-Cheering HS

-Indoor Track (Club)

-Possibly a Wrestler

Transportation and Staffing are significant issues. John Merry and his staff have done EVERYTHING to keep us going.

EVERY opportunity that we have is currently being investigated.

Technology

Nathan Austin and Deb Pooler have worked tirelessly to provide uninterrupted service even though we have faced incredible obstacles. I wish to commend them on their hard work, and dedication to the WSD.

Technology through Maine Connectivity has purchase MI Computers

Brian Barrows, Deb Pooler, and Nathan Austing have entered in the Synergy, JAMF, systems and the remote access has been done twice as the schools went remote. It is imperative that these people get the appreciation they deserve as they have overhauled the entire system.

The ticket system is absolutely to ensure equity across all curriculum areas, instead of jst servicing a select few. The system ensures EQUITY for ALL while providing Cameras, Swivl, Powrschool, Jamf, Google Docs, Class Dojo, and many more.

The whole system is being upgraded bu we are waiting the 3-6 months to receive the proper equipment to complete Phase Two if the connectivity upgrade.

.

What, if anything, do you feel you need as support from the School Committee to accomplish these projects?

Thank you to all of our school committee members for supporting our students, staff, and community.

Share any exciting accomplishments or goals that your department has reached this month.

Connectivity to all students! To complete Phase II for total in person improved connectivity through the planned upgrade.

Athletics is fully operational.
