Shelbyville Families & Community,

RE: Methodist Church alley flow reversal

The First United Methodist Church is a neighbor & partner to Main Street Elementary School.

The church has decided to reverse the traffic flow of the alley between the school & the church.

This change is in effect currently.

We wanted to communicate this change to assist with the transition for our families.

Traffic will now enter the alley from N Walnut Street.

Students may still enter the playground & school campus through an open gate at the SE corner of the school as in the past.

Please be mindful of exiting the alley on Main Street.

It is suggested to turn right on Main Street to keep the flow running as smoothly as possible.

The church has painted arrows as well as posted signs.

Thank you for understanding as we help each other make this change.

Sincerely,

Shelbyville CUSD #4 Administration
