Sequence- Unit Titles and Number of weeks per unit			
Unit 1: Creating a Web Page Using Dreamweaver Unit 2: Tables, Layouts and Forms Unit 3: Templates, Image Maps and Navigation Bars Unit 4: Flash Basics Unit 5: Flash Skills			
Enduring Understanding (link to guide)			
A Web Site can provide information on specific topics A home page introduces the web site Links will direct you to other pages or an e-mail address Keeping web page layouts consistent will make viewing easier. Web page themes should remain the same Forms can help you collect information A template can be used when you have to change web page content, but do not want to change the layout. Navigation bars can make your site look professional In flash, a Stage is where the action takes place, and the Timeline organized frames and layers Flash animation and Flash movies are the same thing You can use rectangles, ovals and lines to create interesting, complex animations in Flash Text, dynamic or static, can play a critical role in a Flash movie You can change almost any aspect of a object over time			
Essential Questions (link to guide)			
<ul style="list-style-type: none"> • Why is a start page needed on a web site? 			

What are web-safe colors?
 How do I add pages to a web site?
 How do I link web pages?
 How can the layout of a web page affect the way it is viewed?
 Why would you use a table to help the page layout?
 How can a form help provide access to information?
 Why would it be useful to have a template for a web page?
