School District Policy state that a student may be admitted annually on a nonresident basis if there is space available in the school at the appropriate grade level. Elementary students will be placed by the Principal at the school where room is available. Transportation is the responsibility of the parent (see Request for Transportation). Continued attendance in the Holyoke School District is contingent upon (A) continued space available; (B) good citizenship; (C) regular attendance; (D) satisfactory academic progress; (E) reapplication for admittance.

Applications will be considered on a first-come, first serve basis. However, final approval will be made only after the District has confirmed that space will be available, and a screening of the student(s) has been completed.

I understand the stipulations above, and wish to apply for admittance for my son/daughter as a nonresident student.
