

February 1, 2022

#TeamCISD Parents, Staff and Community,

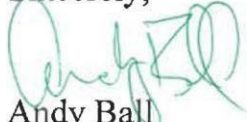

It has been brought to my attention that a #TeamCISD staff member that was last on campus on Tuesday, February 1, 2022 has tested positive for COVID-19. The individual has not returned to district property since testing positive and will not return until they have met the criteria required to do so.

In accordance with Public Health Guidance released by the Texas Education Agency on August 19, 2021, anyone that was in a classroom, extracurricular activity or afterschool program with a test-confirmed COVID-19 individual will also be notified by individual campus administration.

For precautionary reasons, and in accordance with state and national guidance, all persons should monitor their health for signs of symptoms, follow the CDC guidelines for people who have had or may have had close contact with someone who has tested positive for COVID-19 and contact their primary care physician if they develop symptoms.

We will continue to monitor this situation and will provide additional information as needed. If you have any questions, you may contact me on my cell phone, 254-707-1503, office phone, 254-675-1825 or by email, andy.ball@cliftonisd.org. Thanks. AB

Sincerely,

Andy Ball

#TeamCISD Superintendent
