

TUITION FEES

The Midway School District (District) shall admit students from other districts to its school when it can be done without injuring or overcrowding its schools. When the students are received from a district which does not offer the grade level in which the student requires enrollment, the Midway School Board (Board) must charge tuition to the sending district, as prescribed by law. When the student has been placed at a group or residential care facility or a residential treatment center in accordance with NDCC 15.1-29-14 the Board must charge tuition to the sending district unless an agreement to waive tuition payments has been entered into with the sending district.

It shall be the policy of this District to charge tuition and/or enter into waiver of tuition agreements, when permitted to do so, when neighboring districts request admittance for their students.

All tuition payments are billed to districts or persons at the beginning of the school term and payment is due at the time of enrollment. All bills become delinquent at the end of the current semester. Students for whom tuition is not paid for a semester shall not be permitted to enroll for the following semester until proper arrangements have been made with the Board for the payment of previous accounts.

An exception to the above may be made when it is determined that the student is homeless as defined by North Dakota and federal law, in which instance the student will be admitted when it is determined that attendance in this district is in the best interest of the student.
