

Calling all Eaglets

Do you have a child newborn to 5 years of age? Pregnant?

The Westview School District has a FREE program just for you.

Parents As Teachers is a fun filled program that provides home or center-based visits to help your baby learn and grow. It is built on the premise that you are your child's first and best teacher. Together we will learn and play with your child, learn about what is developmentally appropriate for them, discuss concerns, and ultimately help them be better prepared for school. There are monthly Group Connections providing networking time with other parents, play opportunities for little ones, and fun, all while learning.

We provide developmental screenings as well as referrals for resource assistance.

One hour a month that is time well spent.

If interested please fill out the bottom of this page and return it to the school
or message us on our Facebook page

(If you message us on FB please include that you are in the Westview district)
