

1. will develop a working relationship with the superintendent so that issues and concerns can be discussed openly and comfortably.

It is incumbent upon all board members to strive to conduct themselves in a manner consistent with this code of conduct. If and when perceptions differ as to the manner in which we, or any individual board members, are operating under this code, we pledge to discuss such concerns in a direct, honest and timely manner with the affected individuals. At its discretion, the board may take action to, for example, identify situations where the board determines that this code has been violated.

The expectations set forth in this policy are intended to guide the internal operations of the board and its members. In creating this policy, the board does not intend or attempt to address every possible or extreme scenario that could ever arise, but, rather, the board is attempting to define default approaches to the board's work and to public service as a board member in the district by documenting baseline statements of mutual expectations. This policy is not intended to be enforced by any non-district entity, nor is it intended to create, grant or confer any affirmative rights in any non-board member.
