

Preschool Developmental Screening

Attention Parents of Preschoolers

A vision, hearing, and developmental screening for 3 to 5 year old children in New Berlin School District will take place on March 16th and 17th from 9:00-2:00. Please call the Elementary office at 488-6054 to schedule an appointment.

This preschool screening will be provided by Community Unit School District #16.

Developmental areas to be checked include speech, language, and basic concepts. We will also be screening vision and hearing. We estimate approximately one hour to complete all aspects of the screening.

Parents interested in the pre-kindergarten program for the 2022-2023 school year should bring their children to this screening. The pre-kindergarten staff will be present to answer questions.

If you know of a family who has a preschool child, please pass this information on to them.
