

IMESD Goals 2021-23

In 2017, the IMESD Board created a vision for the organization by developing a 10-Year Plan, detailing core beliefs and priorities. In order to implement this vision, agency staff developed goals in each of the four core service areas:

Special Education

Special Education will cultivate quality partnerships to provide all students equitable access to educational opportunities through comprehensive systems and inclusive practices.

Instructional Services

Instructional Services will support district and school improvement objectives through proactively communicating, leading innovation, and providing exemplary instructional learning opportunities.

Technology

Information Technology will provide excellent customer experiences and deliver enterprise level technology by proactively building capacity to ensure successful and sustainable outcomes.

Administrative Services

Administrative Services will establish relationships and improve district outreach, with an emphasis on quality customer service.

MISSION

To provide outstanding customer service to our school districts in four areas: special education, technology, school improvement, and administrative services.

VISION

IMESD strives to ensure the success of every child by providing equitable services to close the opportunity gap. We are committed to the values of antiracism and multiculturalism.
