

District-Level M-STEP Report

Prepared for Ovid-Elsie

About this Report

WHAT IT IS. This report compares your district's M-STEP student assessment data to that of like-kind districts across Michigan. The source of the data used in this report is the MDE. Comparisons are made for all grades tested and test years 2015 through 2021. Subjects include ELA, Math, Science and Social Studies.

WHO IT'S FOR. This report is designed to help school and district leaders gain insight into student achievement, support evaluations and as a tool to communicate academic performance to staff and board members. Because Eidex offers building-level comparisons, many principals use Eidex for academic goal setting.

HOW IT WORKS. This report uses a peer group of ten districts across MI with similar student counts and FRL percentages to your district. Eidex offers a "one click" feature that allows users to create this peer group, as well as many others with predefined parameters. This report is intended to give you a flavor for the power of Eidex and the opportunity it offers users to "drill down" into their data to evaluate trends related to individual subjects, grades, ethnicities, genders and cohorts.

Peer Group

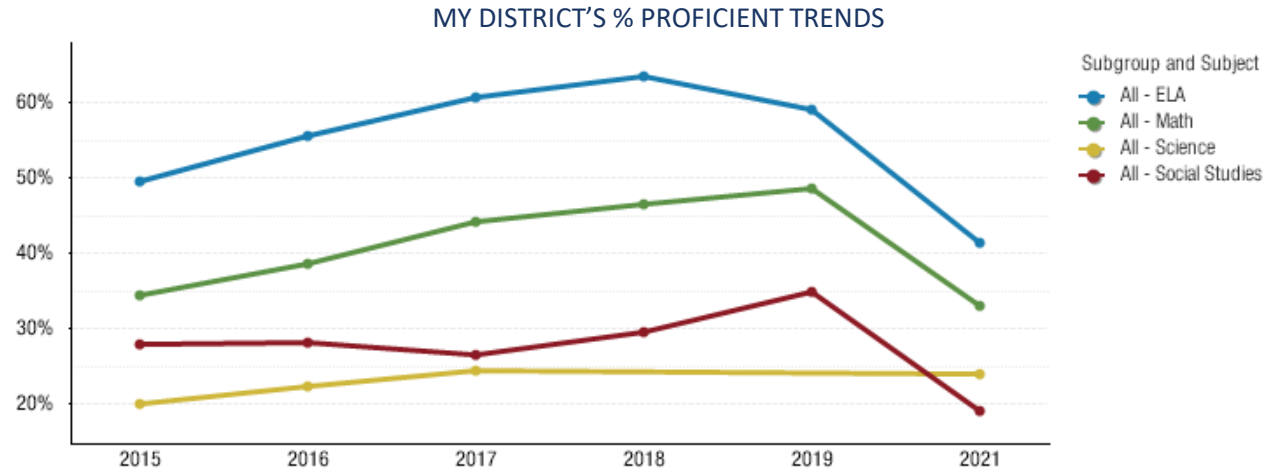

Eidex’s “one click” peer selector created the peer group shown here. These peer districts all have similar student counts and FRL percentages to your district. We’ve also created an algorithm to automatically create other peer groups with the following characteristics:

- Similar socioeconomic demographics
- Districts within your ISD
- School of Choice districts

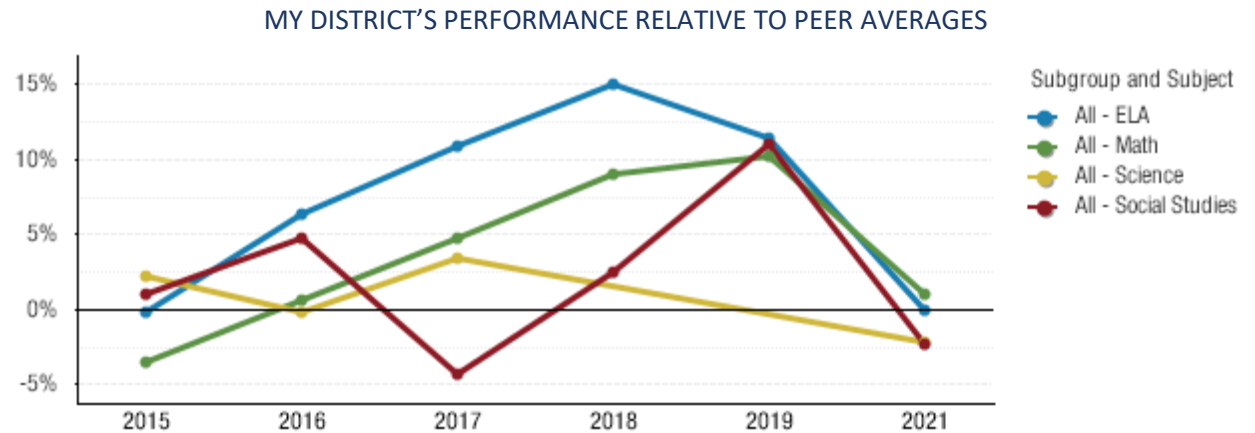

District Name	Enrollment	FRL
Algonac	1372	46.9%
Boyne City	1270	50.1%
Clare Public	1547	48.9%
Ithaca	1043	46.7%
Jefferson Schools	1406	47.0%
Kingsley	1504	48.2%
Leslie	1084	47.1%
McBain	1007	49.3%
Meridian	1314	47.3%
Montague	1375	48.4%

3rd – 8th Grade¹ | All Subjects

This graph shows your district's proficiency percentage in each of the core M-STEP subjects over time.

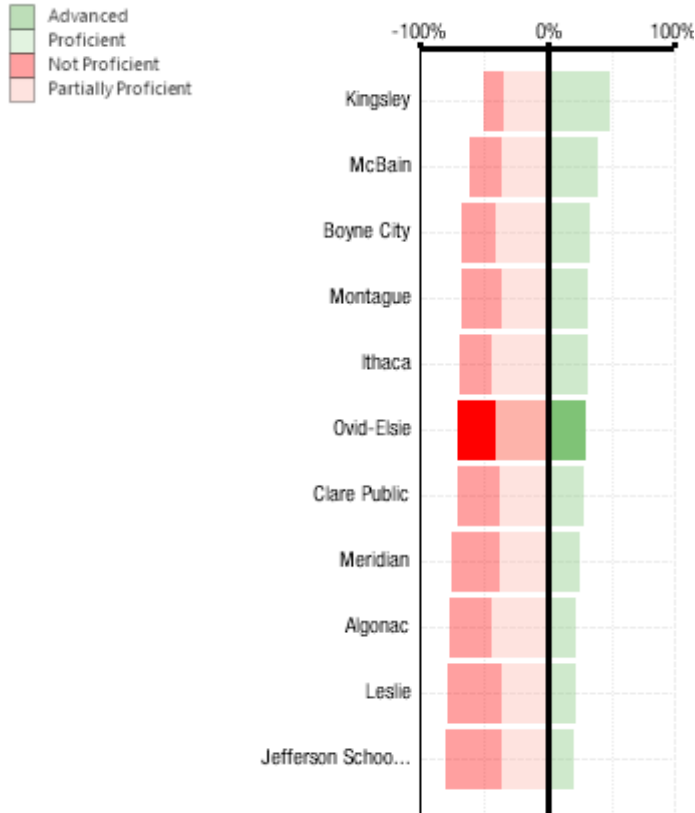

This graph shows how your district has performed in each M-STEP subject compared to the average of your peer group which is represented by the 0% line. Data points above the 0% line represent outperformance by your district versus the average of your peers. Conversely, data points below the 0% line represent underperformance.

¹ Includes all subpopulations: Economically Disadvantaged, Limited English Proficient and Students with Disabilities.

3rd – 8th Grade¹ | All Subjects

2021 PROFICIENCY BY DISTRICT

M-STEP PROFICIENCY TRENDS

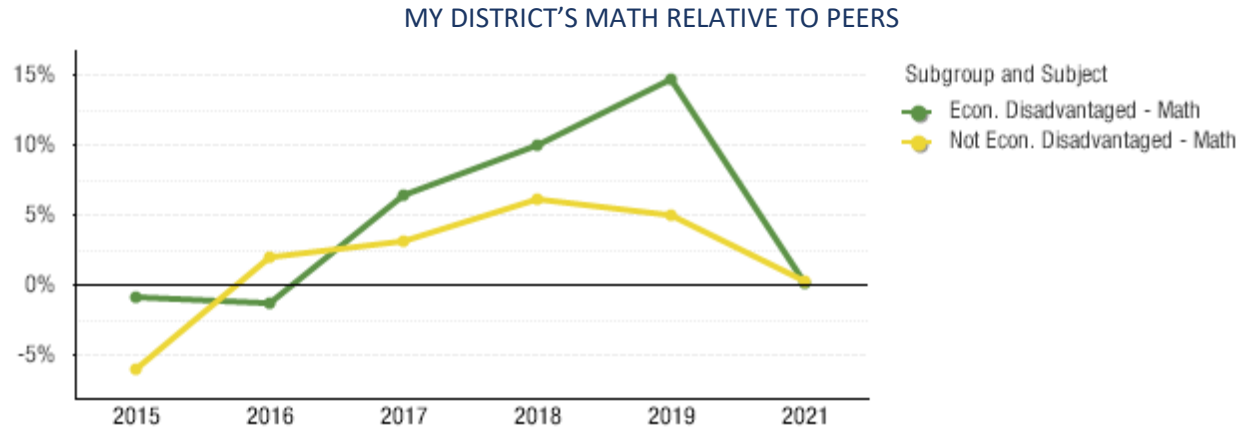

This graph compares your district's overall proficiency over time to that of your peers and all MI districts.

Your district is highlighted in bold. This is a snapshot of overall proficiency for the 2021 test year.

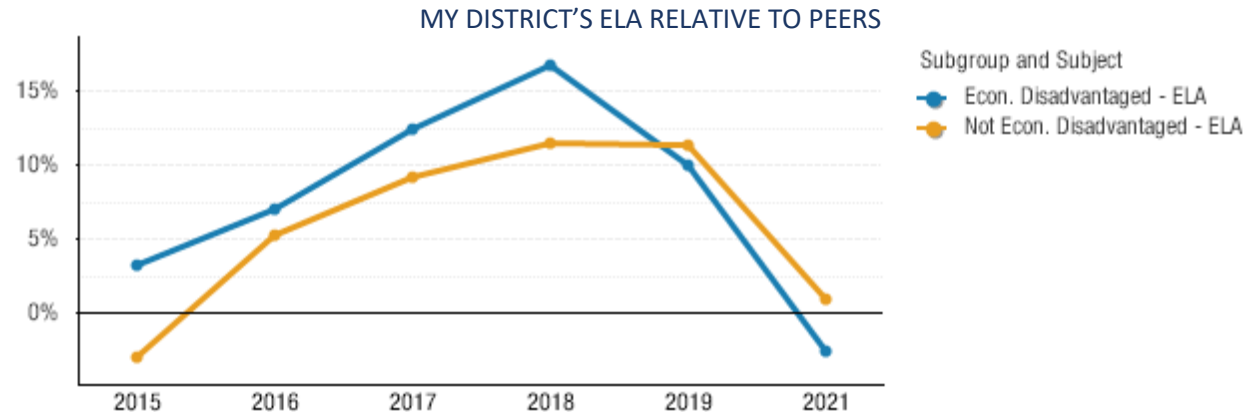

¹ Includes all subpopulations: Economically Disadvantaged, Limited English Proficient and Students with Disabilities.

3rd – 8th Grade | ELA & Math | ED¹

This graph shows how a district can filter by subpopulations. The graph shows how your Economically Disadvantaged students and Non-Economically Disadvantaged students compare to the average of your peer group (represented by the 0% line) in Math. Data points above the 0% line represent outperformance by your district versus the average of your peers. Conversely, data points below the 0% line represent underperformance.

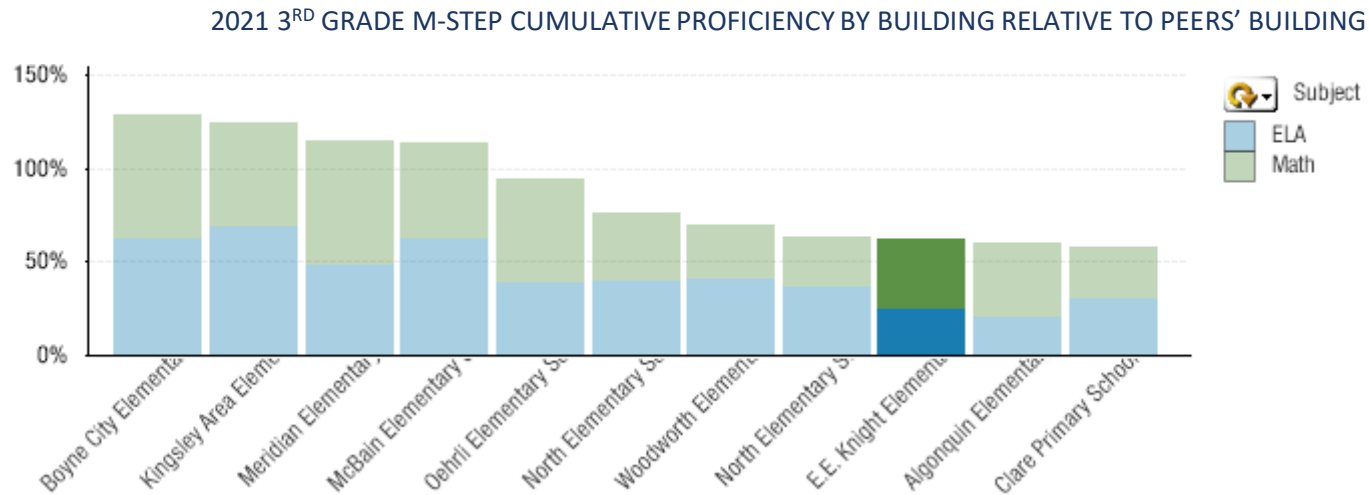

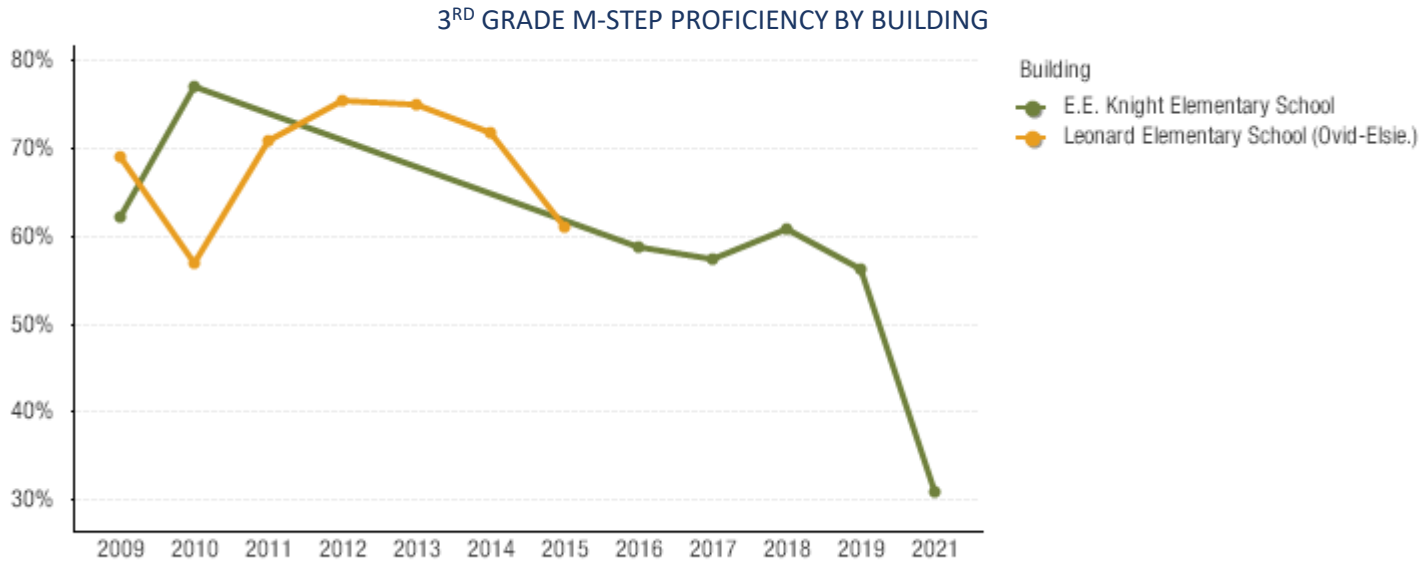

This graph shows how your Economically Disadvantaged students and Non-Economically Disadvantaged students compare to the average of your peer group (represented by the 0% line) in ELA. Again, data points above the 0% line represent outperformance by your district versus the average of your peers. Conversely, data points below the 0% line represent under-performance.

¹ Includes the subpopulations of Economically Disadvantaged students compared to Non-Economically Disadvantaged students.

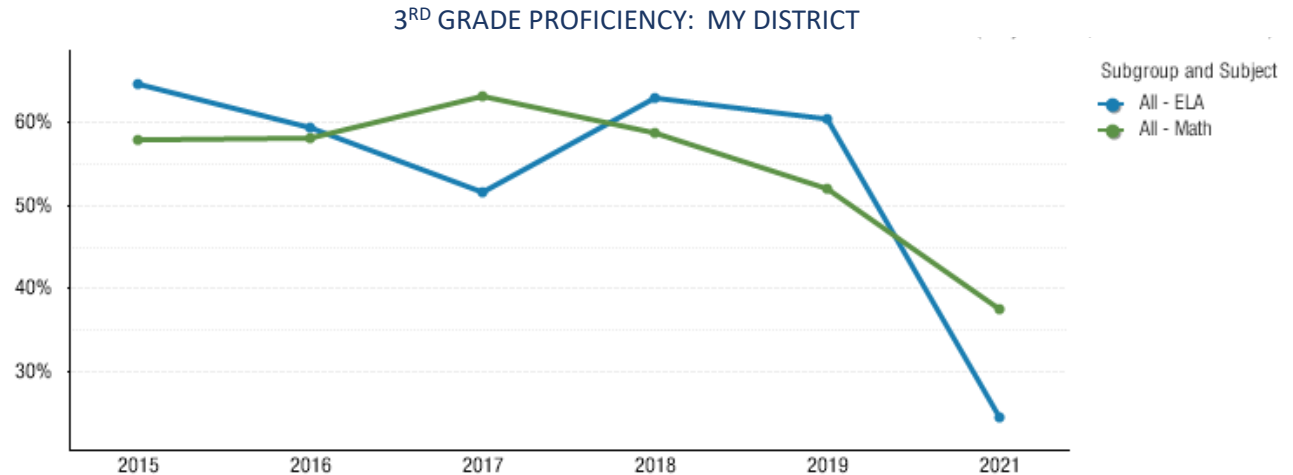

3rd Grade¹ | ELA & Math

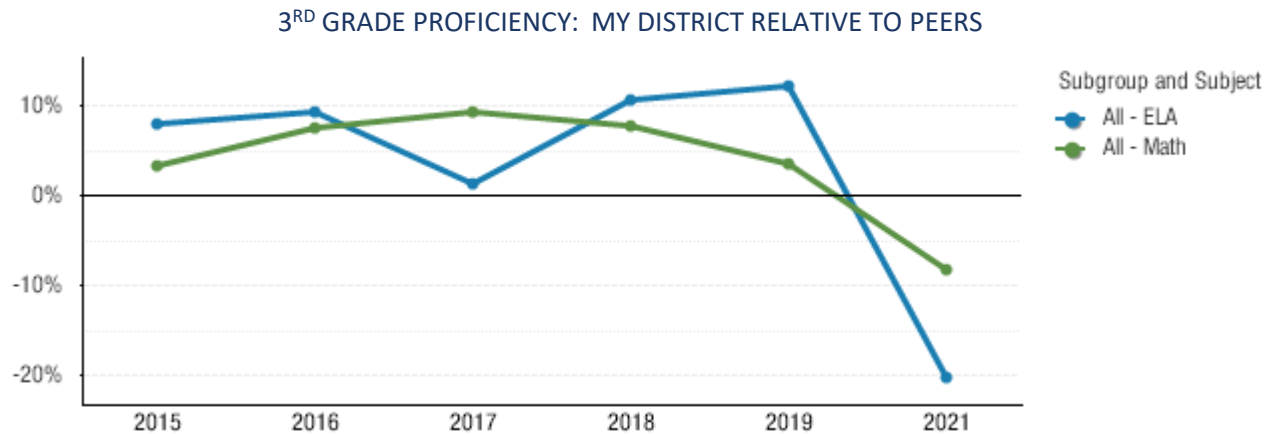

¹ Includes all subpopulations: Economically Disadvantaged, Limited English Proficient and Students with Disabilities

3rd Grade¹ | ELA & Math

This graph shows your district's proficiency percentage in each of the core M-STEP subjects in 3rd Grade over time.

This graph shows how the 3rd grade students in your district performed in each M-STEP subject compared to the average of your peer group which is represented by the 0% line. Data points above the 0% line represent outperformance by your district versus the average of your peers. Conversely, data points below the 0% line represent under-performance.

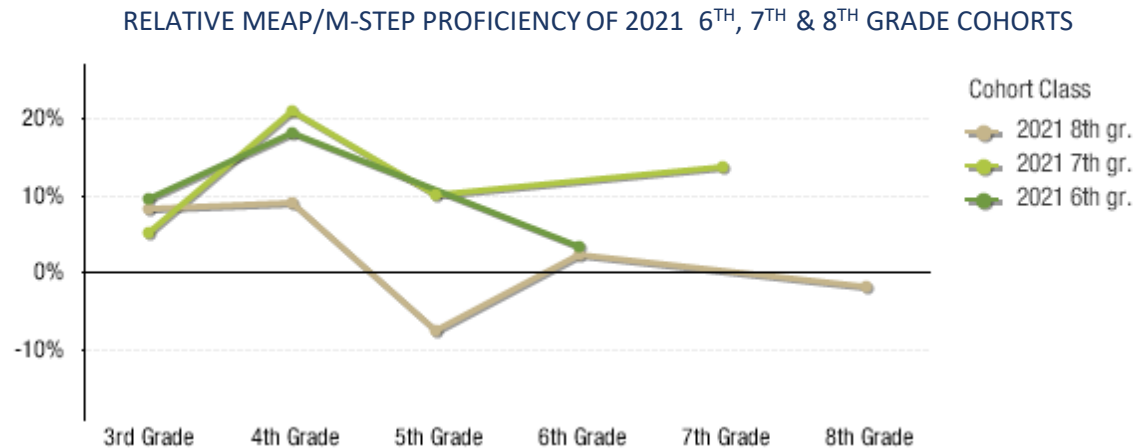

¹ Includes all subpopulations: Economically Disadvantaged, Limited English Proficient and Students with Disabilities

3rd - 8th Grade Cohorts¹ | All Subjects

This graph is useful at the elementary building-level to show cohort proficiency. The graph shows the 2021 3rd, 4th, and 5th grade cohorts' overall performance across all M-STEP subjects over time compared to the average of your peer group, represented by the 0% line.

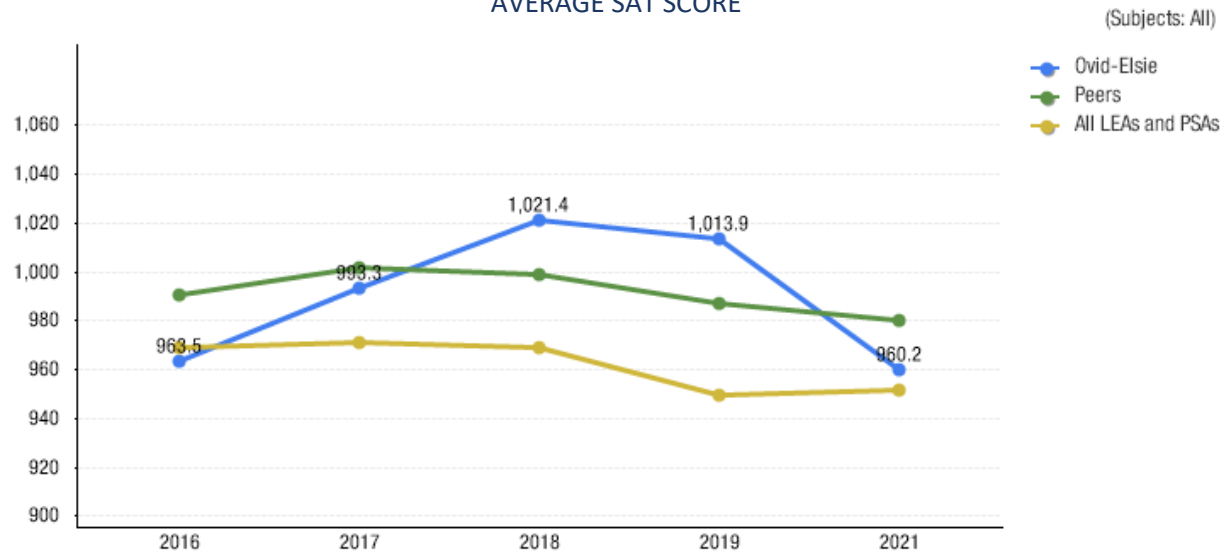

This graph is useful at the middle school building-level to show cohort proficiency. The graph shows your district's 2021 6th, 7th and 8th grade cohorts' overall performance across all M-STEP subjects over time compared to the average of your peer group, represented by the 0% line.

¹ Includes all subpopulations: Economically Disadvantaged, Limited English Proficient and Students with Disabilities.
