Exceptionally-Able Screening Process

ART

This process identifies exceptional ability beyond what constitutes high achievement. The selection process outlined below is designed to identify the truly gifted learner, which research shows to be approximately 2% of all students. Inevitably, not all students nominated will be identified for the program.

Phase I - Portfolio Criteria:

- Each nominated student should submit 6-10 pieces of art.
- Work submitted should show as wide a variety of media such as pencil, crayon, marker, pastel, charcoal, paint, ink, collage, and/or photos of work not easily transportable.
- Portfolio should include a wide variety of subject matter including one each from the list below:
 - o Still-Life Drawing or Painting
 - o Landscape and/or one architecture/room interior drawing or painting
 - o Self-Portrait
 - o Animal or Person (full Body)
 - o Photographs of 3-D work: clay, carvings, mobiles, sculptures, ceramic pots, papier-mâché, etc
 - o Sketchbook
- The bulk of the portfolio should be the student's original, independent art.
- All work that was done as part of a class or is copied from photos or other sources should be clearly labeled as such.

Phase II – Drawing Assessment

• Each child nominated will be given a drawing assignment to be completed in class in the presence of his or her visual arts teacher.

Phase III – Development of the EALP

• An Exceptional Able Learning Plan (EALP) will be developed by the art teacher with the goal of differentiating and extending the student's regular art experience at the elementary level.

Timeline:

- March 18, 2022 Nominations Due by 4:00pm
- May 13, 2022 Formal Assessment Completed/Portfolio Submission
- May 31, 2022 Portfolio Review/Drawing Assessment/Evaluation Completed

Exceptionally Able EA Art Nomination Form

For each section that follows, please check the box that best describes your child. At the bottom of each section, you will be given the opportunity to elaborate. Do not feel the need to check every box, as some may not apply. A child can be considered exceptionally able in one area and need not possess each and every characteristic on this form. It is important for you to share accurate information about your child knowing that certain qualities may be "To a High Degree," while others are "Not Observed." Please do not feel compelled to provide a narrative in every section.

✓	Possesses this characteristic to a high degree
√	Often demonstrates this characteristic
