•February is American Heart Month and National Children's Dental Health Month! Each February, the American Dental Association (ADA) sponsors National Children's Dental Health Month to raise awareness about the importance of oral health. Developing good habits at an early age and scheduling regular dental visits helps children to get a good start on a lifetime of healthy teeth and gums. Be sure to brush 2 times a day for 2 minutes for the best clean and schedule regular dental check-ups every 6 months.

•Heart disease is the leading cause of death for men and women in the United States. Every year, 1 in 4 deaths are caused by heart disease. The good news? Heart disease can often be prevented when people make healthy choices and manage their health conditions. Let's get active and healthy!
