1/3/2022 10:04:36	Leannarose2003@icloud.com	Leanna Walters		Student	Covid	No	The cases of covid are going up again and its all getting worse. These kids don't wear their mask like they're suppose to. Nobody is social distancing really and i've already got covid from school. teachers are staying out because they're sick and i've had multiple classes where i haven't had a toal teacher in that class the whole period. Bus drivers are out and thats causing kids to be late and get home late. It would just be better and safer to go back virtual or at least let me go back virtual please because i don't want to get sick again and give it to my family members who already have very bad health.
