

[Date]

Dear Parents, Teachers, Building Occupants, and Employee Organizations:

In compliance with the U.S. Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), Cassia School District No. 151 is required to provide annual notification of inspections, response actions, and post-response action activities, including periodic re-inspection and surveillance activities that are planned or in progress.

A periodic surveillance of asbestos containing building materials (ACBM) is performed by trained school district personnel in all district buildings every six (6) months. A complete re-inspection of all buildings containing asbestos is completed every three (3) years and was last completed in 2014. At the last re-inspection, all materials listed in the Asbestos Management Plan as asbestos containing (or assumed to be asbestos-containing) were inspected and found to be in good condition.

Information about these inspections is included in the district's Asbestos Management Plan, which can be found in each school's main office and at the district's administrative office located at 3650 Overland Avenue, Burley, Idaho 83318. A copy of the plan may be reviewed during regular business hours.

The following buildings contain no asbestos-containing building materials; therefore, no operations and maintenance programs or future inspections are required:

Burley High School, Declo High School, Declo Middle School gymnasium and Kitchen, Oakley Elementary School, Oakley High School building constructed in 1998, Raft River Elementary School, the Raft River High School Mountain View Elementary, and White Pine Intermediate School.

During the past year, asbestos containing building materials have been removed, encapsulated, or enclosed in the following buildings: Cassia School District maintenance shop.

During the next year, we plan to conduct the following asbestos related activities at the following school buildings: all buildings not listed above will receive their six-month inspections.

Questions or concerns regarding asbestos or the district's asbestos management program should be addressed to the district's designated contact:

Kim Hurst
202 East 15th Street
Burley, Idaho 83318
