## Get To Know Us Better

### Staff

- Afters employs over 50 community members.
- It is a great avenue for people to get more involved in the schools.
- Afters always welcomes both volunteers and new employees for both Afters Enrichment and TARGET Afters.

### Afters Enrichment

- Two, six or seven week sessions in the Fall and Winter offer MOE students a variety of Enrichment classes to choose from.
- Typically, 5-10 different classes are offered daily.
- Students have the opportunity to take a different class each session.
- Students learn new skills and are able to participate in healthy and productive environments.

Science Magician  
Junior Ranger  
Max Attack  
Marimba Band

Classes vary each session!

### TARGET Afters

- This afterschool intervention targets students falling below grade level standards.
- First through third graders focus on Reading; Forth and fifth graders focus on Math.
- Lesson plans and activities are used to supplement learning in fun and creative ways. Oftentimes students don't realize they are practicing an important skill.

Journal Writing  
Sight Words  
Comprehension  
Phonics  
Making Words  
Multiplication/Division  
Number Talks  
Fraction  
Word Problems

### Why is Afters Important?

- TARGET Afters helps kids bridge the achievement gap.
- Kids have the opportunity to learn new skills, explore new topics.
- Students are safe after school and engaged in productive activities.
- Builds positive relationships with school and caring adults.
- Offers kids new experiences / broadens knowledge / develops confidence / builds self-esteem.
- Extends friendships with kids / breaks barriers.
- With an emphasis on test scores, enrichment related topics are offered much less during the school day: Afters fills the gap!!

"Above all else, Afters is committed to provide a quality program to our school district and to our community"
