

We have amazing educators at Northern Cass, and we want to share their greatness with you.

## **KATIE ANDERSON**

LEVEL 5 SCIENCE & SOCIAL STUDIES

I believe everyone can learn anything they put their mind to and educate others with their knowledge. I believe we all bring our own personal experiences to school every day. As an educator, I listen, encourage, and participate in these experiences.

I believe every person is an important part of the school and community, because without individuals, neither school nor community would exist or thrive.

A TEAM ABOVE ALL. ABOVE ALL, A TEAM.

Katie Anderson is a Level 5 Science & Social Studies educator. She is engaged to be married this coming summer. She and her fiancé bought a house recently, and they are pretty sure their dogs were more excited than they were! Katie enjoys reading and watching shows on Hulu. Now that she has a new home, she loves to cook with her fiancé and have friends over. Of course, lately she's been spending a lot of time wedding planning!

Miss Anderson feels we are a family at Northern Cass. She knows she could go to anything school (or not) related, and they will listen and help her out. "We joke and laugh, but also support one another in any time of need. The

staff and students will always make the 30 minute drive worth it!" She thinks the best thing about learners is their humor - and the way they care about people. They will see someone who is down, and they will try to cheer them up with a joke or a smile. They worry when someone is gone, and they make sure to know they were missed when they return. Katie's superpower is the ability to create a lesson on the fly when the original one doesn't work.

Jackie Bosch works with our littlest learners as a Pre-K educator. When not at school, she enjoys spending time at the lake with family, fishing, being outside, reading, and cooking. She lives in Argusville with her husband Steve and their daughters Sam and Paige.

One thing Mrs. Bosch loves about Northern Cass is that we are a Pre-K to 12 building and that learners have the opportunity to work together between grade levels. "It's so fun to see a learner's face (whether it's a preschooler or a senior) light up when a learner from a different level walks by, calls them by name, and says Hi." Mrs. Bosch loves the energy and excitement the learners bring every single day! Her teaching superpower is patience.

## **JACKIE BOSCH**

PRE-K EDUCATOR

I believe I am here to witness the innocence in children and nurture each learner's growth so they can reach their full potential.

A TEAM ABOVE ALL. ABOVE ALL, A TEAM.
