

HAZELTON-MOFFIT-BRADDOCK PUBLIC SCHOOL

HOME OF THE TIGERS

Friday, February 4th, 2022

Dear Parent/Guardian,

This morning, it has been reported that a 1st grade student has tested positive for COVID-19. We are asking parents to monitor for the signs and symptoms of COVID-19 as well as other illnesses. This notification is a precautionary measure and communication regarding a positive case that is currently isolating and not in the school.

COVID-19 is a contagious disease that mainly spreads when an infected person coughs or sneezes. Common symptoms of COVID-19 are fever and cough. Some individuals may also experience shortness of breath, runny nose, fatigue, sore throat, body aches, headache, chills, or loss of taste/smell. Symptoms can vary by person and range from very mild symptoms to severe illness.

Please consider the following North Dakota Department of Health recommendations to prevent the spread of illnesses:

- wash hands often with soap and water for at least 20 seconds
- avoid touching eyes, nose, and mouth with unwashed hands
- cover coughs and sneezes with a tissue and throw it away
- clean and disinfect frequently touched surfaces/objects regularly
- get plenty of rest, drink fluids, and eat healthy foods
- avoid close contact with people who are sick
- stay home when you are sick
- consider getting tested 7-10 days after date of last exposure

Please see the [current HMB COVID-19 procedures](#) page for more information. If you have any additional questions, please contact the school at (701) 782-6231.

Sincerely,

Hazelton-Moffit-Braddock Public School
