**COVID-19 Student Exposure (CDPH)**

**Vaccinated Close Contacts**
- Symptomatic
  - Get Tested
  - POSITIVE
    - Stay home for at least 5 days
    - Isolation can end after Day 5 if no symptoms or resolving symptoms and a negative test* on or after Day 5
    - If no test and asymptomatic or resolving symptoms, can end isolation after Day 10
    - If fever is present, isolation should continue until fever resolves
    - If symptoms, other than fever, are not resolving, continue to isolate until symptoms are resolving or until after Day 10
    - Wear a well-fitting mask around others for 10 days
  - NEGATIVE
    - Isolate:
      - per condition diagnosed by healthcare provider or
      - until at least 24 hours have passed since the last fever without the use of fever-reducing medication and
      - symptoms have improved
    - Get tested on Day 5 after exposure
    - Monitor for symptoms
    - Wear a well-fitting mask
    - No need for quarantine
    - Consider testing as soon as possible
    - Get tested on Day 5 after exposure
    - Monitor for symptoms
    - Wear a well-fitting mask

**Unvaccinated Close Contacts**
- Symptomatic
  - Get Tested
  - POSITIVE
    - Stay home for at least 5 days
    - Isolation can end after Day 5 if no symptoms or resolving symptoms and a negative test* on or after Day 5
    - If no test and asymptomatic or resolving symptoms, can end isolation after Day 10
    - If fever is present, isolation should continue until fever resolves
    - If symptoms, other than fever, are not resolving, continue to isolate until symptoms are resolving or until after Day 10
    - Wear a well-fitting mask around others for 10 days
  - NEGATIVE
    - 10-day quarantine
    - must have a negative test on or after Day 5 to return after Day 7 and
    - at least 24 hours have passed since resolution of fever without fever-reducing medicine
    - other symptoms have improved

**Both Parties Masked**
- YES
  - End Quarantine After Day 7
    - For those who remain asymptomatic:
      - On or after Day 5, get a COVID-19 test that shows a result of negative; and
      - Continue daily self-monitoring for symptoms through Day 14 from last known exposure; and
      - Follow all recommended non-pharmaceutical interventions (e.g., wearing a mask when around others, hand washing, avoiding crowds) through Day 14 from last known exposure.
  - NO
    - End Quarantine After Day 10
      - For those who remain asymptomatic:
        - Continue daily self-monitoring for symptoms through Day 14 from last known exposure; and
        - Follow all recommended non-pharmaceutical interventions (e.g., wearing a mask when around others, hand washing, avoiding crowds) through Day 14 from last known exposure.
        - Exposed asymptomatic people may end quarantine after Day 10 without a test.

**MODIFIED QUARANTINE** (if both parties were masked)

When all parties were wearing a mask in the school setting (indoors or outdoors), unvaccinated students who are close contacts (more than 15 minutes over a 24-hour period within 0-6 feet):
- May continue to attend school for in-person instruction if they:
  - Are asymptomatic;
  - Continue to appropriately mask, as required;
  - test immediately after exposure and on or after day 5; and
  - Continue to quarantine for all extracurricular activities at school, including sports, and activities within the community setting.

Those who remain asymptomatic are eligible to:
- **End Quarantine After Day 7**
  - For those who remain asymptomatic:
    - On or after Day 5, get a COVID-19 test that shows a result of negative; and
    - Continue daily self-monitoring for symptoms through Day 14 from last known exposure; and
    - Follow all recommended non-pharmaceutical interventions (e.g., wearing a mask when around others, hand washing, avoiding crowds) through Day 14 from last known exposure.

**QUARANTINE** (if one or more parties were unmasked)

Exposed asymptomatic people can shorten their quarantine from 10 days to 7, however, they must continue to monitor symptoms for 14 days after exposure. If any symptoms develop in the next 14 days, the exposed person must immediately isolate, get tested, and contact their healthcare provider with any questions regarding their care.

- Exposed asymptomatic people may end quarantine after Day 10 without a test.
