

PROJECT 3C PRESENTS

CLUB iSTEM PLANT POWER

January 24-25, 2022 • Virtual

Serving Native American students in grades 1-4 who reside in Robeson, Scotland, Cumberland and Hoke counties. We provide hands-on experiments and expose Native youth to Indigenous people in STEM (Science, Technology, Engineering and Math) careers.

Project 3C (Connecting community, college and career through STEM) is a grant initiative funded by the U.S. Department of Education's Office of Indian Education and awarded to the Lumbee Tribe of North Carolina. The programs are facilitated by the consortium partner, The University of North Carolina at Pembroke.
