

## **Section: Narratives - Program Description**

### **INTRODUCTION**

Under the Elementary and Secondary School Emergency Relief II Fund (ESSER II), authorized by the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, the Pennsylvania Department of Education (PDE) awards grants to School Districts and Charter Schools to address the impact that Novel Coronavirus Disease 2019 (COVID-19) has had, and continues to have, on elementary and secondary schools across the state.

Please note: ESSER II funds **cannot** be used for: 1) subsidizing or offsetting executive salaries and benefits of individuals who are not employees of the LEAs, or 2) expenditures related to state or local teacher or faculty unions or associations. ESSER II funds generally will not be used for bonuses, merit pay, or similar expenditures, unless related to disruptions or closures resulting from COVID-19.

**\*ESSER II funds are not Title I funds and as such, are not subject to Title I rules.**

**Please explain how the LEA will determine its most important educational needs as a result of COVID-19. (3000 characters max)**

Based on survey results from stakeholders in the District, we determined that additional personnel is needed to support social and emotional learning among our K-12 students. In addition, replacements of the classroom ventilation systems are needed in the older areas of the building at the Middle School.

**Please explain the LEA(s) proposed timeline for providing services and assistance to students and staff. (3000 characters max)**

The proposed timeline for this is July 1, 2021 - June 30, 2023.

**Please explain the extent to which the LEA intends to use ESSER II funds to promote remote learning. (3000 characters max)**

The salary and benefits for 5 guidance counselors will support the social and emotional learning needs for our students for in-person and remote learners. In addition, the cost of new ventilation systems in the older section of the Middle School building will allow for improved ventilation during the school day in spaces that have students working closer together.

**Please describe how the LEA intends to assess and address student learning gaps resulting from the disruption in educational services. (3000 characters max)**

BHASD intends to address learning gaps resulting from the disruption in education services by implementing a structured Social and Emotional Learning (SEL) curriculum routine with our students. Two main assessments will be administered with the students: ACT SEL by Mosaic and the Pennsylvania Youth Survey. First, students will be assessed with the ACT SEL assessment that will measure five skills: Sustaining Effort, Getting Along with Others,

Maintaining Composure, Keeping an Open Mind, and Social Connection. These skills are aligned with the CASEL competencies, an integrated social emotional learning framework. Based on student results, guidance counselors will design classroom instructional lessons, small group meeting schedules, and individual meeting schedules. The ACT SEL assessment will be administered twice a year, which will allow counselors to see growth in skill areas. Next, the biennial Pennsylvania Youth Survey will be administered in grades 6, 8, 10 and 12. This survey provides further information on mental health and youth attitudes and behaviors about alcohol, tobacco, and other drug use and problem behaviors. The counselors will use this in correlation with the results from the ACT SEL assessment to help identify factors that can prevent a child from being ready to learn as they determine instructional lessons and both small and individual group counseling sessions.

**Please describe the LEA(s) proposed procedures for evaluating local COVID-19 impacts in relation to education programming and delivery. (3000 characters max)**

Areas of emphasis should include:

- Documenting learning loss associated with extended school closure;
- Outlining the development of local continuity of education plans over the course of emergency response efforts; and
- Detailing supports for vulnerable student populations and families.

As we evaluate the impacts of COVID-19, we will analyze the data gathered from the SEL and PAYS assessments. From this, we will differentiate SEL instruction in classrooms based on student needs. Guidance counselors and teachers will review the data gathered to address instructional needs. Both counselors and teachers will put forth a collaborative effort to ensure the health and wellness of our students are prioritized. As student needs arise, flexibility within the instructional day will occur to address the situation.

**Please describe the LEA core set of strategies that will be used to guide local investment of ESSER II funding, associated with short-range (i.e., remainder of the 2020-21 school year) and long-range (2021-22 and 2022-2023 school years) timelines. (3000 characters max)**

These strategies may entail the establishment, scale-up, refinement, or evaluation of remote learning, as well as strategies for school-based teaching and learning responsive to conditions related to the pandemic. LEAs will be asked to outline how limited, ESSER II funding may support these initiatives and how these funds might interact with other federal funding, including enhanced Title IV flexibility, to ensure strategic and sustainable use of funds.

The social emotional health and wellbeing as well as the health and safety of our students is priority during this time, which is why we are choosing to invest in our staff and equipment of our building structures impacting the educational learning environments. The guidance counselor positions will focus on supporting social and emotional learning for our students. In addition, these positions will also support refinement of instructional strategies happening both in the classroom as well as remotely. The equipment costs funding the ventilation upgrade will improve air quality in classrooms to ensure proper circulation and filtration during learning hours. This directly follows the health and safety protocols recommended by the CDC and

ensures a healthy and safe learning environment for all students and staff.

**Please describe specific plans, measures, and longer-term evaluative strategies concerning student learning gaps - as well as opportunity to learn factors - stemming from COVID-19. (3000 characters max)**

Long-term evaluative strategies will involve analysis of data stemming from the SEL and PAYS Assessments, local assessments, curricular resources, and additional standardized assessments as available.
