will be developed and reported to the community through social media, board minutes, and stakeholder meeting. All purchases will be approved by the Superintendent and CSFO to ensure appropriate application of funds.

How will the LEA meaningfully engage with families and communities throughout the life of the ARP ESSER and other relief funds?

\* The LEA will hold stakeholder meetings two times during each school year to communicate progress of plans and funding allocations and to discuss possible amendments needed to the plan. The LEA will use social media, school flyers, and newspaper articles to communicate progress of facility upgrades and expansions, summer and after school programs, and additional hires.

**ARP ESSER State Reserve Allocation to Address Loss of Instructional Time**

The ALSDE is providing a State Reserve allocation to LEAs to address the loss of instructional time through the implementation of evidence-based interventions and ensure that those interventions respond to students’ social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.

For the ARP ESSER State Reserve Allocation, the following interventions are allowable:

1. Summer Learning & Summer Enrichment Programs
2. Comprehensive After-School Programs
3. Other – See Intervention box C for more details.

**Required Narratives**

Provide a description of the evidence-based program(s) (including partnerships with community-based organizations) the LEA has selected to use with the ARP ESSER State Reserve, and how the LEA will address the disproportionate impact of COVID-19 on certain groups of students, including each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care.

\* ARP ESSER funds will be used to host a summer reading camp during the summer of FY22-FY24. The camp will run for four weeks in the month of June. Elementary Certified teachers (FTE 9.0) and paraprofessionals (FTE 2.0) will provide direct and small group instruction to children in order to address learning loss. Funds will also be used to host a one week math camp in the month of July 2024. Elementary Certified teachers (FTE 6.0) will provide direct and small group instruction to children to address math learning loss. Winfield Middle School will host a four week summer school to reduce learning loss. Certified Teachers (FTE 3.0) will be employed to assist in the program.

ARP ESSER funds will be used to host after school programs at Winfield Elementary and Winfield Middle Schools during the FY22-FY24 . Programs will provide homework help, tutoring, and STEM activities. Funds will be used to employ certified teachers (FTE 2.0) to provide services to attending students. Funds have also been allocated to purchase STEM supplies for the after school programs.

ARP ESSER funds will be used to a employ paraprofessional (FTE 1.0) during the FY22, FY 23, and FY24 years to assist general education teachers in providing academic support using evidence-based strategies and curriculum to reduce the amount of learning loss experienced by students due to the COVID pandemic.

Indicate the data sources the LEA used to identify the students most in need of the program(s) and the extent to which the LEA will evaluate the impact of the program(s).

\* The LEA has adopted i-Ready online assessment and instruction to use as a data source in both math and reading. i-Ready is administered three times per year to determine academic progress and needs. Students who have not benchmarked by the third assessment are invited to participate in the summer reading and math programs. Student plans are revised on a weekly basis after progress monitoring occurs with an exit test at the end of the camps. At the high school level students who do not receive grade level credits are invited to attend summer school to receive credit recovery. High School students may also attend summer school to receive credit advancement. Progress monitoring occurs bi-weekly to ensure the student is on target to complete the class with a passing grade. In instances where students are falling behind the teacher will provide tutoring and/or assistance in helping the student progress though the courses in a timely manner.

Using the allocation from the ARP ESSER State Reserve, explain how the LEA will identify and engage

- 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and
- 2) students who did not consistently participate in remote instruction when offered during school building closures.

\* Students who have missed the most in-person instruction and/or did not consistently participate in remote instruction and are not at benchmark will be encouraged to and have priority in attending all after school and summer programs. Additional teachers and paraprofessionals will be employed to reduce teacher/student ratio providing more individual instruction time for students with the greatest needs.
