January 6, 2022

Dear Kelso Families,

Kelso School District is committed to providing a safe and secure environment for our students and staff. Due to large amounts of rain, the Kelso area is experiencing flooding and power outages in several areas. Including around our schools.

ROAD CONDITIONS

We are continuing to monitor road conditions and will update you as we know how flooding will affect bus routes and transportation around schools.

FLOODING

Kelso High School is experiencing flooding in the auditorium and one hallway of the school building. Students are dry and flooded areas are blocked off until cleared.

POWER

The power at Kelso High School and Coweeman Middle School is back on. Regular lunches are being prepared. If power goes out again, sandwiches will be served.

We will update you as conditions change. Thank you for entrusting us with your children.
